July 2007

Portfolio Company Update

As any emerging growth company investor knows, for a company to be successful it must have an exceptional management team, a great product or service, an edge over its competition and the financial resources to properly execute its business plan. Over the last 15 years I have been fortunate to discover a few of these diamonds in the rough and the following company has all of the right elements to be extremely successful. The company is TheaterXtreme Entertainment Group, Inc. and it trades on the OTCBB under the symbol ("TXEG"). It is uniquely positioned in the "Home Theater" niche of the \$90 billion consumer electronics industry and its goal is to become the nation's largest specialty retailer in the movie theater at home category.

The Company has reached a number of milestones in pursuit of its ultimate goal. In 2003, TheaterXtreme launched its first retail store, in 2006 it became a publicly traded company and in March of 2007 a Fortune 500 company became its largest investor. From a financial perspective, revenues have grown from \$933,699 in 2004 to \$4,619,142 in 2006 for a CAGR of (122%). Revenue growth is the result of new stores, franchise revenues and expanding distribution. As of June 2007, the Company had opened 14 stores in ten states (5 corporate and 9 franchises) and expects to open six additional stores in the latter half of 2007.

What has lead to the Company's success? TheaterXtreme delivers the ultimate home theater experience at an affordable price. Existing audio and video companies have been slow to recognize this opportunity to change consumer behavior. Even with market research showing explosive growth in the front-projection home theater category, existing retailers have difficulty adapting a custom home theater solution model to their existing product position. There are several reasons for this. One, most high-end retailers consider low price point products not worth the effort. Two, specialty mass-retailers do not recognize the potential size of the market because of its mediocre performance to date. Three, effectively selling home-theater room solutions requires consultative selling in a situated environment; something big box stores find too difficult to implement.

TheaterXtreme is paving the way in a new market category of

affordable, front-projection home theaters. In an industry that views large-format home theater rooms as an exclusive luxury, high-end dealers might sell three to six theater rooms a year. In TheaterXtreme's first year, it sold over 200 systems out of its first store. In June of 2006, they exceeded 1,000 systems, and recently surpassed the 2,000 mark.

That's the power of a new market category. The established home theater industry can be divided into two categories. The first category is the "home-theater-in-a-box". Best Buy and Circuit City typify this category though the sales and marketing of average-performance big screen and plasma TVs with a set of speakers. The second category is the high-end home theater category. This category largely consists of independent dealers that offer expensive, high-performance front-projection products that few consumers can afford.

TheaterXtreme does not position its products in either of the above categories. It created a new category: affordable, front projection home theater solutions. TheaterXtreme combines high-performance, very desirable products of the 'boutique' category with the low price points offered by mass-market stores. This combination of high performance with affordable pricing has never been done before at a national level. The consumer has a new, attractive choice. They can enjoy the celebrity-style extravagance of a complete home cinema room without breaking their budget.

In an industry characterized by tenure and stability—with many dealers having 10 to 20 year operating histories—the popular belief is that it's difficult for a new company to move to the top quickly. In just over a year of operation, TheaterXtreme became a top selling retailer (from a group of 1,100 dealers) for the largest projection manufacturer in the world, InFocus Corporation. Today the Company is number one with Mitsubishi in the value added retail class.

With strong sales performance, high margins, and increased opportunities for growth through strategic product importation, TheaterXtreme is giving consumers a better choice for home theater entertainment and investors a tremendous opportunity for growth. TheaterXtreme has approximately 20 million shares outstanding with 10 million shares in the float. Based on its closing price of \$0.61 on 6/29/07 TXEG is trading at a \$12.3 million market cap which equates to 1.7 times trailing twelve months revenue.

Micro-cap Portfolio

The micro-capital portfolio is a collection of WSR's best ideas and is intended to help speculative investors increase their investment performance. Positions in the portfolio include early stage companies and other micro-capital companies that appear to be significantly under-valued or technically attractive. Early stage companies are typically WSR clients and (in our opinion) have the potential for a three hundred percent return over the next three to five years. Other companies included in the portfolio are generally trading at a significant discount to their peers, breaking out of long-term bases, are turn-around plays, or have recently announced a significant event. Changes to the portfolio are emailed to WSR's subscribers via its *Daily Notes* publication and are updated each month in *The Emerging Growth News*.

Note: Past performance does not guarantee future success, and an investment in the model theoretical portfolio might lose money. Dividends and commissions are not included in performance calculations. The model theoretical performance noted above includes performance history of the model micro-capital portfolio. The theoretical performance contains many high-risk speculative stocks, which tend to be more volatile and more illiquid than larger more established companies. The theoretical performance of the model does not represent actual trading and does not reflect material economic, psychological and market factors that might have impacted the results if actual money had been invested. While no companies pay a fee to be included in our micro-capital portfolio, certain companies, which are published as featured companies on our website, pay a due diligence fee for participation in the Wall Street Resources' financial publication and distribution program. In compliance with rule 17b of the Securities and Exchange Commission, detailed information regarding compensation from such companies is included on the last page of such reports, is explained in the disclaimer located at <http://wallstreetresources.net/disclaimer.html>, and is located on the last page of this newsletter. Tax consequences must be carefully considered. We, our affiliates, and any officer, director or stockholder or any member of their families may have a position in and may from time to time purchase or sell any securities included in our micro-capital portfolio. Wall Street Resources, Inc. is a financial publisher and not a broker/dealer or registered investment advisor, and thus all trades and actual trading, decisions are made solely by the individual investor, not by Wall Street Resources, Inc. Wall Street Resources, Inc. and/or the employees of Wall Street Resources, Inc. will not be held responsible for any losses that might occur from the use of the information provided in our model portfolio that might be acted upon by an investor. Changes in our theoretical portfolio and current quote prices are made as of the last trading day of each month and based upon the closed price.

JUNE'S COMPANIES OF INTEREST:

Wall Street Resources' "Companies of Interest" section of its *Daily Notes* publication provides emerging growth company investors with fresh ideas. While we have only briefly reviewed these companies, something caught our attention and in our opinion the company warrants further inspection. View our 2006 "Companies of Interest" Track Record at http://wallstreetresources.net/pdf/p/2006_Companies_of_Interest.pdf

SciClone Pharmaceuticals, Inc. (SCLN:NASDAQ) 6/5/07 \$2.81

SciClone Pharmaceuticals, Inc. is a biopharmaceutical company that engages in the development and commercialization of therapeutics to treat life-threatening diseases. The company is trading at 51.09 times trailing earnings, 3.87 times sales, 2.36 times book, 8.54 current ratio, \$0.83 per share in cash, \$129.50 million market cap., \$91.21 million enterprise value.

Pervasive Software, Inc. (PVSU:NASDAQ) 6/8/07 \$4.70

The company provides embeddable data management and integration software products worldwide, trading at 18.15 times trailing earnings, 18.08 times forward earnings, 2.41 times sales, 1.16 times book, 4.89 current ratio, \$2.20 per share in cash, \$100.49 million market cap., \$53.39 million enterprise value.

The Inventure Group, Inc. (SNAK:NASDAQ) 6/28/07 \$3.13

The company engages in the development, production, marketing, and distribution of snack food products in the United States, trading at 53.97 times trailing earnings, 22.36 times forward earnings, .87 times sales, 2.01 times book, 3.34 current ratio, \$60.42 million market cap., \$56.83 million enterprise value.

WSR CORPORATE SPONSORS:

Wall Street Resources is a professional research and consulting firm connecting under-followed emerging growth companies with sophisticated investors looking for emerging growth company investment ideas. Leveraging over a decade of experience analyzing micro-to-small capital companies, the principals of WSR are dedicated to providing aggressive investors with unique opportunities, while helping emerging growth companies communicate with the investment community. The following companies are WSR's current clients which support its financial publications:

Featured Companies:**Advanced Growing Systems, Inc.****OTC:AGWS**

Advanced Growing Systems, Inc. ("AGSI" or the "Company") recently announced that its May 2007 sales were \$1,607,894 up from \$709,496 in May of 2006 representing a 126% year-over-year increase.

The Company also announced that it has filed with the U.S. Securities and Exchange Commission a Form 10-SB to become a fully reporting company. The filing of the Form 10-SB will meet the reporting requirements to list the Company's common stock on the Over the Counter Bulletin Board (OTCBB:BB.OB) quotation system. Although there can be no assurances, this is the first step in the Company's ultimate goal of listing on a national exchange by late 2007.

Advanced Growing Systems, Inc., founded in 2006, is the parent company of Organic Growing Systems, Inc. (a scientifically advanced Organic fertilizer manufacturer) and Advanced Nurseries, Inc. (a wholesale group of Commercial Nurseries located in the Southeastern US). AGSI is dedicated to providing its shareholders significant value and is directly involved in the \$48 Billion fertilizer market and the \$66 Billion Green Industry. AGSI was founded by a skilled group of industry professionals each with over 20 years of direct experience in the "Green" industry.

Axiom Technologies, Inc.**OTC:AXGI**

Axiom Technologies, Inc. ("AXGI" or the "Company"), a leading provider of surveillance security systems software and hardware, recently announced it has been selected to be a unique solution provider for the public safety sector. Last week the City Council of Huntington Park, California, granted the final contract approval for surveillance system specifically requiring Axiom's Maximum software and products. The contractor has not yet been selected, but whichever company wins the project, they are specified to use Axiom's technology. This initial contract is approximately \$100,000 but looks to be just the beginning. The Company is at the closing stage with a number of other cities using its unique audio-based graffiti detection system and Maximum software-based surveillance solution.

Axiom's primary products include MAXIMUM Surveillance Software, which is the key solution providing interoperability for numerous digitalized security and surveillance products from diverse manufacturers. The Company's Digital Video Recorders (DVRs) and Network Video Products (NVPs) are targeted at the Security and Surveillance segment of the gaming industry. The Company's newest product "Tagger Trap" is a state of the art graffiti detection product, which detects and alarms local police of graffiti activity. The estimated cost of graffiti clean up in North America is projected at \$1.0 billion annually. Millions of dollars have been budgeted in the past year by large metro police departments to detect and apprehend graffiti taggers.

BlueFire Ethanol, Inc.**OTC:BFRE**

BlueFire Ethanol, Inc. recently announced that it will conduct a study with the Mississippi Institute for Forest Inventory (MIFI) to determine the feasibility of a cellulose-to-ethanol production facility using forestry waste as its feedstock. BlueFire and MIFI are mutually interested in research related to the application of cellulosic ethanol conversion for forestry waste streams. BlueFire Ethanol Fuels, Inc. is established to deploy the commercially ready, patented, and proven Arkenol Technology Process for the profitable conversion of cellulosic ("Green Waste") waste materials to ethanol, a viable alternative to gasoline. BlueFire's use of the Arkenol Process Technology positions it as the only cellulose-to-ethanol company worldwide with demonstrated production of ethanol from urban trash (post-sorted MSW), rice and wheat straws, wood waste and other agricultural residues. Management's primary goal is to develop and operate high-value carbohydrate-based transportation fuel production facilities worldwide. These "biorefineries" will convert widely available, inexpensive, organic materials such as agricultural residues, high-content biomass crops, wood residues, and cellulose from MSW into ethanol.

BlueFire intends to build a multinational company that leads the world in producing biobased transportation fuels. Its business will encompass development activities leading to the construction and long-term operation of production facilities while maintaining technological advantage and ownership of the process technology and all its improvements. Ethanol will be produced from biorefinery facilities opportunistically constructed on or near landfills, waste collection and waste separation sites. Each facility will deploy the proprietary technology, which uses all cellulosic waste materials traditionally disposed of in landfills as feedstock.

Dynamic Health Products, Inc.**OTCBB:DYHP**

Dynamic Health Products, Inc. ("DYHP" or the "Company") a leading distributor in the sports nutrition product and performance drink industries recently announced the execution of an agreement to be acquired by GeoPharma, Inc. (NasdaqCM: GORX) in a stock deal for between 3.1 million and 3.5 million shares.

If the merger is approved by the requisite number of the outstanding shares of GeoPharma and Dynamic Health, GeoPharma expects increased revenues, operating profits, and an enhanced distribution platform supported by a highly experienced management team from both the companies having extensive industry knowledge in marketing, developing, manufacturing and distributing.

GeoPharma, Inc. is a rapidly growing pharmaceutical company specializing in the manufacturing and distribution of over-the-counter, nutritional, generic drug and functional food products. The company's growth strategy is to capitalize on its manufacturing expertise to develop high margin generic or novel drugs for niche markets with high barriers to entry. GeoPharma's competitive advantage lies in its ability to circumvent or overcome the challenges in these markets.

Dynamic is a distributor in the sports nutrition product and performance drink industries and is engaged in developing, wholesaling, and distributing a wide variety of non-prescription drugs, dietary supplements, vitamins, health foods, nutritional products, soft goods and other related products. Its wholly owned operating subsidiaries include Bob O'Leary Health Food Distributor Co., Inc., Dynamic Marketing I, Inc. and Herbal Health Products, Inc.

Edentify, Inc.**OTCBB:EDFY**

Edentify Inc. recently announced it has entered a strategic alliance with Intelligent Wave USA. Under the agreement, Intelligent Wave USA and Edentify will cross-market their products: Edentify's proprietary risk assessment technologies--IDAssess(TM), IDScreen(TM) and IDAlert(TM) and Intelligent Wave USA's Insider Threat Management software solution, CWAT, that detects and stops, in real time, the unauthorized transfer of digital assets to protect Intellectual Property and non-public private information. When implemented together, these complementary systems will provide over 600 customers,

including many with international reach, with a comprehensive platform for protecting data and identity information, and preventing digital asset extrusion.

Identify, Inc. was formed in August 2004 with the objective of becoming the leading organization in the field of developing and deploying data analysis technology solutions for preventing identity theft and fraud. It is currently a later development-stage company and expects shortly to begin a period of growth. Identify will seek to fulfill its goals by analyzing the means by which identity crimes are perpetrated and through the development of new technologies and procedures to assist corporations, the government, and consumers in the fight against identity fraud and related crime.

Identify owns the intellectual property rights to two strategic approaches towards the detection and prevention of identity fraud. One is a patented information-based approach that analyzes identity data information for individuals in large databases, and is capable of detecting and scoring incidences of identity manipulation and potential theft (Identity Quotient Index(TM)). Identify will continue to market this technology to the financial services industry, as well as to large healthcare organizations and local, state, and federal government agencies.

The second approach, which is still under development, is a biometric technology that will be marketed through and is named after our wholly-owned subsidiary, InMotion Biometrics, Inc. ("IMB"). This novel set of algorithms combines face and voice recognition techniques for authenticating the identity of an individual. Additionally, the system is designed as a multi-modal platform capable of combining the reading of two or more biometric technologies simultaneously. Identify is based in Bethlehem, Pa.

eFoodSafety.com, Inc.

OTCBB:EFSF

eFoodSafety.com, Inc. recently announced that Dr. Madon M. Joshi, Ph.D., formerly employed as a researcher and worldwide Licensing Manager for New Technology at DuPont, has retired from DuPont and has contracted with eFoodSafety.com, Inc. to further develop and license OraPhyte(TM), an environmentally-safe product for treating the \$100 billion worldwide problem of plant-parasitic nematodes.

On March 20, 2007, eFoodSafety.com announced entering into a written agreement with DuPont to evaluate and conduct additional testing on OraPhyte(TM) to determine its effectiveness in controlling plant-parasitic nematodes. Upon completion of testing, the parties anticipate entering into negotiations to define the parameters for commercialization and to enter into a marketing or licensing agreement.

eFoodSafety.com, Inc. is dedicated to improving health conditions around the world through its innovative technologies. The company's Knock-Out Technologies, Ltd. subsidiary has developed an environmentally safe sporicidal product formulated entirely of food-grade components that eradicates anthrax and a germicidal product, Citroxin (formerly named Big Six Plus) - EPA Reg. No. 82723-1 - that kills six major bacteria: E-coli, Listeria, Pseudomonas, Salmonella, Staphylococcus, and Streptococcus, Avian Influenza, and Black Mold. The sporicidal product has completed its final efficacy laboratory study requisite for EPA registration. In the study, iteradicated both Clostridium Sporogenes and Bacillus Subtilis with 100% efficacy on both hard and porous surfaces.

The company's MedElite, Inc. subsidiary distributes clinically proven products to physicians who then prescribe the products for their patients. It recently became the owner of the TalsynT-CI/bid Scar Cream, which has been clinically proven to facilitate and improve the appearance, redness, and strength of scars, as well as seven (7) other products in the TalsynT line. The company is also owner of CinnergenT, a clinically studied, non-prescription liquid whole food nutritional supplement that promotes healthy glucose metabolism. The company has entered into a joint venture agreement with CK41 Direct, Inc. to launch the PurEffectT anti-acne skin care system.

HS3 Technologies, Inc.**OTCBB:HSTH**

HS3 Technologies, Inc. ("HSTH" or the "Company"), a world-wide provider of innovative security solutions recently announced the first phase (25 units) installation of a proprietary solution for an integrator working with the Department of Homeland Security. The estimated cost for each unit is approximately \$5,000 per unit. This initial installation is the first phase of a potential multi-phase contract for 200-300 additional monitoring units. The solution combines the use of our biometric access control system along with DVR and GPS/Cellular technology.

HS3 Technologies, Inc. ("HS3") is a national provider of innovative security solutions, headquartered in Denver, Colorado. HS3 provides technologies and services through a national authorized dealer and distribution program. Utilizing independent sales professionals, national distribution and local dealers, HS3 offers custom security solutions for commercial, residential, government and military applications. These state-of-the-art products include digital video recording technology (DVR), biometric access control (door locks), personal biometric identification units, CCTV, video monitoring centers, cellular networks, wireless mesh networks units and wireless internet-linked satellite surveillance systems. HS3 Technologies is bringing together technologies, services and people to fulfill the increasing global security needs of today and tomorrow. [Click here to obtain additional information...](#)

Lucas Energy, Inc.**OTCBB:LUCE**

Lucas Energy, Inc. recently announced the results of an independent study of the Company's oil and gas reserves performed by Forrest A. Garb and Associates, Inc., an independent licensed petroleum engineering firm based in Dallas. The report estimates the undiscounted future net revenue (FNR) from these reserves at \$67,363,580 or a discounted PV-10 of \$35,941,320 which is commonly known as the SEC PV-10 figure.

The reserve report which is based on interests owned by Lucas Energy, Inc. in certain oil and gas properties located in Gonzales, Baylor, Karnes, and Wilson counties in Texas estimated the total net reserves are 1,582,540 barrels of crude oil and 41.53 MMCF of natural gas.

Lucas Energy, Inc. is an independent oil and gas company building a diversified portfolio of valuable oil and gas assets in the United States. The company is focused on identifying underperforming oil and gas assets, which are revitalized through a meticulous process of evaluation, application of modern well technology, and stringent management controls. This process allows the company to increase its asset base and cash flow, while significantly reducing the risk of traditional exploration projects. Lucas Energy's financial structure allows it to minimize the high overhead of traditional E&P companies providing it with sufficient assets and capital to acquire new properties which fit into the profile of the company's criteria.

Nanobac Pharmaceuticals, Inc.**OTCBB:NNBP**

Nanobac in recent news announced the publication of correspondence in the June 23, 2007 issue of The Lancet that demonstrates new evidence that further defines the infectious role of Calcifying Nanoparticles (CNPs). The case report involves accidental human eye exposure to CNPs and a strong immune response against proteins carried by the nanoparticles. The antibody persisted over 10 years at a high level. The condition was diagnosed by the Company's ELISA blood test.

Nanobac Pharmaceuticals, Inc. is dedicated to the discovery and development of products and services to improve human health through the detection and treatment of calcifying nanoparticles (CNPs), formerly known as nanobacteria. The company's pioneering research is establishing the pathogenic role of CNPs in soft tissue calcification, particularly in coronary artery, prostate and vascular disease.

Nanobac's drug discovery and development is focused on new and existing compounds that effectively inhibit, destroy or neutralize CNPs. Nanobac manufactures In Vitro Diagnostic (IVD) kits and reagents for detecting calcifying nanoparticles. IVD products include a line of assays, proprietary antibodies and reagents for uniquely recognizing CNPs. Nanobac's BioAnalytical Services works with biopharmaceutical partners to develop and apply methods for avoiding, detecting, and inactivating or eliminating CNPs from raw materials.

Northern Oil & Gas, Inc.**OTCBB:NOGS**

Northern Oil & Gas, Inc. a Nevada corporation focused on drilling exploratory and developmental wells in the Rocky Mountain regions of the United States recently announced that it has entered into an Agreement to acquire approximately 10,000 net mineral acres in the Appalachia Basin. The acreage is located in the "Finger Lakes" region in Yates County, New York. Seismic studies associated with the acreage show a highly fractured fault system in the Trenton-Black River formation as well as shallow exploration and development opportunities in the Queenstown-Medina sand and Marcellus shale.

The primary target of Northern Oil is the Middle Bakken formation in the Williston Basin. Northern Oil's secondary target is conventional, 3D driven, oil and gas exploration and development throughout the Rocky Mountain Region. The new acreage located in the Appalachia Basin will give the Company an opportunity to participate in the early stage

development of a prolific North American natural gas play. With companies such as Talisman Energy, Chesapeake Energy and Range Resources active in the region, Northern Oil & Gas believes there are ample opportunities for partnerships to develop.

Northern Oil and Gas, Inc. is an exploration and production company based in Wayzata, Minnesota. The company currently controls approximately 25,000 net mineral acres in the Williston Basin and 10,000 net mineral acres in the Appalachia Basin.

Pet Ecology, Inc.

OTC:PECB

Pet Ecology Brands, Inc. president and CEO Ralph Steckel recently commented on the Company's annual meeting with shareholders, "The shareholder vote resulted in an overwhelming affirmation of a new Board and granting of authority to effect a reverse stock split when deemed appropriate. Within the proxy vote 99% of those constituting the required quorum voted in favor of the new Board while 89.7% of that same quorum voted in favor of authorizing the Board to effect a reverse stock split at the Board's discretion. The shareholder approval enables the Company to secure the previously announced financing from Tricon Holdings, LLC and Texas Atlantic Capital Partners, LLC that is necessary to implement Pet Ecology's operating plans."

Upon adjournment of the formal shareholders meeting, Mr. Steckel held an informal question and answer session in which he described a robust new product rollout plan for 2007 centering on two "state-of-the-art" products that are intended to boost Company sales and complement the Company's chain and home delivery sales efforts. He also noted that Pet Ecology has developed a 3-in-1 waterless cat shampoo that is able to cleanse without water or annoying spray and reduce skin irritations. In addition, he noted that the Company is ready to bring to market a new "Eco-De-Odor" anti microbial spray that destroys 100% of all infectious and undesirable bacteria and the fungus that causes odors.

Mr. Steckel also stated, "The first retail chain deliveries have occurred and future deliveries are expected in July with between four and seven new chains on the East Coast." He also noted, "Momentum is building for the Company's cat litter with the increased requests for samples that have been received from our national broker network."

Pet Ecology Brands, Inc. has been developing and distributing technologically advanced earth-friendly pet products that are safe for pets, people and the planet since 1996. Currently, the Company has established distribution and retail penetration in 32 distributors that have an estimated 10,000 retailers and pet professional outlets in the U.S. and Canada.

Remote Surveillance Technologies, Inc.

OTC:RSUR

Remote Surveillance Technologies in recent news announced it has significantly reduced its float and total number of shares outstanding. Post the reduction the Company decreased its float [free trading shares] from 28.7 million to 24 million, while it also reduced its total shares outstanding from 81.3 million to 65.4 million. The nearly 16 million shares re-acquired by the Company may be used to secure additional capital to fund growth, to negotiate acquisitions or remain in RST's treasury.

Remote Surveillance Technologies is a full-service electronic security systems integrator and remote surveillance monitoring company. RST provides security analysis, systems design, equipment purchase, installation, and integration for off-site video monitoring. RST's revenue is generated from both recurring video monitoring fees and systems installations. The monitoring advantages offered by RST to its clients include: the elimination of false alarms; incident verification at physical plant and with corporate vehicles; immediate notification to law enforcement; description and physical location of perpetrator(s) to law enforcement during the crime; immediate voice interaction with perpetrator(s); 24/7 on-site digital image recording and storage; redundant recording of events at monitoring station to preserve evidence, alarm indicator points for ease of reviewing incidents; and the significant lowering of the clients' security costs by reducing or eliminating on-site guard personnel. Straight Up Brands, Inc.**OTC:STRU**

Straight Up Brands, Inc. ("Straight Up" or the "Company") an emerging developer and international marketer of premium branded wines and spirits has announced that one of the Company's most popular products "Sizzurp" is now in distribution across 15 states in the United States in addition to distribution in Canada, Great Britain, France, and the Netherlands.

Sizzurp Purple Punch Liqueur is a blend of premium imported cognac, vodka and exotic fruit juices. The rap group M.O.P. has begun promotion of Sizzurp with product placement in new song lyrics, music videos, and worldwide tours with vehicle wraps, stage banners and on-stage pours. M.O.P. has recently been signed by 50 Cent for his label G-Unit.

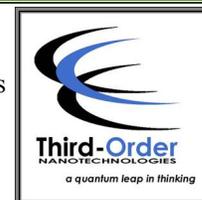

Straight Up Brands, Inc. develops, produces, and markets branded wine and alcoholic beverages through collaborations with artists, DJs and other influential celebrities. The Company's premium branded products are within three growing categories of the spirits industry: wine, vodka and liqueurs/cordials. The Company's first product brought to market is Bracco Wine; with the acquisition of Rappin Brands, it now has Sizzurp in distribution and it will begin the distribution of Lucky Nites in selected markets in the first quarter of 2007.

Future products include Foxy Brown's sparkling wine, Storm Vodka with DJ Clue, MoMo Mojito with Ja Rule, and Triple Coconut Rum with MOP. The Company anticipates adding to these product lines with additional celebrity endorsements throughout 2007. Leveraging the marketing power of artists combined with the current growth and solid profit margins in the spirits industry, the Company is well positioned for strong revenue growth, earnings and success.

Third-Order Nanotechnologies, Inc.**OTC:TDON**

Third-Order Nanotechnologies in recent news announced that Dr. David F. Eaton has agreed to serve as the Company's interim Chief Technology Officer. Dr. Eaton will provide advice on Third-Order's products, services, strategy, and structure; communicate the vision of the Company to industry groups, and to the technical trade press; and lead, manage and participate in the research and development and creation of Third-Order's fiber optic communications components that are based on the Company's polymer lightwave switching technology.

Previously, Dr. Eaton spent thirty years with DuPont where he worked in research & development, research & development management and business leadership positions. Dr. Eaton spearheaded DuPont's entry into polymer-based components for fiber optic telecommunication by founding DuPont Photonics Technology, a wholly owned subsidiary of DuPont. Before that, he developed and commercialized Cyrel® FAST photopolymer product line. Dr. Eaton started his career with DuPont as a research scientist in Corporate Research & Development focusing on photochemistry. He earned his Ph.D. in Organic Chemistry from CalTech.

Third-Order Nanotechnologies is a developmental stage company focused on revolutionary research and development of electro-optic polymers, material systems and components. Historically, no one has been able to solve the problem of polymer stability, meaning that as polymers became more powerful, their stability decreases. Third-Order Nanotechnologies undertook a radical departure from conventional polymer science, and appears to have solved the stability issue surrounding EO polymer. Apart from its demonstrated molecular stability and high performance, the Company's technology is also highly scalable and significantly less expensive to manufacture than competitive technologies.

Third-Order Nanotechnologies is on the verge of initial commercialization and there are an unlimited number of potential applications for the Company's technology in sectors including telecommunications, medical imaging, and government intelligence agencies.
