MariMed Advisors, DispensaryPermits.com Help Secure Nevada Medical Marijuana Provisional Permits

Nevada Awards 66 Medical Marijuana Dispensary, Cultivation, Production and Laboratory Provisional Permits

LAS VEGAS, NV and BOSTON, MA -- (Marketwired) -- 11/04/14 -- [Worlds Online](#) (OTCQB: WORX) subsidiary [MariMed Advisors, Inc.](#) and [DispensaryPermits.com](#) were instrumental in helping clients capture highly coveted provisional medical marijuana cultivation and production [permits awarded](#) by the State of Nevada on Monday, Nov. 2. The Nevada provisional permits continue MariMed and DispensaryPermits.com's track record of success in securing medical marijuana permits.

Washoe County-based CannaVative Group, LLC received both cultivation and production provisional permits.

"We are excited and honored to be given this opportunity to advance the medical marijuana industry in Northern Nevada," noted Joey Gilbert, Esq., V.P. Strategy & Government Affairs, The CannaVative Group, LLC. "We are looking forward to working with the City of Reno, Washoe County, the State of Nevada and the MariMed and DispensaryPermits team to create one of the best medical marijuana programs in the country that will provide safe medical marijuana to the patients who truly need it."

The receipt of the provisional permits culminates an intensive five-month permit application process requiring submission of extensive security, design, financial, systems and reporting, cultivation, packaging, marketing and ongoing operations plans and background checks.

"These permits are the first step in opening the doors to patients for safe, regulated access to medical cannabis within Nevada," explained Sara Gulickson, DispensaryPermits.com Executive Director. "The breadth and depth of the MariMed Advisors and DispensaryPermits.com teams' expertise in all medical marijuana areas was vital to the success of the applications."

The provisional permit recipients now have 18 months to comply with all local government requirements and earn a business license. The State of Nevada will then make a final decision on certification.

Gulickson added, "It is a real thrill to help our clients move their vision past this critical juncture and plan the next steps to bring it closer to realization."

In the coming weeks, MariMed Advisors and DispensaryPermits.com anticipate successfully securing medical marijuana permits for clients in Illinois and Minnesota.

"The Illinois medical marijuana application process was one of the strictest we've seen, but we anticipate the hard work will pay off when permits are awarded in December," projected Robert Fireman, CEO MariMed Advisors.

Fast facts for Medical Marijuana in Nevada:

- Nevada will regulate up to 66 medical marijuana dispensaries cultivators, product manufacturers, and testing laboratories.
- Marijuana sales are poised to grow to \$2.34 billion in 2014 and bloom into a \$10.2 billion market by 2018. Source: ArcView Market Research in [Fast Company](#).
