GREENWOOD VILLAGE, Colo. & CALGARY, Alberta--(BUSINESS WIRE)-- Vitesse Energy, Inc. (NYSE: VTS) ("we," "Vitesse," or the "Company") and Lucero Energy Corp. (TSXV: LOU, OTCQB: PSHIF) ("Lucero") today announced they have entered into a definitive agreement under which Vitesse will acquire Lucero in an all-stock transaction with a fully diluted equity value of US\$222 million. Under the terms of the agreement, Lucero shareholders will receive 0.01239 of a share of Vitesse common stock for each common share of Lucero. The addition of Lucero's operations will provide additional scale to Vitesse's assets across the Bakken, where Lucero had approximately 6.4 Mboe per day of two-stream net production during the third quarter of 2024. Lucero had no outstanding debt and US\$56 million of cash as of September 30, 2024, and Vitesse expects to use a portion of the cash held by Lucero at closing to reduce outstanding borrowings under Vitesse's revolving credit facility. Vitesse is targeting about US\$3 million of general and administrative synergies annually.

## MANAGEMENT COMMENTS

“We are acquiring a high-quality company that has been very well managed and will be a terrific complement to our existing business. We are excited to add an operated leg to our strategy, while keeping our emphasis primarily on non-op,” commented Bob Gerrity, Vitesse’s Chairman and Chief Executive Officer. “This opens the door to acquiring operated and non-operated packages that are accretive to our dividend, while giving us proportionately more control over our future capital spending. In addition, this transaction supports our ability to pay the dividend, and the anticipated increased liquidity furthers our ability to make future acquisitions.”

Brett Herman, President & CEO of Lucero commented, “We are very proud of the significant steps we have taken to enhance Lucero’s asset base, operational performance, and balance sheet over the past several years. Combining with Vitesse will provide Lucero shareholders with immediate value for their investment and the opportunity to participate in the future upside from ownership in a stronger, larger company with enhanced shareholder returns. The transaction creates a unique oil weighted company with assets in the core of the Williston Basin exhibiting lower production declines, high operating netbacks, and strong capital efficiencies. I want to thank our employees for their dedication and hard work over the years that allowed us to build such a great organization and reach this exciting milestone.”

## **TRANSACTION DETAILS**

In this all-stock transaction, each outstanding common share of Lucero will be exchanged for 0.01239 of a share of Vitesse common stock, with approximately 8,175,000 shares of common stock expected to be issued at closing. After closing, existing Vitesse stockholders are expected to own approximately 80% and existing Lucero shareholders are expected to own approximately 20% of the Company on a fully diluted basis.

The transaction will be structured as a plan of arrangement under the *Business Corporations Act* (Alberta) and is subject to the approval of (i) at least two-thirds of the votes cast by holders of Lucero common shares at a meeting to be called to consider the transaction and (ii) if required under applicable Canadian securities laws, a majority of the votes cast by Lucero shareholders at such meeting (excluding the votes held by Lucero shareholders whose votes are required to be excluded under Multilateral Instrument 61-101 – *Protection of Minority Securities Holders in Special Transactions*). Reaves and Chernoff. Vitesse’s leadership team will continue to serve in their respective capacities in the company.

## **COMMODITY HEDGING**

Vitesse expects to promptly hedge a significant portion of the commodity risk associated

with this transaction through 2026 and has hedged a meaningful portion of its own production into 2026. Vitesse historically hedges a portion of its expected oil production volumes to increase the predictability and certainty of its cash flow and to help maintain a strong financial position to support its dividend. Vitesse does not currently have hedges in place on its expected natural gas production volumes.

## **TIMING AND APPROVALS**

The transaction has been unanimously approved by the boards of directors of both companies. The transaction is expected to close by the second quarter of 2025. The transaction is subject to customary closing conditions in the United States and Canada, as well as the approvals by Vitesse's and Lucero's shareholders described above, the approval of the Court of King's Bench of Alberta, the listing of shares of Vitesse's stock to be issued in the transaction on NYSE and certain other approvals.

Further information regarding the transaction will be contained in a management information circular that Lucero will prepare, file and mail to Lucero shareholders in advance of its shareholder meeting and a proxy statement that Vitesse will file with the Securities and Exchange Commission (the "SEC") and mail to Vitesse stockholders in advance of its stockholders meeting. Copies of the arrangement agreement and management information circular will be available on Lucero's profile on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca) and the arrangement agreement and proxy statement will be available on the SEC's website at [www.sec.gov](http://www.sec.gov) under Vitesse's profile.

The board of directors of Lucero has unanimously determined that the arrangement and the other transactions contemplated by the arrangement agreement are in the best interests of Lucero and fair to holders of the shares of Lucero, authorized and approved the entering into of the arrangement agreement and the performance by Lucero of its obligations under such agreement, and recommend that holders of Lucero shares vote in favor of a special resolution to approve the arrangement. FR XIII PetroShale Holdings L.P., and each of the directors and executive officers of Lucero who hold shares of Lucero, representing in aggregate approximately 63% of the outstanding shares of Lucero (on a non-diluted basis), have entered into support agreements with Vitesse and have agreed, among other things, to support and vote in favor of the transaction, subject to the provisions of such agreements.

## **NOTICE REGARDING INFORMATION CONTAINED IN THIS NEWS RELEASE**

All amounts in this news release are stated in U.S. dollars unless otherwise specified.

This news release contains references to "Boe" (barrels of oil equivalent) and "Mboe" (one thousand barrels of oil equivalent). The parties have adopted the standard of six thousand cubic feet of gas to one barrel of oil (6 Mcf: 1 Bbl) when converting natural gas to Boes. Boe and Mboe may be misleading, particularly if used in isolation. The foregoing conversion ratios are based on an energy equivalency conversion method primarily applicable at the burner tip and do not represent a value equivalency at the wellhead. Given that the value ratio based on the current price of oil as compared to natural gas is significantly different from the energy equivalent of 6:1, utilizing a conversion on a 6:1 basis may be misleading. Disclosure regarding anticipated wells and drilling locations has been prepared by Vitesse in accordance with U.S. disclosure standards.

All production volumes presented in this news release are reported on a "net" basis (a company's working interest share after deduction of royalty obligations, plus the company's royalty interests), which differs from "gross" basis (a company's working interest before deduction of royalties) for reporting production under National Instrument 51-101 and industry practice in Canada.

All references to "oil" in this news release include light and tight crude oil.

## **NON-GAAP FINANCIAL MEASURES**

Disclosure regarding Free Cash Flow and the ratio of Net Debt to Adjusted EBITDA has been prepared by management of Vitesse. These financial measures are not defined under U.S. GAAP or International Financial Reporting Standards.

Vitesse defines Free Cash Flow as cash flow from operations, adjusting for changes in operating assets and liabilities, less development of oil and gas properties.

Vitesse calculates Net Debt by deducting cash on hand from the amount outstanding on the revolving credit facility as of the balance sheet or measurement date.

Vitesse defines Adjusted EBITDA as net income before expenses for interest, income taxes, depletion, depreciation, amortization and accretion, and excludes non-cash equity-based compensation and non-cash gains and losses on unsettled derivative instruments in addition to certain other items.

Management of Vitesse believes the use of these non-GAAP financial measures provides useful information to investors to gain an overall understanding of financial performance. Specifically, Vitesse management believes the non-GAAP financial measures included herein provide useful information to both management and investors by excluding certain items that management believes are not indicative of Vitesse's core operating results. In addition, these non-GAAP financial measures are used by Vitesse management for budgeting and forecasting as well as subsequently measuring Vitesse's performance, and Vitesse management believes it is providing investors with financial measures that most

closely align to its internal measurement processes. Vitesse is not able to reconcile forward-looking non-GAAP financial measures and ratios included in this news release because it is unable to predict without unreasonable effort the exact amount or timing of the reconciling items. The variability of these items could have a significant impact on future GAAP financial results.
