# CohBar to Present at the H.C. Wainwright Annual Global Investment Conference

MENLO PARK, Calif., Sept. 03, 2020 (GLOBE NEWSWIRE) -- CohBar, Inc. (NASDAQ: CWBR), a clinical stage biotechnology company developing mitochondria based therapeutics to treat chronic diseases and extend healthy lifespan, announced today that its Chief Executive Officer, Steven Engle, will present a company update at the H.C. Wainwright Annual Global Investment Conference, being held virtually on September 14-16, 2020.

## H.C. Wainwright Annual Global Investment Conference

Tuesday, September 15 at 4:00 PM ET

**Webcast:** The presentation may be accessed via webcast at the scheduled time, or following the presentation, using the following link: <https://www.wsj.com/webcast/hcw7/cwbr/1605854>

## About CohBar

CohBar (NASDAQ: CWBR) is a clinical stage biotechnology company focused on the research and development of mitochondria based therapeutics, an emerging class of drugs for the treatment of chronic and age-related diseases. Mitochondria based therapeutics originate from the discovery by CohBar's founders of a novel group of naturally occurring peptide sequences within the mitochondrial genome, some of which have been shown to have the potential to regulate key processes in multiple systems and organs in the body. To date, the company has discovered more than 100 mitochondrial derived peptides and generated over 1,000 analogs. CohBar's efforts focus on the development of these peptides into therapeutics that offer the potential to address a broad range of diseases because of the underlying impact of mitochondrial dysfunction. The company's lead compound, CB4211, is in the Phase 1b stage of a Phase 1a/1b clinical trial for NASH and obesity. In addition, CohBar has four preclinical programs: CB5138 Analogs for fibrotic diseases, CB5064 Analogs for COVID-19 associated ARDS, MBT5 Analogs for CXCR4-related cancer and orphan diseases, and MBT3 Analogs for cancer immunotherapy.
