ETHAN ALLEN REPORTS FISCAL 2019 SECOND QUARTER RESULTS

ETHAN ALLEN

DANBURY, CT - January 28, 2019 - Ethan Allen Interiors Inc. ("Ethan Allen" or the "Company") (NYSE: ETH) today reported operating results for its fiscal 2019 second quarter ended December 31, 2018. Please refer to the accompanying financial statements and reconciliation to non-GAAP measures discussed below.

Fiscal 2019 second quarter compared to fiscal 2018 second quarter:

- Consolidated net sales of \$197.2 million compared to \$198.5 million. Retail net sales of \$158.5 million compared to \$153.0 million. Wholesale net sales of \$107.7 million compared to \$118.0 million.
- GAAP operating margin of 8.2% compared to 8.8% and adjusted operating margin of 8.3% compared to 8.7%.
- Tax rate of 25.1% compared to 16.0% in quarter ended December 31, 2018.
- GAAP diluted earnings per share of \$0.45 compared to \$0.54 and adjusted diluted earnings per share of \$0.46 compared to \$0.53.
- Paid \$5.1 million in cash dividends.
- Announced special dividend of \$1.00 which was paid on January 24, 2019.

"Our unique vertically integrated structure provides us an opportunity to differentiate and grow both sales and profits. We continue to strengthen the enterprise with many initiatives including: introduction of new products to expand reach; an integrated marketing campaign utilizing both digital and print mediums; repositioning of our retail network with 200 design centers in North America and 100 internationally; continuous improvements to our manufacturing and logistics; and operating our enterprise in a socially responsible manner," said Farooq Kathwari, Ethan Allen's Chairman, President, and CEO.

Mr. Kathwari continued, "During the six months ending December 31, 2018, sales increased 1.4% despite challenging macroeconomic conditions related to international trade, stock market fluctuations and the government shutdown. The increase in retail sales resulted in profitability for retail for the second quarter and first six months. Wholesale segment sales and operating income were negatively impacted by reduced international sales and extraordinary sales discounts in order to win bids on GSA State Department orders while another bidder was liquidating inventory during their bankruptcy."

"We are positioned well in both our wholesale and retail divisions with strengthened and relevant product offerings, strong marketing initiatives, 1,500 in-house entrepreneurial interior design associates and continuous improvement to manufacturing and logistics. In January 2019, we have seen improved traffic trends in our design centers and a positive outlook by our clients. We remain cautiously optimistic," Mr. Kathwari concluded.

FISCAL 2019 SECOND QUARTER FINANCIAL RESULTS:

Consolidated

Net sales were \$197.2 million for the three months ended December 31, 2018 compared to \$198.5 million for the same period in the prior year, a decrease of 0.7%.

Gross profit was \$108.9 million for the three months ended December 31, 2018 compared to \$107.8 million in the comparable prior year period. Consolidated gross margin for the quarter was 55.2% compared to 54.3%. Retail sales as a percent of total consolidated sales was 80.4% for the quarter compared to 77.1% in the prior year quarter, increasing our consolidated gross margin primarily due to this increased retail sales mix.

Operating expenses for the three months ended December 31, 2018 were \$92.7 million or 47.0% of sales compared to \$90.3 million or 45.5% of sales in the comparable prior year period. Adjusted operating expenses were \$92.4 million or 46.9% of sales compared to \$90.6 million or 45.6% of sales. The 2.1% increase in adjusted operating expenses was primarily due to wholesale distribution cost increases and increased variable costs at retail, partly offset by a decrease in advertising. (See Exhibit 1 for a reconciliation of GAAP to non-GAAP presentation)

Operating income for the three months ended December 31, 2018 was \$16.1 million or 8.2% of sales compared to \$17.5 million or 8.8% of sales in the comparable prior year period. Adjusted operating income for the three months ended December 31, 2018 was \$16.4 million or 8.3% of sales compared to \$17.2 million or 8.7% of sales in the comparable prior year period. The primary causes for the 8.0% decrease in operating income were the decreased wholesale sales partly offset by retail sales increases, and increased variable costs of logistics partly associated with increased sales. (See Exhibit 1 for a reconciliation of GAAP to non-GAAP presentation)

Income taxes were \$4.1 million for the three months ended December 31, 2018 and \$2.8 million in the comparable prior year period. The effective rate this quarter was 25.1% compared to 16.0%. The effective tax rate for the prior year quarter was lower due to the benefit from the re-measurement of deferred tax assets and liabilities as a result of tax rate changes due to the 2017 tax act.

Net income was \$12.2 million or \$0.45 per diluted share for the three months ended December 31, 2018 and \$14.9 million or \$0.54 per diluted share in the prior year comparable period. Adjusted net income was \$12.4 million or \$0.46 per diluted share for the three months ended December 31, 2018 and \$14.6 million or \$0.53 per diluted share in the prior year comparable period. (See Exhibit 1 for a reconciliation of GAAP to non-GAAP presentation)

Retail Segment

Net sales for the three months ended December 31, 2018 were \$158.5 million compared to \$153.0 million in the prior year comparable period, an increase of 3.6% compared to the prior year. Comparative net sales were \$155.1 million compared to \$151.0 million in the prior year period. Increased domestic sales were partly offset by decreased sales in Canada.

Total written orders for the retail division for the second quarter of fiscal 2019 were down 3.4% compared to the same prior year period, and comparable Design Center written orders were down 4.2% over the same period. Orders decreased in the both the U.S. and Canada.

Operating income was \$3.3 million for the three months ended December 31, 2018, an improvement of \$3.9 million from a loss of \$0.6 million over the same prior year period, driven by increased sales in the current year period.

Wholesale Segment

Net sales of \$107.7 million compared to \$118.0 million in the prior year quarter, a decrease of 8.7%. During the previous year wholesale segment sales were at elevated levels as the shipping delays and high backlogs from the first quarter were mostly caught up in the second quarter. This year the wholesale segment backlog levels in the first quarter were at normal levels as our manufacturing is running more efficiently this year with no shipping delays. Lower international sales, especially to China, partly offset by increased contract sales, also contributed to the sales decrease.

Operating income of \$8.8 million compared to \$15.6 million in the prior year quarter. The decrease was largely due to the decrease in current period sales.

FISCAL 2019 YEAR-TO-DATE FINANCIAL RESULTS:

Consolidated

Net sales were \$384.9 million for the six months ended December 31, 2018 compared to \$379.8 million for the same period in the prior year, an increase of 1.4%. Retail net sales increased 3.1% and wholesale net sales decreased 1.7%.

Gross profit was \$210.3 million for the six months ended December 31, 2018 compared to \$208.1 million in the comparable prior year period. Consolidated gross margin for the period was 54.6% compared to 54.8%. Our consolidated gross margin decreased primarily due to lower sales volume at wholesale. Retail sales as a percent of total consolidated sales was 78.9% for the period compared to 77.6% in the prior year.

Operating expenses for the six months ended December 31, 2018 were \$182.4 million or 47.4% of sales compared to \$179.0 million or 47.1% of sales in the comparable prior year period. The 1.9% increase in operating expenses was primarily due to an increase in logistics costs.

Operating income for the six months ended December 31, 2018 was \$27.9 million or 7.3% of sales compared to \$29.1 million or 7.7% of sales in the comparable prior year period. Adjusted operating income for the six months ended December 31, 2018 was \$28.2 million or 7.3% of sales compared to \$29.6 million or 7.8% of sales in the comparable prior year period. The primary causes for the 4.7% decrease in operating income were the reduced sales in wholesale and increased variable costs of freight distribution and warehouse costs, partly offset by increased domestic retail sales. (See Exhibit 1 for a reconciliation of GAAP to non-GAAP presentation)

Income taxes were \$7.0 million for the six months ended December 31, 2018 and \$6.8 million in the comparable prior year period. The effective rate this year was 25.0% compared

to 23.5%. The prior year rate included a benefit from the re-measurement of deferred tax assets and liabilities as a result of tax rate changes due to the 2017 tax act.

Net income was \$21.0 million or \$0.78 per diluted share for the six months ended December 31, 2018 and \$22.3 million or \$0.80 per diluted share in the prior year comparable period. Adjusted net income was \$21.3 million or \$0.79 per diluted share for the six months ended December 31, 2018 and \$22.7 million or \$0.82 per diluted share in the prior year comparable period. (See Exhibit 1 for a reconciliation of GAAP to non-GAAP presentation)
