Auxilio Generates Cash by Managing Paper

By Paul Silver

AUXILIO (OTC BB: AUXO) is the nation’s first and only Managed Print Services (MPS) company exclusively serving the health care industry. By leveraging its focused industry experience and knowledge, AUXILIO’s team of full-time MPS experts work on-site to control, optimize and enhance its customers’ print infrastructures to drive down costs and create efficiencies. AUXILIO has a growing national portfolio of over 85 hospitals with more than 1,600 affiliated medical, clinical and administrative support facilities.

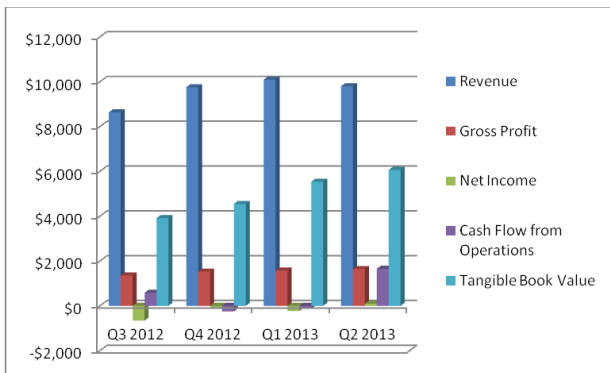

With 5,600 hospitals as potential clients, the market opportunity is basically 65 times the Company’s current size which equates to \$2.6 billion in potential annual revenue. We concede that the math is very basic but our point is that Auxilio has significant room to grow.

Why can Auxilio continue to grow?

As the only vendor neutral MPS company in the U.S. that is dedicated solely to hospitals and hospital systems, it is at the forefront of providing specialized knowledge of urgent care print environments that ensures cost reduction, assistance with Electronic Health Records (EHR) execution and provides continuous process improvement methodologies to reduce volume substantially.

Due to its unique approach and proprietary database technology, AUXILIO has penetrated the health care market in about half the country, and has earned the confidence of some of the nation’s most prestigious multi-hospital systems including Catholic Health East (multi-state), Johns Hopkins Health System in Maryland, Bon Secours Health

Based on Auxilio’s last quarter results, these 85 hospitals generated approximately \$10 million per quarter in revenue, \$1.6 million in gross profit, just over break even in net income and positive cash flows from operations.

System (multi-state), Sharp HealthCare in California, St. Alphonsus Health System in Idaho, Memorial Health System in Colorado, Barnabas Health in New Jersey and others.

Auxilio’s scalable infrastructure positions the Company to capture demand as the health care industry seeks best practice solutions to reduce costs by better managing their assets and expenses in their business operations. Auxilio is the recipient of the 2011 and 2012 Managed Print Services Association Leadership Award for its “strategic creativity and operational excellence” in its delivery of document production and process management, solutions and savings for its customers.

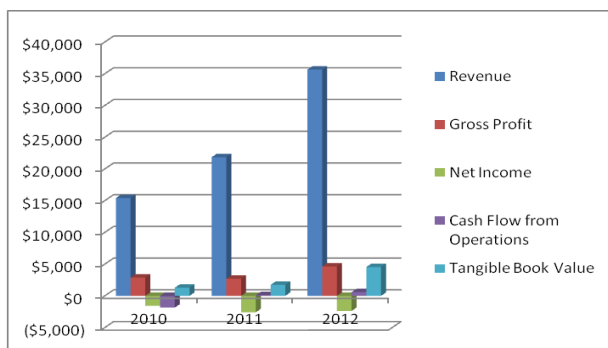

Case Study (typical 5year term)

Hospital profile – 3 campus, 1,000 bed hospital system produces four million pages per month at an average of \$0.043 per page. Equals \$174,000 per month.

Auxilio caps cost at \$0.035 per page equals a 20% cost reduction through continuous process improvement.

Savings to hospital is \$34,000 per month or \$2 million over five years.

Revenue to Auxilio is \$112,000 per month or \$6.7 over five years with 20% to 25% average gross margin over the five year term.

Investment Considerations:

- First health care exclusive, vendor neutral MPS company in the US

- Recent insider buying.
- National presence in 22 states across the country
- Guarantees 10% to 30% savings
- Contracts with over 85 hospitals and over 1,600 affiliated care facilities
- Manages over 1.6 billion documents annually
- Maintains more than 50,000 devices
- Serves more than 250,000 end-users
- Proven business model with >\$70M saved for current customers over 5-year term
- Closed over \$90+ million of new business since December 2011 in three to five year recurring revenue contracts.
- Gross margins on mature business between 20% and 25%.
- Significant organic growth and diverse referral network including customers.
- Recurring service revenues increased 33% from new contracts closed between May 2012 and April 2013.
- Management’s initial goal is to build revenue to \$200 million.

Investment Opinion

Based on Auxilio’s historic revenue growth and consistently improving financial performance, the Company is considerably undervalued, in our opinion, trading 0.50 times revenue with just under a \$20 million market cap and enterprise value.

Paul Silver

Paul Silver is the Managing Director of Research at Wall Street Resources. Previously he has been in auditing with a Big Four accounting firm in New York City, a sell-side research analyst for two global investment banks in New York City including Salomon Smith Barney and UBS Paine Webber. At Salomon Smith Barney he was a member of the firm’s research team covering Real Estate Investment Trusts that was consistently ranked #1 by Institutional Investor magazine. Mr. Silver has written extensively on small cap equities and is a contributing writer to numerous publications.

WSR's New "High Alpha"

On June 30 of 2013, WSR consolidated its three model portfolios including its Florida Small Cap 30, its Aggressive Growth and its Speculator portfolios. To qualify for initial inclusion, companies in the WSR-Florida Small Cap 30 and Aggressive Growth portfolios must have a market capitalization less than \$500 million as well as met a certain number of valuation and performance based hurdles including, but not limited to, revenue growth, PEG ratio, tangible book value, and profitability. Companies that were included in WSR-Speculator portfolio are typically early stage or turnaround companies which are frequently WSR clients and (in our opinion) have the potential for a three hundred percent return over the next three to five years. Changes to these portfolios are emailed to WSR's subscribers via its *Daily Notes* publication and are updated each month in *The Emerging Growth News*. For a comprehensive list of open and closed positions as well as cumulative performance go to: <http://www.wallstreetresources.net/portfolio-performance.asp>

High Alpha Portfolio – Open Positions		Portfolio/		Price	% Change

Top Performer from 8/1/2013 to 8/31/2013: HS3 Technologies, Inc. (OTCQB:HSTH) Up +233.5%
Average Return from 8/1/2013 to 8/31/2013: Up +12.15%

Note: *Liberator Medical is included twice because it was in both the Florida Top 30 and the Aggressive Growth portfolio when we consolidated our model portfolios.*

TOP COMPANIES UNDER \$5.00 AS MEASURED BY INSIDER BUYING:

Investors and analysts look to the buying and selling trends of insiders, who are typically long-term investors, for clues to the broader market outlook. According to Ben Silverman, InsiderScore.com's director of research, "Insiders have been very accurate in terms of calling market bottoms, both temporary, in terms of corrections, and troughs."

Although insider buying is a useful tool to consider when making a decision on which stock to buy, it should be looked at carefully lest it give a false positive signal. Investors need to look behind the headlines and conduct their own research before buying on this basis. For example, option exercises can also give false signals. This section summarizes the companies (trading under \$5.00 per share) with the greatest amount of purchasing by insiders during the previous month.

Largest Purchases with an Average Price under \$5.00 per share:

Last Reported	Company	Ticker	Industry	Avg. Price	Total

Companies with Net Buying Percentage

The chart on the left illustrates the 4 and 13 week trailing average "Net Buying" in relationship to the entire market. In other words, what percent of the stocks in the entire market have net insider buying. In theory, the higher the percent the greater the indication that the overall market will increase in price.

WSR's CLIENT COMPANIES:

Wall Street Resources is a professional research and consulting firm connecting under-followed emerging growth companies with sophisticated investors looking for emerging growth company investment ideas. Leveraging over a decade of experience analyzing micro-to-small capital companies, the principals of WSR are dedicated to providing aggressive investors with unique opportunities, while helping emerging growth companies communicate with the investment community. The following companies are WSR's current clients which support its financial publications:

Featured Companies:**Black Ridge Oil & Gas, Inc.**
OTCQB/OTCBB:ANFC

Black Ridge Oil & Gas controls over 12,000 net acres in the Bakken and Three Forks play in western North Dakota and eastern Montana. The 2013 US Geological Survey assessment estimated that there are 3.7 billion barrels of recoverable oil in the Bakken Formation and an additional 3.7 billion barrels of recoverable oil in the Three Forks Formation. At a total of 7.4 billion recoverable barrels, this represents a twofold increase from the 2008 assessment. Together with the continued advances in horizontal drilling technology, the Bakken oil play is proving to be both high-yield and sustainable.

To obtain additional information go to: <http://www.wallstreetresources.net/Ante5.asp>

Arête Industries, Inc.
OTCQB:ARET

Arête is the operator of a gas gathering system and is in the process of buying oil and gas properties in the Rocky Mountain Region of the United States.

The Company is pursuing projects that have significant upside potential and can produce significant revenue. As the projects are developed, Arête, or entities created by Arête, will have ownership interests in the revenue streams, which can be securitized and collateralized either equity or private debt holders. Enabling the company to continue to grow, fulfill its ongoing financing requirements, and create value for its shareholders.

To obtain additional information go to: <http://www.wallstreetresources.net/arete.asp>

CTD Holdings, Inc.
OTCQB: CTDH

CTD Holdings Inc. primary business is the development and marketing of cyclodextrins and related products. The company develops cyclodextrins based applications for a wide range of industries: food, pharmaceutical, nutraceutical, R&D and environmental remediation.

Nanosonic Products a subsidiary of CTD Holdings built a manufacturing facility to be able to produce ton quantities of cyclodextrins. It incorporates a pulse combustion technology that is proprietary to the company.

To obtain additional information go to: <http://www.wallstreetresources.net/ctdholdings.asp>

Ecosphere Technologies, Inc.
OTCBB:ESPH

Ecosphere Technologies, Inc. is a diversified water engineering and services company primarily focused on the natural gas industry. The Company provides water-recycling services at the well site to provide clean water for energy companies to extract natural gas from unconventional shale plays. Ecosphere's mission is to identify, create and produce clean technologies that solve a significant industry challenge, improve the quality of life and the environment, and are economically viable. Ecosphere has an extensive portfolio of patented clean technologies that can be purchased and licensed for use in large-scale and sustainable applications across industries, nations and ecosystems.

To obtain additional information go to: <http://www.wallstreetresources.net/ecosphere.asp>

EnerJex Resources, Inc.
OTCQB:ENRJ

EnerJex Resources, Inc. (Stock Symbol: ENRJ) is a domestic onshore oil company with producing assets located in Eastern Kansas and South Texas. The Company was transformed at the beginning of 2011 through a comprehensive transaction that included a complete reconstitution of its board of directors and management team, a recapitalization of its balance sheet, and the acquisition of assets in a new core operating area.

EnerJex is focused on the acquisition and development of shallow oil properties that have low production decline rates and offer abundant drilling opportunities with low risk profiles. As of December 31, 2012, the Company had 2.9 million barrels of proved oil reserves, and it has identified hundreds of low risk development drilling locations on its existing acreage.

To obtain additional information go to: <http://www.wallstreetresources.net/enerjex.asp>

FieldPoint Petroleum Corp.
AMEX:FPP

The Company acquires, operates, and develops oil and gas properties located in Texas and Wyoming. FieldPoint Petroleum looks to continue expanding in Texas and Wyoming, as well as in other Rocky Mountain and mid-continent states such as Montana, North Dakota and Oklahoma.

As of January 2013, the Company has varying ownership interest in approximately 300 wells located in Oklahoma, Louisiana, New Mexico, Texas and Wyoming. FPPC oil and gas production is sold on the spot market. The Company believes that, with operator's responsibility and authority, it is in a better position to control cost, safety, and work timelines, as well as other critical factors affecting the wells' economics.

Information Systems Associates, Inc.
OTCBB:IOSA

ISA is a leading provider of data center optimization software, services and solutions based out of Palm City, FL. Its core technology OSPI (On Site Physical Inventory®) provides a toolset allowing customers to create a highly accurate data set of their current IT assets. This information can be utilized to enable businesses to make meaningful decisions on Data Center Management that lead to optimization of resources, cost reductions and significant ROI. All organizations regardless of size need an accurate data set for their existing IT asset infrastructure. This in turn enables them to take advantage of the considerable cost reductions and

efficiency gains that can be achieved by Data Center Optimization methodologies. Our team of dedicated professionals provides the technology and expertise that can help your organization to get this job done quickly, precisely and cost-effectively. Current “by hand” data collection practices are both slow and prone to large margins of error. We have developed a unique proprietary software application, OSPI (On Site Physical Inventory®), to eliminate these problems.

Liberator Medical Holdings, Inc.
OTCBB:LBMH

Liberator Medical Holdings, Inc.'s subsidiary, Liberator Medical Supply, Inc., established the Liberator brand as a leading national direct-to-consumer provider of quality medical supplies to Medicare-eligible seniors. An Exemplary Provider(TM) accredited by The Compliance Team, its unique combination of marketing, industry expertise and customer service has demonstrated success over a broad spectrum of chronic conditions. Liberator is recognized for offering a simple, reliable way to purchase medical supplies needed on a regular, ongoing, repeat-order basis, with the convenience of direct billing to Medicare and private insurance. Approximately 85% of its revenue comes from supplying products to meet the rapidly growing requirements of general medical supplies, personal mobility aids, diabetes, urological, ostomy and mastectomy patients. Liberator communicates with patients and their doctors on a regular basis regarding prescriptions and supplies. Customers may purchase by phone, mail or internet, with repeat orders confirmed with the customer and shipped when needed.

To obtain additional information go to: <http://www.wallstreetresources.net/liberator.asp>

Mimvi, Inc.
OTCQB: MIMV

Mimvi is a pure-play search engine and recommendation technology company for Mobile Apps. It's (patent pending) proprietary search and "intelligent" recommendation algorithms enable the search and discovery of Mobile Apps, Mobile Content and Mobile Products across multiple devices and platforms, including: the Iphone, Google Android, BlackBerry and Web Apps.

To obtain additional information go to: <http://www.wallstreetresources.net/mimvi.asp>

Panache Beverages, Inc.
OTCQB:WDKA

Panache Beverage, Inc. is an alcoholic beverage company specializing in the development and global sales and marketing of spirits brands. The Panache portfolio contains three brands, Wodka Vodka, Alchemia Vodka and Alibi Bourbon.

Panache holds a "build and exit" mentality - its expertise lies in the strategic development and early growth of its brands establishing the Company's assets as viable acquisition candidates for the major global spirits companies including Diageo, Bacardi, Future Brands, Pernod Ricard and Moet Hennessey. The goal is to sell brands individually as they mature while continuing to pipeline new brands in to the Panache portfolio. To obtain additional information go to: <http://www.wallstreetresources.net/panache.asp>

Water Technologies Intl., Inc.
OTC:WTII

Water Technologies International, Inc., (WTII) is in the business of designing, manufacturing and distributing Atmospheric Water Generators (AWGs) and related products through its subsidiaries Aqua Pure International, Inc. and GR8 Water, Inc. The Company has patent pending products in water generation, air filtration, water filtration and dehumidification. WTII sells and distributes home, office and commercial AWGs units that produce drinking water, ranging from seven gallons to several thousands of gallons per day by extracting water from the air.
