Safe Harbor Statement

Safe Harbor Statement under the Private Securities Litigation Act

All statements in this presentation that are not based on historical fact are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and the provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. While management has based any forward-looking statements included in this presentation on its current expectations, the information on which such expectations were based may change. Statements containing words such as "expect", "believe", "should", "anticipate", "intend", plan", "may", "will", and similar expressions constitute forward-looking statements. These forward-looking statements are not guarantees of future performance, rely on a number of assumptions concerning future events and are subject to a number of risks, uncertainties and other factors, many of which are outside of the control of Inpixon and its subsidiaries, which could cause actual results to materially differ from such statements. Such risks, uncertainties, and other factors include, but are not limited to, statements about our proposed and completed acquisitions, our anticipated cash flow balances, our product development plans and marketing initiatives, our ability to compete successfully in our industry, projected operating expenses, projected operating efficiencies, revenues, and capital requirements, and our projected cash position, the fluctuation of economic conditions, competition, the performance of management and employees, our ability to maintain compliance with Nasdaq's minimum bid price requirement and other continued listing requirements and the impact of COVID-19 on our results of operations. Additional factors that could cause results to differ materially from those described in the forward-looking statements can be found in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, as filed with the Securities and Exchange Commission (the "SEC") on March 31, 2021 and periodic report

All of the Company's forward-looking statements are expressly qualified by all such risk factors and other cautionary statements. Such statements and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, our actual results could differ materially and adversely from those expressed in any forward-looking statements. The Company undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise. Statements in this presentation, including factors that we believe may impact our results, are not intended to be exclusive.

Inpixon Turns Data Into Indoor Intelligence™

for SMARTER, SAFER, MORE SECURE ENVIRONMENTS

Comprehensive Suite of Indoor Technologies

App

Pre-built App platform to deliver custom enterprise apps with over 100 APIs, plus Events platform with video streaming capability

Mapping

Create dynamic, tailored map-enabled solutions that address myriad use cases

Real-Time Positioning

Real-time positioning of tags, locate and track wireless devices using on-device or external sensors while ensuring security and privacy

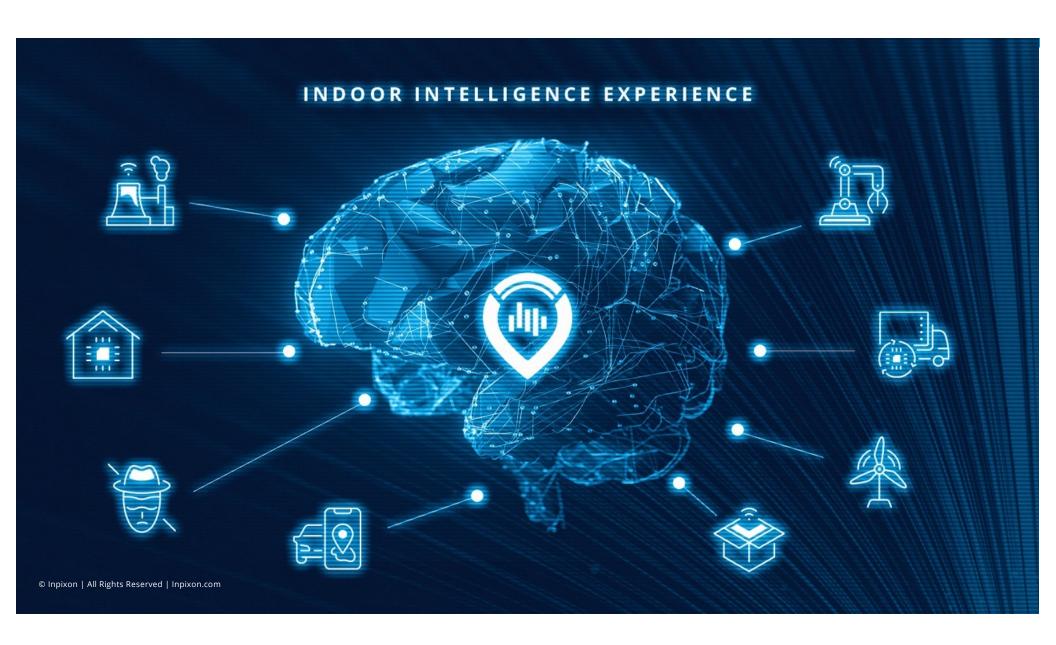

Security

See the unseen with wireless device detection to pinpoint unauthorized devices, enforce no-phones zones and more

Analytics

Turn data into intelligence and gain insights into how people interact with your indoor spaces

Large, Fast-Growing Markets

Smart Campus Solutions

for Productivity & Safety in the Post-COVID Agile Workplace

The Challenge

- Employees want hybrid work location, variable schedule
- Employers need tech to help with workplace experience, collaboration, engagement, events, safety
- Employers need to get it right, or risk attrition and recruiting problems

Capabilities Delivered

Employees

- Reserve socially distanced desks
- Auto check-in/out of workspaces
- Search for, book rooms that meet audio/visual needs
- Share location, find colleagues
- Navigate to people and destinations
- Attend events, in-person or virtual
- · Order food from the cafe
- Interact with news feeds and notifications
- Submit a maintenance work order
- Automatically trigger a request for cleaning services upon desk/room departure

Management

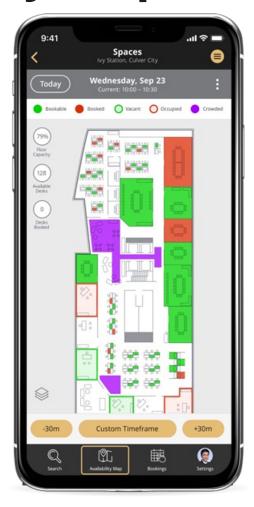

- Host/manage hybrid on-site/virtual events
- Monitor location & occupancy metrics
- Review visitation patterns
- · Perform space planning

inpix_©n

Evolution of the Availability Map

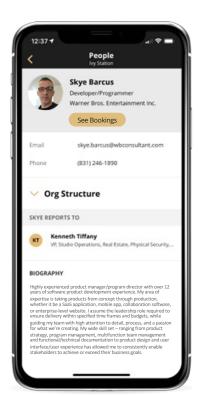

Real-time Activity on each Floor, Building and Campus now includes:

- Bookable Rooms and Desks
- Booked Rooms and Desks
- Floor Capacity
- Total Number of Available Desks
- Total Number of Booked Desks
- Occupied Spaces Rooms and Desks
- Dense and Crowded Areas
