## Liberator Medical Reports Strong Results in its Fiscal Q3

By Paul Silver

Liberator Medical Holdings has established the Liberator brand as a leading national direct-to-consumer provider of quality medical supplies to Medicare-eligible seniors. An Exemplary Provider™ accredited by The Compliance Team, its unique combination of marketing, industry expertise and customer service has demonstrated success over a broad spectrum of chronic conditions leading to impressive financial results as illustrated below.

Liberator is recognized for offering a simple, reliable way to purchase medical supplies needed on a regular, ongoing, repeat-order basis, with the convenience of direct billing to Medicare and private insurance. Liberator's revenue primarily comes from supplying products to meet the rapidly growing requirements of

general medical supplies, personal mobility aids, diabetes supplies, catheters, ostomy supplies and mastectomy fashions. Liberator communicates with patients and their doctors on a regular basis regarding prescriptions and supplies. Customers may purchase by phone, mail or internet, with repeat orders confirmed with the customer and shipped when needed.

### Investment Highlights:

- Leading national direct to consumer provider of urological, ostomy, mastectomy, diabetes and other medical supplies.
- Proven, highly scalable business model, aggressively expanding into product-line segments targeting chronic conditions resulting in predictable recurring revenue stream with significant customer lifetime values.
- Ranked #1 in Medicare payments for urological and mastectomy products according to HME Databank.
- Experienced Management team with over 30+ years of relevant experience and a significant amount of invested capital into the company.

### Industry Highlights:

- The U.S. national healthcare spending is expected to increase by approximately \$2 trillion from \$2.6 trillion in 2010 to \$4.6 trillion in 2020, according to the Centers for Medicare and Medicaid Services ("CMS").
- CMS estimates that the number of Americans over the age of 65 will increase from an estimated 41.1 million in 2011 to 54.2 million in 2020.
- The research firm Rand estimates the number of Americans with two or more chronic conditions will increase from 60 to 81 million between the years 2000 and 2020. Currently more than 90 million Americans live with at least one chronic disease.
- CMS estimates that the national expenditures within

the DME market will increase by over \$20 billion from \$35.7 billion in 2010 to \$56.8 billion in 2020.

- The number of DME companies with Medicare billings less than \$300,000 has been declining, or consolidating, over the last few years according to HME News, primarily as a result of increased Medicare accreditation and bonding requirements implemented in 2009.

### Recent Financial Results

Liberator Medical recently announced the financial results for its fiscal third quarter ended June 30, 2013. ### Recent Dividends and Share Buyback

On June 13, 2013, the Company's Board of Directors approved a cash dividend of \$0.03 per common share to its shareholders of record on July 8, 2013. The dividend was paid on July 22, 2013, and is the second cash dividend paid this year.

The Company's Board of Directors also approved a 1,000,000 share repurchase program on June 13, 2013. As of August 8, 2013, the Company has repurchased 195,000 shares since the commencement of the share buyback.

### Management Comments

Mark Libratore, the Company's President and CEO, commented, "During the third quarter of fiscal year 2013

we generated net income of \$2.0 million and increased our cash balance by \$3.6 million to \$10.6 million at the end of the quarter. As a result of the improvements in our operating margins and cash flows during the first three quarters of fiscal year 2013, we have paid two quarterly dividends, totaling \$2.6 million, to our shareholders and initiated a buyback of 1.0 million shares of our common stock. During July 2013, we completed an acquisition of a small medical supply company and are currently evaluating other potential small company acquisitions. We expect to continue to increase our operating margins and cash flows and continue to acquire new customers through our direct-response advertising efforts at our targeted acquisition costs."

## WSR's New "High Alpha"

On June 30 of 2013, WSR consolidated its three model portfolios including its Florida Small Cap 30, its Aggressive Growth and its Speculator portfolios. To qualify for initial inclusion, companies in the WSR-Florida Small Cap 30 and Aggressive Growth portfolios must have a market capitalization less than \$500 million as well as met a certain number of valuation and performance based hurdles including, but not limited to, revenue growth, PEG ratio, tangible book value, and profitability. Companies that were included in WSR-Speculator portfolio are typically early stage or turnaround companies which are frequently WSR clients and (in our opinion) have the potential for a three hundred percent return over the next three to five years. Changes to these portfolios are emailed to WSR's subscribers via its *Daily Notes* publication and are updated each month in *The Emerging Growth News*.

**JULY'S TOP COMPANIES UNDER \$5.00 AS MEASURED BY INSIDER BUYING:**

Investors and analysts look to the buying and selling trends of insiders, who are typically long-term investors, for clues to the broader market outlook. According to Ben Silverman, InsiderScore.com's director of research, "Insiders have been very accurate in terms of calling market bottoms, both temporary, in terms of corrections, and troughs."

Although insider buying is a useful tool to consider when making a decision on which stock to buy, it should be looked at carefully lest it give a false positive signal. Investors need to look behind the headlines and conduct their own research before buying on this basis. For example, option exercises can also give false signals. This section summarizes the companies (trading under \$5.00 per share) with the greatest amount of purchasing by insiders during the previous month.

Companies with Net Buying Percentage

The chart on the left illustrates the 4 and 13 week trailing average “Net Buying” in relationship to the entire market. In other words, what percent of the stocks in the entire market have net insider buying. In theory, the higher the percent the greater the indication that the overall market will increase in price.
