

Canaccord Genuity Growth Conference

August 11, 2016

Peter J. Gundermann
President & CEO

David C. Burney
Executive VP & CFO

Safe Harbor Statement

These slides (and the accompanying oral discussion) contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements involve known and unknown risks, uncertainties and other factors that could cause the actual results of the Company to differ materially from the results expressed or implied by such statements, including general economic and business conditions, conditions affecting the industries served by the Company and its subsidiaries, conditions affecting the Company’s customers and suppliers, competitor responses to the Company’s products and services, the overall market acceptance of such products and services, the effect of the Company’s strategy and other factors disclosed in the Company’s periodic reports filed with the Securities and Exchange Commission. Consequently, such forward-looking statements should be regarded as the Company’s current plans, estimates and beliefs. The Company does not undertake and specifically declines any obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect any future events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Astronics Corporation

NASDAQ: ATRO

Index membership	Russell 3000 [®] /2000 [®]
Recent price	\$39.06
52-week range	\$24.75 – \$54.50
Market capitalization	\$988 million
Total shares outstanding:	25.3 million
Common	19.3 million
Class B (10 votes per share)	6.0 million
Avg. daily trading volume (3 mos.)	139,800
Ownership (Common and Class B shares combined):	
Institutional	70%
Insider	12%

Market data as of close of business on August 1, 2016 [Source: Bloomberg LP]; Ownership as of most recent filing; Share price and SHOUT reflect October 2015 15% Class B Stock distribution

Product Offerings in Two Business Segments

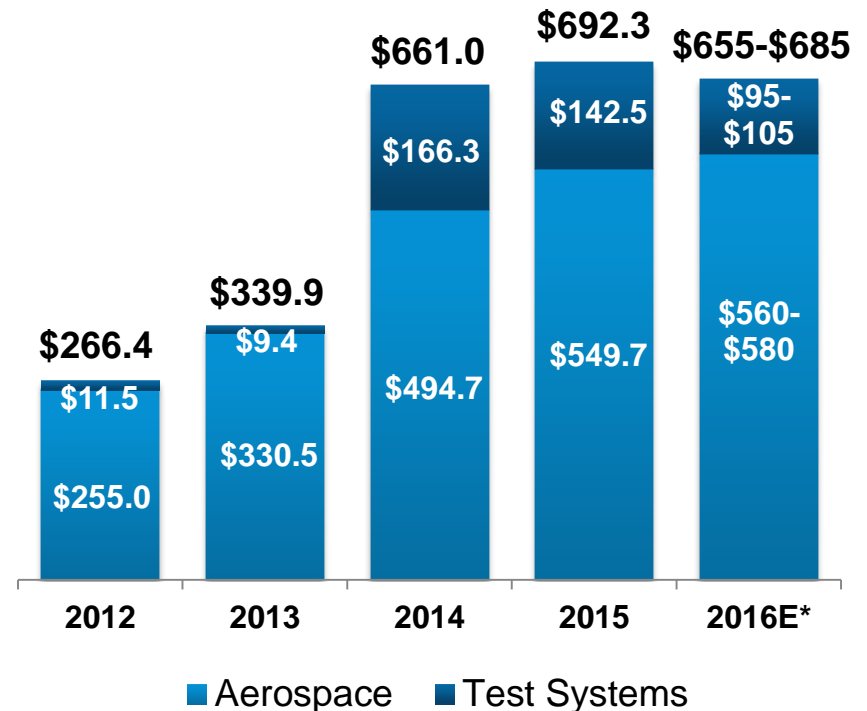

Aerospace

- Electrical Power and Motion (EP&M)
- Lighting and Safety (L&S)
- Avionics
- Systems Certification
- Structures

Test Systems

- Semiconductor
- Aerospace & Defense

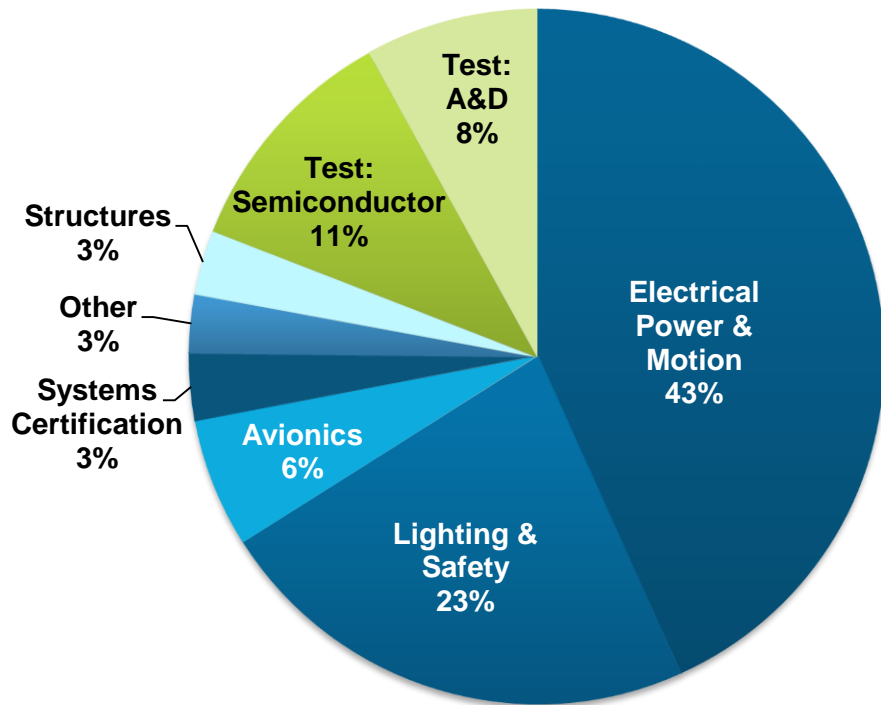

Sales

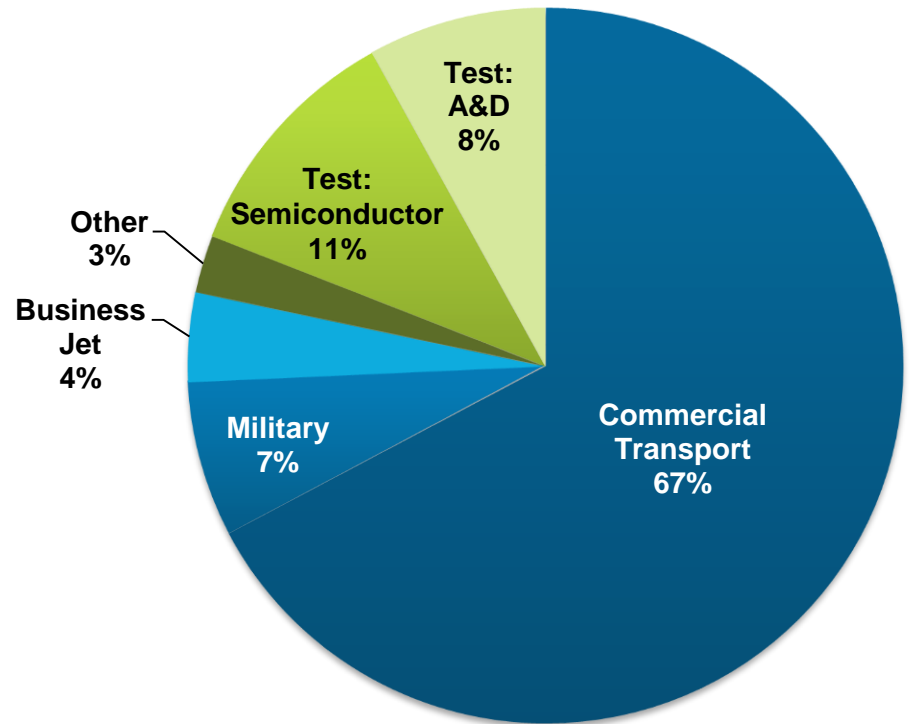

* Guidance provided as of August 3, 2016
Segment sales tally may differ due to rounding.

Diverse Sales Composition

Sales by Product

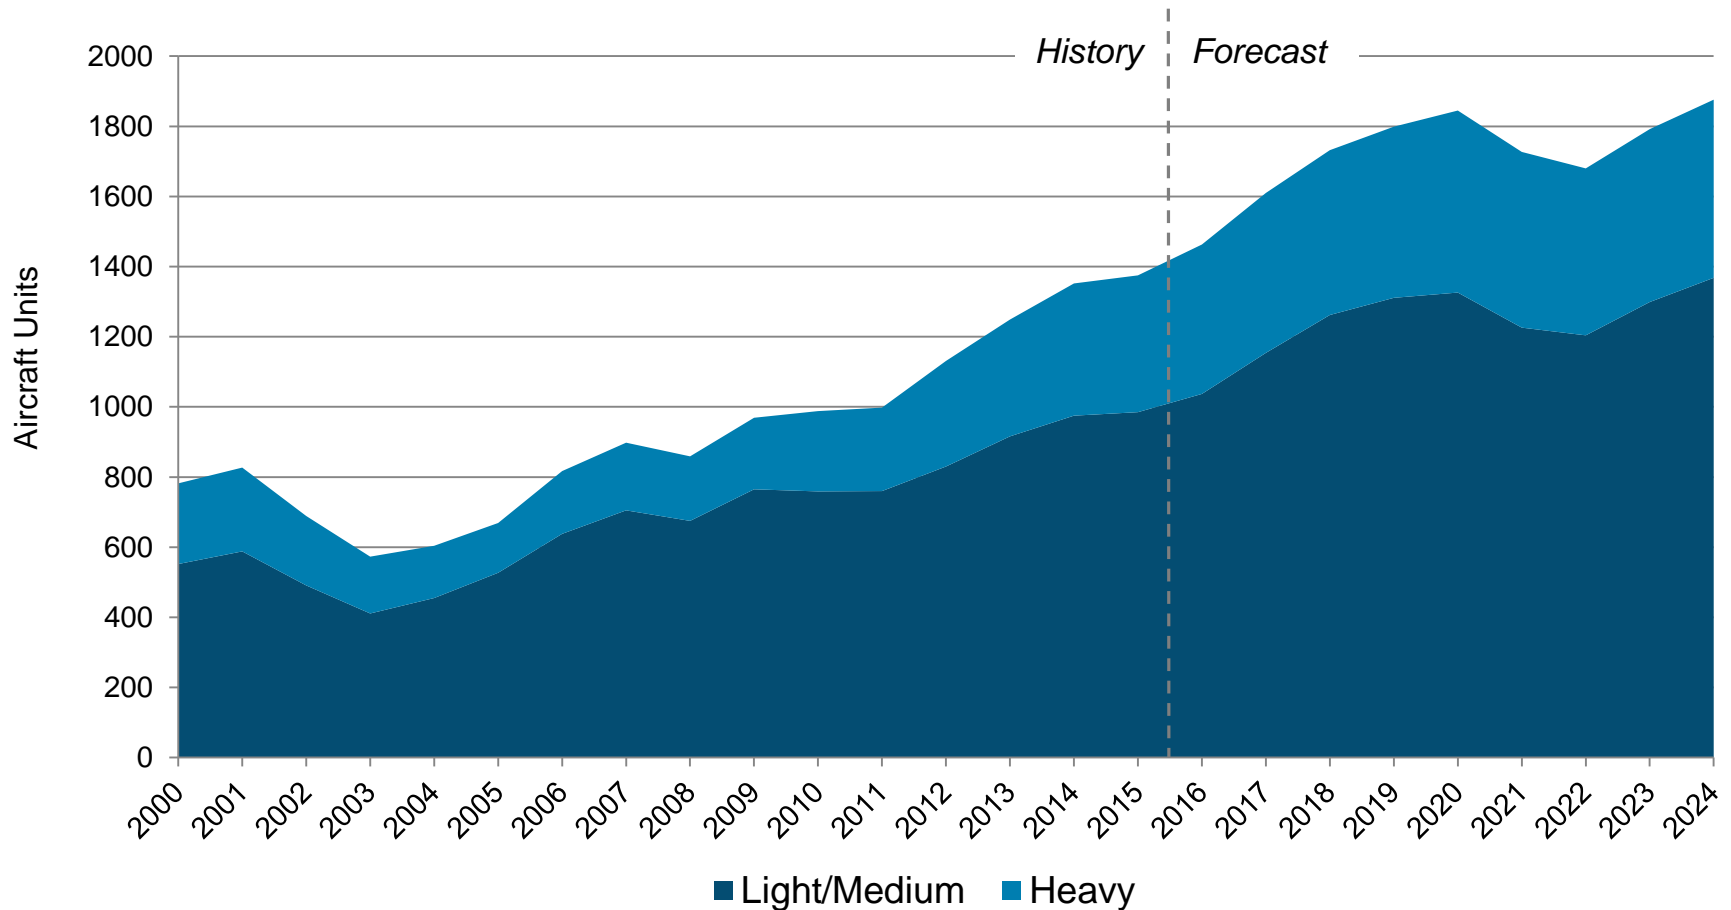

Sales by Market

Q2 2016 TTM Sales: \$681.4 Million

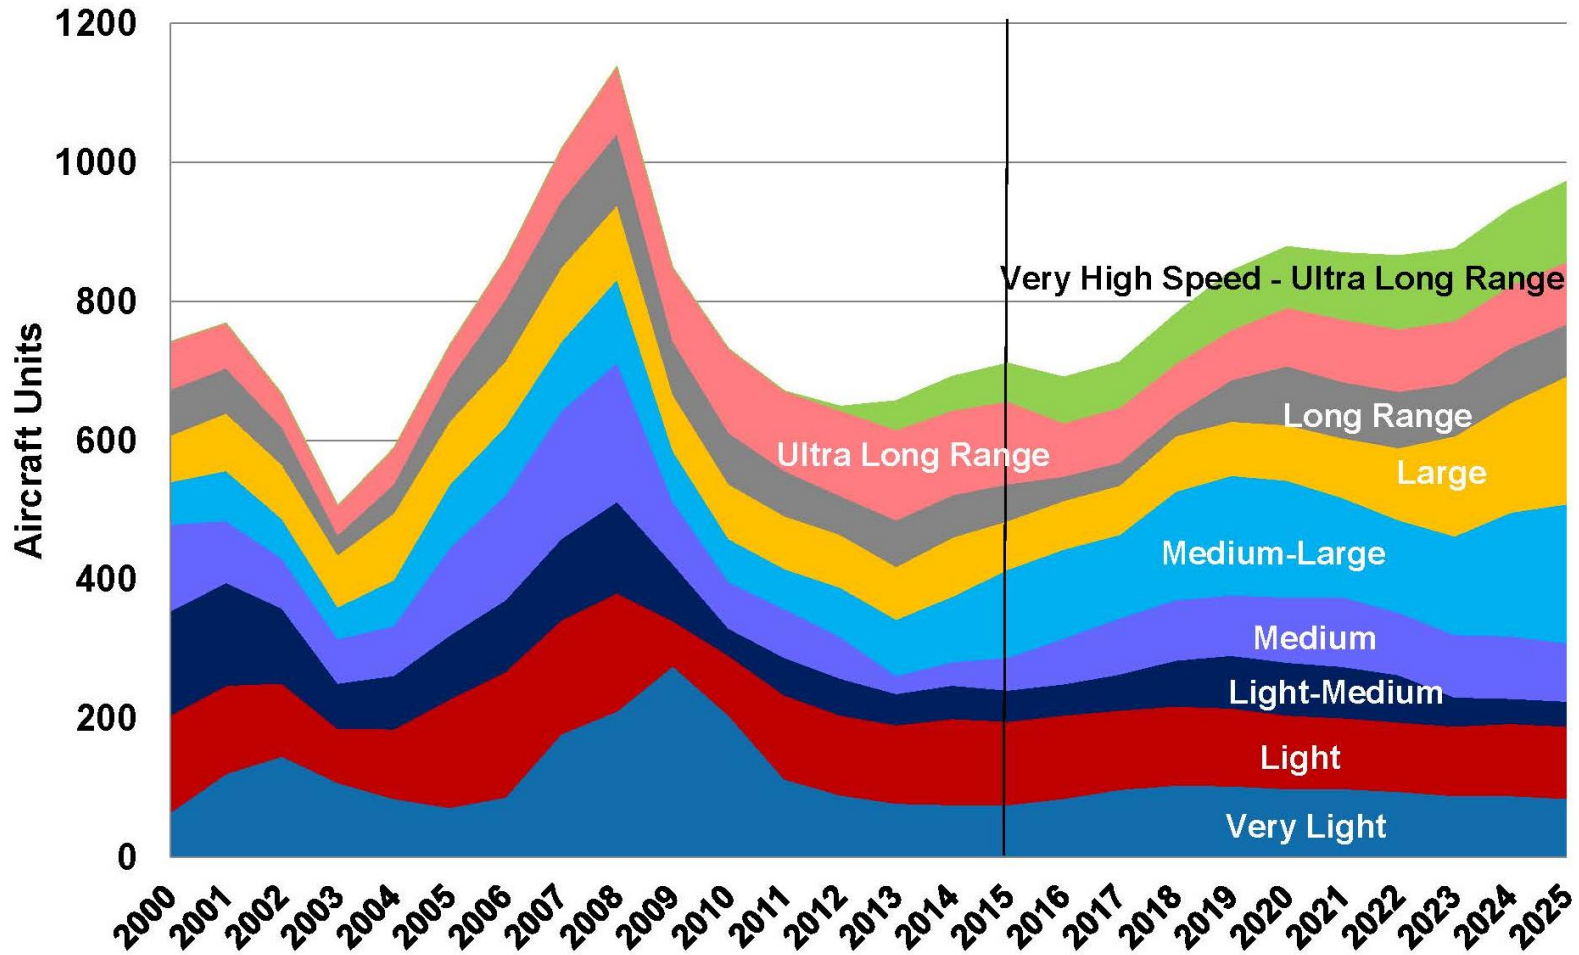

Continued Growth in Commercial

Commercial Transport Delivery Forecast

Source: Airbus & Boeing Actual deliveries through 12/31/2015 / Forecast International (July 2015)

Outlook For Business Jet Deliveries

~9,200 Aircraft from 2015 - 2025

Source: Honeywell Business Aviation Market Update, November 2015

Leading Provider of Passenger Power

EP&M: In-Seat Power Supply (ISPS)

- Passenger power for 900,000+ seats
 - ◆ Est. 3M+ seats flying (~30% penetration)
- Sales to IFE providers, commercial airlines and BizJet OEMs
- ASP: \$750-\$850 / seat
- Competitive advantage: Large installed base, ~90% market share
- Large growth opportunity with narrow body adoption

Establishing Market Leadership

EP&M: Airframe Power

COREPOWER®

Intelligent Power Management Systems

Solid-state systems replace extensive wiring and traditional electromechanical components with modular electronics & software.

- Increased Reliability
- Reduced Weight
- Automation
- Flexibility
- Lower Life Cycle Cost

Wins:

- ✓ DAHER TBM 900
- ✓ Bell 505, 525 & V280
- ✓ Pilatus PC-24

Specialize in High-End Seat Technology

EP&M: Seat Actuation

Gen VI Smart Motion System

Gen V Nano Smart Motion System

Established Position on 777X and 737 MAX

Lighting and Safety: Passenger Service Units (PSUs)

- Recently won Embraer E2

Strong position with Boeing

- **777** - approximately \$235k in content (PSUs, fuel access doors)
- **737** - approximately \$100k in content (BSI PSUs, fuel access doors)
- **787** - approximately \$45k in content (fuel access doors)
- **747** - approximately \$30k in content (PSUs, fuel access doors)
- **777X** - Recent award being negotiated (PSUs)

Unique Product Offering

Lighting and Safety: Aircraft Lighting

Exterior Lighting Systems

- Beacon & Formation
- Taxi & Landing
- Position / Anti-Collision
- Pioneered Application of Hi-Res / Low-Power LEDs for Aircraft Lighting
- LED Lighting on 737 Max

Cabin Lighting Systems

- Emergency Egress Lighting
- Emergency Signs
- Passenger Information Signs
- Flood Lights
- Smart Lighting Systems

Cockpit Lighting Systems

- Panels
- Avionics HMI
- Lighting Controllers
- Control Panel Assemblies
- Night Vision Modifications

Industry Leading Technologies

Avionics: Databus Solutions

- Aircraft Interface Device (AID): Translation devices that enable varying system protocols to communicate
 - ◆ Interface between EFB and Aircraft Systems
- Embedded Computers, Systems & Function Cards

Data/protocol conversion

Data concentration/separation

Domain isolation

Operational processing

webFB™
Wireless Electronic Flight Bag

- Gather aircraft data
- Run custom software or a variety of Type A/B EFB applications
- Securely view applications on choice of wireless devices

Connectivity Solutions

Avionics: Antenna Systems

Satellite-Based Broadband

- Cost effective solutions for in-flight internet and TV connectivity
- Ku-band: leading technology, lower cost, flexible applications, efficient, upgrading
- Suited for commercial, business, VVIP and military aircraft applications
- Dedicated global connectivity solution for VVIP/Bizjet market with Panasonic Avionics

Specialized Capabilities

Avionics: In-flight Entertainment for VVIP

- Large private and government jets
- \$2 million to \$10 million per install
- UHD Media Center
 - ◆ First aeronautical player with 4K Ultra HD technology

VCC

Engineering Solutions

Systems Certification

- A leading provider of engineering, design and certification solutions for commercial aircraft
 - ◆ Specialize in connectivity, in-flight entertainment, electrical power systems and off-seat power solutions
- Customers include Panasonic and Gogo
- New capability to bring to the market and leverage across the company internally
- Launched AeroShield low drag radome and composite adapter plate
 - ◆ Composite plate expected to be certified in second half of 2016

Aerospace Segment: Well Positioned

Wide range of high profile next generation aircraft platforms

Embraer Phenom 100/300:
Exterior lighting

UH-60 Blackhawk:
Exterior cockpit lighting

V-22 Osprey:
Cabin, cockpit & exterior lighting

Cessna:
Exterior & cockpit lighting

Airbus A380:
Cabin lighting & cabin electronics

Boeing 787:
Passenger power & fuel doors

Boeing 737 NG & BSI:
PSU, fuel doors & passenger power available

F-35 JSF:
Exterior lighting suite & lighting controllers

Pilatus PC-24:
Airframe power & induction starter generator

Airbus 350:
Emergency egress lighting & passenger power

Bell 505, 525 & V280:
Airframe power

737MAX:
Exterior lighting system & PSU

777X: PSU

Embraer E2:
Interior and exterior emergency lighting system & PSU

Current

Next Generation

A&D Test Systems

- Test systems equipment, radio test solutions, test program sets and training and simulation systems
- Integrated logistics support
- Validate operating performance on multiple top-priority defense communications and weapons systems platforms

Launched next-gen radio test set that combines nine test capabilities in one device

Unique Solution for Semiconductor Testing

Shortened Time to Volume

Rapid test development and deployment

Reduced Cost of Test

massively parallel, system level test dramatically reduces cost of test (COT)

Innovative Test Solutions

“Engineer to engineer” design and manufacturing philosophy

Flexibility & Scalability

Configurable systems accommodate the device under test (DUT) and test objectives; “copy-exact” methodologies support global scaling

Opportunities

- More programs with major customer
- Developing new customers

FINANCIALS

Sales & Bookings

(\$ in millions, except EPS)

Sales

Diluted EPS²

\$0.87 \$1.08 \$2.16 \$2.55

Annual Bookings

¹ Guidance provided as of August 3, 2016

² Adjusted for October 2015 15% Class B Stock distribution

Solid Margins

(\$ in millions)

Gross Profit & Margin

Operating Profit & Margin

Develop and Capitalize on Technical Expertise

(\$ in millions)

Engineering & Development Expense

* Guidance provided as of August 3, 2016

- Majority focused on customer specific projects
- Identify market opportunities
- Develop/acquire technical capability
- Earn higher returns by providing innovative solutions
- E&D estimated to continue at roughly the same rate as 2015

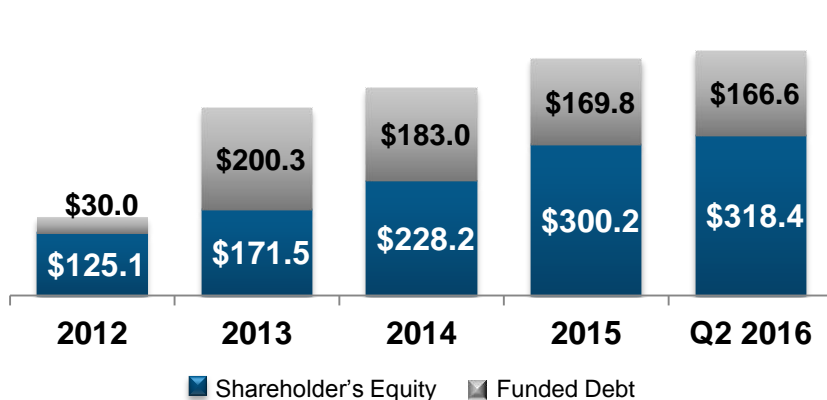

Strong Balance Sheet and Cash Flow

(\$ in millions)

Cash From Operations

Funded Debt & Shareholders' Equity

Capital Expenditures

* Guidance provided as of August 3, 2016

Financial Strategy and Priorities

Maintain a strong, flexible balance sheet for growth

- Capital allocation priorities:
 1. Organic growth
 2. Acquisitions
 3. Pay down debt
 4. Stock repurchases

- Tolerance for debt:
 - ◆ 2x - 3x
 - ◆ Willing to flex up

- Maintenance CapEx:
 - ◆ \$17 million to \$20 million

CapEx guidance provided as of August 3, 2016

Canaccord Genuity Growth Conference

August 11, 2016

Supplemental Slides

Major Competitors

Electrical Power & Motion

- Airbus KID – Systeme
- Hamilton Sundstrand/UTC
- Crane Aerospace

- Zodiac
- Honeywell
- OEM internal processes

Lighting & Safety

- Zodiac
- Honeywell
- Esterline
- Hamilton Sundstrand/UTC
- Draeger (B/E Aerospace)

- Goodrich
- Whelen
- Diehl Aerospace
- Numerous smaller suppliers

Avionics

- GE
- North Atlantic Industries
- TECOM (Smiths Group)

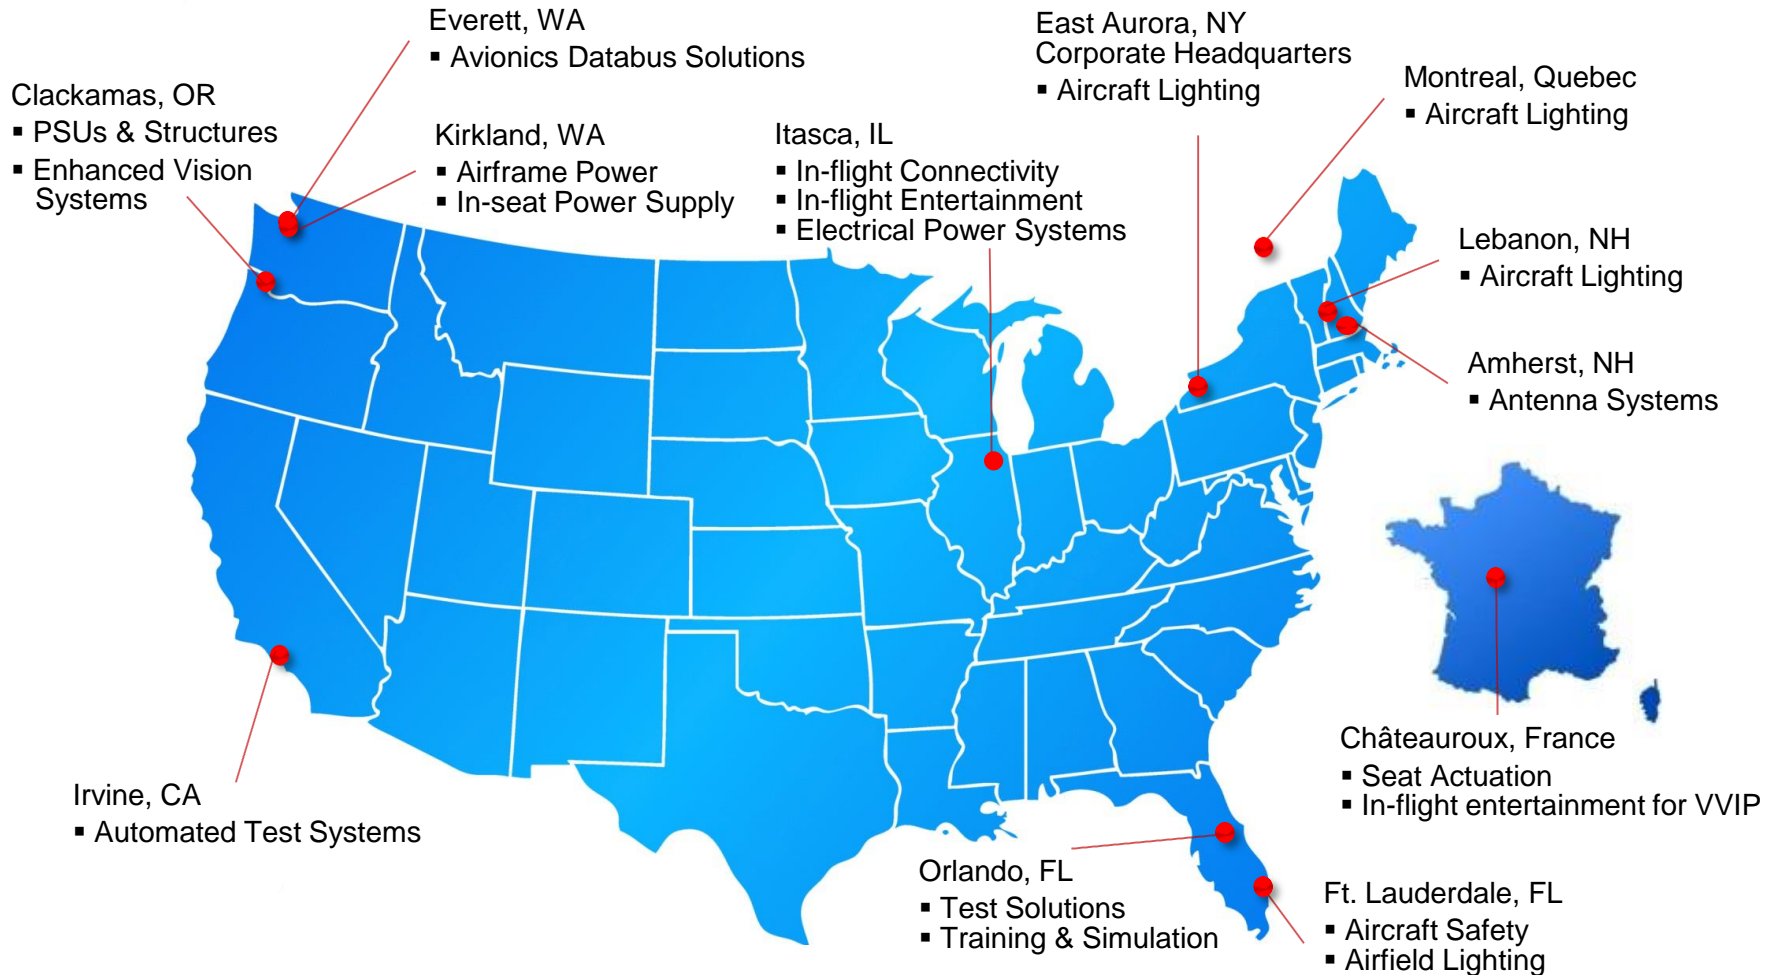

- Kontron
- Panasonic / Mitsubishi MELCO

Test Systems

- Aeroflex (Cobham)
- Lockheed
- National Instruments

- Keysight
- Teradyne

Astronics Locations

Adding Technology
