Cabaletta Bio®

# Cabaletta Bio to Present at the Chardan 5th Annual Genetic Medicines Conference

PHILADELPHIA, Sept. 28, 2021 (GLOBE NEWSWIRE) -- Cabaletta Bio, Inc. (Nasdaq: CABA), a clinical-stage biotechnology company focused on the discovery and development of engineered T cell therapies for patients with B cell-mediated autoimmune diseases, today announced that Steven Nichtberger, M.D., President and Chief Executive Officer, will participate in a fireside chat at the Chardan 5th Annual Genetic Medicines Conference on Tuesday, October 5, 2021 at 8:30 a.m. ET.

A live webcast of the fireside chat will be available on the News and Events section of the company's website at [www.cabalettabio.com](http://www.cabalettabio.com). Following the presentation, a replay of the webcast will be available on the website for 90 days.

## About Cabaletta Bio

Cabaletta Bio is a clinical-stage biotechnology company focused on the discovery and development of engineered T cell therapies, and exploring their potential to provide a deep and durable, perhaps curative, treatment, for patients with B cell-mediated autoimmune diseases. The Cabaletta Approach to selective B cell Ablation (CABA™) platform, in combination with Cabaletta's proprietary technology, utilizes CAAR T cells that are designed to selectively bind and eliminate only specific autoantibody-producing B cells while sparing normal antibody-producing B cells, which are essential for human health. The Company's lead product candidate, DSG3-CAART, is being evaluated in the DesCAARTes™ phase 1 clinical trial as a potential treatment for patients with mucosal pemphigus vulgaris, a prototypical B cell-mediated autoimmune disease. The FDA granted Fast Track Designation for DSG3-CAART in May 2020. For more information about the DesCAARTes™ Phase 1 clinical trial, please visit our website ([DesCAARTes™ Phase 1 Trial](#)). The Company's lead preclinical product candidate, MuSK-CAART, is in IND-enabling studies and is designed as a potential treatment for patients with MuSK-associated myasthenia gravis. For more information, visit [www.cabalettabio.com](http://www.cabalettabio.com).
