### 1. Organization and Significant Accounting Policies

### **Nature of Operations**

James Hardie Industries plc ("JHI plc") manufactures and sells fiber cement, fiber gypsum and cement-bonded building products for interior and exterior building construction applications, primarily in the United States, Australia, Europe, New Zealand and the Philippines.

#### **Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the U.S. generally accepted accounting principles ("GAAP") for interim financial information. Accordingly, they do not include all the information and footnotes required by GAAP for complete financial statements. Interim financial results are not necessarily indicative of results anticipated for the full year. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto, included in the Company's Annual Report on Form 20-F for the fiscal year ended 31 March 2023 from which the prior year balance sheet information herein was derived. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expense, and related disclosures. Actual results could differ from those estimates.

The condensed consolidated financial statements represent the financial position, results of operations and cash flows of JHI plc and its wholly-owned subsidiaries and variable interest entity ("VIE"). Unless the context indicates otherwise, JHI plc and its direct and indirect wholly-owned subsidiaries and VIE (as of the time relevant to the applicable reference) are collectively referred to as "James Hardie", the "James Hardie Group" or the "Company". All intercompany balances and transactions have been eliminated in consolidation. In management's opinion, the accompanying unaudited condensed consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments considered necessary for a fair presentation of the results for the interim periods presented.

The Company has recorded on its condensed consolidated balance sheets certain foreign assets and liabilities, including asbestos related assets and liabilities under the terms of the Amended and Restated Final Funding Agreement ("AFFA"), that are denominated in foreign currencies and subject to translation (foreign entities) or remeasurement (Asbestos Injuries Compensation Fund ("AICF") entity and Euro denominated debt) into US dollars at each reporting date. Unless otherwise noted, the Company converts foreign currency denominated assets and liabilities into US dollars at the current spot rate at the end of the reporting period; while revenues and expenses are converted using an average exchange rate for the period. The Company records gains and losses on its Euro denominated debt which are economically offset by foreign exchange gains and losses on loans between subsidiaries, resulting in a net immaterial translation gain or loss which is recorded in the Selling, general and administrative expenses in the condensed consolidated statements of operations and comprehensive income.

#### **Summary of Significant Accounting Policies**

During the three months ended 30 June 2023, there were no changes to our significant accounting policies as described in our Annual Report on Form 20-F for the fiscal year ended 31 March 2023.

### **Earnings Per Share**

Basic earnings per share ("EPS") is calculated using net income divided by the weighted average number of common shares outstanding during the period. Diluted EPS is similar to basic EPS except that the weighted average number of common shares outstanding is increased to include the number of additional common shares calculated using the treasury method that would have been outstanding if the dilutive potential common shares, such as stock options and restricted stock units, had been issued.

Basic and dilutive common shares outstanding used in determining net income per share are as follows:

	Three Months I	Ended 30 June
(Millions of shares)	2023	2022
Basic common shares outstanding	441.8	445.4
Dilutive effect of stock awards	1.0	0.5
Diluted common shares outstanding	442.8	445.9

There were no potential common shares which would be considered anti-dilutive for the three months ended 30 June 2023 and 2022.

Potential common shares of 0.5 million and 0.3 million for the three months ended 30 June 2023 and 2022, respectively, have been excluded from the calculation of diluted common shares outstanding as they are considered contingent shares which are not expected to vest.

### 2. Revenues

The following represents the Company's disaggregated revenues:

	Three Months Ended 30 June 2023									
(Millions of US dollars)		America Cement		sia Pacific per Cement	Eu	rope Building Products	Co	onsolidated		
Fiber cement revenues	\$	694.8	\$	140.1	\$	21.0	\$	855.9		
Fiber gypsum revenues						98.4		98.4		
Total revenues	\$	694.8	\$	140.1	\$	119.4	\$	954.3		
Three Months Ended 30 June 2022										
(Millions of US dollars)		America Cement		sia Pacific er Cement	Eu	rope Building Products	Co	onsolidated		
Fiber cement revenues	\$	740.1	\$	142.8	\$	18.6	\$	901.5		
Fiber gypsum revenues		_		_		99.4		99.4		
Total revenues	\$	740.1	\$	142.8	\$	118.0	\$	1,000.9		

The process by which the Company recognizes revenues is similar across each of the Company's reportable segments. Fiber cement and fiber gypsum revenues are primarily generated from the sale of siding and various boards used in external and internal applications, as well as accessories. Fiber gypsum revenues also includes the sale of cement-bonded boards in the Europe Building Products segment.

### 3. Cash and Cash Equivalents, Restricted Cash and Restricted Cash - Asbestos

The following table provides a reconciliation of *Cash and cash equivalents, Restricted cash and Restricted cash - Asbestos* reported within the condensed consolidated balance sheets that sum to the total of the same such amounts shown in the condensed consolidated statements of cash flows:

	30 June	31 March
(Millions of US dollars)	2023	2023
Cash and cash equivalents	\$ 137.0	\$ 113.0
Restricted cash	5.0	5.0
Restricted cash - Asbestos	15.0	 67.6
Total cash and cash equivalents, restricted cash and restricted cash - Asbestos	\$ 157.0	\$ 185.6

Restricted cash relates to an insurance policy which restricts the cash from general corporate purposes.

Restricted cash - Asbestos is restricted to the settlement of asbestos claims and for the payment of the operating costs of AICF.

### 4. Inventories

Inventories consist of the following components:

	30 June	31 March

Weighted average term of available Long-term debt	3.7 years		4.0 years
Fair value of Senior unsecured notes (Level 1)	\$ 788.0	\$	785.2

### Notes to Condensed Consolidated Financial Statements (continued)

As of 30 June 2023, the Company had a total borrowing base capacity under the revolving credit facility of US\$600.0 million with outstanding borrowings of US\$150.0 million, and US\$6.3 million of issued but undrawn letters of credit and bank guarantees. These letters of credit and bank guarantees relate to various operational matters including insurance, performance bonds and other items, leaving the Company with US\$443.7 million of available borrowing capacity under the revolving credit facility.

As of 30 June 2023, the Company was in compliance with all of its covenants contained in the senior unsecured notes and the unsecured revolving credit facility agreement.

#### 6. Asbestos

In February 2007, the Company's shareholders approved the AFFA, an agreement pursuant to which the Company provides long-term funding to AICF.

### Asbestos Adjustments (Gain) Loss

The Asbestos adjustments (gain) loss included in the condensed consolidated statements of operations and comprehensive income comprise the following:

<sup>&</sup>lt;sup>1</sup> The average settlement amount per case closed includes nil settlements.

Under the terms of the AFFA, the Company has rights of access to actuarial information produced for AICF by the actuary appointed by AICF, which is currently KPMG. The Company's disclosures with respect to claims statistics are subject to it obtaining such information, however, the AFFA does not provide the Company an express right to audit or otherwise require independent verification of such information or the methodologies to be adopted by the approved actuary. As such, the Company relies on the accuracy and completeness of the information provided by AICF to the approved actuary and the resulting information and analysis of the approved actuary when making disclosures with respect to claims statistics.

### AICF Funding

During fiscal year 2024, the Company will contribute A\$137.5 million to AICF in quarterly installments. The first payment of A\$34.4 million was made on 3 July 2023.

For the three months ended 30 June 2023, the Company did not provide financial or other support to AICF that it was not previously contractually required to provide.

#### Restricted Investments

AICF invests its excess cash in time deposits, which are classified as held to maturity investments and the carrying value materially approximates the fair value for each investment. The following table represents the investments outstanding as of 30 June 2023:

Date Invested	Maturity Date	Interest Rate	A\$ Millions
April 2023	15 April 2024	4.35%	30.0

January 2022	25 January 2024	1.41%	30.0
October 2021	6 October 2023	0.60%	30.0

#### 7. Derivative Instruments

The Company uses derivatives for risk management purposes and does not engage in speculative activity. A risk management objective for the Company is to mitigate interest rate risk associated with the Company's external credit facilities and foreign currency risk primarily with respect to forecasted transactions denominated in foreign currencies. The determination of whether the Company enters into a derivative transaction to achieve these risk management objectives depends on a number of factors, including an evaluation of the extent to which derivative instruments will achieve such risk management objectives of the Company.

### Foreign Currency Forward Contracts

The Company's foreign currency forward contracts are valued using models that maximize the use of market observable inputs including interest rate curves and both forward and spot prices for currencies and are categorized as Level 2 within the fair value hierarchy.

The following table sets forth the total outstanding notional amount and the fair value of the Company's foreign currency forward contracts:

								Fair Val	ue as	s of

### 8. Commitments and Contingencies

### **Legal Matters**

The Company is involved from time to time in various legal proceedings and administrative actions related to the normal conduct of its business, including general liability claims, putative class action lawsuits and litigation concerning its products.

Although it is impossible to predict the outcome of any pending legal proceeding, management believes that such proceedings and actions should not, individually or in the aggregate, have a material adverse effect on the Company's condensed consolidated financial position, results of operations or cash flows, except as they relate to asbestos, Australia Class Action Securities Claim and New Zealand weathertightness ("NZWT") claims as described in these condensed consolidated financial statements.

### New Zealand Weathertightness Claims

Since fiscal year 2002, the Company's New Zealand subsidiaries have been joined in a number of weathertightness claims in New Zealand that relate to residential buildings (single dwellings and apartment complexes) and a small number of non-residential buildings, primarily constructed from 1998 to 2004. The claims often involve multiple parties and allege that losses were incurred due to excessive moisture penetration of the buildings' structures. The claims typically include allegations of poor building design, inadequate certification of plans, inadequate construction review and compliance certification and deficient work by sub-contractors.

Historically, the Company's New Zealand subsidiaries have been joined to these claims as one of several co-defendants, including local government entities responsible for enforcing building codes and practices, resulting in the Company's New Zealand subsidiaries becoming liable for only a portion of each claim. In addition, the Company's New Zealand subsidiaries have had access to third-party recoveries to defray a portion of the costs incurred in resolving such claims.

There remains only one outstanding NZWT claim, Cridge, et al., which was filed in 2015 on behalf of multiple plaintiffs against the Company and/or its subsidiaries as the sole defendants, which alleges that the New Zealand subsidiaries' products were inherently defective. The Company believes it has substantial factual and legal defenses to the claim and is defending the claim vigorously.

### Notes to Condensed Consolidated Financial Statements (continued)

Cridge, et al. (Case Nos. CIV-2015-485-594 and CIV-2015-485-773), In the High Court of New Zealand, Wellington Registry (hereinafter the "Cridge litigation"). From August to December 2020, the trial of phase one of the Cridge litigation was held in Wellington, New Zealand solely to determine whether the Company's New Zealand subsidiaries had a duty to the plaintiffs and breached that duty. In August 2021, the Wellington High Court issued its decision finding in favor of the Company on all claims (the "Cridge Decision"). In September 2021, plaintiffs filed a notice of appeal of the trial court's decision, and subsequently the appellate court held a hearing in August 2022. The Company anticipates the appellate court will issue its decision during calendar year 2023. As of 30 June 2023, the Company has not recorded a reserve related to the Cridge litigation as the chance of loss remains not probable following the Cridge Decision. An adverse judgement on the Cridge matter could have a material adverse impact on our consolidated financial position, results of operations or cash flows.

### Australia Class Action Securities Claim

On 8 May 2023, a group proceeding (class action) was filed in The Supreme Court of Victoria, Australia by Raeken Pty Ltd against James Hardie Industries plc on behalf of persons who purchased certain James Hardie equity securities from 7 February 2022, through 7 November 2022. The litigation is being funded by a litigation funder in Australia, CASL Funder Pty Ltd. The proceeding includes allegations that James Hardie breached relevant provisions of the Corporations Act 2001 (Cth) and the Australian and Securities Investment Act 2001 (Cth), including with respect to certain forward-looking statements James Hardie made about forecasted financial performance measures during the period specified above. The Company is reviewing this matter and will defend the allegations vigorously. As of 30 June 2023, the Company has not recorded a reserve related to this matter as the chance of loss is not probable and the amount of loss, if any, cannot be reasonably estimated.

### Environmental

The operations of the Company, like those of other companies engaged in similar businesses, are subject to a number of laws and regulations on air, soil and water quality, waste handling and disposal. The Company's policy is to accrue for environmental costs when it is determined that it is probable that an obligation exists and the amount can be reasonably estimated.

### 9. Income Taxes

*Income taxes payable* represents taxes currently payable which are computed at statutory income tax rates applicable to taxable income derived in each jurisdiction in which the Company conducts business. During the three months ended 30 June 2023, the Company paid taxes, net of refunds, of US\$6.0 million.

*Income tax expense* differs from the statutory rate primarily due to the Company's mix of pre-tax income by jurisdiction, foreign taxes on domestic income and foreign exchange on asbestos.

Deferred income taxes include net operating loss carry-forwards. At 30 June 2023, the Company had tax loss carry-forwards in Australia, New Zealand, Europe and the US of approximately US\$78.0 million that are available to offset future taxable income in the respective jurisdiction. The Company establishes a valuation allowance against a deferred tax asset if it is more likely than not that some portion or all of the deferred tax asset will not be realized.

### Notes to Condensed Consolidated Financial Statements (continued)

The Australian tax loss carry-forwards primarily result from current and prior year tax deductions for contributions to AICF. James Hardie 117 Pty Limited, the performing subsidiary under the AFFA, is able to claim a tax deduction for its contributions to AICF over a five-year period commencing in the year the contribution is incurred. At 30 June 2023, the Company recognized a tax deduction of US\$28.9 million (A\$43.2 million) for the current year relating to total contributions to AICF of US\$620.4 million (A\$864.3 million) incurred in tax years 2019 through 2023.
