EyeGate Pharma Confirms Path Forward with FDA To Develop Combination Product

WALTHAM, MA / ACCESSWIRE / August 12, 2020 /EyeGate Pharmaceuticals, Inc. (NASDAQ:EYEG) ("EyeGate" or "the Company"), a clinical-stage company focused on developing products for treating disorders of the eye, announced today that it has received positive feedback following its pre-IND meeting with the U.S. Food and Drug Administration ("FDA") and has been provided a path forward for the development of MoxiGel, a combination product for the treatment of bacterial conjunctivitis.

The new product will combine EyeGate's Ocular Bandage Gel ("OBG") with an antibiotic that is currently approved for the treatment of bacterial conjunctivitis. EyeGate plans to complete its ongoing pre-clinical work and file an IND for the combination product in the first half of 2021.

About EyeGate

EyeGate is a clinical-stage specialty pharmaceutical company focused on developing and commercializing products for treating diseases and disorders of the eye.

EyeGate's lead product, Ocular Bandage Gel ("OBG"), is based on a modified form of the natural polymer hyaluronic acid. The objective of OBG is to protect the ocular surface in order for the body to re-epithelialize the cornea and improve ocular surface integrity. The product is applied as a clear topical gel, to the damaged ocular surface and possesses unique properties that help hydrate and protect the ocular surface to allow for wound healing. EyeGate is in clinical evaluation for two different patient populations: (1) patients undergoing photorefractive keratectomy ("PRK") surgery to demonstrate corneal wound repair after refractive surgery; and (2) patients with punctate epitheliopathies ("PE") as a result of dry eye to promote reduction of PEs.

Forward-Looking Statements

Some of the statements in this press release are "forward-looking" and are made pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995. These "forward-looking" statements include statements relating to, among other things, the commercialization efforts and other regulatory or marketing approval efforts pertaining to EyeGate's products, including EyeGate's OBG product, as well as the success thereof, with such approvals or success may not be obtained or achieved on a timely basis or at all. These statements involve risks and uncertainties that may cause results to differ materially from the statements set forth in this press release, including, among other things, certain risk factors described under the heading "Risk Factors" contained in EyeGate's Annual Report on Form 10-K filed with the SEC on March 4, 2020 or described in EyeGate's other public filings. EyeGate's results may also be affected by factors of which EyeGate is not currently aware. The forward-looking statements in this press release speak only as of the date of this press release. EyeGate expressly disclaims any obligation or undertaking to release publicly any updates or revisions to such statements to reflect any change in its expectations with regard thereto or any changes in the events, conditions or circumstances on which any such statement is based.
