## **Kane Biotech Presents Data To Global Wound Care Community at WCET®–NSWOCC® 2026 Joint Congress**

**Case study presented highlighted clinical experience with revyve® in complex wound care**

WINNIPEG, Manitoba, May 13, 2026 (GLOBE NEWSWIRE) -- Kane Biotech Inc. (TSX-V:KNE) (the “Company”, “Kane” or “Kane Biotech”) announced today its participation in the World Council of Enterostomal Therapists and Nurses Specialized in Wound, Ostomy and Continence Canada (“WCET–NSWOCC”) 2026 Joint Congress, held April 24–28, 2026, in Vancouver, British Columbia.

The WCET–NSWOCC Joint Congress brings together global clinical leaders in wound, ostomy and continence care. Kane Biotech participated as an exhibitor and presenter, focusing on educating clinicians on the clinical benefits of revyve Antimicrobial Wound Gel, part of the revyve product family cleared by the U.S. FDA and authorized for sale in Canada.

*FDA cleared and Health Canada approved revyve Antimicrobial Wound Gel and revyve Antimicrobial Wound Gel Spray*

At the Congress, Kane Biotech presented a scientific poster: *‘Re-Balancing the Wound Environment Leads to Progressive Wound Healing in High-Risk Patients: A Case Study Using a New Thermo-Reversible Wound Gel.’* The case study demonstrated how rebalancing the wound environment supported progression toward healing in a complex diabetic foot ulcer, highlighting the potential to improve patient outcomes and quality of life.

The link to the presentation can be found [here](#).

Throughout the Congress, Kane Biotech engaged directly with wound care nurses, physicians, and advanced practitioners from Canada and international markets, with a strong emphasis on clinical education.

Discussions focused on challenges in chronic wounds, the impact of biofilm on delayed healing, and how antimicrobial approaches like revyve can be integrated into standard care. The Company observed strong interest from clinicians seeking evidence-based solutions to

improve healing outcomes.

“The WCET–NSWOCC Congress was a great opportunity to connect directly with clinicians,” said Patti Burke-Martin, Vice President of Business Development, Canada. “The discussions reinforced the importance of education in helping clinicians improve patient outcomes, while also supporting our commercialization efforts.”

Participation in WCET–NSWOCC 2026 as an important part of Kane’s strategy to educate the global wound care community and advance evidence-based approaches to improving patient quality of life.

### **About Kane Biotech Inc. (TSX-V:KNE)**

Kane Biotech is commercializing and developing novel wound care treatments that disrupt biofilms and transform healing outcomes. Biofilms are one of the main contributors to antibiotic resistance in wounds, resulting in serious clinical outcomes and significant cost. revyve addresses both biofilms and wound bacteria. revyve Antimicrobial Wound Gel, revyve Antimicrobial Wound Gel Spray and revyve Antimicrobial Skin and Wound Cleanser are all U.S. FDA 510(k) cleared. revyve Antimicrobial Wound Gel and revyve Antimicrobial Wound Gel Spray are also Health Canada approved.
