RenovoRx to Host Second Quarter 2026 Financial Results and Business Highlights Conference Call on August 12th at 4:30 p.m. ET

MOUNTAIN VIEW, Calif., July 29, 2026 (GLOBE NEWSWIRE) -- [RenovoRx, Inc.](#) ("**RenovoRx**" or "**the Company**") (**Nasdaq: RNXT**), a life sciences company developing innovative targeted oncology therapies and commercializing **RenovoCath**[®], a patented, FDA-cleared drug-delivery device, today announced that it will host its second quarter 2026 financial results and business highlights conference call on August 12, 2026, at 4:30 p.m. ET.

During the call, RenovoRx management will discuss the Company's growing revenues from commercial sales of RenovoCath as a standalone drug-delivery device, as well as increased RenovoCath adoption at high-volume U.S. cancer centers and a broader base of repeat orders from existing customers.

Management will also provide an update on the Phase III TIGeR-PaC clinical trial evaluating intra-arterial gemcitabine delivered via RenovoCath in locally advanced pancreatic cancer, with full enrollment in the trial expected in the very near future and final data anticipated in mid-to-late 2027.

RenovoRx continues to strengthen its oncology pipeline and broaden the clinical utility of its proprietary **TAMP**[™] (**Trans-Arterial Micro-Perfusion**) therapy platform which is enabled by RenovoCath. Recent progress includes FDA Orphan Drug Designation for oxaliplatin in pancreatic cancer, along with continued support for investigator-initiated trials (IITs) in borderline resectable and metastatic pancreatic cancer, and exploration of additional indications, and an ongoing post-marketing registry study. Together, these efforts are expected to generate meaningful clinical evidence to support broader adoption of TAMP across multiple oncology indications.

Conference Call Details:

Event: RenovoRx Second Quarter 2026 Financial Results and Business Highlights Conference Call
Date: Wednesday, August 12, 2026
Time: 4:30 p.m. ET
Live Call: 1-877-407-4018 (U.S. Toll Free) or 1-201-689-8471 (International)
Webcast: <https://ir.renovorx.com/news-events/ir-calendar-events>

For interested individuals unable to join the conference call, a link to the recording will be

available on RenovoRx's [Investor Relations website](#), and a dial-in replay will be available until August 26, 2026, and can be accessed by dialing 1-844-512-2921 (U.S. Toll Free) or 1-412-317-6671 (International) and entering replay pin number 13761368.

About RenovoRx, Inc.

RenovoRx, Inc. (Nasdaq: RNXT) is a life sciences company developing innovative targeted oncology therapies and commercializing **RenovoCath®**, a patented, U.S. Food and Drug Administration (FDA)-cleared local drug-delivery device, targeting high unmet medical needs. RenovoRx's patented **Trans-Arterial Micro-Perfusion (TAMP™)** therapy platform is designed for targeted therapeutic delivery across the arterial wall near the tumor site to bathe the target tumor, while potentially minimizing a therapy's toxicities versus systemic intravenous therapy. RenovoRx's novel approach to targeted treatment offers the potential for increased safety, tolerance, and improved efficacy, and its mission is to transform the lives of cancer patients by providing innovative solutions to enable targeted delivery of diagnostic and therapeutic agents.

RenovoRx is actively commercializing its TAMP technology and FDA-cleared RenovoCath as a standalone device. For its first full year of commercial efforts in 2025, RenovoRx generated approximately \$1.1 million in RenovoCath sales and a record \$563,000 of sales in the first quarter of 2026. RenovoRx is actively working to expand the number of medical institutions initiating new RenovoCath orders, including esteemed, high-volume National Cancer Institute-designated centers.

RenovoRx is also evaluating its novel drug-device combination oncology product candidate (intra-arterial gemcitabine delivered via RenovoCath, known as IAG) in the ongoing Phase III TIGeR-PaC trial. IAG is being evaluated by the Center for Drug Evaluation and Research (the drug division of the FDA) under a U.S. investigational new drug application that is regulated by the FDA's 21 CFR 312 pathway. IAG utilizes RenovoCath, which is FDA-cleared for temporary vessel occlusion in applications including arteriography, preoperative occlusion, and chemotherapeutic drug infusion. RenovoRx anticipates full enrollment in the TIGeR-PaC trial in the very near term and final data readout in mid-to-late 2027.

The IAG combination product candidate, enabled by the RenovoCath device, is currently under investigation and has not been approved for commercial sale. RenovoCath with gemcitabine received Orphan Drug Designation for pancreatic cancer and bile duct cancer, which provides seven years of market exclusivity upon new drug application approval by the FDA.

Cautionary Note Regarding Forward-Looking Statements

This press release, the conference call described herein, and statements of the Company's management and third parties made in connection therewith contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934, including but not limited to statements regarding (i) our clinical trials and studies, (ii) the potential for our product candidates to treat or provide clinically meaningful outcomes for certain medical conditions or diseases, and (iii) our efforts to commercialize our RenovoCath and TAMP technology. Statements that are not purely historical are forward-looking statements. These and other forward-looking

statements contained herein are based upon our current expectations and beliefs regarding future events, many of which, by their nature, are inherently uncertain, outside of our control, and involve assumptions that may never materialize or may prove to be incorrect. These may include estimates, projections, and statements relating to our research and development plans, intellectual property development, clinical trials, our therapy platform, commercial and other business plans, financing plans, objectives, and expected operating results, which are based on such current expectations and assumptions that are subject to significant known and unknown risks and uncertainties that may cause actual results to differ materially and adversely from those expressed or implied by these forward-looking statements. These statements may be identified using words such as “may,” “expects,” “plans,” “aims,” “anticipates,” “believes,” “forecasts,” “aim,” “goal,” “estimates,” “intends,” and “potential,” or derivatives of these terms or other comparable terminology regarding RenovoRx’s statements about the future, although not all forward-looking statements contain these words. Risks, uncertainties and assumptions that could cause actual events to differ materially from those projected or indicated by forward-looking statements, include, without limitation: (i) the risk that our commercial efforts with our TAMP technology may not lead to viable, revenue generating operations; (ii) circumstances which would adversely impact our ability to efficiently utilize our cash resources on hand or raise additional funding; (iii) the timing of the initiation, progress, and potential results of our preclinical studies, clinical trials, and our research programs; (iv) the possibility that interim results may not be predictive of the outcome of our clinical trials, which may not demonstrate sufficient safety and efficacy to support regulatory approval of our product candidate; (v) that applicable regulatory authorities may disagree with our interpretation of the data, research, and clinical development plans and timelines, and the regulatory process for our product candidates; (vi) future potential regulatory milestones for our product candidates, including those related to current and planned clinical studies; (vii) our ability to use and expand our therapy platform to build a pipeline of product candidates; (viii) our ability to advance product candidates into, and successfully complete, clinical trials; (ix) the timing or likelihood of regulatory filings and approvals; (x) our estimates of the number of patients who suffer from the diseases we are targeting and the number of patients that may enroll in our clinical trials; (xi) the commercialization potential of our product candidates, if approved; (xii) our ability and the potential to successfully manufacture and supply our product candidates for clinical trials and for commercial use, if approved; (xiii) future strategic arrangements and/or collaborations and the potential benefits of such arrangements; (xiv) our estimates regarding expenses, future revenue, capital requirements, needs for additional financing, our ability to obtain additional capital and our ability to maintain the listing of our common stock on Nasdaq; (xv) the sufficiency of our existing cash and cash equivalents to fund our future operating expenses and capital expenditure requirements; (xvi) our ability to retain the continued service of our key personnel and to identify, and hire and retain additional qualified personnel; (xvii) the scope of protection we are able to establish and maintain for intellectual property rights, including our therapy platform, product candidates, and research programs; (xviii) our ability to contract with third-party suppliers and manufacturers and their ability to perform adequately; (xix) the pricing, coverage, and reimbursement of our product candidates, if approved; and (xx) developments relating to our competitors and our industry, including competing product candidates and therapies. Information regarding the foregoing and additional risks may be found in the section entitled “Risk Factors” in documents that we file from time to time with the Securities and Exchange Commission, which can be accessed at <https://ir.renovorx.com/sec-filings>.

Forward-looking statements included herein are made as of the date hereof, and RenovoRx does not undertake any obligation to update publicly such forward-looking statements to reflect subsequent events or circumstances, except as required by law.
