2013 Annual Report

As business becomes increasingly globalized and knowledge-based, the demand for top talent grows ever more urgent. For many companies, talent is now recognized as a key driver of long-term performance. And for others, it is seen as nothing less than a question of survival.

GREATNESS CULTIVATED. POTENTIAL REALIZED.

Nobody is better placed to advise, guide and serve the world's leading organizations than Korn/Ferry. Building on our peerless heritage in executive search and leadership consulting, we've enhanced our capabilities to cover nearly every business-critical area of talent management.

IN ESSENCE

Korn/Ferry offers unrivalled breadth of expertise in talent management. From an organization's boardroom to the vital many, our offerings help clients deliver and develop the superior talent that will accelerate future success.

IN REVIEW

Dear Stockholders,

In fiscal year 2013:

- We achieved revenue of \$812.8 million (an all-time high in the Firm's 43-year history)
- One out of every five employees was new to Korn/Ferry
- 40% of our revenue in the fiscal fourth quarter was generated outside of our core offering of Executive Search
- We delivered a firm-wide adjusted EBITDA margin of 12%*
- We remained financially strong with cash and marketable securities totaling \$366 million at fiscal year's end, with \$157 million of investable cash and no debt

Looking back over the past fiscal year, we can reflect on the significant transformation the Firm has undertaken in a short period of time—from a monoline to a multi-solutions organization.

A high-level view of Korn/Ferry today looks radically different than it did just a few years ago. Today, our landscape is far more diverse; Korn/Ferry has rapidly amassed an array of unique assets, intellectual property and talent management offerings as we build the infrastructure to scale the Firm and support the delivery of a comprehensive approach to talent. This is something we take pride in, particularly given the stubborn economic climate of the past several years.

Our Firm is seizing the opportunity to create the world's preeminent leadership and talent consulting organization.

Over the last 12 months, by further diversifying our business and making strategic acquisitions, most notably Global Novations and PDI Ninth House, we have broadened the value we bring to clients, making Korn/Ferry more relevant, our brand more elastic and our flagship Search offering more differentiated.

Today's Korn/Ferry is well positioned to assist with the larger, more strategic talent and leadership issues facing our clients. As CEOs struggle with a wide array of issues—most immediately, the fight for relevancy and growth—Korn/Ferry is the bridge between a client's business and talent strategies.

Regardless of the strategic path chosen, an organization's workforce—its people—is ultimately what matters most. This raises pertinent questions in this interconnected world: How can a company's workforce become better aligned with its strategy? What new skills will be required to execute the plan? What talent is needed to realize the CEO's vision? How can a CEO overcome employee fatigue, accelerate engagement and establish a common purpose?

Finding people is no longer enough; finding out the "who" of someone is what matters most. In other words, equally important to experience is "fit" for the client organization—cultural fit.

Korn/Ferry is a knowledge-based company with deep intellectual property and research that allow us to deliver meaningful outcomes for our clients. Case in point: including PDI Ninth House, we have now assessed more than 2.5 million professionals. We understand perhaps greater than any other firm what makes great leaders tick, the competencies they possess that distinguish them from others, as well as the potential derailers that can damage not only their careers, but their organization's performance.

Utilizing our intellectual capital, we are systematically driving more integrated, scalable client relationships within the C-suite, boardrooms and offices of human resources leaders worldwide. This is evidenced by the fact that 88% of our top 50 clients now utilize at least two of our service lines.

In today's environment, global organizations have increasingly complex talent management needs. A piecemeal approach to talent-oriented services is no longer viable nor valuable to clients. These organizations need a true talent partner—someone who "connects the dots" across their entire talent continuum.

Korn/Ferry's "Many to One" approach to talent starts with Search. Our premier offering continues to open doors for Korn/Ferry's talent management offerings and approach at the highest levels of global organizations, which can cascade to create additional opportunities throughout our clients' talent management spectrum.

Our Leadership and Talent Consulting business concluded the fiscal year with an annual revenue run rate of \$240 million (26% of the Firm's revenue mix). On an annual run rate basis, our Futurestep business generated 14% of the Firm's overall revenue mix, with more than 55% of that business stemming from Recruitment Process Outsourcing—major projects producing more regular, multi-year, higher growth and recurring revenue streams.

Through our breadth and depth of assets and offerings, we are increasingly in a class by ourselves—designing and building talent strategies and attracting the right talent for our clients.

It has been said that without change, there can be no growth. Embedded within every extraordinary company is a distinctive sense of purpose—one that disrupts the old order of how things have always been done and empowers the creation of the new and different.

* Adjusted EBITDA refers to earnings before interest, taxes, depreciation and amortization, further adjusted to exclude restructuring charges, transaction and integration costs and separation costs. Unadjusted EBITDA margin for fiscal year 2013 was 8.8%.

As our results throughout this fiscal year affirm, Korn/Ferry is on the move. Looking ahead, we will maintain our forward-leaning, innovative minded approach—delivering a robust pipeline of talent management offerings to our clients, embracing progressive technologies, exploring cutting-edge leadership and talent solutions.

Through the efforts of our global colleagues, we have much to be proud of and much to which we can look forward. As the world continues to evolve, we are at the forefront defining who we are, one client, one professional at a time.

As we drive our strategy, the Firm will remain focused on not only meeting but exceeding our financial operating boundaries, delivering outstanding performance for our many stockholders.

I would like to take this opportunity to thank our more than 3,200 colleagues around the globe for their efforts in shaping a new Korn/Ferry and changing the lives and accelerating the success of our clients. I extend my gratitude to the Firm’s leadership team for their unyielding commitment to our mission, vision and strategy, and to our board of directors for their continued guidance and support.

Korn/Ferry is indeed the world’s preeminent leadership and talent consulting organization, creating better leaders for a better world, accelerating the destination of our clients and driving long-term value for our stockholders.

Item 1. *Business*

Business Overview

Korn/Ferry International (referred to herein as the “Company,” “Korn/Ferry,” or in the first person notations “we,” “our,” and “us”) is a premier global provider of talent management solutions that help clients to design strategies to assist clients in building and attracting their talent. We opened our first office in Los Angeles in 1969 and currently operate in 87 offices in 37 countries. As of April 30, 2013, we had 3,272 full-time employees, including 399 Executive Recruitment, 133 Leadership & Talent Consulting, and 75 Futurestep consultants who are primarily responsible for client services. Our clients include many of the world’s largest and most prestigious public and private companies, middle market and emerging growth companies, as well as government and nonprofit organizations. We have built strong client loyalty with 81% of our assignments performed during fiscal 2013 on behalf of clients for whom we had conducted assignments in the previous three fiscal years.

We were originally formed as a California corporation in November 1969 and reincorporated as a Delaware corporation in fiscal 2000.

Korn/Ferry delivers and develops superior talent for the world’s leading organizations. We focus on three areas:

- We **Design** talent strategies to accelerate the achievement of our clients’ business goals;
- We **Build** high-performing talent through engagement and development; and
- We **Attract** the right talent and create talent pools for the future.

Delivered by our professionals and utilizing proprietary research and intellectual property, Korn/Ferry helps clients design strategies to assist clients in building and attracting leaders who can drive organizational success, through the following business segments:

Executive Recruitment: Executive Recruitment, our largest business, focuses on recruiting board-level, chief executive and other senior executive positions for clients predominantly in the consumer, financial services, industrial, life sciences/healthcare provider, technology and educational industries. The relationships that we develop through this business allows us to add incremental value to our clients through the delivery of our many talent management solutions.

Leadership & Talent Consulting (“LTC”): Our comprehensive blend of talent management offerings assists clients with their ongoing assessment, organizational design and leadership development efforts. Services address six fundamental needs — board effectiveness, Chief Executive Officer (“CEO”) & top team effectiveness, diversity & inclusion, integrated talent management, leadership development, and organization transformation. Each of Korn/Ferry’s solutions is delivered by an experienced team of leadership consultants, a global network of top executive coaches and the intellectual property of research-based, time-tested leadership assessment and developmental tools.

High-Impact Recruitment Solutions: In 1998, we extended our market reach into recruitment for non-executive professionals with the introduction of our subsidiary, Futurestep. Futurestep draws from Korn/Ferry’s four decades of industry experience to offer fully customized, flexible services to help organizations meet their talent and recruitment needs. Futurestep’s portfolio of services includes recruitment process outsourcing (“RPO”), project recruitment, search and consulting.

We file annual, quarterly and current reports, proxy statements and other documents with the Securities and Exchange Commission (the “SEC”), pursuant to the Securities Exchange Act of 1934 (the “Exchange Act”). You may read and copy any materials that we file with the SEC at the SEC’s Public Reference Room at 100 F Street N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-732-0330. Our reports, proxy statements and other documents filed electronically with the SEC are available at the website maintained by the SEC at www.sec.gov.

We also make available, free of charge on our website at www.kornferry.com, our annual, quarterly, and current reports, and, if applicable, amendments to those reports, filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after we electronically file such reports with, or furnish them to, the SEC.

Our Corporate Governance Guidelines, Code of Business Conduct and Ethics and the charters of the Audit Committee, Compensation and Personnel Committee, and Nominating and Corporate Governance Committee of our Board of Directors are also posted on our website at www.kornferry.com. Stockholders may request copies of these documents by writing to our Corporate Secretary at 1900 Avenue of the Stars, Suite 2600, Los Angeles, California 90067.

Industry Overview

Executive Recruitment Services: Our executive recruitment services concentrate on searches for positions with annual compensation of \$250,000 or more, or comparable in foreign locations, which may involve board-level, chief executive and other senior executive positions. The industry is comprised of retained and contingency recruitment firms. Retained firms, such as Korn/Ferry, typically charge a fee for their services equal to approximately one-third of the first year annual cash compensation for the position being filled regardless of whether the position is filled. Contingency firms generally work on a non-exclusive basis and are compensated only upon successfully placing a recommended candidate.

Leadership & Talent Consulting Services: Our LTC services are accelerating our transformation into a broad-based talent management firm. These diversified offerings help our clients to not only attract but to design and develop their talent, to maximize leadership effectiveness and business impact. Our LTC offerings have recently been expanded and enhanced through the acquisitions of PDI Ninth House (“PDI”) and Global Novations, LLC (“Global Novations”).

High-Impact Recruitment Solutions: Futurestep, a Korn/Ferry subsidiary, offers talent acquisition solutions for mid- and high-level management, with annual compensation less than \$250,000 or comparable in foreign locations. Futurestep has locations on five continents and a record of success in helping clients improve business performance through high-impact talent.

Industry Trends

The current global economic environment is unpredictable as we face such challenges as low job growth, uneven consumer demand, and sovereign governments near financial crisis. Despite these market conditions, we remain vigilant about accelerating our clients’ success and believe the mid- to long-term business outlook for the talent management industry is positive. Contributing to this is a confluence of market trends which should ultimately fuel job growth and hiring, including the following:

Consolidation of Talent Management Solution Providers — In choosing recruitment and human resource service providers, we believe:

- Companies are actively in search of preferred providers in order to create efficiencies and consolidate vendor relationships;
- Companies that can offer a full suite of talent management solutions are becoming increasingly attractive; and
- Clients seek trusted advisors who understand their business and unique organizational culture in order to manage the multiple needs of their business on a global scale.

Skills Gaps — There are not enough highly “skilled” people coming into the labor market to fill open jobs. Particularly at the senior management levels, there is an inadequate available talent pool. New leaders must step into bigger, more complex, and more global roles faster — and with less experience — than their predecessors. We believe employers will increasingly seek service providers who can help them find, develop and retain highly qualified talent that secures a competitive advantage.

Human Capital Is One of the Top CEO Challenges — Whereas the innovation solution used to be technology, now the human element — the people, the minds, the alliances and the culture that can create and then nurture innovative ideas — are seen as central to CEOs. In fact, according to the Conference Board, human capital — including talent acquisition, leadership, employee development, training and engagement — is the single biggest challenge facing CEOs in 2013.

Emerging Markets Are Focus for New Growth — We are experiencing a global workforce imbalance as slower-growth countries are facing hiring slowdowns and emerging economies' need for talent is increasing. If emerging markets in Asia, Eastern Europe and Africa are to continue their growth trajectory, they will need to solve human capital issues like how to attract, engage and retain highly competent, innovative talent, as well as how to develop effective leaders to drive the business. As companies expand internationally, and different markets present more attractive business opportunities, they have to think about their workforce and talent in this way too. Clients are turning to firms that understand the global complexities impacting workforce planning today.

Talent Analytics — Companies are increasingly leveraging big data and analytics to measure the influence of activities across all aspects of their business, including HR. They expect their service providers to deliver superior metrics and measures and better ways of communicating results. Korn/Ferry's go-to-market approach is increasingly focused on talent analytics — we are injecting research-based intellectual property (“IP”) into all areas of our business, cascading innovation and new offerings up to our clients.

Increased Outsourcing of Recruitment Functions — More companies are focusing on core competencies and outsourcing non-core, back-office functions to providers who can provide efficient, high-quality services. Third-party providers can apply immediate and long-term approaches for improving all aspects of talent acquisition. Advantages to outsourcing part or all of the recruitment function include:

- Access to a diverse and highly qualified pool of candidates, which is refreshed on a regular basis;
- Reduction or elimination of the costs required to maintain and train an in-house recruiting department in a rapidly changing industry;
- Ability to use the workflow methodologies we have developed over tens of thousands of assignments, which allows clients to fulfill positions on a streamlined basis;
- Access to the most updated industry and geographic market information;
- Access to cutting-edge search technology software; and
- Ability to maintain management focus on core strategic business issues.

Key Role of Technology — At Korn/Ferry, we are adding more discipline and scientific research into the recruitment and talent management process, with emphasis shifting from candidate identification to candidate assessment, fit and attraction. Driving this initiative is enhanced technology, as the power of the Internet, databases and online talent communities make it possible to efficiently identify greater numbers of qualified candidates. Innovative technology, when combined with world-class intellectual property and thought leadership, creates a compelling set of tools to manage the process of identifying, assessing and recruiting the most desirable candidates.

Other Industry Trends — In addition to the industry trends mentioned above, we believe the following factors will have a long-term positive impact on the talent management industry:

- Increasing demand for professionals with not just the right technical skills, but also the right leadership style, values and motivation to meet the specific requirements of the position and organizational culture;
- Decreasing executive management tenure and more frequent job changes;
- Shifting balance of power towards the employee as more people take charge of their own careers, and the new norm of employee-driven development;
- Increasing importance of talent mobility in engaging and developing people within an organization;

-
- Consumer-grade employer branding; and
 - Inadequate succession planning.

Growth Strategy

Our objective is to expand our position as a premier global provider of talent management solutions. In order to meet this objective, we will continue to pursue five strategic initiatives:

1. Drive an Integrated, Solutions-Based Go-to-Market Strategy

Differentiating Client Value Proposition — Korn/Ferry offers its clients a global, integrated, enterprise-wide talent management solution. To that end, we have made progress in helping clients more effectively and efficiently design strategies to assist clients in building and attracting their talent.

In analyzing talent management across the entire value chain, Korn/Ferry has developed a robust suite of offerings and leverages our market-leading position in executive recruitment to extend the value we bring our clients through our diversified capabilities along the rest of the talent lifecycle through our LTC and Futurestep service lines.

Our synergistic go-to-market strategy, utilizing all three of our service lines, is driving more integrated, scalable client relationships, while accelerating our evolution to a consultative solutions-based organization. This is evidenced by the fact that nearly 88% of our top 50 clients utilize at least two of our service lines.

We are an increasingly diversified enterprise in the world of human capital services and products, an industry, that according to Bain & Company, represents an estimated \$380 billion global market opportunity.

In an effort to better coordinate global recruiting and to gain operational efficiencies, we expect that multinational clients increasingly will turn to strategic partners who can manage their recruitment needs on a centralized basis. This will require vendors with a global network of offices and technological support systems to manage multiple hires across geographical regions. We established our *Premier Client Partnership* (“PCP”) program to act as a catalyst for change as we transform our Company from individual operators to an integrated talent solutions provider, in an effort to drive major global and regional strategic account development as well as to provide a framework for all of our client development activities. Today, the PCP program consists of global colleagues from every line of business and geography. We are in the process of cascading this methodology throughout every market, country and office.

2. Deliver Unparalleled Client Excellence

World-class Intellectual Property — Korn/Ferry continues to scale and more deeply embed our industry-leading intellectual property within the talent management processes of our global clients.

Our IP-driven Lominger tools and services are being utilized by our clients for everything from organizational development and job profiling to selection, training, individual and team development, succession planning and more. We have more than doubled the Lominger business since we acquired it in 2006. As a product-focused offering, Lominger helps us to generate long-term relationships with our clients. We continue to seek ways to scale the Lominger product offering to our global clients.

Global organizations utilizing our Company’s validated assessment capability are realizing the power and benefits of Korn/Ferry IP in their talent evaluation process. Our assessment capability, currently utilized by more than 70% of our clients, can improve executive retention and prospects of promotion. According to internal research conducted by Korn/Ferry over the period of 2006-2009, executive candidates placed in a position where our proprietary assessment methodology was utilized were eight times more likely to be promoted within the first three years of employment than those searches where our assessment tool was not employed.

Our IP orientation is further validated by our recent acquisitions of PDI and Global Novations. These firms offer a variety of leadership development, coaching and assessment solutions for different organizational levels, as well as technology-driven talent management solutions.

Technology — Information technology is a critical element of all of our businesses. In fiscal 2013, we continued to invest in enhanced tools and knowledge management to gain competitive advantage. We introduced key enhancements to *Searcher Express*, our engagement execution platform and the cornerstone of the Company's strategy to better share knowledge. We introduced *iSearcher*, an iOS mobile version that enables our consultants to conveniently manage their search assignments on their iPhone or iPad wherever they go, providing secure access to key information from the field. We launched a new initiative to consolidate regional databases to improve cross border collaboration and visibility of multinational engagements and clients. We have expanded our IT security team and enhanced our security infrastructure to protect the Company's assets against today's threats.

The technology supporting LTC continued to evolve in fiscal 2013 through the integration of Lominger's intellectual property into our assessment and talent management services. We continued to build out our intellectual property platform, including enhancements to Lominger's e-Suite, Voices® 360 suite, Learning Agility tools, and library of e-books. Through the PDI acquisition, we acquired a sophisticated, cloud-based technology platform (*PALMS*) and a robust library of intellectual property. PALMS provides Korn/Ferry with the client-facing technology platform to launch all assessment activities, a centralized database to track and analyze all assessment data and an e-learning platform to launch interactive, simulation based learning modules. We are currently in the process of integrating PALMS across our entire LTC portfolio.

Information technology is a key driver of Futurestep's growth in RPO, project recruitment and search. Database technology and the Internet have greatly improved capabilities in identifying, targeting and reaching potential candidates. In fiscal 2013, we continued the integration of advanced, Internet-based sourcing, assessment and selection technologies into the engagement workflow. We launched *Foresight*, a new data aggregation warehouse for analytical reporting of Futurestep recruiting activities across internal systems and external clients' applicant tracking systems.

We are committed to investing in technology across all lines of business — extending the Company's brand through integration with social networks — and delivering our unique intellectual property through smart phones and tablets. We released *Forte*, a mobile/desktop application for career development and transitions. It enables users to build a customized, personal development plan drawing on the ProSpective assessment and Lominger competencies.

We will continue to enhance our technology in order to strengthen our relationships with clients, expand our markets through new delivery channels and maintain a competitive advantage in offering the full range of executive talent management services.

3. *Extend and Elevate the Korn/Ferry Brand*

Next to our people, the Korn/Ferry brand is the strongest asset of the Company. Since inception, Korn/Ferry has always maintained an aggressive stance in building our global presence and supporting our vision and ongoing growth through a comprehensive marketing approach. At the highest level, we will continue to extend and elevate the Korn/Ferry brand to raise awareness and drive higher market share within key segments.

Our leadership in executive recruitment enables us to grow our business by increasing the number of recruitment assignments we handle for existing clients. We also believe that our strong relationships and well-recognized brand name will enable us to bring a broader base of solutions and services to our existing client base and to potential new clients, while allowing us to build communities of candidates to whom we can directly market our services.

For example, we will leverage the work our Board & CEO Services practice performs at the top of our clients' organizations to promote awareness of our various solutions at the highest levels. We believe these engagements will create significant "trickle-down" revenue opportunities across all of our lines of business and lead to the expansion of other high-level, consultative relationships within the board and CEO community. Additionally, we have developed and launched an in-depth and ongoing professional development program called *The Edge* for our consultants and client-facing practitioners to further train them on our strategy, our various solutions and a systematic approach for broadening the conversations, and subsequently, the relationships with our clients.

4. Advance Korn/Ferry as a Premier Career Destination

As our business strategy evolves, so should our talent strategy in order to drive the growth we need and the culture we want, at a pace we can absorb. Our talent strategy is what we do to allow us to design, build and attract the best talent for ourselves (and, by extension, for our clients) to achieve our business potential.

Our goal is to become the premier career destination for top talent through offering a client-focused culture, promotional/developmental opportunities and compensation that aligns employee behavior to corporate strategy.

5. Pursue Transformational Opportunities Along the Broad Human Resources Spectrum

In addition to our heritage as a leading provider of executive recruitment, we also offer clients RPO, project recruitment, search and consulting services through Futurestep, and board effectiveness, CEO & top team effectiveness, diversity & inclusion, leadership development, organization transformation and integrated talent management services through LTC.

We will continue to develop and add new products and services that our clients demand and continue to pursue a disciplined acquisition strategy, both of which are consistent with our strategic goals.

Our Services and Organization

Organization

The Company operates in three global business segments: Executive Recruitment, LTC, and Futurestep. Beginning in the first quarter of fiscal 2013, the Company disaggregated its previously reported business segment, Executive Recruitment, into two business segments Executive Recruitment and Leadership & Talent Consulting. Our executive recruitment business is managed on a geographic basis throughout our four regions: North America, Europe, the Middle East and Africa (“EMEA”), Asia Pacific and South America. LTC and Futurestep are managed on a worldwide basis with operations in North America, Europe, Asia Pacific and South America.

We address the global recruitment needs of our clients at all levels of management by offering the following services:

Executive Recruitment Services

Overview — Our executive recruitment services are typically used to fill executive-level positions, such as board directors, CEO, chief financial officers (“CFO”), chief operating officers (“COO”), chief information officers (“CIO”) and other senior executive officers. Once we are retained by a client to conduct a search, we assemble a team comprised of consultants with appropriate geographic, industry and functional expertise. Our search consultants serve as management advisors who work closely with the client in identifying, assessing and placing qualified candidates. In fiscal 2013, we executed 7,554 executive recruitment assignments.

We utilize a standardized approach to placing talent that integrates research with our practical experience. Providing a more complete view of the candidate than is otherwise possible, we believe our proprietary tools generate better results in identifying the right person for the position. We call our executive recruitment methodology *The Korn/Ferry Advantage*.

We emphasize a close working relationship with the client and a comprehensive understanding of the client’s business issues, strategy and culture, as well as an in-depth knowledge of the skills necessary to succeed within a client’s organization. Initially, the search team consults with the client to better understand its history, culture, structure, expectations, challenges, future direction and operations. In these meetings, the team identifies the specific needs of the client and develops a profile of an ideal candidate for the position using our proprietary *Leadership Sort System*, which allows clients to select the desired leadership characteristics for specific roles. Early in the process, the team also works with the client to develop the general parameters of a compensation package that will attract highly qualified candidates.

Once the position is defined and outlined via an enhanced job specification that embodies the desired leadership characteristics, a research team identifies through the use of our proprietary databases and other information resources, companies in related industries facing similar issues and with operating characteristics similar to those of the client. In addition, the team consults with its established network of resources and searches our databases containing profiles of approximately five million executives to assist in identifying individuals with the right background, cultural fit and abilities. These sources are a critical element in assessing the marketplace.

An original list of candidates is carefully screened through phone interviews, video conferences and in-person meetings, using our proprietary behavioral interviewing approach. Candidates also complete *Search AssessmentSM*, a behavioral mapping tool that provides clients with insights into how candidates will lead, how they will approach and solve complex problems, what their emotional profile is likely to be and what motivates them to succeed. The client is then presented final qualified candidates to interview. We conduct due diligence and background verification of the candidate throughout the process, at times with the assistance of an independent third party.

The finalist for the position will usually meet with the client for a second and possibly a third round of discussions. At this point, the compensation package will have been discussed in detail, increasing the likelihood that an offer will be accepted. Throughout the process, ongoing communication with the client is critical to keep client management apprised of progress.

Industry Specialization — Consultants in our five global markets and one regional specialty practice groups bring an in-depth understanding of the market conditions and strategic management issues faced by clients within their specific industry and geography. We are continually looking to expand our specialized expertise through internal development and strategic hiring in targeted growth areas.

Percentage of Fiscal 2013 Assignments by Industry Specialization

Global Markets:	
Industrial	26%
Consumer	19%
Life Sciences/Healthcare Provider	18%
Technology	16%
Financial Services	14%
Regional Specialties:	
Education/Not-for-Profit	7%

Functional Expertise — We have organized executive recruitment centers of functional expertise, composed of consultants who have extensive backgrounds in placing executives in certain functions, such as board directors, CEOs and other senior executive officers. Our Board & CEO Services group, for example, focuses exclusively on placing CEOs and board directors in organizations around the world. This is a dedicated team from the most senior ranks of the Company. Their work is with CEOs and in the board room, and their expertise is organizational leadership and governance. They conduct hundreds of engagements every year, tapping talent from every corner of the globe. This work spans all ranges of organizational scale and purpose. Members of functional groups are located throughout our regions and across our industry groups.

Percentage of Fiscal 2013 Assignments by Functional Expertise

Board Level/CEO/CFO/Senior Executive and General Management	75%
Finance and Control	7%
Marketing and Sales	6%
Manufacturing/Engineering/Research and Development/Technology	5%
Human Resources and Administration	4%
Information Systems	3%

Regions

North America — We opened our first office in Los Angeles in 1969 and currently have 19 offices throughout the United States and Canada. In fiscal 2013, the region generated fee revenue of \$290.3 million from 3,119 assignments billed with an average of 196 consultants.

EMEA — We opened our first European office in London in 1972 and currently have 19 offices in 16 countries throughout the region. In fiscal 2013, the region generated fee revenue of \$128.8 million from 2,246 assignments billed with an average of 114 consultants.

Asia Pacific — We opened our first Asia Pacific office in Tokyo in 1973 and currently have 17 offices in 10 countries throughout the region. In fiscal 2013, the region generated fee revenue of \$73.2 million from 1,260 assignments billed with an average of 73 consultants.

South America — We opened our first South America office in Brazil in 1974. As of April 30, 2013, we operate a network of eight offices in seven countries covering the entire South American region. The region generated fee revenue of \$30.2 million in fiscal 2013 from 929 assignments billed with an average of 18 consultants.

Mexico — We expanded our practice to Mexico through the 1977 acquisition of a less than 50% interest in a Mexico City company. We currently serve our clients needs in two offices in Mexico through a subsidiary in which we hold a minority interest. Our share of the net earnings from our Mexico subsidiary was \$1.7 million for both the years ended April 30, 2013 and 2012, and is included in equity in earnings of unconsolidated subsidiaries on the consolidated statements of income.

Client Base — Our 5,228 clients include many of the world's largest and most prestigious public and private companies, and 42% of FORTUNE 500 companies were clients in fiscal 2013. In fiscal 2013, only one single client represented more than 1% of fee revenue, with that client representing 1.3%.

Competition — Other multinational executive recruitment firms include Egon Zehnder International, Heidrick & Struggles International, Inc., Russell Reynolds Associates and Spencer Stuart. Although these firms are our largest competitors, we also compete with smaller boutique firms that specialize in specific regional, industry or functional searches. We believe our brand name, differentiated business model, systematic approach to client service, cutting-edge technology, global network, prestigious clientele, strong specialty practices and high-caliber colleagues are recognized worldwide. We also believe our long-term incentive compensation arrangements, as well as other executive benefits, distinguish us from most of our competitors and are important in attracting and retaining our key consultants.

Leadership & Talent Consulting Services

We consolidated our strategic management assessment and executive coaching and development services under the name *Leadership & Talent Consulting* to more accurately reflect the array of solutions we now offer and to accommodate further growth. We have made significant investments in these service areas with the acquisitions of Lominger Limited, Inc., Lominger Consulting ("Lominger"), LeaderSource in fiscal 2007, Lore International in fiscal 2009, SENSE Solutions in fiscal 2010, and PDI and Global Novations in fiscal 2013. Our comprehensive blend of talent management offerings assists clients with the ongoing assessment and development of their senior executives and management teams and addresses six fundamental needs:

1. Board effectiveness;
2. CEO and top team effectiveness;
3. Diversity and inclusion;
4. Leadership development;
5. Organization transformation; and
6. Integrated talent management.

Each of Korn/Ferry's solutions is delivered by an experienced team of leadership consultants, a global network of top executive coaches and the intellectual property of research-based, time-tested leadership assessment and developmental tools. As of April 30, 2013, we had LTC operations in 15 cities in North America, 10 in Europe, 12 in Asia Pacific, and 5 in Latin America.

Client Base — During fiscal 2013, LTC partnered with 2,087 clients across the globe, including 42% of the FORTUNE 500.

Competition — Outside of the large talent management software players such as SAP and Oracle, this is a cottage industry with many small players. The main competitors include firms like Development Dimensions International, Center for Creative Leadership, Right Management, and SHL, a subsidiary of Corporate Executive Board. Although these firms are our largest competitors, we also compete with smaller boutique firms that specialize in specific regional, industry or functional aspects of talent management. We believe the strong leadership brands that comprise LTC offer a robust, research-based leadership and talent management content.

High-Impact Recruitment Solutions — Futurestep

Overview — Founded in 1998 as Korn/Ferry's scalable, outsourced recruitment subsidiary, Futurestep offers clients a portfolio of talent acquisition solutions, including RPO, project recruitment, search and consulting. Each Futurestep engagement leverages a world-class global recruitment process and best-in-class technology to maximize and measure quality.

Futurestep combines traditional recruitment expertise with a multi-tiered portfolio of talent acquisition solutions. Futurestep consultants, based in 16 countries, have access to our databases of pre-screened, mid-level professionals. Our global candidate pool complements our international presence and multi-channel sourcing strategy to aid speed, efficiency and quality service for clients worldwide.

Futurestep RPO solutions are flexible and scalable, improving talent operations and delivering business impact for today's large, complex and global organizations.

Project recruitment services offer a proven, outsourced approach for managing multiple hires within a specific timeframe.

In terms of search, Futurestep's brand association with Korn/Ferry has helped us become regarded by today's industry leaders as a trusted resource for securing management and specialized talent on a professional level.

Consulting services support clients with the wider aspects of the employee lifecycle including recruitment diagnostic, workforce planning, talent communication and employer brand, candidate assessment and selection and recruitment technology services. Aided by the consulting expertise of The Newman Group, acquired by Futurestep in fiscal 2008, Futurestep helps companies align people, processes and technology.

Regions — We opened our first Futurestep office in Los Angeles in May 1998. In January 2000, we acquired the Executive Search & Selection business of PA Consulting with operations in Europe and Asia Pacific. As of April 30, 2013, we had Futurestep operations in nine cities in North America, 10 in Europe, 11 in Asia Pacific, and one in Latin America.

Client Base — During fiscal 2013, Futurestep partnered with 1,052 clients across the globe and 32% of Futurestep's fiscal 2013 fee revenue was referred from Korn/Ferry's Executive Recruitment and LTC segments.

Competition — Futurestep primarily competes for business with other RPO providers such as Alexander Mann Solutions, Hays, Kenexa, Spherion, KellyOCG and The RightThing and competes for search assignments with regional contingency recruitment firms and large national retained recruitment firms.

For talent acquisition and management consulting services, Futurestep competes with boutique consulting providers such as HRchitect and Knowledge Infusion and larger consulting firms such as Accenture, Aon Hewitt and Towers Watson that are building businesses in human resource management consulting.

Professional Staff and Employees

As of April 30, 2013, we had a total of 3,272 full-time employees. Of this, 1,471 were executive recruitment employees consisting of 399 consultants and 1,072 associates, researchers, administrative and support staff. In addition, there are 9 consultants in our unconsolidated Mexico office. LTC had 886 employees as of April 30, 2013, consisting of 133 consultants and 753 associates, researchers, administrative and support staff. Futurestep had 835 employees as of April 30, 2013, consisting of 75 consultants and 760 administrative and support staff. Corporate had 80 professionals at April 30, 2013. We are not party to a collective bargaining agreement and consider our relations with our employees to be good. Korn/Ferry is an equal opportunity employer.

In Executive Recruitment, senior associates, associates and researchers support the efforts of our consultants with candidate sourcing and identification, but do not generally lead assignments. These colleagues are developed through our training and professional development programs. Promotion to senior client partner is based on a variety of factors, including demonstrated superior execution and business development skills, the ability to identify solutions to complex issues, personal and professional ethics, a thorough understanding of the market and the ability to develop and help build effective teams. In addition, we have a program for recruiting experienced professionals into our Company.

The following table provides information relating to each of our business segments for fiscal 2013. Financial information regarding our business segments for fiscal 2012 and 2011 and additional information for fiscal 2013 is contained in Note 11 — *Business Segments*, in the Notes to our Consolidated Financial Statements included in this Annual Report on Form 10-K.

	Fee Revenue	Operating Income (Loss)	Number of Offices as of April 30, 2013	Number of Consultants as of April 30, 2013
(dollars in thousands)				
Executive Recruitment:				
North America	\$ 290,317	\$ 58,832	19	195
EMEA	128,807	9,173	19	116
Asia Pacific	73,221	6,973	17	70
South America	30,134	5,987	8	18
Total Executive Recruitment	522,479	80,965	63	399
LTC(1)	168,115	6,424	14	133
Futurestep(2)	122,237	10,975	10	75
Corporate	—	(54,488)	—	—
Total	\$ 812,831	\$ 43,876	87	607

- (1) Leadership & Talent Consulting partially occupies 32 of the executive recruitment offices globally in 21 countries.
(2) Futurestep partially occupies 21 of the executive recruitment offices globally in 16 countries.

The following table provides information on fee revenues for each of the last three fiscal years attributable to the regions in which the Company operates:

	Year Ended April 30,		
	2013	2012	2011
	(in thousands)		
Fee Revenue:			
United States	\$416,987	\$ 383,955	\$365,919
Canada	42,263	45,164	45,313
EMEA	192,242	196,514	183,373
Asia Pacific	124,720	128,281	117,685
South America	36,619	36,591	31,959
Total	\$ 812,831	\$ 790,505	\$ 744,249

Additional financial information regarding the regions in which the Company operates can be found in Note 11 — *Business Segments*, in the Notes to our Consolidated Financial Statements included in this Annual Report on Form 10-K.

Item 1A. Risk Factors

The risks described below are the material risks facing our Company. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. Our business, financial condition or results of operations could be materially adversely affected by any of these risks.

Competition in our industries could result in our losing market share and/or require us to charge lower prices for services, which could reduce our revenue.

We compete for executive recruitment business with numerous executive recruitment firms and businesses that provide job placement services, including other large global executive search firms, smaller specialty firms and web-based firms. Traditional executive recruitment competitors include Egon Zehnder International, Heidrick & Struggles International, Inc., Russell Reynolds Associates and Spencer Stuart. In each of our markets, our competitors may possess greater resources, greater name recognition, lower overhead or other costs and longer operating histories than we do, which may give them an advantage in obtaining future clients, capitalizing on new technology and attracting qualified professionals in these markets. Additionally, specialty firms can focus on regional or functional markets or on particular industries and executive search firms that have a smaller client base may be subject to fewer off-limits arrangements. There are no extensive barriers to entry into the executive recruitment industry and new recruiting firms continue to enter the market. We believe the continuing development and increased availability of information technology will continue to attract new competitors, especially web-enabled professional and social networking website providers and these providers may be facilitating a company’s ability to insource their recruiting capabilities. As these providers continue to evolve, they may develop offerings similar to or more expansive than ours, thereby increasing competition for our services or more broadly causing disruption in the executive recruitment industry. The human resource consulting business has been traditionally fragmented and a number of large consulting firms, such as Accenture, Aon Hewitt and Towers Watson are building businesses in human resource management consulting to serve these needs. Increased competition, whether as a result of these professional and social networking website providers or traditional executive recruitment firms, may lead to pricing pressures that could negatively impact our business. For example, increased competition could require us to charge lower prices, and/or cause us to lose market share, each of which could reduce our fee revenue.

If we fail to attract and retain qualified and experienced consultants, our revenue could decline and our business could be harmed.

We compete with other executive recruitment and consulting firms for qualified and experienced consultants. These other firms may be able to offer greater compensation and benefits or more attractive lifestyle choices, career paths or geographic locations than we do. Attracting and retaining consultants in our industry is

particularly important because, generally, a small number of consultants have primary responsibility for a client relationship. Because client responsibility is so concentrated, the loss of key consultants may lead to the loss of client relationships. In 2013, for example, our top three executive search consultants had primary responsibility for generating business equal to approximately 2% of our net revenues, and our top ten executive search consultants had primary responsibility for generating business equal to approximately 5% of our net revenues. This risk is heightened due to the general portability of a consultant's business; consultants have in the past, and will in the future, terminate their employment with our Company. Any decrease in the quality of our reputation, reduction in our compensation levels relative to our peers or restructuring of our compensation program, whether as a result of insufficient revenue, a decline in the market price of our common stock or for any other reason, could impair our ability to retain existing consultants or attract additional qualified consultants with the requisite experience, skills and established client relationships. Our failure to retain our most productive consultants, whether in Executive Recruitment, LTC or Futurestep, or maintain the quality of service to which our clients are accustomed and the ability of a departing consultant to move business to his or her new employer could result in a loss of clients, which could in turn cause our fee revenue to decline and our business to be harmed. We may also lose clients if the departing executive search, LTC or Futurestep consultant has widespread name recognition or a reputation as a specialist in his or her line of business in a specific industry or management function. We could also lose additional consultants if they choose to join the departing executive search consultant at another executive search or consulting firm. If we fail to limit departing consultants from moving business or recruiting our consultants to a competitor, our business, financial condition and results of operations could be adversely affected.

Acquisitions may have an adverse effect on our business.

We have completed strategic acquisitions of businesses in the last several years, including our acquisition of PDI and Global Novations in fiscal 2013. While we may, under certain circumstances, pursue additional acquisitions in the future, we may not be able to consummate such acquisitions on satisfactory terms or integrate acquired businesses effectively and profitably into our existing operations. Our future success may depend in part on our ability to complete the integration of the acquisition target successfully into our operations. The process of integrating an acquired business, including that of PDI and Global Novations, may subject us to a number of risks, including:

- diversion of management attention;
- amortization of intangible assets, adversely affecting our reported results of operations;
- inability to retain and/or integrate the management, key personnel and other employees of the acquired business;
- inability to properly integrate business acquisitions resulting in operating inefficiencies;
- inability to establish uniform standards, disclosure controls and procedures, internal control over financial reporting and other systems, procedures and policies in a timely manner;
- inability to retain the acquired company's clients;
- exposure to legal claims for activities of the acquired business prior to acquisition; and
- incurrence of additional expenses in connection with the integration process.

If our acquisitions are not successfully integrated, our business, financial condition and results of operations, as well as our professional reputation, could be materially adversely affected.

Global economic developments and the conditions in the geographic regions and the industries from which we derive a significant portion of our fee revenue could negatively affect our business, financial condition and results of operations.

Demand for our services is affected by global economic conditions and the general level of economic activity in the geographic regions and industries in which we operate. When conditions in the global economy, including the

credit markets, deteriorate, or economic activity slows, many companies hire fewer permanent employees and some companies, as a cost-saving measure, choose to rely on their own human resources departments rather than third-party search firms to find talent, which negatively affects our financial condition and results of operations, as evidenced by our results of operations for fiscal 2009 and fiscal 2010. We may also experience more competitive pricing pressure during periods of economic decline. During the recent economic downturn, our fee revenue significantly decreased from \$790.6 million in fiscal 2008 to \$572.4 million in fiscal 2010. While the economic activity in the regions and industries in which we operate has shown improvement, general market uncertainty continues to exist. If such uncertainty persists, if the national or global economy or credit market conditions in general deteriorate, or if the unemployment rate increases, such uncertainty or changes could put additional negative pressure on demand for our services and our pricing, resulting in lower cash flows and a negative effect on our business, financial condition and results of operations. In addition, some of our clients may experience reduced access to credit and lower revenues resulting in their inability to meet their payment obligations to us.

The continuing recession in the Euro zone and the instability of the Euro could have a material adverse effect on our results of operations.

A significant portion of our revenue is derived from our business in Europe. For the year ended April 30, 2013, approximately 10% of our revenues were derived from countries which use the Euro as their primary currency. The ongoing European financial crisis, coupled with the policy actions taken by the European central banks to support their financial system, have caused exchange rates to remain volatile. Concerns persist regarding several European countries' sovereign debt obligations, the overall stability of the Euro, the continuing recession in the Euro zone economy and the health of the European banking system. In the event that these conditions persist, or worsen, the Company's fee revenue and operating results would likely be adversely impacted until economic confidence is restored and the debt obligations, banking system and Euro are stabilized. If economic and financial market conditions in Europe remain uncertain or deteriorate further, our clients may respond by suspending, delaying or reducing their expenditures, which may adversely affect our cash flows and results of operations. In addition, if the conditions in Europe lead to disorderly bank failures it could adversely impact our bank accounts in affected countries.

If we are unable to retain our executive officers and key personnel, or integrate new members of our senior management who are critical to our business, we may not be able to successfully manage our business in the future.

Our future success depends upon the continued service of our executive officers and other key management personnel. Competition for qualified personnel is intense, and we may compete with other companies that have greater financial and other resources than we do. If we lose the services of one or more of our executives or key employees, or if one or more of them decides to join a competitor or otherwise compete directly or indirectly with us, or if we are unable to integrate new members of our senior management who are critical to our business, we may not be able to successfully manage our business or achieve our business objectives.

If we are unable to maintain our professional reputation and brand name, our business will be harmed.

We depend on our overall reputation and brand name recognition to secure new engagements and to hire qualified professionals. Our success also depends on the individual reputations of our professionals. We obtain a majority of our new engagements from existing clients or from referrals by those clients. Any client who is dissatisfied with our services can adversely affect our ability to secure new engagements.

If any factor, including poor performance or negative publicity, whether or not true, hurts our reputation, we may experience difficulties in competing successfully for both new engagements and qualified consultants. Failing to maintain our professional reputation and the goodwill associated with our brand name could seriously harm our business.

We are subject to potential legal liability from clients, employees and candidates for employment. Insurance coverage may not be available to cover all of our potential liability and available coverage may not be sufficient to cover all claims that we may incur.

Our ability to obtain liability insurance, its coverage levels, deductibles and premiums are all dependent on market factors, our loss history and insurers' perception of our overall risk profile. We are exposed to potential claims with respect to the executive recruitment process. For example, a client could assert a claim for matters such as breach of an off-limit agreement or recommending a candidate who subsequently proves to be unsuitable for the position filled. Further, the current employer of a candidate whom we placed could file a claim against us alleging interference with an employment contract, a candidate could assert an action against us for failure to maintain the confidentiality of the candidate's employment search, and a candidate or employee could assert an action against us for alleged discrimination, violations of labor and employment law or other matters. Also, in various countries, we are subject to data protection laws impacting the processing of candidate information and other regulatory requirements.

Additionally, as part of our LTC services, we often send a team of leadership consultants to our client's workplaces. Such consultants generally have access to client information systems and confidential information. An inherent risk of such activity includes possible claims of misuse or misappropriation of client intellectual property, confidential information, funds, or other property; harassment; criminal activity; torts; or other claims. Such claims may result in negative publicity, injunctive relief, criminal investigations and/or charges, payment by us of monetary damages or fines, or other material adverse effects on our business.

We cannot ensure that our insurance will cover all claims or that insurance coverage will be available at economically acceptable rates. Our insurance may also require us to meet a deductible. Significant uninsured liabilities could have a material adverse effect on our business, financial condition and results of operations.

We rely heavily on our information systems and if we lose that technology, or fail to further develop our technology, our business could be harmed.

Our success depends in large part upon our ability to store, retrieve, process, manage and protect substantial amounts of information. To achieve our strategic objectives and to remain competitive, we must continue to develop and enhance our information systems. This may require the acquisition of equipment and software and the development of new proprietary software, either internally or through independent consultants. If we are unable to design, develop, implement and utilize, in a cost-effective manner, information systems that provide the capabilities necessary for us to compete effectively, or for any reason any interruption or loss of our information processing capabilities occurs, this could harm our business, results of operations and financial condition. Although we have disaster recovery procedures in place and insurance to protect against the effects of a disaster on our information technology, we cannot be sure that insurance or these services will continue to be available at reasonable prices, cover all our losses or compensate us for the possible loss of clients occurring during any period that we are unable to provide business services.

Cyber security vulnerabilities could lead to improper disclosure of information obtained from our clients, candidates and employees that could result in liability and harm our reputation.

We use information technology and other computer resources to carry out operational and marketing activities and to maintain our business records. The continued occurrence of high-profile data breaches against various entities and organizations provides evidence of an external environment increasingly hostile to information security. This environment demands that we continuously improve our design and coordination of security controls across our business groups and geographies in order to protect information that we develop or that is obtained from our clients, candidates and employees. Despite these efforts, our security controls over this information, our training of employees, and other practices we follow may not prevent the improper disclosure of such information. In fiscal 2013, we discovered that our computer network was the target of a criminal data breach that accessed certain such information obtained from our clients, candidates and employees. The information we collected about this breach suggests that the intrusion falls within the category of an "Advanced Persistent Threat," which is activity consistent with state sponsored cyber criminals. Although this data breach was limited

in scope, and as such, did not have a material adverse effect on our operations or financial reporting capabilities, future breaches of this nature as well as any other security breach or other misuse of our data could lead to improper disclosure of Company information, including information obtained from our clients, candidates and employees, that could harm our reputation, lead to legal exposure, divert management attention and resources, increase our operating expenses due to the employment of consultants and third party experts and the purchase of additional infrastructure, and/or subject us to liability, resulting in increased costs and loss of revenue. We depend on our overall reputation and brand name recognition to secure new engagements. Perceptions that we do not adequately protect the privacy of information could inhibit attaining new engagements and qualified consultants, and could potentially damage currently existing client relationships.

Limited protection of our intellectual property could harm our business, and we face the risk that our services or products may infringe upon the intellectual property rights of others.

We cannot guarantee that trade secret, trademark and copyright law protections are adequate to deter misappropriation of our intellectual property (which has become an increasingly important part of our business). Existing laws of some countries in which we provide services or products may offer only limited protection of our intellectual property rights. Redressing infringements may consume significant management time and financial resources. Also, we may be unable to detect the unauthorized use of our intellectual property and take the necessary steps to enforce our rights, which may have a material adverse impact on our business, financial condition or results of operations. We cannot be sure that our services and products, or the products of others that we offer to our clients, do not infringe on the intellectual property rights of third parties, and we may have infringement claims asserted against us or our clients. These claims may harm our reputation, result in financial liability and prevent us from offering some services or products.

We have invested in specialized technology and other intellectual property for which we may fail to fully recover our investment or which may become obsolete.

We have invested in developing specialized technology and intellectual property, including proprietary systems, processes and methodologies, that we believe provide us a competitive advantage in serving our current clients and winning new engagements. Many of our service and product offerings rely on specialized technology or intellectual property that is subject to rapid change, and to the extent that this technology and intellectual property is rendered obsolete and of no further use to us or our clients, our ability to continue offering these services, and grow our revenues, could be adversely affected. There is no assurance that we will be able to develop new, innovative or improved technology or intellectual property or that our technology and intellectual property will effectively compete with the intellectual property developed by our competitors. If we are unable to develop new technology and intellectual property or if our competitors develop better technology or intellectual property, our revenues and results of operations could be adversely affected.

We face risks associated with social and political instability, legal requirements, economic conditions and currency fluctuations in our international operations.

We operate in 37 countries and during the year ended April 30, 2013, generated 49% of our fee revenue from operations outside of the United States. We are exposed to the risk of changes in social, political, legal and economic conditions inherent in international operations. Examples of risks inherent in transacting business worldwide that we are exposed to include:

- changes in and compliance with applicable laws and regulatory requirements, including U.S. laws affecting the activities of U.S. companies abroad, including the Foreign Corrupt Practices Act of 1977 and sanctions programs administered by the U.S. Department of the Treasury Office of Foreign Assets Control, and similar foreign laws such as the U.K. Bribery Act, as well the fact that many countries have legal systems, local laws and trade practices that are unsettled and evolving, and/or commercial laws that are vague and/or inconsistently applied;
- difficulties in staffing and managing global operations, which could impact our ability to maintain an effective system of internal control;

-
- difficulties in building and maintaining a competitive presence in existing and new markets;
 - social, economic and political instability;
 - differences in cultures and business practices;
 - fluctuations in currency exchange rates;
 - statutory equity requirements;
 - differences in accounting and reporting requirements;
 - repatriation controls;
 - differences in labor and market conditions;
 - potential adverse tax consequences; and
 - multiple regulations concerning pay rates, benefits, vacation, statutory holiday pay, workers' compensation, union membership, termination pay, the termination of employment, and other employment laws.

We have no hedging or similar foreign currency contracts and therefore, as described below, fluctuations in the value of foreign currencies could impact our global results of operations. We cannot ensure that one or more of these factors will not harm our business, financial condition or results of operations.

Foreign currency exchange rate risks may adversely affect our results of operations.

A material portion of our revenue and expenses are generated by our operations in foreign countries, and we expect that our foreign operations will account for a material portion of our revenue and expenses in the future. Most of our international expenses and revenue are denominated in foreign currencies. As a result, our financial results could be affected by factors, such as changes in foreign currency exchange rates or weak economic conditions in European and other foreign markets in which we have operations. Fluctuations in the value of those currencies in relation to the United States dollar have caused and will continue to cause dollar-translated amounts to vary from one period to another. Given the volatility of exchange rates, we may not be able to manage effectively our currency translation or transaction risks, which may adversely affect our financial condition and results of operations.

We may be limited in our ability to recruit employees from our clients and we could lose those opportunities to our competition, which could harm our business.

Either by agreement with clients, or for client relations or marketing purposes, we sometimes refrain from, for a specified period of time, recruiting candidates from a client when conducting searches on behalf of other clients. These off-limit agreements can generally remain in effect for up to two years following completion of an assignment. The duration and scope of the off-limit agreement, including whether it covers all operations of the client and its affiliates or only certain divisions of a client, generally are subject to negotiation or internal policies and may depend on factors such as the scope, size and complexity of the client's business, the length of the client relationship and the frequency with which we have been engaged to perform executive searches for the client. If a prospective client believes that we are overly restricted by these off-limit agreements from recruiting employees of our existing clients, these prospective clients may not engage us to perform their executive searches. Therefore, our inability to recruit candidates from these clients may make it difficult for us to obtain search assignments from, or to fulfill search assignments for, other companies in that client's industry. We cannot ensure that off-limit agreements will not impede our growth or our ability to attract and serve new clients, or otherwise harm our business.

Consolidation in the industries that we serve could harm our business.

Companies in the industries that we serve may seek to achieve economies of scale and other synergies by combining with or acquiring other companies. If two or more of our clients merge or consolidate and combine their operations, we may experience a decrease in the amount of services we perform for these clients. If one of

our clients merges or consolidates with a company that relies on another provider for its services, we may lose work from that client or lose the opportunity to gain additional work. The increased market power of larger companies could also increase pricing and competitive pressures on us. Any of these possible results of industry consolidation could harm our business, results of operations and financial condition.

We have provisions that make an acquisition of us more difficult and expensive.

Anti-takeover provisions in our Certificate of Incorporation, our Bylaws and under Delaware law make it more difficult and expensive for us to be acquired in a transaction that is not approved by our Board of Directors. Some of the provisions in our Certificate of Incorporation and Bylaws include:

- limitations on the removal of directors;
- limitation on stockholder actions;
- advance notification requirements for director nominations and actions to be taken at stockholder meetings; and
- the ability to issue one or more series of preferred stock by action of our Board of Directors.

These provisions could discourage an acquisition attempt or other transaction in which stockholders could receive a premium over the current market price for the common stock.

Unfavorable tax laws, tax law changes and tax authority rulings may adversely affect results.

We are subject to income taxes in the United States and in various foreign jurisdictions. Domestic and international tax liabilities are subject to the allocation of income among various tax jurisdictions. Our effective tax rate could be adversely affected by changes in the mix of earnings among countries with differing statutory tax rates or changes in tax laws. The amount of income taxes and other taxes are subject to ongoing audits by United States federal, state and local tax authorities and by non-United States authorities. If these audits result in assessments different from estimated amounts recorded, future financial results may include unfavorable tax adjustments.

We have deferred tax assets that we may not be able to use under certain circumstances.

If we are unable to generate sufficient future taxable income in certain jurisdictions, or if there is a significant change in the time period within which the underlying temporary differences become taxable or deductible, we could be required to increase our valuation allowances against our deferred tax assets. This would result in an increase in our effective tax rate, and an adverse effect on our future operating results. In addition, changes in statutory tax rates may also change our deferred tax assets or liability balances, with either a favorable or unfavorable impact on our effective tax rate. Our deferred tax assets may also be impacted by new legislation or regulation.

An impairment in the carrying value of goodwill and other intangible assets could negatively impact our consolidated results of operations and net worth.

Goodwill is initially recorded as the excess of amounts paid over the fair value of net assets acquired. While goodwill is not amortized it is reviewed for impairment at least annually or more frequently if impairment indicators are present. In assessing the carrying value of goodwill, we make qualitative and quantitative assumptions and estimates about revenues, operating margins, growth rates and discount rates based on our business plans, economic projections, anticipated future cash flows and marketplace data. There are inherent uncertainties related to these factors and management's judgment in applying these factors. Goodwill valuations have been calculated using an income approach based on the present value of future cash flows of each reporting unit and a market approach. We could be required to evaluate the carrying value of goodwill prior to the annual assessment, if we experience unexpected significant declines in operating results or sustained market capitalization declines. These types of events and the resulting analyses could result in goodwill impairment charges in the future. Impairment charges could substantially affect our results of operations and net worth in the periods of such charges.

We may not be able to align our cost structure with our revenue level.

We continuously evaluate our cost base in relation to projected near to mid-term demand for our services in an effort to align our cost structure with the current realities of our markets. If actual or projected fee revenue are negatively impacted by weakening customer demand, we may find it necessary to take cost cutting measures so that we can minimize the impact on our profitability. There is, however, no guarantee that if we do take such measures that such measures will properly align our cost structure to our revenue level. Any failure to maintain a balance between our cost structure and our revenue could adversely affect our business, financial condition, and results of operations and lead to negative cash flows, which in turn might require us to obtain additional financing to meet our capital needs.

We may require additional capital in the future, which may not be available at all or may be available only on unfavorable terms.

Future adverse changes in the Company's revenue could require us to institute cost cutting measures. To the extent our efforts are insufficient, we may incur negative cash flows. If such conditions persist over an extended period of time, it might require us to obtain financing to meet our capital needs. If we are unable to secure financing on favorable terms, or at all, our ability to fund our operations could be impaired, which could have a material adverse effect on our results of operations.

We invest in marketable securities classified as trading and available for sale and if the market value of these securities declines materially, they could have an adverse effect on our financial position and results of operations.

Marketable securities consist of mutual funds and investments in corporate bonds, commercial paper and U.S. Treasury and agency securities. The primary objectives of the mutual funds are to meet the obligations under certain of our deferred compensation plans, while the other securities are available for general corporate purposes. If the financial markets in which these securities trade were to materially decline in value, the unrealized losses and potential realized losses could negatively impact the Company's financial position and results of operations.

Our inability to successfully recover should we experience a disaster or other business continuity problem could cause material financial loss, loss of human capital, regulatory actions, reputational harm or legal liability.

Should we experience a disaster or other business continuity problem, such as an earthquake, hurricane, terrorist attack, pandemic, security breach, power loss, telecommunications failure or other natural or man-made disaster, our continued success will depend, in part, on the availability of our personnel, our office facilities, and the proper functioning of our computer, telecommunication and other related systems and operations. In such an event, we could experience near-term operational challenges with regard to particular areas of our operations. In particular, our ability to recover from any disaster or other business continuity problem will depend on our ability to protect our technology infrastructure against damage from business continuity events that could have a significant disruptive effect on our operations. We could potentially lose client data or experience material adverse interruptions to our operations or delivery of services to our clients in a disaster. We will continue to regularly assess and take steps to improve upon our business continuity plans. However, a disaster on a significant scale or affecting certain of our key operating areas within or across regions, or our inability to successfully recover should we experience a disaster or other business continuity problem, could materially interrupt our business operations and cause material financial loss, loss of human capital, regulatory actions, reputational harm, damaged client relationships or legal liability.

Changes in our accounting estimates and assumptions could negatively affect our financial position and results of operations.

We prepare our consolidated financial statements in accordance with U.S. generally accepted accounting principles ("GAAP"). These accounting principles require us to make estimates and assumptions that affect the

reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities at the date of our financial statements. We are also required to make certain judgments that affect the reported amounts of revenues and expenses during each reporting period. We periodically evaluate our estimates and assumptions including those relating to revenue recognition, restructuring, deferred compensation, goodwill and other intangible assets, contingencies, annual performance related bonus, allowance for doubtful accounts, marketable securities, share-based payments and deferred income taxes. We base our estimates on historical experience and various assumptions that we believe to be reasonable based on specific circumstances. Actual results could differ from these estimates, and changes in accounting standards could have an adverse impact on our future financial position and results of operations.

Item 1B. Unresolved Staff Comments

Not applicable.

Item 2. Properties

Our corporate office is located in Los Angeles, California. We lease all 87 of our Executive Recruitment, Leadership & Talent Consulting, and Futurestep offices located in North America, EMEA, Asia Pacific and South America. As of April 30, 2013, we leased an aggregate of approximately 902,770 square feet of office space. The leases generally are for terms of one to 13 years and contain customary terms and conditions. We believe that our facilities are adequate for our current needs and we do not anticipate any difficulty replacing such facilities or locating additional facilities to accommodate any future growth.

Item 3. Legal Proceedings

On April 18, 2013, the Los Angeles Regional Office of the SEC formally notified the Company that it had completed its inquiry regarding the accounting for certain bonus and related accruals for the Company's periodic reporting periods in fiscal 2009, 2010, and 2011 and that it did not intend to recommend any action be taken against the Company.

Item 4. Mine Safety Disclosures

Not applicable.

Executive Officers of the Registrant

<u>Name</u>	<u>Age</u>	<u>Position</u>
Gary D. Burnison	52	President and Chief Executive Officer
Robert P. Rozek	52	Executive Vice President and Chief Financial Officer
RJ Heckman	45	President of Leadership & Talent Consulting
Byrne Mulrooney	52	Chief Executive Officer, Futurestep

Our executive officers serve at the discretion of our Board of Directors. There is no family relationship between any executive officer or director. The following information sets forth the business experience for at least the past five years for each of our executive officers.

Gary D. Burnison has been President and Chief Executive Officer since July 2007. He was Executive Vice President and Chief Financial Officer from March 2002 until June 30, 2007 and Chief Operating Officer from November 2003 until June 30, 2007. Prior to joining Korn/Ferry, Mr. Burnison was Principal and Chief Financial Officer of Guidance Solutions, a privately held consulting firm, from 1999 to 2001. Prior to that, he served as an executive officer and a member of the board of directors of Jefferies and Company, an investment bank and brokerage firm, from 1995 to 1999. Earlier, Mr. Burnison was a partner at KPMG Peat Marwick.

Robert P. Rozek joined the Company in February 2012 as our Executive Vice President and Chief Financial Officer. Prior to joining Korn/Ferry, he served as Executive Vice President and Chief Financial Officer of Cushman & Wakefield, Inc., a privately held commercial real estate services firm, from June 2008 to February 2012.

Prior to joining Cushman & Wakefield, Inc., Mr. Rozek served as Senior Vice President and Chief Financial Officer of Las Vegas Sands Corp, a leading global developer of destination properties (integrated resorts) that feature premium accommodations, world-class gaming and entertainment, convention and exhibition facilities and many other amenities, from 2006 to 2008. Prior to that, Mr. Rozek held senior leadership positions at Eastman Kodak, and spent five years as a partner with PricewaterhouseCoopers LLP.

RJ Heckman was appointed President of Leadership and Talent Consulting in April 2013. He is responsible for driving the global growth of our Leadership and Talent Consulting services. From 2008 until he joined the Company he served as president and Chief Executive Officer of PDI. During that time, he led the acquisition and integration of Ninth House and positioned PDI to become the premier global leadership solutions organization. Prior to this role, he held key leadership positions at Honeywell and AT&T. Mr. Heckman has a Ph.D. in industrial and organizational psychology from the University of Tulsa.

Byrne Mulrooney joined the Company in April 2010 as Chief Executive Officer of Futurestep. Prior to joining Korn/Ferry, he was President and Chief Operating Officer of Flynn Transportation Services, a third party logistics company, from 2007 to 2010. Prior to that, he led Spherion's workforce solutions business in North America, which provides workforce solutions in professional services and general staffing, including recruitment process outsourcing and managed services, from 2003 to 2007. Mr. Mulrooney has held executive positions for almost 20 years at EDS and IBM in client services, sales, marketing and operations. Mr. Mulrooney is a graduate of Villanova University in Pennsylvania. He holds a master's degree in management from Northwestern University's J.L. Kellogg Graduate School of Management.

PART II.

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Common Stock

Our common stock is listed on the New York Stock Exchange under the symbol "KFY". The following table sets forth the high and low sales price per share of the common stock for the periods indicated, as reported on the New York Stock Exchange:

	<u>High</u>	<u>Low</u>
Fiscal Year Ended April 30, 2013		
First Quarter	\$ 16.54	\$ 12.10
Second Quarter	\$ 15.94	\$ 12.73
Third Quarter	\$ 17.22	\$ 12.83
Fourth Quarter	\$ 19.38	\$ 15.15
Fiscal Year Ended April 30, 2012		
First Quarter	\$ 23.98	\$ 18.94
Second Quarter	\$ 21.65	\$ 11.25
Third Quarter	\$ 18.75	\$ 14.26
Fourth Quarter	\$ 17.27	\$ 15.07

On June 18, 2013, the last reported sales price on the New York Stock Exchange for the Company's common stock, was \$18.04 per share and there were approximately 6,113 beneficial holders of the Company's common stock.

Performance Graph

We have presented below a graph comparing the cumulative total stockholder return on the Company's shares with the cumulative total stockholder return on (1) the Standard & Poor's 500 Stock Index and (2) a company-established peer group. Cumulative total return for each of the periods shown in the performance graph is measured assuming an initial investment of \$100 on April 30, 2008 and the reinvestment of any dividends paid by any company in the peer group on the date the dividends were declared.

In fiscal 2011, we established a new peer group, which the Company continues to use today, comprised of a broad number of publicly traded companies, which are principally or in significant part involved in either professional staffing or consulting. The peer group is comprised of the following 15 companies: CBIZ, Inc. (CBZ), FTI Consulting, Inc. (FCN), Heidrick & Struggles International, Inc. (HSII), Huron Consulting Group Inc. (HURN), ICF International, Inc. (ICFI), Insperty, Inc. (NSP), Kelly Services, Inc. (KELYA), Kforce Inc. (KFRC), Navigant Consulting, Inc. (NCI), Resources Connection, Inc. (RECN), Robert Half International Inc. (RHI), The Corporate Executive Board Company (EXBD), The Dun & Bradstreet Corporation (DNB), Towers Watson & Co. (TW) and TrueBlue, Inc. (TBI). We believe this group of professional services firms, is more reflective of similar sized companies in terms of our market capitalization, revenue or profitability, and therefore provides a more meaningful comparison of stock performance. The returns of each company have been weighted according to their respective stock market capitalization at the beginning of each measurement period for purposes of arriving at a peer group average.

The stock price performance depicted in this graph is not necessarily indicative of future price performance. This graph will not be deemed to be incorporated by reference by any general statement incorporating this Form 10-K into any filing by us under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent we specifically incorporate this information by reference, and shall not otherwise be deemed soliciting material or deemed filed under the Securities Act of 1933 or the Securities Exchange Act of 1934.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*

Among Korn/Ferry International, the S&P 500 Index, and a Peer Group

* \$100 invested on 4/30/08 in stock or index-including reinvestment of dividends. Fiscal year ending April 30, 2013.

Copyright © 2013, Standard & Poor's, a division of The McGraw-Hill Companies, Inc. All rights reserved. www.researchdatagroup.com/S&P.htm

We have not paid any cash dividends on our common stock since April 30, 1996, and we currently have no plans to pay any cash dividends on our common stock. The Board of Directors has authorized the Company to repurchase up to \$50.0 million of the Company's outstanding shares of common stock pursuant to an issuer repurchase program. Since this program was approved on November 2, 2007 through April 30, 2013, we have repurchased approximately \$25.6 million of the Company's common stock under this program. Our future dividend policy as well as any decision to execute on our currently outstanding issuer repurchase program will depend on our earnings, capital requirements, financial condition and other factors considered relevant by our Board of Directors. Our credit facility requires us to maintain \$50 million in unrestricted cash and/or marketable securities (excluding any marketable securities that are held in trust for the settlement of the Company's obligation under certain deferred compensation plans) as a condition to consummating permitted acquisitions, paying dividends to our shareholders and share repurchases of our common.

Issuer Purchases of Equity Securities

The following table summarizes common stock repurchased by us during the fourth quarter of fiscal 2013:

	Shares Purchased(1)	Average Price Paid Per Share	Shares Purchased as Part of Publicly- Announced Programs(2)	Approximate Dollar Value of Shares that May Yet be Purchased under the Programs(2)
February 1, 2013 — February 28, 2013	7,330	\$ 18.41	—	\$24.4 million
March 1, 2013 — March 31, 2013	—	\$ —	—	\$24.4 million
April 1, 2013 — April 30, 2013	1,855	\$ 16.42	—	\$24.4 million
Total	<u>9,185</u>	\$ 18.01	<u>—</u>	\$24.4 million

(1) Represents withholding of a portion of restricted shares to cover taxes upon vesting of restricted shares.

(2) On November 2, 2007, the Board of Directors approved the repurchase of up to \$50 million of the Company's common stock in a common stock repurchase program. The shares can be repurchased in open market transactions or privately negotiated transactions at the Company's discretion.

Item 6. Selected Financial Data

The following selected financial data are qualified by reference to, and should be read together with, our “Audited Consolidated Financial Statements and Notes to Consolidated Financial Statements” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” appearing elsewhere in this Annual Report on Form 10-K. The selected statement of income data set forth below for the fiscal years ended April 30, 2013, 2012 and 2011 and the selected balance sheet data as of April 30, 2013 and 2012 are derived from our consolidated financial statements, audited by Ernst & Young LLP, appearing elsewhere in this Form 10-K. The selected balance sheet data as of April 30, 2011, 2010 and 2009 and the selected statement of operations data set forth below for the fiscal years ended April 30, 2010 and 2009 are derived from consolidated financial statements and notes thereto which are not included in this Form 10-K report and were audited by Ernst & Young LLP.

	Year Ended April 30,				
	2013(1)	2012	2011	2010	2009

(in thousands, except per share data and other operating data)

Selected Balance Sheet Data as of April 30:

Cash and cash equivalents	\$ 224,066	\$ 282,005	\$ 246,856	\$ 219,233	\$ 255,000
Marketable securities(3)	141,916	135,734	122,231	77,219	75,255
Working capital	178,549	278,343	207,731	182,781	198,250
Total assets	1,115,229	1,014,689	971,680	827,098	740,879
Long-term obligations	182,210	163,489	159,477	137,673	108,433
Total stockholders' equity	664,468	629,476	578,337	491,342	459,099

- (1) Due to the acquisitions of PDI and Global Novations, which accounted for \$45.6 million and \$116.2 million of fee revenue and total assets, respectively, during fiscal 2013, financial data trends are not comparative to prior periods. See Note 12 — *Acquisitions*, in the Notes to our Consolidated Financial Statements for discussion of fiscal 2013 acquisitions.
- (2) During fiscal 2013, we implemented two restructuring plans in order to rationalize our cost structure in response to anticipated revenue levels and to focus on the integration synergies associated with the current year acquisitions. As a result, we recorded \$22.8 million of restructuring charges with \$16.3 million of severance and \$6.5 million relating to the consolidation of premises. During fiscal 2012 and 2011, we increased our previously recorded restructuring charges by \$0.9 million and \$2.1 million, respectively primarily related to the inability to sublease space, which was included in the original estimate. During fiscal 2010, our restructuring initiatives resulted in restructuring charges of \$25.8 million against operations, of which \$16.0 million and \$9.8 million related to severance costs and the consolidation of premises, respectively. These restructuring charges were partially offset by \$5.1 million of reductions from previous restructuring charges resulting in net restructuring costs of \$20.7 million during fiscal 2010. During fiscal 2009, the restructuring charges were comprised of severance charges of \$26.9 million and facilities charges of \$15.0 million.
- (3) As of April 30, 2013, 2012, 2011, 2010, and 2009, the Company's marketable securities included \$98.0 million, \$82.2 million, \$71.4 million, \$69.0 million, and \$60.8 million, respectively, held in trust for settlement of the Company's obligations under certain of its deferred compensation plans.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-looking Statements

This Annual Report on Form 10-K may contain certain statements that we believe are, or may be considered to be, "forward-looking" statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally can be identified by use of statements that include phrases such as "believe," "expect," "anticipate," "intend," "plan," "foresee," "may," "will," "likely," "estimates," "potential," "continue" or other similar words or phrases. Similarly, statements that describe our objectives, plans or goals also are forward-looking statements. All of these forward-looking statements are subject to risks and uncertainties that could cause our actual results to differ materially from those contemplated by the relevant forward-looking statement. The principal risk factors that could cause actual performance and future actions to differ materially from the forward-looking statements include, but are not limited to, dependence on attracting and retaining qualified and experienced consultants, maintaining our brand name and professional reputation, potential legal liability and regulatory developments, portability of client relationships, global and local political or economic developments in or affecting countries where we have operations, currency fluctuations in our international operations, risks related to growth, restrictions imposed by off-limits agreements, competition, reliance on information processing systems, cyber security vulnerabilities, limited protection of our intellectual property, our ability to enhance and develop new technology, our ability to successfully recover from a disaster or business continuity problems, employment liability risk, an impairment in the carrying value of goodwill and other intangible assets, deferred tax assets that we may not be able to use, our ability to develop new products and services, changes in our accounting estimates and assumptions, alignment of our cost structure, risks related to the integration of recently acquired businesses and the matters disclosed under the heading "Risk Factors" in the

Company's Exchange Act reports, including Item 1A included in this Annual Report. Readers are urged to consider these factors carefully in evaluating the forward-looking statements. The forward-looking statements included in this Annual Report on Form 10-K are made only as of the date of this Annual Report on Form 10-K and we undertake no obligation to publicly update these forward-looking statements to reflect subsequent events or circumstances.

The following presentation of management's discussion and analysis of our financial condition and results of operations should be read together with our consolidated financial statements and related notes included in this Annual Report on Form 10-K.

Executive Summary

Korn/Ferry International (referred to herein as the "Company," "Korn/Ferry," or in the first person notations "we," "our," and "us") is a premier global provider of talent management solutions that helps clients design strategies to assist clients in building and attracting their talent. We are the premier provider of executive recruitment, leadership and talent consulting and talent acquisition solutions with the broadest global presence in the recruitment industry. Our services include Executive Recruitment, consulting and solutions services through Leadership & Talent Consulting ("LTC") and recruitment for non-executive professionals and recruitment process outsourcing ("RPO") through Futurestep. Approximately 75% of the executive recruitment searches we performed in fiscal 2013 were for board level, chief executive and other senior executive and general management positions. Our 5,228 clients in fiscal 2013 included many of the world's largest and most prestigious public and private companies, including approximately 42% of the FORTUNE 500, middle market and emerging growth companies, as well as government and nonprofit organizations. We have built strong client loyalty, with 81% of assignments performed during fiscal 2013 having been on behalf of clients for whom we had conducted assignments in the previous three fiscal years.

In an effort to maintain our long-term strategy of being the leading provider of talent management solutions, our strategic focus for fiscal 2014 centers upon enhancing the integration of our multi-service strategy. We plan to continue to address areas of increasing client demand including LTC and RPO. We further plan to explore new products and services, continue to pursue a disciplined acquisition strategy, enhance our technology and processes and aggressively leverage our brand through thought leadership and intellectual capital projects as a means of delivering world-class service to our clients. During fiscal 2013, nearly 88% of our top 50 clients utilized at least two of our service lines. During fiscal 2013, we completed the acquisitions of Minneapolis-based PDI Ninth House ("PDI"), a leading, globally-recognized provider of leadership assessment and development solutions and Global Novations, LLC, ("Global Novations") a leading provider of diversity and inclusion and leadership development solutions (see Note 12 — *Acquisitions* for additional information regarding acquisitions completed during fiscal 2013). As a result of the uncertainties and challenges that continue to face the global economy and financial markets, we implemented a restructuring plan in fiscal 2013 in order to align our cost structure with anticipated revenue levels. The Company also implemented a restructuring plan focused on the integration synergies associated with the current year acquisitions. In fiscal 2013, the Company recorded restructuring charges of \$22.8 million of which \$16.3 million were for severance costs and \$6.5 million in facility costs due to the consolidation and elimination of office space around the world.

As previously announced, beginning in the first quarter of fiscal 2013, the Company disaggregated its previously reported business segment, Executive Recruitment, into two business segments, Executive Recruitment and LTC. The Company now operates in three global business segments: Executive Recruitment, LTC and Futurestep. See Note 11 — *Business Segments*, in the Notes to our Consolidated Financial Statements for discussion of the Company's global business segments. Amounts reported for prior periods in this report have been reclassified to conform to the revised global business segments.

The Company evaluates performance and allocates resources based on the chief operating decision maker's review of (1) fee revenue and (2) earnings before interest, taxes, depreciation and amortization ("EBITDA"), which is further adjusted to exclude restructuring charges, transaction and integration costs, and certain separation costs ("Adjusted EBITDA"). EBITDA and Adjusted EBITDA are non-GAAP financial measures. They have limitations as analytical tools, should not be viewed as substitutes for financial information determined in

accordance with GAAP, and should not be considered in isolation or as substitutes for analysis of the Company's results as reported under GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Management believes the presentation of these non-GAAP financial measures provides meaningful supplemental information regarding Korn/Ferry's performance by excluding certain charges and other items that may not be indicative of Korn/Ferry's ongoing operating results. The use of these non-GAAP financial measures facilitate comparisons to Korn/Ferry's historical performance. Korn/Ferry includes these non-GAAP financial measures because management believes they are useful to investors in allowing for greater transparency with respect to supplemental information used by management in its evaluation of Korn/Ferry's ongoing operations and financial and operational decision-making. The accounting policies for the reportable segments are the same as those described in the summary of significant accounting policies in the accompanying consolidated financial statements, except that the above noted items are excluded from adjusted EBITDA.

Fee revenue increased \$22.3 million, or 3% (3% decrease excluding fee revenue from the recently acquired PDI and Global Novations) in fiscal 2013 to \$812.8 million compared to \$790.5 million in fiscal 2012, with increases in fee revenue in Futurestep and LTC, offset by decreases in fee revenue in all regions of Executive Recruitment. During fiscal 2013, we recorded operating income of \$43.9 million with Executive Recruitment, LTC, and Futurestep segments contributing \$81.0 million, \$6.4 million, and \$11.0 million, respectively, offset by corporate expenses of \$54.5 million. Net income for fiscal 2013 and fiscal 2012 was \$33.3 million and \$54.3 million, respectively. Adjusted EBITDA was \$97.8 million with Executive Recruitment, LTC, and Futurestep segments contributing \$99.9 million, \$22.6 million, and \$15.7 million, respectively, offset by corporate expenses of \$40.4 million. Adjusted EBITDA decreased \$3.5 million in fiscal 2013, from adjusted EBITDA of \$101.3 million in fiscal 2012.

Our cash, cash equivalents and marketable securities decreased \$51.7 million, or 12%, to \$366.0 million at April 30, 2013 compared to \$417.7 million at April 30, 2012, mainly due to bonuses earned in fiscal 2012 and paid during the first quarter of fiscal 2013 and the purchase price paid as a result of the acquisitions of Global Novations and PDI during fiscal 2013, partially offset by cash provided by operating activities. As of April 30, 2013, we held marketable securities to settle obligations under our Executive Capital Accumulation Plan ("ECAP") with a cost value of \$94.9 million and a fair value of \$98.0 million. Our obligations for which these assets were held in trust totaled \$99.2 million as of April 30, 2013. Our working capital decreased by \$99.8 million to \$178.5 million in fiscal 2013. We believe that cash on hand and funds from operations will be sufficient to meet our anticipated working capital, capital expenditures and general corporate requirements in the next twelve months. We had no long-term debt or any outstanding borrowings under our credit facility at April 30, 2013 or 2012. We are required to maintain \$2.9 million of restricted cash to provide collateral for the standby letters of credit associated with certain lease premises. As of April 30, 2013 and 2012, we had \$2.7 million and \$2.9 million, respectively, of standby letters of credit issued under our previous credit facility.

Critical Accounting Policies

The following discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements. Preparation of our periodic filings requires us to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of our financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates and assumptions and changes in the estimates are reported in current operations as new information is learned or upon the amounts becoming fixed and determinable. In preparing our consolidated financial statements and accounting for the underlying transactions and balances, we apply our accounting policies as disclosed in the notes to our consolidated financial statements. We consider the policies discussed below as critical to an understanding of our consolidated financial statements because their application places the most significant demands on management's judgment and estimates. Specific risks for these critical accounting policies are described in the following paragraphs. Senior management has discussed the development and selection of the critical accounting estimates with the Audit Committee of the Board of Directors.

Revenue Recognition. Management is required to establish policies and procedures to ensure that revenue is recorded over the performance period for valid engagements and related costs are matched against such revenue. We provide professional services related to executive recruitment activities and recruitment for non-executive professionals, on a retained basis, recruitment process outsourcing and leadership & talent consulting services. For executive recruitment activities and recruitment for non-executive professionals we generally recognize revenue in three monthly installments commencing the month of client acceptance as this is the period over which the recruitment services are performed. Fees earned in excess of the initial contract amount are recognized upon completion of the engagement, which reflect the difference between the final actual compensation of the placed executive and the estimate used for purposes of the previous billings. Since the fees are generally not contingent upon placement of a candidate, our assumptions primarily relate to establishing the period over which such service is performed. These assumptions determine the timing of revenue recognition and profitability for the reported period. If these assumptions do not accurately reflect the period over which revenue is earned, revenue and profit could differ. Any services that are provided on a contingent basis are recognized once the contingency is fulfilled. In addition to recruitment for non-executive professionals, Futurestep provides recruitment process outsourcing services and fee revenue is recognized as services are rendered. Fee revenue from LTC services is recognized as services are rendered for consulting engagements and other time based services, measured by total hours incurred to the total estimated hours at completion. It is possible that updated estimates for the consulting engagement may vary from initial estimates with such updates being recognized in the period of determination. LTC revenue is also derived from the sale of solution services, which includes revenue from licenses and the sale of products. Revenue from licenses is recognized using a straight-line method over the term of the contract (generally 12 months), which begins upon execution and is invoiced in the same month. Products sold by the Company mainly consist of books covering a variety of topics including performance management, team effectiveness, and coaching and development. The Company recognizes revenue for its products when the product has been sold. Furthermore, a provision for doubtful accounts on recognized revenue is established with a charge to general and administrative expenses based on historical loss experience, assessment of the collectability of specific accounts, as well as expectations of future collections based upon trends and the type of work for which services are rendered.

Annual Performance Related Bonuses. Each quarter, management records its best estimate of its annual performance related bonuses, which requires management to, among other things, project annual consultant (employees who originate business) productivity (as measured by engagement fees billed and collected by executive search consultants and revenue for LTC and Futurestep consultants), Company performance including profitability, competitive forces and future economic conditions impact our results. At the end of each fiscal year, annual performance related bonuses take into account final individual consultant productivity, Company results including profitability, the achievement of strategic objectives and the results of individual performance appraisals, and the current economic landscape. Management takes these factors into consideration, and any changes in the estimate are reported in current operations. Because annual performance-based bonuses are communicated and paid only after the Company reports its full fiscal year results, actual performance-based bonus payments may differ from the prior year's estimate. Such changes in the bonus estimates historically have been immaterial and are recorded in current operations in the period in which they are determined.

Deferred Compensation. Estimating deferred compensation requires assumptions regarding the timing and probability of payments of benefits to participants and the discount rate. Changes in these assumptions would significantly impact the liability and related cost on our consolidated balance sheet and statement of income. Management engages an independent actuary to periodically review these assumptions in order to ensure that they reflect the population and economics of our deferred compensation plans in all material respects and to assist us in estimating our deferred compensation liability and the related cost. The actuarial assumptions we use may differ from actual results due to changing market conditions or changes in the participant population. These differences could have a significant impact on our deferred compensation liability and the related cost.

Carrying Values. Valuations are required under U.S. generally accepted accounting principles ("GAAP") to determine the carrying value of various assets. Our most significant assets for which management is required to prepare valuations are carrying value of receivables, marketable securities, goodwill, intangible assets, fair value of contingent consideration, and recoverability of deferred income taxes. Management must identify

whether events have occurred that may impact the carrying value of these assets and make assumptions regarding future events, such as cash flows and profitability. Differences between the assumptions used to prepare these valuations and actual results could materially impact the carrying amount of these assets and our operating results.

Of the assets mentioned above, goodwill is the largest asset requiring a valuation. Fair value of goodwill for purposes of the goodwill impairment test is determined utilizing a discounted cash flow analysis based on forecast cash flows (including estimated underlying revenue and operating income growth rates) discounted using an estimated weighted-average cost of capital for market participants. A market approach, utilizing observable market data such as comparable companies in similar lines of business that are publicly traded or which are part of a public or private transaction (to the extent available), is used to corroborate the discounted cash flow analysis performed at each reporting unit. The Company also reconciles the results of these analyses to its market capitalization. If the carrying amount of a reporting unit exceeds its estimated fair value, goodwill is considered potentially impaired and further tests are performed to measure the amount of impairment loss, if any. We recorded no goodwill impairments in conjunction with our annual goodwill impairment assessment performed as of January 31, 2013. While historical performance and current expectations have resulted in fair values of goodwill in excess of carrying values, if our assumptions are not realized, it is possible that in the future an impairment charge may need to be recorded. However, it is not possible at this time to determine if an impairment charge would result or if such a charge would be material. Fair value determinations require considerable judgment and are sensitive to changes in underlying assumptions and factors. As a result, there can be no assurance that the estimates and assumptions made for purposes of the annual goodwill impairment test will prove to be accurate predictions of the future. As of our testing date, the fair value of each reporting unit exceeded its carrying amount and none of the reporting units were considered at risk. As a result, no impairment charge was recognized. There was also no indication of impairment during the fourth quarter of fiscal 2013.

Examples of events or circumstances that could reasonably be expected to negatively affect the underlying key assumptions and ultimately impact the estimated fair value of the reporting units may include such items as follows:

- A prolonged downturn in the business environment in which the reporting units operate especially in EMEA;
- An economic recovery that significantly differs from our assumptions in timing or degree; and
- Volatility in equity and debt markets.

Results of Operations

The following table summarizes the results of our operations as a percentage of fee revenue:

	Year Ended April 30,		
	2013	2012	2011

Fiscal 2013 Compared to Fiscal 2012

Fee Revenue

Fee Revenue. Fee revenue increased \$22.3 million, or 3%, to \$812.8 million in fiscal 2013 compared to \$790.5 million in fiscal 2012. The acquisitions of PDI and Global Novations, collectively referred to as current year acquisitions, contributed \$45.6 million in fee revenue in LTC. Excluding fee revenue from the current year acquisitions, fee revenue was \$767.2 million during fiscal 2013, a decrease of \$23.3 million, or 3%, compared to fiscal 2012. The decrease in fee revenue was attributable to a 4% decrease in the weighted-average fees billed per engagement during fiscal 2013 as compared to fiscal 2012, offset by a 2% increase in the number of engagements billed during the same period. Weighted-average fees billed is impacted by the mix of engagements by segment and fluctuating foreign currencies. Exchange rates unfavorably impacted fee revenues by \$15.1 million in fiscal 2013.

Executive Recruitment. Executive Recruitment reported fee revenue of \$522.5 million, a decrease of \$38.7 million, or 7%, in fiscal 2013 compared to \$561.2 million in fiscal 2012. As detailed below, Executive Recruitment fee revenue decreased in all regions in fiscal 2013 compared to fiscal 2012. The decrease in Executive Recruitment fee revenue was mainly due to a 4% decrease in the number of Executive Recruitment engagements billed in fiscal 2013 as compared to fiscal 2012 and a 3% decrease in the weighted-average fee billed per engagement during the same period and due to a decline in the number of consultants. Exchange rates unfavorably impacted fee revenues by \$10.5 million in fiscal 2013.

North America reported fee revenue of \$290.3 million, a decrease of \$15.4 million, or 5%, in fiscal 2013 compared to \$305.7 million in fiscal 2012. North America's decrease in fee revenue is primarily due to a 4% decrease in the number of engagements billed during fiscal 2013 as compared to fiscal 2012, and a 1% decrease in the weighted-average fees billed per engagement in the region during the same period. The overall decrease in fee revenue was driven by decreases in fee revenue in the industrial, life sciences/healthcare and

financial services sectors, partially offset by the growth in education/non-profit sector. Exchange rates unfavorably impacted North America fee revenue by \$0.4 million in fiscal 2013.

EMEA reported fee revenue of \$128.8 million, a decrease of \$12.6 million, or 9%, in fiscal 2013 compared to \$141.4 million in fiscal 2012. Exchange rates unfavorably impacted EMEA's fee revenue by \$5.9 million in fiscal 2013. EMEA's decrease in fee revenue was primarily driven by a 7% decrease in the number of engagements billed and a 2% decrease in weighted-average fees billed per engagement in fiscal 2013 as compared to fiscal 2012. The performance in existing offices in the France, United Kingdom, Spain, Turkey and Sweden were the primary contributors to the decrease. In terms of business sectors, industrial and life sciences/healthcare experienced the largest decreases in fee revenue, partially offset by the growth in consumer goods, education/non-profit and financial services sectors in fiscal 2013 as compared to fiscal 2012.

Asia Pacific reported fee revenue of \$73.2 million, a decrease of \$9.0 million, or 11%, in fiscal 2013 compared to \$82.2 million in fiscal 2012. Exchange rates unfavorably impacted fee revenue for Asia Pacific by \$1.4 million in fiscal 2013. The decrease was mainly due to a 13% decrease in the number of engagements billed, partially offset by a 3% increase in weighted-average fees billed per engagement in fiscal 2013 compared to fiscal 2012. The decrease in performance in Japan, Australia, Hong Kong, and Malaysia were the primary contributors to the decrease in fee revenue, partially offset by an increase in fee revenues in Singapore. The largest decrease in fee revenue was experienced in the industrial, financial services and consumer goods sectors, offset by growth in the technology sector.

South America reported fee revenue of \$30.2 million, a decrease of \$1.7 million, or 5%, in fiscal 2013 compared to \$31.9 million in fiscal 2012. Exchange rates unfavorably impacted fee revenue for South America by \$2.8 million in fiscal 2013. The decrease in fee revenue was mainly due to a decrease in the weighted-average fees billed offset by an increase in the number of engagements billed. The decrease in performance in Brazil was the primary contributor to the decrease in fee revenue, offset by increases in fee revenue in Peru and Venezuela. Industrial and financial services were the main sectors contributing to the decrease in fee revenue, partially offset by growth in the technology and consumer goods sectors.

Leadership & Talent Consulting. LTC serves as a bridge between a client's business strategy and their talent strategy. LTC combines intellectual content with traditional consulting services such as CEO & top team effectiveness, integrated talent management as well as leadership development and enterprise learning. LTC reported fee revenue of \$168.1 million, an increase of \$52.7 million, or 46%, in fiscal 2013 compared to \$115.4 million in fiscal 2012. Excluding fee revenue of \$45.6 million from the current year acquisitions, fee revenue would have been \$122.5 million, an increase of \$7.1 million, or 6% as compared to fiscal 2012. Exchange rates unfavorably impacted fee revenue for LTC by \$2.1 million in fiscal 2013. Excluding fee revenue from the current year acquisitions, the improvement in fee revenue was driven by an increase in broad based client demand with increases in the number of consulting clients. The increase in fee revenue consisted of an increase in fee revenue in EMEA of \$1.3 million, or 6%, to \$24.0 million, an increase in South America fee revenue of \$1.1 million to \$5.0 million, an increase in Asia Pacific fee revenue of \$0.5 million to \$13.5 million and an increase in fee revenue in North America of \$4.2 million or 6% to \$80.0 million.

Futurestep. Futurestep reported fee revenue of \$122.2 million, an increase of \$8.3 million, or 7%, in fiscal 2013 compared to \$113.9 million in fiscal 2012. Exchange rates unfavorably impacted fee revenue for Futurestep by \$2.5 million in fiscal 2013. The increase in Futurestep's fee revenue was due to a 14% increase in the number of engagements billed, offset by a 6% decrease in the weighted-average fees billed per engagement in fiscal 2013 compared to fiscal 2012. The increase in fee revenue was also positively impacted by an increase in level of activity for existing clients in fiscal 2013 as compared to fiscal 2012. Improvement in Futurestep fee revenue is primarily driven by increases in recruitment process outsourcing and to a lesser extent recruitment for non-executive professionals.

Compensation and Benefits

Compensation and benefits expense increased \$21.1 million, or 4%, to \$555.3 million in fiscal 2013 from \$534.2 million in fiscal 2012. The increase in compensation and benefits expense was due to the current year acquisitions, which contributed \$30.9 million in compensation and benefits expense. Excluding the current year

acquisitions, compensation and benefits expense decreased by \$9.8 million, or 2% compared to fiscal 2012. The decrease in compensation and benefits was mainly due to a \$9.5 million, or 3% decrease in salaries and related taxes (excluding current year acquisitions). Salaries and related payroll taxes declined due to a decrease in the average Executive Recruitment headcount during fiscal 2013 compared to fiscal 2012. Also contributing to the decline in compensation and benefits expense was a \$1.7 million decrease in performance related bonus expense to \$113.9 million from \$115.6 million as result of a decline in the Company's overall level of profitability as defined by pre-tax income before bonus and restructuring expense in fiscal 2013 compared to fiscal 2012. Offsetting the decline in compensation and benefits expense was an increase in the fair value of amounts owed under certain compensation plans of \$5.2 million, partially offset by \$1.9 million decrease in amortized prepaid compensation and a \$1.8 million decrease in stock based compensation due to a smaller amount of awards granted in fiscal 2013 compared to prior years. Exchange rates favorably impacted compensation and benefits expenses by \$10.2 million during fiscal 2013.

The changes in the fair value of vested amounts owed under certain deferred compensation plans resulted in an increase to compensation and benefits expense of \$5.6 million and \$0.4 million in fiscal 2013 and 2012, respectively. Offsetting these changes in compensation and benefits expense was an increase in the fair value of marketable securities classified as trading (held in trust to satisfy obligations under certain deferred compensation liabilities), of \$7.6 million and \$1.1 million in fiscal 2013 and 2012, respectively, recorded in other income (loss), net on the consolidated statement of income.

Executive Recruitment compensation and benefits expense decreased \$11.6 million, or 3%, to \$354.1 million in fiscal 2013 compared to \$365.7 million in fiscal 2012, primarily due to a \$8.4 million or 4% decrease in salaries and related payroll taxes, a decrease of \$1.4 million in stock based compensation and a \$1.3 million decline from the reduction in the use of outside contractors due to ongoing cost control initiatives, partially offset by an increase in the fair value of vested amounts owed under certain deferred compensation plans that resulted in an increase in compensation expense of \$4.9 million in fiscal 2013 compared to fiscal 2012. Salaries and related payroll taxes declined due to the decrease in average Executive Recruitment headcount while the decrease in stock based compensation was due to the smaller amount of awards being granted in fiscal 2013 compared to prior years. In addition, performance related bonus expense decreased by \$2.5 million driven by the decrease in Executive Recruitment overall level of profitability. Exchange rates favorably impacted compensation and benefits expense by \$7.2 million during fiscal 2013. Executive Recruitment compensation and benefits expense increased as a percentage of fee revenue to 68% in fiscal 2013 from 65% in fiscal 2012.

LTC compensation and benefits expense increased \$32.7 million, or 52%, to \$95.8 million in fiscal 2013 from \$63.1 million in fiscal 2012. The increase was primarily due to the current year acquisitions, which contributed \$30.9 million of compensation and benefits expense, an increase of \$1.4 million in salaries and related payroll taxes and an increase in performance related bonus expense of \$1.3 million. The increase in the performance related bonus expense was driven by the 6% increase in fee revenue (excluding fee revenue from current year acquisitions), which contributed to the overall level of profitability as defined by pre-tax income before bonus and restructuring expense while the increase in salaries and related payroll taxes is due to a 5% increase in average headcount (excluding current year acquisitions) in fiscal 2013 compared to fiscal 2012. LTC compensation and benefits expense as a percentage of fee revenue increased to 57% in fiscal 2013 from 55% in fiscal 2012. Exchange rates favorably impacted compensation and benefits expense by \$1.4 million during fiscal 2013.

Futurestep compensation and benefits expense increased \$0.1 million to \$82.8 million in fiscal 2013 from \$82.7 million in fiscal 2012. The increase was primarily due to an increase in performance related bonus expense of \$1.2 million which was driven by the 7% increase in fee revenue offset by savings in salaries and related payroll taxes due to fewer senior — level employees and more execution personnel. Exchange rates favorably impacted compensation and benefits expense by \$1.6 million. Futurestep compensation and benefits expense as a percentage of fee revenue decreased to 68% in fiscal 2013 from 73% in fiscal 2012.

Corporate compensation and benefits expense decreased \$0.1 million to \$22.6 million in fiscal 2013 from \$22.7 million in fiscal 2012. Compensation and benefits expense decreased due to a decrease in performance related bonus expense of \$1.7 million. Offsetting the decrease in compensation and benefits expense was a

15% increase in the average headcount contributed in part by transfers of certain individuals performing functions that benefit the Company worldwide.

General and Administrative Expenses

General and administrative expenses increased \$3.9 million, or 3%, to \$142.8 million in fiscal 2013 compared to \$138.9 million in fiscal 2012. The current year acquisitions, resulted in an increase in general and administrative expenses of \$7.9 million. Excluding the current year acquisitions, general and administrative expenses decreased \$4.0 million, or 3%, in fiscal 2013 compared to fiscal 2012. The decrease in general and administrative expenses is attributable to a decrease in legal and professional fees of \$6.0 million, a decrease in foreign exchange loss of \$2.0 million, a \$0.8 million decrease in business development expense and a decrease in travel related expenses of \$0.7 million. These decreases were partially offset by an increase of \$3.1 million in transaction and integration costs incurred as part of the acquisition of PDI, a reduction in contingent consideration relating to a prior acquisition of \$2.2 million, which reduced general and administrative expenses in fiscal 2012, and an increase in the bad debt expense of \$0.8 million. The decrease in business development expense and travel related expenses was due to the ongoing cost control initiatives. Exchange rates favorably impacted general and administrative expenses by \$3.5 million in fiscal 2013. General and administrative expenses as a percentage of fee revenue was 18% in both fiscal 2013 and 2012.

Executive Recruitment general and administrative expenses decreased \$6.3 million, or 8%, to \$69.9 million in fiscal 2013 from \$76.2 million in fiscal 2012. The decrease in general and administrative expenses was driven by a decrease of \$2.9 million in premise and office expense, \$1.2 million decrease in foreign exchange loss, a decrease of \$0.8 million in travel related expense, \$0.7 million decrease in bad debt expense, and a decrease of \$0.4 million in business development expense. The decrease in premise expense was due to the restructuring that took place in fiscal 2013 and lower maintenance costs while the decrease in bad debt expense was due to a decline in historical bad debt trends. The decrease in travel related expense and business development expense was due to the implementation of ongoing cost control initiatives. Exchange rates favorably impacted general and administrative expenses by \$2.2 million. Executive Recruitment general and administrative expenses as a percentage of fee revenue was 13% in fiscal 2013 compared to 14% in fiscal 2012.

LTC general and administrative expenses increased \$9.2 million, or 55%, to \$25.8 million in fiscal 2013 from \$16.6 million in fiscal 2012. The increase in general and administrative expense was due in large part to the current year acquisitions, which contributed \$7.9 million to the increase. Also contributing to the increase was an increase in bad debt expense of \$0.9 million and an increase in business development expense of \$0.5 million in fiscal 2013 compared to fiscal 2012. The increases in business development expense and bad debt expense were due to the increase in LTC's business activity. Exchange rates favorably impacted general and administrative expenses by \$0.3 million. LTC general and administrative expenses as a percentage of fee revenue was 15% in fiscal 2013 compared to 14% in fiscal 2012.

Futurestep general and administrative expenses decreased \$0.1 million, or 1%, to \$19.0 million in fiscal 2013 from \$19.1 million in fiscal 2012. As compared to fiscal 2012, the following components of general and administrative expenses decreased in fiscal 2013: business development expense decreased \$0.6 million, professional service fees decreased \$0.6 million and travel related expenses decreased \$0.2 million; such decreases were offset by increases in premise and office expense of \$0.8 million and bad debt expense of \$0.5 million due to an increase in business activity during fiscal 2013 compared to fiscal 2012. The decrease in business development and travel related expenses were both due to cost control initiatives, while the decrease in professional services was due to lower legal fees. The increase in the premise and office expense was due to higher maintenance costs. Exchange rates favorably impacted general and administrative expenses by \$1.0 million. Futurestep general and administrative expenses as a percentage of fee revenue was 16% in fiscal 2013 compared to 17% in fiscal 2012.

Corporate general and administrative expenses increased \$1.1 million, or 4%, to \$28.1 million in fiscal 2013 from \$27.0 million in fiscal 2012. The increase in general and administrative expenses was due to \$3.1 million in transaction and integration costs incurred as a result of the acquisition of PDI, and an increase of \$1.1 million in premise and office expense as a result of higher insurance and maintenance costs. In addition, fiscal 2012

included a reduction in a contingent consideration of \$2.2 million relating to a prior acquisition. These increases were partially offset by a decrease of \$5.1 million in professional services mainly due to a decline in legal fees.

Engagement Expenses

Engagement expenses consist of expenses incurred by candidates and our consultants that are normally reimbursed by clients. In addition, engagement expenses include non-billable contractor and product costs related to the delivery of various services and products. Engagement expenses increased \$10.0 million, or 18%, to \$65.9 million in the fiscal 2013 compared to \$55.9 million in fiscal 2012. Excluding engagement expenses of \$9.4 million from the current year acquisitions, engagement expenses would have been \$56.5 million, an increase of \$0.6 million compared to fiscal 2012. Engagement expenses as a percentage of fee revenue was 8% and 7% during fiscal 2013 and 2012, respectively.

Depreciation and Amortization Expenses

Depreciation and amortization expenses were \$19.0 million and \$14.0 million in fiscal 2013 and 2012, respectively, an increase of \$5.0 million or 36%. This increase is attributable to the current year acquisition which resulted in an increase in depreciation and amortization expense of \$3.5 million due to the increase in intangible assets from the acquisitions and fixed assets. This expense relates mainly to computer equipment, software, furniture and fixtures, leasehold improvements and intangible assets.

Restructuring Charges, Net

During fiscal 2013, we implemented two restructuring plans in order to rationalize our cost structure in response to anticipated revenue levels and to focus on the integration synergies associated with the current year acquisitions. As a result, we recorded \$22.8 million of restructuring charges, net with \$16.3 million of severance costs and \$6.5 million in facility costs due to the consolidation and elimination of office space around the world. During fiscal 2012, we increased previously recorded restructuring charges, net by \$0.9 million, primarily related to the inability to sublease space, which was included in the original estimate.

Operating Income

Operating income decreased \$39.0 million to \$43.9 million in fiscal 2013 as compared to \$82.9 million in fiscal 2012. This decrease in operating income resulted from an increase in restructuring charges, compensation and benefits expense, engagement expenses, depreciation and amortization expenses and general administrative expenses of \$21.9 million, \$21.1 million, \$10.0 million, \$5.0 million and \$3.9 million, respectively, offset by a \$22.3 million increase in fee revenue, during fiscal 2013 as compared to fiscal 2012. Operating margin declined by 5.1 percentage points during fiscal 2013 as compared to fiscal 2012, primarily due to a change in mix of fee revenues by operating segment, lower operating margins in Executive Recruitment and LTC, partially offset by an increase in Futurestep operating margins and an increase in the operating loss in the Corporate segment.

Executive Recruitment operating income decreased \$28.9 million to \$81.0 million in fiscal 2013 as compared to \$109.9 million in fiscal 2012. The decrease in Executive Recruitment operating income is attributable to a decrease of \$38.7 million in fee revenue and an increase in restructuring charges of \$7.3 million, offset by a decrease of \$11.6 million in compensation and benefits expense and a decrease of \$6.3 million in general and administrative expenses, as compared to fiscal 2012. Executive Recruitment operating income during fiscal 2013 as a percentage of fee revenue was 16% compared to 20% in fiscal 2012.

LTC operating income decreased by \$10.0 million to \$6.4 million in fiscal 2013 as compared to \$16.4 million in fiscal 2012. The decrease in LTC operating income is primarily due to an increase of \$32.7 million in compensation and benefits expense, \$10.7 million in engagement expenses, \$9.2 million in general and administrative expenses, \$10.2 million in restructuring charges and \$3.4 million in depreciation and amortization expenses, offset by an increase of \$52.7 million in fee revenue and a \$3.6 million increase in reimbursed out of pocket engagement expenses, during fiscal 2013 as compared to fiscal 2012. LTC operating income as a percentage of fee revenue was 4% in fiscal 2013 compared to 14% in fiscal 2012 and was negatively impacted, in part, by the incremental infrastructure and support services costs related to the current year acquisitions.

Futurestep operating income increased by \$2.5 million to \$11.0 million in fiscal 2013 as compared to \$8.5 million in fiscal 2012. The increase in Futurestep operating income was primarily due to an increase in fee revenue of \$8.3 million, offset by an increase in cost to execute resource process outsourcing engagements of \$2.1 million and an increase in restructuring of \$3.4 million during fiscal 2013 as compared to fiscal 2012. Futurestep operating income as a percentage of fee revenue was 9% in fiscal 2013 compared to 7% in fiscal 2012.

Adjusted EBITDA

Adjusted EBITDA decreased \$3.5 million to \$97.8 million in fiscal 2013 as compared to \$101.3 million in fiscal 2012. This decrease in adjusted EBITDA resulted from an increase in compensation and benefits expense (excluding separation costs), engagement expenses, and general administrative expenses (excluding transaction and integration costs) of \$22.4 million, \$10.0 million, and \$0.8 million, respectively, offset by a \$22.3 million increase in fee revenue and \$6.6 million in other income, during fiscal 2013 as compared to fiscal 2012. Adjusted EBITDA margin declined by 0.8 percentage points during fiscal 2013 as compared to fiscal 2012, primarily due to a change in mix of fee revenues by operating segment, lower adjusted EBITDA margins in Executive Recruitment, partially offset by an increase in Futurestep adjusted EBITDA margins and a decrease in the adjusted EBITDA in the Corporate segment.

Executive Recruitment adjusted EBITDA decreased \$19.0 million to \$99.9 million in fiscal 2013 as compared to \$118.9 million in fiscal 2012. The decrease in Executive Recruitment adjusted EBITDA is attributable to a decrease of \$38.7 million in fee revenue, offset by a decrease of \$12.2 million in compensation and benefits expense (excluding separation costs) and a decrease of \$6.3 million in general and administrative expenses, as compared to fiscal 2012. Executive Recruitment adjusted EBITDA during fiscal 2013 as a percentage of fee revenue was 19% compared to 21% in fiscal 2012.

LTC adjusted EBITDA increased by \$3.5 million to \$22.6 million in fiscal 2013 as compared to \$19.1 million in fiscal 2012. The increase in LTC adjusted EBITDA is primarily due to an increase of \$52.7 million in fee revenue and a \$3.6 million increase in reimbursed out of pocket engagement expenses, offset by an increase of \$32.7 million in compensation and benefits expense, \$10.7 million in engagement expenses and \$9.2 million in general and administrative expenses during fiscal 2013 as compared to fiscal 2012. LTC adjusted EBITDA as a percentage of fee revenue was 13% in fiscal 2013 compared to 17% in fiscal 2012 and was negatively impacted, in part, by the incremental infrastructure and support services costs related to the current year acquisitions.

Futurestep adjusted EBITDA increased by \$5.1 million to \$15.7 million in fiscal 2013 as compared to \$10.6 million in fiscal 2012. The increase in Futurestep adjusted EBITDA was primarily due to an increase in fee revenue of \$8.3 million, offset by an increase in cost to execute resource process outsourcing engagements of \$2.1 million and an increase in compensation and benefits expense (excluding separation costs) of \$1.0 million during fiscal 2013 as compared to fiscal 2012. Futurestep adjusted EBITDA as a percentage of fee revenue was 13% in fiscal 2013 compared to 9% in fiscal 2012.

Other Income (Loss), Net

Other income (loss), net increased by \$6.6 million, to income of \$6.3 million in fiscal 2013 compared to a loss of \$0.3 million in fiscal 2012. The increase in other income (loss), net reflects a \$6.5 million increase in the market value of mutual funds held in trust for settlement of our obligations under certain deferred compensation plans (see Note 6 — *Deferred Compensation and Retirement Plans*, included in the consolidated financial statements) during fiscal 2013 as compared to fiscal 2012. Offsetting this increase in other income (loss), net is a \$5.4 million increase in certain deferred compensation retirement plan liabilities (see Note 6 — *Deferred Compensation and Retirement Plans*, included in the Notes to our Consolidated Financial Statements) during the same period, which resulted in an increase of compensation and benefits expense.

Interest Expense, Net

Interest expense, net primarily relates to borrowings under our COLI policies, which is partially offset by interest earned on cash and cash equivalent balances. Interest expense, net was \$2.3 million and \$1.8 million in fiscal 2013 and 2012, respectively.

Income Tax Provision

The provision for income taxes was \$16.7 million in fiscal 2013 compared to \$28.4 million in fiscal 2012. The provision for income taxes in fiscal 2013 and 2012 reflects a 35% effective tax rate for both periods.

Equity in Earnings of Unconsolidated Subsidiaries, Net

Equity in earnings of unconsolidated subsidiaries, net is comprised of our less than 50% interest in our Mexican subsidiary and IGroup, LLC. IGroup, LLC became an unconsolidated subsidiary in the third quarter of fiscal 2012 when we sold a portion of the interest in the subsidiary. We report our interest in earnings or loss of our Mexican subsidiary and IGroup, LLC on the equity basis as a one-line adjustment to net income, net of taxes. Equity in earnings was \$2.1 million in fiscal 2013, compared to \$1.9 million in fiscal 2012.

Fiscal 2012 Compared to Fiscal 2011

Fee Revenue

Fee Revenue. Fee revenue increased \$46.2 million, or 6%, to \$790.5 million in fiscal 2012 compared to \$744.3 million in fiscal 2011. The increase in fee revenue was primarily attributable to a 4% increase in the weighted-average fees billed per engagement during fiscal 2012 as compared to fiscal 2011 and a 2% increase in the number of engagements billed during the same period. Weighted-average fees billed are impacted by the mix of engagements by geography and segment, and fluctuating foreign currencies. Exchange rates favorably impacted fee revenues by \$18.3 million in fiscal 2012.

Executive Recruitment. Executive recruitment reported fee revenue of \$561.2 million, an increase of \$6.5 million, or 1%, in fiscal 2012 compared to \$554.7 million in fiscal 2011. The increase in executive recruitment fee revenue was driven by a 6% increase in the weighted-average fees billed per engagement in fiscal 2012 as compared to fiscal 2011, offset by a 5% decrease in the number of executive recruitment engagements billed during the same period. Weighted-average fees billed are impacted by the mix of engagements by geography and fluctuating foreign currencies. Exchange rates favorably impacted fee revenues by \$11.7 million in fiscal 2012.

North America reported fee revenue of \$305.7 million, a decrease of \$0.5 million in fiscal 2012 compared to \$306.2 million in fiscal 2011. North America's decrease in fee revenue was primarily due to a 2% decrease in the number of engagements billed during fiscal 2012 as compared to fiscal 2011, offset by an increase of 2% in the weighted-average fees billed per engagement in the region during the same period. The overall decrease in fee revenue was driven by decreases in fee revenue in the technology and financial services sectors, partially offset by an increase in fee revenue in the life sciences/healthcare, industrial and education/non-profit sector. Exchange rates favorably impacted North America fee revenue by \$0.8 million in fiscal 2012.

EMEA reported fee revenue of \$141.4 million, an increase of \$4.0 million, or 3%, in fiscal 2012 compared to \$137.4 million in fiscal 2011. EMEA's increase in fee revenue was primarily driven by a 9% increase in the weighted-average fees billed, offset by a 6% decrease in the number of engagements billed in fiscal 2012 as compared to fiscal 2011. The performance in existing offices in Switzerland, Germany, and Belgium were the primary contributors to the increase in fee revenue in fiscal 2012 compared to fiscal 2011, offset by a decrease in fee revenue in the United Arab Emirates. In terms of business sectors, industrial and consumer goods experienced the largest increases in fee revenue in fiscal 2012 as compared to fiscal 2011, partially offset by a decrease in fee revenue in the financial services sector. Exchange rates favorably impacted EMEA's fee revenue by \$4.9 million in fiscal 2012.

Asia Pacific reported fee revenue of \$82.2 million, an increase of \$0.3 million, in fiscal 2012 compared to \$81.9 million in fiscal 2011. This increase was mainly due to a 16% increase in weighted-average fees billed per engagement, offset by a 13% decrease in the number of engagements billed in fiscal 2012 compared to fiscal 2011. The performance in Japan and Australia were the primary contributors to the increase in fee revenue in fiscal 2012 compared to fiscal 2011, offset by a decrease in fee revenue from Hong Kong. The largest increase in fee revenue was experienced in the consumer goods and industrial sectors, offset by a decrease in fee revenue in the financial services sector. Exchange rates favorably impacted fee revenue for Asia Pacific by \$3.9 million in fiscal 2012.

South America reported fee revenue of \$31.9 million, an increase of \$2.7 million, or 9%, in fiscal 2012 compared to \$29.2 million in fiscal 2011. The increase in South America's fee revenue was due to a 7% increase in the number of engagements billed during fiscal 2012 as compared to fiscal 2011 and a 2% increase in the weighted- average fees billed per engagement in the region during the same period. The performance in Chile and Brazil were the primary contributors to the increase in fee revenue in fiscal 2012 compared to fiscal 2011. Industrial, financial services and life sciences/healthcare were the main sectors contributing to the increase in fee revenue in fiscal 2012 compared to fiscal 2011, partially offset by a decrease in fee revenue in the technology sector. Exchange rates favorably impacted fee revenue for South America by \$2.1 million in fiscal 2012.

Leadership & Talent Consulting. LTC reported fee revenue of \$115.4 million, an increase of \$16.0 million, or 16%, in fiscal 2012 compared to \$99.4 million in fiscal 2011. The improvement in fee revenue was driven by an increase in broad based client demand with increases in the number of consulting clients and in fee revenue productivity per consultant in fiscal 2012 compared to fiscal 2011. The increase in fee revenue consisted of an increase in fee revenue in North America of \$6.0 million or 9% to \$75.8 million, an increase in Asia Pacific fee revenue of \$4.6 million to \$13.0 million, an increase in fee revenue in EMEA of \$4.3 million, or 23%, to \$22.7 million and an increase in South America fee revenue of \$1.1 million to \$3.9 million. Exchange rates favorably impacted fee revenue for LTC by \$1.7 million in fiscal 2012.

Futurestep. Futurestep reported fee revenue of \$113.9 million, an increase of \$23.7 million, or 26%, in fiscal 2012 compared to \$90.2 million in fiscal 2011. The increase in Futurestep's fee revenue was due to a 23% increase in the weighted-average fees billed per engagement and a 3% increase in the number of engagements billed in fiscal 2012 compared to fiscal 2011. The increase in fee revenue was also positively impacted by an increase in new clients and in the level of activity for existing clients in fiscal 2012 as compared to fiscal 2011. The increase in Futurestep's fee revenue consisted of North America fee revenue increase of \$12.3 million, or 35%, to \$47.6 million; Asia Pacific fee revenue increase of \$5.8 million, or 21% to \$33.1 million; an increase in Europe fee revenue of \$4.8 million, or 17%, to \$32.4 million and fee revenue of \$0.8 million in South America. Improvement in Futurestep fee revenue is primarily driven by increases in RPO, which have higher average fees per engagement, and recruitment for non-executive professionals. Exchange rates favorably impacted fee revenue for Futurestep by \$4.9 million in fiscal 2012.

Compensation and Benefits

Compensation and benefits expense increased \$26.8 million, or 5%, to \$534.2 million in fiscal 2012 from \$507.4 million in fiscal 2011. The increase in compensation and benefits expense is mainly due to a 14% increase in salaries and related payroll taxes in fiscal 2012 as compared to fiscal 2011 due in large part to a 10% growth in average worldwide headcount, and to a lesser extent, \$1.9 million of separation charges related to changes in certain corporate and Futurestep leadership positions recorded in fiscal 2012. The growth in average worldwide headcount was primarily due to an increase in execution and support staff to support our growth in Futurestep and other business activities. Compensation and benefits expense in Futurestep increased \$19.4 million in fiscal 2012 compared to fiscal 2011. The increase in compensation and benefits expense was partially offset by a \$10.7 million decrease in performance related bonus expense. This decrease was driven by the Company's overall level of profitability and was also impacted by a change in the mix of business by operating segment, notably from the strong performance of Futurestep, where bonus expense relative to revenues is lower than in the Executive Recruitment operating segment. During fiscal 2012, Futurestep and LTC fee revenue increased by 26% and 16%, respectively compared to fiscal 2011 while Executive Recruitment fee revenue only increased by 1% for the same period. The performance related bonus expense was \$116.8 million in fiscal 2012 compared to \$128.3 million in fiscal 2011. In addition, the performance related bonus expense for fiscal 2012 and fiscal 2011 was reduced by a change in the bonus expense estimate of \$1.2 million and \$2.0 million for fiscal 2011 and fiscal 2010, respectively, resulting in net bonus expense of \$115.6 million and \$126.3 million, respectively. These changes in estimates represent the difference between the bonus expense recorded for fiscal 2011 and fiscal 2010 and the actual cash payments made or to be made with respect to amounts earned during such fiscal years. Exchange rates unfavorably impacted compensation and benefits expenses by \$13.2 million during fiscal 2012.

In addition, changes in the fair value of vested amounts owed under certain deferred compensation plans resulted in an increase of compensation expense of \$0.4 million and \$6.2 million in fiscal 2012 and fiscal 2011,

respectively. Offsetting these changes in compensation and benefits expense was an increase in the fair value of marketable securities classified as trading (held in trust to satisfy obligations under certain deferred compensation liabilities) of \$1.1 million and \$7.6 million during fiscal 2012 and fiscal 2011, respectively, recorded in other (loss) income, net on the consolidated statements of income.

Executive recruitment compensation and benefits expense decreased \$1.9 million to \$365.7 million in fiscal 2012 compared to \$367.6 million in fiscal 2011. The decrease in compensation and benefits expense is primarily due to a reduction in the performance related bonus expense of \$10.4 million in fiscal 2012 compared to the fiscal 2011 driven by the Company's overall level of profitability as defined by pre-tax income before bonus expense. Offsetting these decreases was a 7% increase in salaries and related payroll taxes due in large part to a 3% growth in average executive recruitment headcount (primarily support staff). In addition, changes in the fair value of vested amounts owed under certain deferred compensation plans resulted in an increase of compensation expense of \$0.4 million and \$5.6 million in fiscal 2012 and fiscal 2011, respectively. Executive recruitment compensation and benefits expense decreased as a percentage of fee revenue to 65% from 66% in fiscal 2012 and 2011, respectively. Exchange rates unfavorably impacted compensation and benefits expenses by \$8.9 million during fiscal 2012.

LTC compensation and benefits expense increased \$4.8 million, or 8%, to \$63.1 million in fiscal 2012 from \$58.3 million in fiscal 2011. The increase was primarily due to an increase in salaries and related payroll taxes which was due to a 3% increase in average headcount in fiscal 2012 compared to fiscal 2011 and an increase in resources used to support the increase in the volume of business activity. LTC compensation and benefits expense as a percentage of fee revenue decreased to 55% in fiscal 2012 from 59% in fiscal 2011. Exchange rates unfavorably impacted compensation and benefits expense by \$1.1 million during fiscal 2012.

Futurestep compensation and benefits expense increased \$19.4 million, or 31%, to \$82.7 million in fiscal 2012 from \$63.3 million in fiscal 2011. The increase was primarily due to a 30% increase in average headcount in support of Futurestep's increased business activities and 26% increase in fee revenue, and to a lesser extent, \$0.9 million of separation changes related to changes in Futurestep leadership positions. Exchange rates unfavorably impacted compensation and benefits expense by \$3.2 million. Futurestep compensation and benefits expense as a percentage of fee revenue increased to 73% in fiscal 2012 from 70% in fiscal 2011.

Corporate compensation and benefits expense was \$22.7 million in fiscal 2012 which is net of \$6.3 million increase in the cash surrender value ("CSV") of company owned life insurance ("COLI") compared to \$18.2 million in fiscal 2011 which is net of \$7.2 million increase of the CSV of COLI. The CSV of COLI is held to fund other deferred compensation retirement plans and the change in CSV of COLI was the primary reason for the increase in compensation and benefits expense in addition to an increase in average headcount. The increase in the CSV of COLI was due to changes in the value of the underlying investments due to market changes. Contributing to the increase in compensation and benefit expense in fiscal 2012 is \$1.0 million in separation charges related to changes in a Corporate leadership position and a 17% increase in average headcount.

General and Administrative Expenses

General and administrative expenses increased \$22.4 million, or 19%, to \$138.9 million in fiscal 2012 compared to \$116.5 million in fiscal 2011. The increase is attributable to an increase of \$12.4 million in legal and other professional fees associated with regulatory matters and, to a much lesser extent, our investments to enhance our internal control environment, business development activities and other employee related matters an increase of \$5.8 million in premise and office expenses and \$3.2 million in business development expenses, which includes costs associated with social media initiatives. Also, contributing to the increase in general and administrative expenses were foreign exchange transaction losses in fiscal 2012 compared to foreign exchange transaction gains in fiscal 2011, netting to an increase in general and administrative expenses of \$2.7 million. Partially offsetting these increases was a decrease of \$1.9 million in bad debt expense due to greater than anticipated collections in the second half of fiscal 2012. Exchange rates unfavorably impacted general and administrative expenses by \$4.0 million in fiscal 2012. General and administrative expenses as a percentage of fee revenue were 18% in fiscal 2012 as compared to 16% in fiscal 2011.

Executive recruitment general and administrative expenses increased \$5.5 million, or 8%, to \$76.2 million in fiscal 2012 from \$70.7 million in fiscal 2011. The increase in general and administrative expenses was driven by an increase in premises and office expense, foreign exchange transaction losses and an increase in business development, partially offset by a decrease in bad debt expense in fiscal 2012 compared to fiscal 2011. Premise and office expenses increased due to obtaining additional office space in existing locations and bad debt expense decreased due to greater than anticipated collections in fiscal 2012. Exchange rates unfavorably impacted general and administrative expenses by \$2.4 million. Executive recruitment general and administrative expenses as a percentage of fee revenue were 14% in fiscal 2012 as compared to 13% in fiscal 2011.

LTC general and administrative expenses decreased \$2.3 million, or 12%, to \$16.6 million in fiscal 2012 from \$18.9 million in fiscal 2011. The decrease in general and administrative expense was due to write-off the Sensa trademark, in fiscal 2011 and decrease in bad debt expense in fiscal 2012 compared to fiscal 2011. Exchange rates unfavorably impacted general and administrative expenses by \$0.3 million. LTC general and administrative expenses as a percentage of fee revenue were 14% in fiscal 2012 compared to 19% in fiscal 2011.

Futurestep general and administrative expenses increased \$2.7 million, or 16%, to \$19.1 million in fiscal 2012 compared to \$16.4 million in fiscal 2011, primarily due to increases of \$1.8 million in premises and office expenses and \$1.0 million in business development related to the increase in our overall business activities reflected in the 26% increase in fee revenues. Exchange rates unfavorably impacted general and administrative expenses by \$1.3 million in fiscal 2012. Futurestep general and administrative expenses as a percentage of fee revenue were 17% in fiscal 2012 compared to 18% in fiscal 2011.

Corporate general and administrative expenses increased \$16.5 million to \$27.0 million in fiscal 2012 compared to \$10.5 million in fiscal 2011. The increase is largely attributable to an increase in legal and other professional fees of \$11.0 million, and to a lesser extent, an increase of \$2.7 million as a result of recording a reduction of \$2.2 million in the estimated fair value of acquisition-related contingent consideration in fiscal 2012 compared to \$4.9 million in fiscal 2011. In addition, business development expenses and foreign exchange transaction losses increased \$1.7 million and \$1.0 million, respectively. Business development expenses, including costs associated with social media initiatives, increased primarily due to the increase in our overall business activities.

Engagement Expenses

Engagement expenses consist of expenses incurred by candidates and our consultants that are normally reimbursed by clients. In addition, engagement expenses include non-billable contractor and product costs related to the delivery of various services and products. Engagement expenses increased \$4.1 million, or 8%, to \$55.9 million in fiscal 2012 compared to \$51.8 million in fiscal 2011, driven by the increase in the volume of business activity. Engagement expenses as a percentage of fee revenue were 7% in both fiscal 2012 and 2011.

Depreciation and Amortization Expenses

Depreciation and amortization expenses were \$14.0 million and \$12.7 million in fiscal 2012 and 2011, respectively. This expense relates mainly to computer equipment, software, furniture and fixtures and leasehold improvements.

Restructuring Charges, Net

During fiscal 2012 and 2011, we increased previously recorded restructuring charges, net by \$0.9 million and \$2.1 million, respectively primarily related to the inability to sublease space, which was included in the original estimate.

Operating Income

Operating income decreased \$2.9 million to \$82.9 million in fiscal 2012 as compared to \$85.8 million in fiscal 2011. This decrease in operating income resulted from an increase in compensation and benefits expense and general administrative expenses of \$26.8 million and \$22.4 million, respectively, offset by a \$46.2 million increase in fee revenue during fiscal 2012 as compared to fiscal 2011. Operating margin declined by 1.0 percentage points

during fiscal 2012 as compared to fiscal 2011, primarily due to a change in mix of fee revenues by operating segment and a decrease in operating loss in the Corporate segment.

Executive Recruitment operating income increased \$5.6 million to \$109.9 million in the fiscal 2012 as compared to \$104.3 million in fiscal 2011. The increase in Executive Recruitment operating income is attributable to an increase of \$6.5 million in fee revenue, a decrease of \$1.9 million and \$1.4 million in compensation and benefits expense and restructuring charges, respectively, offset by an increase of \$5.5 million in general and administrative expenses during fiscal 2012 as compared to fiscal 2011. Executive Recruitment operating income as a percentage of fee revenue were 20% in fiscal 2012 as compared to 19% in fiscal 2011.

LTC operating income increased by \$11.3 million to \$16.4 million in fiscal 2012 as compared to \$5.1 million in fiscal 2011. The increase in LTC operating income is primarily due to an increase of \$16.0 million in fee revenue and a decrease of \$2.3 million in general and administrative expenses, offset by an increase of \$4.8 million in compensation and benefits expense during fiscal 2012 as compared to fiscal 2011. LTC operating income as a percentage of fee revenue was 14% in fiscal 2012 as compared to 5% in fiscal 2011.

Futurestep operating income increased by \$1.5 million to \$8.5 million in fiscal 2012 as compared to \$7.0 million in fiscal 2011. The increase in Futurestep operating income was primarily due to an increase in fee revenue of \$23.7 million, offset by an increase in compensation and benefits expense of \$19.4 million and an increase of \$2.7 million in general and administrative expenses during fiscal 2012 as compared to fiscal 2011. Futurestep operating income as a percentage of fee revenue were 7% in fiscal 2012 as compared to 8% in fiscal 2011.

Adjusted EBITDA

Adjusted EBITDA decreased \$7.6 million to \$101.3 million in fiscal 2012 as compared to \$108.9 million in fiscal 2011. This decrease in adjusted EBITDA resulted from an increase in compensation and benefits expense (excluding separation charges), and general administrative expenses of \$24.9 million and \$22.4 million, respectively, and a decrease of \$6.7 million in other income, due to an increase in the market value of mutual funds held in trust for settlement of our obligations under certain deferred compensation plans, offset by a \$46.2 million increase in fee revenue and \$4.3 million increase in reimbursed out of pocket engagement expenses during fiscal 2012 as compared to fiscal 2011. Adjusted EBITDA margin declined by 1.8 percentage points during fiscal 2012 as compared to fiscal 2011, primarily due to a change in mix of fee revenues by operating segment and a decrease in adjusted EBITDA in the Corporate segment.

Executive Recruitment adjusted EBITDA increased \$5.0 million to \$118.9 million in the fiscal 2012 as compared to \$113.9 million in fiscal 2011. The increase in Executive Recruitment adjusted EBITDA is attributable to an increase of \$6.5 million in fee revenue, a decrease of \$1.9 million in compensation and benefits expense, offset by an increase of \$5.5 million in general and administrative expenses during fiscal 2012 as compared to fiscal 2011. Executive Recruitment adjusted EBITDA as a percentage of fee revenue were 21% in both fiscal 2012 and 2011.

LTC adjusted EBITDA increased by \$11.0 million to \$19.1 million in fiscal 2012 as compared to \$8.1 million in fiscal 2011. The increase in LTC adjusted EBITDA is primarily due to an increase of \$16.0 million in fee revenue and a decrease of \$2.3 million in general and administrative expenses, offset by an increase of \$4.8 million in compensation and benefits expense during fiscal 2012 as compared to fiscal 2011. LTC adjusted EBITDA as a percentage of fee revenue was 17% in fiscal 2012 as compared to 8% in fiscal 2011.

Futurestep adjusted EBITDA increased by \$2.8 million to \$10.6 million in fiscal 2012 as compared to \$7.8 million in fiscal 2011. The increase in Futurestep adjusted EBITDA was primarily due to an increase in fee revenue of \$23.7 million, offset by an increase in compensation and benefits expense (excluding separation costs) of \$18.5 million and an increase of \$2.7 million in general and administrative expenses during fiscal 2012 as compared to fiscal 2011. Futurestep adjusted EBITDA as a percentage of fee revenue were 9% in both fiscal 2012 and 2011.

Other (Loss) Income, Net

Other (loss) income, net decreased by \$6.7 million to a loss of \$0.3 million in fiscal 2012 as compared to other income of \$6.4 million in fiscal 2011. This decrease was primarily due to net gains on marketable securities of \$1.1 million and \$7.6 million classified as trading in fiscal 2012 and fiscal 2011, respectively. The decrease in other (loss) income, net reflects a \$6.5 million change in the increase in the market value of mutual funds held in trust for settlement of our obligations under certain deferred compensation plans (see Note 5 — *Marketable Securities*, in the Notes to our Consolidated Financial Statements) during fiscal 2012 as compared to fiscal 2011. Offsetting this decrease in other (loss) income, net is a \$5.8 million decrease in certain deferred compensation retirement plan liabilities (see Note 6 — *Deferred Compensation and Retirement Plans*, in the Notes to our Consolidated Financial Statements) during the same period, which resulted in a reduction of compensation and benefits expense.

Interest Expense, Net

Interest expense, net primarily relates to borrowings under our COLI policies, which is partially offset by interest earned on cash and cash equivalent balances. Interest expense, net was \$1.8 million in fiscal 2012 as compared to \$2.5 million in fiscal 2011. The decrease in interest expense, net is due to a decline in our average borrowings under our COLI policies and an increase in dividend and interest income primarily as a result of higher average balances of interest earning assets.

Income Taxes Provision

The provision for income taxes was \$28.4 million in fiscal 2012 compared to \$32.7 million in fiscal 2011. The provision for income taxes in fiscal 2012 reflects a 35% effective tax rate, compared to a 36% effective tax rate for fiscal 2011. The decrease in the effective tax rate during fiscal 2012 as compared to fiscal 2011, is due to a decline in international income tax rates and a greater percentage of our worldwide income arising in jurisdictions outside the U.S. with lower income tax rates.

Equity in Earnings of Unconsolidated Subsidiaries, Net

Equity in earnings of unconsolidated subsidiaries, net is comprised of our less than 50% interest in our Mexican subsidiary and IGroup, LLC. IGroup, LLC became an unconsolidated subsidiary in fiscal 2012 when we sold a portion of the interest in the subsidiary. We report our interest in earnings or loss of our Mexican subsidiary and IGroup, LLC on the equity basis as a one-line adjustment to net income, net of taxes. Equity in earnings were \$1.9 million in both fiscal 2012 and 2011.

Liquidity and Capital Resources

Our performance is subject to the general level of economic activity in the geographic regions and the industries which we service. While we believe, based on current economic conditions, that our cash on hand and funds from operations will be sufficient to meet anticipated working capital, capital expenditures and general corporate requirements during the next twelve months, if the national or global economy, credit market conditions, and/or labor markets were to deteriorate in the future, it is likely that such changes would put negative pressure on demand for our services and affect our operating cash flows. In light of the current economic uncertainty, the Company implemented a restructuring plan in the second quarter of fiscal 2013 in order to align our cost structure with anticipated revenue levels. In addition, in the third and fourth quarters of fiscal 2013, we implemented another restructuring plan focused on the integration synergies associated with the current year acquisitions. If the uncertain economic environment negatively impacts the demand for our services for a prolonged period of time, we may incur negative cash flows, and if such conditions persist over an extended period of time, it might require us to access our existing credit Facility to meet our capital needs.

Cash and cash equivalents and marketable securities were \$366.0 million and \$417.7 million as of April 30, 2013 and 2012, respectively. As of April 30, 2013 and 2012, we held \$146.8 million and \$130.3 million, respectively of cash and cash equivalents in foreign locations, substantially all of which is readily convertible

into other foreign currencies. If these amounts were distributed to the United States, in the form of dividends, we would be subject to additional U.S. income taxes. The Company has a plan to distribute a portion of the cash held in foreign locations to the United States and has recorded a \$0.9 million deferred tax liability for additional taxes that would arise in connection with these distributions. Cash and cash equivalents consist of cash and highly liquid investments purchased with original maturities of three months or less. Marketable securities consist of mutual funds and investments in corporate bonds, U.S. Treasury and agency securities and commercial paper. The primary objectives of our investment in mutual funds are to meet the obligations under certain of our deferred compensation plans, while the other securities are available for general corporate purposes.

As of April 30, 2013 and 2012, our marketable securities of \$141.9 million and \$135.7 million, respectively, included \$98.0 million (net of gross unrealized gains of \$3.1 million and no gross unrealized losses) and \$82.2 million (net of gross unrealized gains of \$3.5 million and gross unrealized losses of \$0.4 million), respectively, held in trust for settlement of our obligations under certain deferred compensation plans, of which \$93.5 million and \$74.6 million, respectively, are classified as non-current. Our obligations for which these assets were held in trust totaled \$99.2 million and \$82.6 million as of April 30, 2013 and 2012, respectively. As of April 30, 2013 and 2012, we had marketable securities classified as available-for-sale with a balance of \$43.9 million and \$53.5 million, respectively. These securities represent excess cash invested under our investment policy with a professional money manager and are available for general corporate purposes.

The net decrease in our working capital of \$99.8 million as of April 30, 2013 compared to April 30, 2012 is primarily attributable to a decrease in cash and cash equivalents and current portion of marketable securities and an increase in other accrued liabilities, partially offset by an increase in accounts receivable. Cash and cash equivalents decreased due to the payment of annual bonuses earned in fiscal 2012 and paid during the first quarter fiscal 2013 and Company contributions made to the ECAP. Cash and cash equivalents also decreased as a result of the acquisitions of Global Novations and PDI while accounts receivable increased due to an increase in the number of days sales outstanding which increased from 64 days to 68 days from April 30, 2012 to April 30, 2013. Accounts receivable also increased as a result of the acquisitions of PDI and Global Novations, which accounted for \$25.7 million of the increase as of acquisition date. The decrease in marketable securities is due to lower expected ECAP payments in the next twelve months and an overall decrease in our available-for-sale securities as a result of the acquisitions of Global Novations and PDI. The increase in other accrued liabilities is primarily due to restructuring accruals recorded in fiscal 2013 that are due within one year and \$15.0 million in contingent consideration liabilities due to the acquisition of PDI. Cash provided by operating activities was \$61.7 million in fiscal 2013, a decrease of \$9.3 million, from cash provided by operating activities of \$71.0 million in fiscal 2012. The decrease in cash provided in operating activities is primarily due to lower operating income, offset by a decrease in fiscal 2012 bonuses paid in fiscal 2013 as compared to fiscal 2011 bonuses paid in fiscal 2012.

Cash used in investing activities was \$116.7 million in fiscal 2013; an increase of \$83.7 million from cash used in investing activities of \$33.0 million in fiscal 2012. The increase in cash used in investing activities is primarily attributable to the purchase price payment for the acquisition of PDI of \$77.6 million and Global Novations of \$34.5 million, offset by an increase of \$13.6 million in net proceeds from the purchase and sale/maturities of marketable securities. In addition, there was \$7.2 million in restricted cash that became unrestricted during the year as a result of entering into a new credit agreement, as described below, that does not require the Company to maintain a certain amount of cash as collateral (which was required under the Company's prior credit facility), and a decrease in cash used to purchase property and equipment of \$5.5 million.

Cash used in financing activities was \$0.4 million in fiscal 2013, an increase of \$2.6 million from cash provided by financing activities of \$2.2 million in fiscal 2012. Cash used in financing activities increased primarily due to a decrease of \$2.2 million in cash proceeds from the exercise of employee stock options and our employee stock purchase plan, a decrease of \$1.4 million in tax benefit from the exercise of stock options and a \$0.4 million decrease in the amount of borrowings under life insurance policies, offset by a decrease in the cash used to repurchase shares of common stock to satisfy tax withholding requirements upon the vesting of restricted stock by \$1.4 million. As of April 30, 2013, \$24.4 million remained available for common stock repurchases under our stock repurchase program, approved by the Board of Directors on November 2, 2007.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements and have not entered into any transactions involving unconsolidated, special purpose entities.

Contractual Obligations

Contractual obligations represent future cash commitments and liabilities under agreements with third parties, and exclude contingent liabilities for which we cannot reasonably predict future payment. The following table represents our contractual obligations as of April 30, 2013:

	Note(1)	Payments Due in:				
		Total	Less Than 1 Year	1-3 Years (in thousands)	3-5 Years	More Than 5 Years
Operating lease commitments	14	\$ 213,328	\$ 44,096	\$ 65,456	\$ 37,681	\$ 66,095
Accrued restructuring charges(2)	7	11,045	8,426	2,041	558	20
Interest payments on COLI loans(3)	10	49,385	4,139	8,277	8,266	28,703
Contingent consideration	12	15,000	15,000	—	—	—
Total		<u>\$288,758</u>	<u>\$71,661</u>	<u>\$ 75,774</u>	<u>\$46,505</u>	<u>\$ 94,818</u>

- (1) See Note in the accompanying consolidated financial statements in Item 15.
- (2) Represents rent payments, net of sublease income on an undiscounted basis and severance costs.
- (3) Assumes COLI loans remain outstanding until receipt of death benefits on COLI policies and applies current interest rates on COLI loans ranging from 4.76% to 8.00%.

In addition to the contractual obligations above, we have liabilities related to certain employee benefit plans. These liabilities are recorded in our Consolidated Balance Sheets. The obligations related to these employee benefit plans are described in Note 6 — *Deferred Compensation and Retirement Plans*, in the Notes to our Consolidated Financial Statements.

Lastly, we have contingent commitments under certain employment agreements that are payable upon involuntary, termination without cause, as described in Note 14 — *Commitments and Contingencies*, in the Notes to our Consolidated Financial Statements.

Cash Surrender Value of Company Owned Life Insurance Policies, Net of Loans

The Company purchased Company Owned Life Insurance (“COLI”) policies or contracts insuring certain employees eligible to participate in the deferred compensation and pension plans as a means of funding benefits under such plans. As of April 30, 2013 and 2012, we held contracts with gross CSV of \$159.2 million and \$151.1 million, respectively. Total outstanding borrowings against the CSV of COLI contracts were \$73.3 million as of April 30, 2013 and 2012. At April 30, 2013 and 2012, the net cash value of these policies was \$85.9 million and \$77.8 million, respectively. Such borrowings do not require annual principal repayments, bear interest primarily at variable rates and are secured by the CSV of COLI contracts. Starting in second quarter of fiscal 2012, we paid our premiums under our COLI contracts from operating cash, and in prior years, we generally borrowed under our COLI contracts to pay related premiums and as a result there were no borrowings under our COLI contracts in fiscal 2013.

Long-Term Debt

We entered into a new senior unsecured revolving Credit Agreement (the “Facility”) on January 18, 2013, which provides for an aggregate availability up to \$75.0 million with an option to increase the Facility by an additional \$50.0 million, subject to lender consent, and a \$15.0 million sub-limit for letters of credit. The Facility matures on January 18, 2018 and replaces the senior secured Loan Agreement dated as of March 14, 2011 (the “Previous Facility”), which was terminated on the same date the Facility was entered into with the exception of

\$2.7 million of letters of credits that are still outstanding under the Previous Facility. Borrowings under the Facility bear interest, at our election, at the London Interbank Offered Rate (“LIBOR”) plus the applicable margin or the base rate plus the applicable margin. The base rate is the highest of (i) the published prime rate, (ii) the federal funds rate plus 1.50%, or (iii) one month LIBOR plus 1.50%. The applicable margin is based on a percentage per annum determined in accordance with a specified pricing grid based on the total funded debt to adjusted EBITDA ratio. For LIBOR loans, the applicable margin will range from 0.50% to 1.50% per annum, while for base rate loans the applicable margin will range from 0.00% to 0.25% per annum. We are required to pay a quarterly commitment fee of 0.25% to 0.35% on the Facility’s unused commitments based on the Company’s funded debt to adjusted EBITDA ratio. The financial covenants include a maximum consolidated funded debt to adjusted EBITDA ratio, and a minimum adjusted EBITDA. As of April 30, 2013, we are in compliance with the financial covenants. In addition, there is a domestic liquidity requirement that we maintain \$50.0 million in unrestricted cash and/or marketable securities (excluding any marketable securities that are held in trust for the settlement of our obligations under certain deferred compensation plans) as a condition to consummating permitted acquisitions, paying dividends to our shareholders and shares repurchases of our common stock.

As of April 30, 2013 and 2012, we had no borrowings under the Facility or Previous Facility. At April 30, 2013 and 2012, there was \$2.7 million and \$2.9 million, respectively, of standby letters of credit associated with certain lease premises. We were required to maintain \$2.9 million in restricted cash to provide collateral for the standby letters of credit that remain outstanding as of April 30, 2013. As of April 30, 2012, under the Previous Facility, we had \$10.0 million of restricted cash. There is no restricted cash requirement under the Facility.

We are not aware of any other trends, demands or commitments that would materially affect liquidity or those that relate to our resources.

Accounting Developments

Recently Adopted Accounting Standards

In June 2011, the Financial Accounting Standards Board (“FASB”) issued guidance on the presentation of comprehensive income in the financial statements. The new guidance eliminates the option to present other comprehensive income and its components as part of the statement of changes in stockholders’ equity. Instead, it requires the Company to present either a continuous statement of net income and other comprehensive income, or in two separate but consecutive statements. The new guidance was effective for the Company beginning May 1, 2012. The Company now presents the components of comprehensive income as a separate, consecutive statement. The adoption of this guidance did not have an impact on the Company’s financial position or results of operations.

Recently Proposed Accounting Standards

In July 2012, the FASB issued updated guidance on the periodic testing of indefinite-lived intangible assets for impairment. This guidance allows companies to assess qualitative factors to determine if it is more likely than not that the indefinite-lived intangible asset might be impaired and whether it is necessary to perform a quantitative impairment test. This new guidance is effective for the Company beginning May 1, 2013, with early adoption permitted. The adoption of this update is not expected to have a material impact on our Consolidated Financial Statements.

In February 2013, the FASB issued updated guidance requiring entities to provide information about the amounts reclassified out of accumulated other comprehensive income (“AOCI”) by component. In addition, an entity is required to present, either on the face of the financial statements or in the notes, significant amounts reclassified out of AOCI by the respective line items of net income, but only if the amount reclassified is required to be reclassified in its entirety in the same reporting period. For amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures that provide additional details about those amounts. No changes were made to the current requirements for reporting net income or other comprehensive income in the financial statements. The guidance is effective for annual and interim reporting periods beginning after December 15, 2012. The adoption of this update is not expected to have a material impact on the Consolidated Financial Statements of the Company.

In March 2013, the FASB issued guidance on releasing cumulative translation adjustments when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. In addition, these amendments provide guidance on the release of cumulative translation adjustments in partial sales of equity method investments and in step acquisitions. This new guidance is effective on a prospective basis for fiscal years and interim reporting periods beginning after December 15, 2013. The amendments should be applied prospectively to derecognition events occurring after the effective date. Prior periods should not be adjusted and early adoption is permitted. The Company plans to adopt this guidance beginning May 1, 2014.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

As a result of our global operating activities, we are exposed to certain market risks, including foreign currency exchange fluctuations and fluctuations in interest rates. We manage our exposure to these risks in the normal course of our business as described below. We have not utilized financial instruments for trading, hedging or other speculative purposes nor do we trade in derivative financial instruments.

Foreign Currency Risk

Substantially all our foreign subsidiaries' operations are measured in their local currencies. Assets and liabilities are translated into U.S. dollars at the rates of exchange in effect at the end of each reporting period and revenue and expenses are translated at average rates of exchange during the reporting period. Resulting translation adjustments are reported as a component of accumulated other comprehensive income on our consolidated balance sheets.

Transactions denominated in a currency other than the reporting entity's functional currency may give rise to transaction gains and losses that impact our results of operations. Historically, we have not realized significant foreign currency gains or losses on such transactions. Foreign currency losses, on an after tax basis, included in net income were \$0.5 million and \$1.6 million during fiscal 2013 and 2012, respectively. Foreign currency gains, on an after tax basis, included in net income were \$0.1 million in fiscal 2011.

Our primary exposure to exchange losses or gains is based on outstanding intercompany loan balances denominated in U.S. dollars. If the U.S. dollar strengthened or weakened by 15%, 25% and 35% against the Pound Sterling, the Euro, the Canadian dollar, the Australian dollar and the Yen, our exchange loss or gain would have been \$0.6 million, \$1.1 million and \$1.5 million, respectively, based on outstanding balances at April 30, 2013.

Interest Rate Risk

We primarily manage our exposure to fluctuations in interest rates through our regular financing activities, which generally are short term and provide for variable market rates. As of April 30, 2013 and 2012, we had no outstanding borrowings under our Facility and Previous Facility. We had \$73.3 million of borrowings against the CSV of COLI contracts as of April 30, 2013 and 2012, bearing interest primarily at variable rates. The risk of fluctuations in these variable rates is minimized by the fact that we receive a corresponding adjustment to our borrowed funds crediting rate on the CSV on our COLI contracts.

Item 8. Financial Statements and Supplementary Data

See Consolidated Financial Statements beginning on page F-1 of this Annual Report on Form 10-K.

Supplemental Financial Information regarding quarterly results is contained in Note 15 — *Quarterly Results*, in the Notes to our Consolidated Financial Statements.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Not applicable.

Item 9A. Controls and Procedures

- (a) Evaluation of Disclosure Controls and Procedures.

Based on their evaluation of our disclosure controls and procedures conducted as of the end of the period covered by this Annual Report on Form 10-K, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act of 1934 (the “Exchange Act”)) are effective.

- (b) Changes in Internal Control over Financial Reporting.

There were no changes in our internal control over financial reporting during the fourth fiscal quarter that have materially affected or are reasonably likely to materially affect our internal control over financial reporting. See Management’s Report on Internal Control Over Financial Reporting and Report of Independent Registered Public Accounting Firm on Internal Control Over Financial Reporting on pages F-2 and F-3, respectively.

Item 9B. Other Information

Not applicable.

PART III.**Item 10. Directors, Executive Officers and Corporate Governance**

The information required by this Item will be included under the captions “The Board of Directors” and “Section 16(a) Beneficial Ownership Reporting Compliance” and elsewhere in our 2013 Proxy Statement, and is incorporated herein by reference. The information under the heading “Executive Officers of the Registrant” in Part I of this Annual Report on Form 10-K is also incorporated by reference in this section.

We have adopted a “Code of Business Conduct and Ethics,” which is applicable to our directors, chief executive officer and senior financial officers, including our principal financial officer, who is also our principal accounting officer. The Code of Business Conduct and Ethics is available on our website at www.kornferry.com. We intend to post amendments to or waivers to this Code of Business Conduct and Ethics on our website when adopted.

Item 11. Executive Compensation

The information required by this Item will be included in our 2013 Proxy Statement, and is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

**MANAGEMENT’S REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING**

Management of Korn/Ferry International (the “Company”) is responsible for establishing and maintaining adequate internal control over financial reporting and for the assessment of the effectiveness of internal control over financial reporting. As defined by the Securities and Exchange Commission, internal control over financial reporting is a process designed by, or supervised by, the issuer’s principal executive and principal financial officers, and effected by the issuer’s board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

The Company’s internal control over financial reporting is supported by written policies and procedures, that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the Company’s assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Company’s management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In connection with the preparation of the Company’s annual financial statements, management of the Company has undertaken an assessment of the effectiveness of the Company’s internal control over financial reporting as of April 30, 2013 based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (“the COSO Framework”). Management’s assessment included an evaluation of the design of the Company’s internal control over financial reporting and testing of the operational effectiveness of the Company’s internal control over financial reporting.

Our evaluation did not include assessing the effectiveness of internal control over financial reporting for the 2013 acquisition of PDI Ninth House which is included in the 2013 consolidated financial statements of the Company and constituted 11% and 13% of total and net assets, respectively, as of April 30, 2013 and 3% of fee revenues, for the year then ended. We did not assess the effectiveness of internal control over financial reporting at this newly acquired entity due to the insufficient time between the date acquired and year-end and the complexity associated with assessing internal controls during integration efforts making the process impractical.

Based on this assessment, management did not identify any material weakness in the Company’s internal control over financial reporting, and management has concluded that the Company’s internal control over financial reporting was effective as of April 30, 2013.

Ernst & Young, LLP, the independent registered public accounting firm that audited the Company’s financial statements for the year ended April 30, 2013 included in this Annual Report on Form 10-K, has issued an audit report on the effectiveness of the Company’s internal control over financial reporting as of April 30, 2013, a copy of which is included in this Annual Report on Form 10-K.

June 25, 2013

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Stockholders and Board of Directors
Korn/Ferry International

We have audited Korn/Ferry International and subsidiaries' (the "Company") internal control over financial reporting as of April 30, 2013 based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). The Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

As indicated in the accompanying Report of Management on Korn/Ferry International's Internal Control Over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of the 2013 acquisition of PDI Ninth House, which is included in the 2013 consolidated financial statements of the Company and constituted 11% and 13% of total and net assets, respectively, as of April 30, 2013 and 3% of fee revenue, for the year then ended. Our audit of internal control over financial reporting of Korn/Ferry International also did not include an evaluation of the internal control over financial reporting of this newly acquired entity.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Korn/Ferry International and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of April 30, 2013, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Korn/Ferry International and subsidiaries as of April 30, 2013 and 2012, and the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for each of the three years in the period ended April 30, 2013 and our report dated June 25, 2013, expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP

Los Angeles, California
June 25, 2013

**REPORT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM**

Stockholders and Board of Directors
Korn/Ferry International

We have audited the accompanying consolidated balance sheets of Korn/Ferry International and subsidiaries (the "Company") as of April 30, 2013 and 2012, and the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for each of the three years in the period ended April 30, 2013. Our audits also included the financial statement schedule listed in the index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Korn/Ferry International and subsidiaries at April 30, 2013 and 2012, and the consolidated results of their operations and their cash flows for each of the three years in the period ended April 30, 2013, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of April 30, 2013, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated June 25, 2013, expressed an unqualified opinion thereon.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
April 30, 2013

1. Organization and Summary of Significant Accounting Policies

Nature of Business

Korn/Ferry International, a Delaware corporation (the “Company”), and its subsidiaries are engaged in the business of providing talent management solutions, including executive recruitment on a retained basis, recruitment process outsourcing and leadership & talent consulting services. The Company’s worldwide network of 87 offices in 37 countries enables it to meet the needs of its clients in all industries.

Basis of Consolidation and Presentation

The consolidated financial statements include the accounts of the Company and its wholly and majority owned/controlled domestic and international subsidiaries. All intercompany balances and transactions have been eliminated in consolidation. The preparation of the consolidated financial statements conform with United States (“U.S.”) generally accepted accounting principles (“GAAP”) and prevailing practice within the industry. The consolidated financial statements include all adjustments, consisting of normal recurring accruals and any other adjustments that management considers necessary for a fair presentation of the results for these periods.

As previously announced, beginning in the first quarter of fiscal 2013, the Company disaggregated its previous reported business segment, Executive Recruitment, into two business segments, Executive Recruitment and Leadership & Talent Consulting (“LTC”). The Company now operates in three global business segments, as described in more detail in Note 11 – *Business Segments*.

The Company has revised comparative segment information to reflect the new global business segment structure. The adjusted segment information constitutes a reclassification and had no impact on reported net income or earnings per share for preceding periods. This change does not restate information previously reported in the consolidated statements of income, consolidated balance sheets, comprehensive income, consolidated statements of stockholders’ equity or consolidated statements of cash flows for the Company for preceding periods.

Investments in affiliated companies, which are 50% or less owned and where the Company exercises significant influence over operations, are accounted for using the equity method. Dividends received from our unconsolidated subsidiaries were approximately \$1.9 million, \$1.7 million and \$1.6 million during fiscal 2013, 2012 and 2011, respectively.

The Company considers events or transactions that occur after the balance sheet date but before the consolidated financial statements are issued to provide additional evidence relative to certain estimates or to identify matters that require additional disclosures.

Use of Estimates and Uncertainties

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates, and changes in estimates are reported in current operations as new information is learned or upon the amounts becoming fixed and determinable. The most significant areas that require management judgment are revenue recognition, restructuring, deferred compensation, annual performance related bonus, evaluation of the carrying value of receivables, marketable securities, goodwill and other intangible assets, fair value of contingent consideration, share-based payments and the recoverability of deferred income taxes.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

Revenue Recognition

Substantially all professional fee revenue is derived from fees for professional services related to executive recruitment performed on a retained basis, recruitment for non-executive professionals, recruitment process outsourcing and leadership & talent consulting services. Fee revenue from executive recruitment activities and recruitment for non-executive professionals are generally one-third of the estimated first year cash compensation of the placed executive plus a percentage of the fee to cover indirect expenses. The Company generally recognizes revenue straight-line over a three month period, commencing upon client acceptance, as this is the period over which the recruitment services are performed. Fees earned in excess of the initial contract amount are recognized upon completion of the engagement, which reflect the difference between the final actual compensation of the placed executive and the estimate used for purposes of the previous billings. Since the initial contract fees are generally not contingent upon placement of a candidate, our assumptions primarily relate to establishing the period over which such service is performed. These assumptions determine the timing of revenue recognition and profitability for the reported period. Any services that are provided on a contingent basis are recognized once the contingency is fulfilled. In addition to recruitment for non-executive professionals, Futurestep provides recruitment process outsourcing services and fee revenue is recognized as services are rendered. Fee revenue from LTC services is recognized as services are rendered for consulting engagements and other time based services, measured by total hours incurred to the total estimated hours at completion. It is possible that updated estimates for the consulting engagement may vary from initial estimates with such updates being recognized in the period of determination. LTC revenue is also derived from the sale of solution services, which includes revenue from licenses and from the sale of products. Revenue from licenses is recognized using a straight-line method over the term of the contract (generally 12 months), which begins upon execution and is invoiced in the same month. Products sold by the Company mainly consist of books covering a variety of topics including performance management, team effectiveness, and coaching and development. The Company recognizes revenue for its products when the product has been sold.

Reimbursements

The Company incurs certain out-of-pocket expenses that are reimbursed by its clients, which are accounted for as revenue in its consolidated statements of income.

Allowance for Doubtful Accounts

An allowance is established for doubtful accounts by taking a charge to general and administrative expenses. The amount of the allowance is based on historical loss experience, assessment of the collectability of specific accounts, as well as expectations of future collections based upon trends and the type of work for which services are rendered. After the Company exhausts all collection efforts, the amount of the allowance is reduced for balances identified as uncollectible.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

Restricted Cash

The Company had \$2.9 million and \$10.0 million of restricted cash at April 30, 2013 and 2012, respectively, related to standby letters of credit associated with certain leases for premises, which is included in investments and other assets in the accompanying consolidated balance sheets (see Note 10 — *Long-Term Debt*).

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

Marketable Securities

The Company currently has investments in marketable securities and mutual funds which are classified as either trading securities or available-for-sale, based upon management's intent and ability to hold, sell or trade such securities. The classification of the investments in these marketable securities and mutual funds is assessed upon purchase and reassessed at each reporting period. These investments are recorded at fair value and are classified as marketable securities in the accompanying consolidated balance sheets. The investments that the Company may sell within the next twelve months, are carried as current assets. Realized gains (losses) on marketable securities are determined by specific identification. Investments are made based on the Company's investment policy which restricts the types of investments that can be made. Interest is recognized on an accrual basis, dividends are recorded as earned on the ex-dividend date. Interest and dividend income are recorded in the accompanying consolidated statements of income in interest expense, net.

The Company's investments in mutual funds, (for which market prices are readily available), are held in trust to satisfy obligations under the Company's deferred compensation plans (see Note 5 — *Marketable Securities*), are classified as trading securities. The changes in fair values on trading securities are recorded in the accompanying consolidated statements of income in other income (loss), net.

The Company also invests cash in excess of its daily operating requirements and capital needs primarily in marketable fixed income (debt) securities in accordance with the Company's investment policy. The Company's investment portfolio includes corporate bonds, commercial paper and U. S. Treasury and agency securities. These marketable fixed income (debt) securities are classified as available-for-sale securities based on management's decision, at the date such securities are acquired, not to hold these securities to maturity or actively trade them. The Company carries these marketable debt securities at fair value based on the market prices for these marketable debt securities or similar debt securities whose prices are readily available. The changes in fair values, net of applicable taxes, are recorded as unrealized gains or losses as a component of comprehensive income. When, in the opinion of management, a decline in the fair value of an investment below its amortized cost is considered to be "other-than-temporary," a credit loss is recorded in the statement of income in other income (loss), net; any amount in excess of the credit loss is recorded as unrealized gains or losses as a component of comprehensive income. Generally, the amount of the loss is the difference between the cost or amortized cost and its then current fair value; a credit loss is the difference between the discounted expected future cash flows to be collected from the debt security and the cost or amortized cost of the debt security. The determination of the other-than-temporary decline includes, in addition to other relevant factors, a presumption that if the market value is below cost by a significant amount for a period of time, a write-down may be necessary. During fiscal 2013, 2012 and 2011, no other-than-temporary impairment was recognized.

Fair Value of Financial Instruments

Fair value is the price the Company would receive to sell an asset or transfer a liability (exit price) in an orderly transaction between market participants. For those assets and liabilities recorded or disclosed at fair value, the Company determines the fair value based upon the quoted market price, if available. If a quoted market price is not available for identical assets, the fair value is based upon the quoted market price of similar assets. The fair values are assigned a level within the fair value hierarchy as defined below:

- *Level 1:* Observable inputs such as quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

- *Level 2:* Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- *Level 3:* Unobservable inputs that reflect the reporting entity's own assumptions.

As of April 30, 2013 and 2012, the Company held certain assets that are required to be measured at fair value on a recurring basis. These included cash equivalents and marketable securities. The carrying amount of cash, cash equivalents and accounts receivable approximates fair value due to the short maturity of these instruments. The fair values of marketable securities classified as trading are obtained from quoted market prices, and the fair values of marketable securities classified as available-for-sale are obtained from a third party, which are based on quoted prices or market prices for similar assets.

Business Acquisitions

Business acquisitions are accounted for under the acquisition method. The acquisition method requires the reporting entity to identify the acquirer, determine the acquisition date, recognize and measure the identifiable assets acquired, the liabilities assumed and any non-controlling interest in the acquired entity, and recognize and measure goodwill or a gain from the purchase. The acquiree's results are included in the Company's consolidated financial statements from the date of acquisition. Assets acquired and liabilities assumed are recorded at their fair values and the excess of the purchase price over the amounts assigned is recorded as goodwill, or if the fair value of the assets acquired exceeds the purchase price consideration, a bargain purchase gain is recorded. Adjustments to fair value assessments are generally recorded to goodwill over the measurement period (generally not longer than twelve months). The acquisition method also requires that acquisition-related transaction and post-acquisition restructuring costs be charged to expense as committed, and requires the Company to recognize and measure certain assets and liabilities including those arising from contingencies and contingent consideration in a business combination. During fiscal 2012 and fiscal 2011, the Company recorded a \$2.2 million and \$4.9 million reduction in the estimated fair value of contingent consideration relating to a prior acquisition, respectively, as a component of general and administrative expenses.

Property and Equipment

Property and equipment is carried at cost less accumulated depreciation. Leasehold improvements are amortized on a straight-line basis over the estimated useful life of the asset, or the lease term, whichever is shorter. Software development costs for internal use are capitalized and, once placed in service, amortized using the straight-line method over the estimated useful life, generally three to seven years. All other property and equipment is depreciated or amortized on a straight-line basis over the estimated useful lives of three to ten years.

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable.

Goodwill and Intangible Assets

Goodwill represents the excess of the purchase price over the fair value of assets acquired. The goodwill impairment test compares the fair value of a reporting unit with its carrying amount, including goodwill. If the carrying amount of a reporting unit exceeds its fair value, goodwill of the reporting unit would be considered impaired. To measure the amount of the impairment loss, the implied fair value of a reporting unit's goodwill is compared to the carrying amount of that goodwill. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination. If the carrying amount of a reporting

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess. For each of these tests, the fair value of each of the Company's reporting units is determined using a combination of valuation techniques, including a discounted cash flow methodology. To corroborate the discounted cash flow analysis performed at each reporting unit, a market approach, is utilized using observable market data such as comparable companies in similar lines of business that are publicly traded or which are part of a public or private transaction (to the extent available). Results of the annual impairment test performed as of January 31, 2013, indicated that the fair value of each reporting unit exceeded its carrying amount. As a result, no impairment charge was recognized. There was also no indication of impairment during the fourth quarter of fiscal 2013.

Intangible assets primarily consist of customer lists, non-compete agreements, proprietary databases, intellectual property and trademarks and are recorded at their estimated fair value at the date of acquisition and are amortized in a pattern in which the asset is consumed if that pattern can be reliably determined, or using the straight-line method over their estimated useful lives which range from two to 24 years. For intangible assets subject to amortization, an impairment loss is recognized if the carrying amount of the intangible assets is not recoverable and exceeds fair value. The carrying amount of the intangible assets is considered not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from use of the asset. Intangible assets with indefinite lives are not amortized, but are reviewed annually for impairment or more frequently whenever events or changes in circumstances indicate that the fair value of the asset may be less than its carrying amount. During fiscal 2011, the Company wrote-off a trademark no longer in use with a net book value of \$0.9 million. As of April 30, 2013 and 2012, there were no further indicators of impairment with respect to the Company's intangible assets.

Compensation and Benefits Expense

Compensation and benefits expense in the accompanying consolidated statements of income consist of compensation and benefits paid to consultants (employees who originate business), executive officers and administrative and support personnel. The most significant portions of this expense are salaries and the amounts paid under the annual performance related bonus plan to employees. The portion of the expense applicable to salaries is comprised of wages and salaries earned by employees during a reporting period. The portion of the expenses applicable to annual performance related bonuses refers to the Company's annual employee performance related bonus with respect to a fiscal year, the amount of which is communicated and paid to each eligible employee following the completion of the fiscal year.

Each quarter, management makes its best estimate of its annual performance related bonuses, which requires management to, among other things, project annual consultant productivity (as measured by engagement fees billed and collected by executive search consultants and revenue for LTC and Futurestep consultants), Company performance including profitability, competitive forces and future economic conditions and their impact on the Company's results. At the end of each fiscal year, annual performance related bonuses take into account final individual consultant productivity, Company results including profitability, the achievement of strategic objectives and the results of individual performance appraisals, and the current economic landscape. Accordingly, each quarter the Company re-evaluates the assumptions used to estimate annual performance related bonus liability and adjusts the carrying amount of the liability recorded on the consolidated balance sheet and reports any changes in the estimate in current operations.

Because annual performance-based bonuses are communicated and paid only after the Company reports its full fiscal year results, actual performance-based bonus payments may differ from the prior year's estimate. Such changes in the bonus estimate historically have been immaterial and are recorded in current operations in the period in which they are determined. The performance related bonus expense was \$114.1 million, \$116.8 million

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

and \$128.3 million for the years ended April 30, 2013, 2012 and 2011, respectively, which was reduced by a change in the previous years' estimate recorded in fiscal 2013, 2012 and 2011 of \$0.2 million, \$1.2 million and \$2.0 million, respectively. This resulted in net bonus expense of \$113.9 million, \$115.6 million and \$126.3 million for the years ended April 30, 2013, 2012 and 2011, respectively, included in compensation and benefits expense in the consolidated statements of income.

These annual performance related bonuses are generally paid within twelve months following the fiscal year end, though the Company delayed payment of \$5.4 million and \$10.2 million of bonuses earned in fiscal 2010 and 2009 respectively, due to economic conditions prevailing at the time. The bonuses earned in fiscal 2009 of \$10.2 million were paid in December 2010, and the bonuses earned in fiscal 2010 of \$5.4 million were paid in December 2011.

Other expenses included in compensation and benefits expense are due to changes in deferred compensation and pension plan liabilities, changes in cash surrender value ("CSV") of company owned life insurance ("COLI") contracts, amortization of stock compensation awards, payroll taxes and employee insurance benefits.

Deferred Compensation and Pension Plans

For financial accounting purposes, the Company estimates the present value of the future benefits payable under the deferred compensation and pension plans as of the estimated payment commencement date. The Company also estimates the remaining number of years a participant will be employed by the Company. Then, each year during the period of estimated employment, the Company accrues a liability and recognizes expense for a portion of the future benefit using the "benefit/years of service" attribution method for Senior Executive Incentive Plan ("SEIP"), Wealth Accumulation Plan ("WAP") and Enhanced Wealth Accumulation Plan ("EWAP") and the "projected unit credit" method for the Worldwide Executive Benefit Plan ("WEB").

In calculating the accrual for future benefit payments, management has made assumptions regarding employee turnover, participant vesting, violation of non-competition provisions and the discount rate. Management periodically reevaluates all assumptions. If assumptions change in future reporting periods, the changes may impact the measurement and recognition of benefit liabilities and related compensation expense.

Executive Capital Accumulation Plan

The Company, under its incentive plans, makes discretionary contributions and such contributions may be granted to key employees annually based on the employee's performance. Certain key management may also receive Company contributions upon commencement of employment. The Company amortizes these contributions on a straight-line basis as they vest, generally over a four year period. The amounts that are expected to be paid to employees over the next 12 months are classified as a current liability included in compensation and benefits payable on the accompanying balance sheet.

The ECAP is accounted for whereby the changes in the fair value of the vested amounts owed to the participants are adjusted with a corresponding charge (or credit) to compensation and benefits costs.

Cash Surrender Value of Life Insurance

The Company purchased COLI policies or contracts insuring certain employees eligible to participate in the deferred compensation and pension plans as a means of funding benefits under such plans. The Company

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

purchased both fixed and variable life insurance contracts and does not purchase “split-dollar” life insurance policy contracts. The Company has both contracts or policies that provide for a fixed or guaranteed rate of return and a variable rate of return depending on the return of the policies’ investment in their underlying portfolio in equities and bonds. The CSV of these COLI contracts are carried at the amounts that would be realized if the contract were surrendered at the balance sheet date, net of the outstanding loans borrowed from the insurer. The Company has the intention and ability to continue these COLI policies and contracts. Additionally, the loans secured by the policies do not have any scheduled payment terms and the Company also does not intend to repay the loans outstanding on these policies until death benefits under the policy have been realized. Accordingly, the investment in COLI is classified as long-term in the accompanying consolidated balance sheet.

The change in the CSV of COLI contracts, net of insurance premiums paid and gains realized, is reported in compensation and benefits expense. As of April 30, 2013 and 2012, the Company held contracts with gross CSV of \$159.2 million and \$151.1 million, offset by outstanding policy loans of \$73.3 million in both periods. If these insurance companies were to become insolvent, the Company would be considered a general creditor for \$40.5 million and \$35.4 million of net CSV as of April 30, 2013 and 2012, respectively; therefore, these assets are subject to credit risk. Management, together with its outside advisors, routinely monitors the claims paying abilities of these insurance companies.

Restructuring Charges

The Company accounts for its restructuring charges as a liability when the obligations are incurred and records such charges at fair value. Changes in the estimates of the restructuring charges are recorded in the period the change is determined.

Stock-Based Compensation

The Company has employee compensation plans under which various types of stock-based instruments are granted. These instruments, principally include stock options, restricted stock units, restricted stock and an Employee Stock Purchase Plan (“ESPP”). The Company recognizes compensation expense related to restricted stock units, restricted stock and the estimated fair value of stock options and stock purchases under the ESPP on a straight-line basis over the service period for the entire award.

Translation of Foreign Currencies

Generally, financial results of the Company’s foreign subsidiaries are measured in their local currencies. Assets and liabilities are translated into U.S. dollars at exchange rates in effect at the balance sheet date, while revenue and expenses are translated at weighted-average exchange rates during the fiscal year. Resulting translation adjustments are recorded as a component of accumulated comprehensive income. Gains and losses from foreign currency transactions of these subsidiaries and the translation of the financial results of subsidiaries operating in highly inflationary economies are included in general and administrative expense in the period incurred. Foreign currency losses, on an after tax basis, included in net income were \$0.5 million and \$1.6 million during fiscal 2013 and 2012, respectively. Foreign currency gains, on an after tax basis, included in net income were \$0.1 million in fiscal 2011.

Income Taxes

There are two components of income tax expense: current and deferred. Current income tax expense (benefit) approximates taxes to be paid or refunded for the current period. Deferred income tax expense (benefit)

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

results from changes in deferred tax assets and liabilities between periods. These gross deferred tax assets and liabilities represent decreases or increases in taxes expected to be paid in the future because of future reversals of temporary differences in the basis of assets and liabilities as measured by tax laws and their basis as reported in the consolidated financial statements. Deferred tax assets are also recognized for tax attributes such as net operating loss carryforwards and tax credit carryforwards. Valuation allowances are then recorded to reduce deferred tax assets to the amounts management concludes are more likely than not to be realized.

Income tax benefits are recognized and measured based upon a two-step model: (1) a tax position must be more-likely-than-not to be sustained based solely on its technical merits in order to be recognized and (2) the benefit is measured as the largest dollar amount of that position that is more-likely-than-not to be sustained upon settlement. The difference between the benefit recognized for a position and the tax benefit claimed on a tax return is referred to as an unrecognized tax benefit. The Company records income tax related interest and penalties within income tax expense.

Concentration of Credit Risk

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash, cash equivalents, investments, receivables due from clients and net CSV due from insurance companies, which is discussed above. Cash equivalents include investments in commercial paper of companies with high credit ratings, investments in money market securities and securities backed by the U.S. government. Investments are diversified throughout many industries and geographic regions. The Company conducts periodic reviews of its customers' financial condition and customer payment practices to minimize collection risk on accounts receivable. At April 30, 2013 and 2012, the Company had no other significant credit concentrations.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation, including reclassifications related to the Company's new reporting segment structure as discussed above.

Recently Adopted Accounting Standards

In June 2011, the Financial Accounting Standards Board ("FASB") issued guidance on the presentation of comprehensive income in the financial statements. The new guidance eliminates the option to present other comprehensive income and its components as part of the statement of changes in stockholders' equity. Instead, it requires the Company to present either, a continuous statement of net income and other comprehensive income, or in two separate but consecutive statements. The new guidance was effective for the Company beginning May 1, 2012. The Company now presents the components of comprehensive income as a separate, consecutive statement. The adoption of this guidance did not have an impact on the Company's financial position or results of operations.

Recently Proposed Accounting Standards

In July 2012, the FASB issued updated guidance on the periodic testing of indefinite-lived intangible assets for impairment. This guidance allows companies to assess qualitative factors to determine if it is more likely than not that the indefinite-lived intangible asset might be impaired and whether it is necessary to perform a quantitative impairment test. This new guidance is effective for the Company beginning May 1, 2013, with early adoption permitted. The adoption of this update is not expected to have a material impact on the financial statements of the Company.

In February 2013, the FASB issued updated guidance requiring entities to provide information about the amounts reclassified out of accumulated other comprehensive income ("AOCI") by component. In addition, an

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

entity is required to present, either on the face of the financial statements or in the notes, significant amounts reclassified out of AOCI by the respective line items of net income, but only if the amount reclassified is required to be reclassified in its entirety in the same reporting period. For amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures that provide additional details about those amounts. No changes were made to the current requirements for reporting net income or other comprehensive income in the financial statements. The guidance is effective for annual and interim reporting periods beginning after December 15, 2012. The adoption of this update is not expected to have a material impact on the consolidated financial statements of the Company.

In March 2013, the FASB issued guidance on releasing cumulative translation adjustments when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. In addition, these amendments provide guidance on the release of cumulative translation adjustments in partial sales of equity method investments and in step acquisitions. This new guidance is effective on a prospective basis for fiscal years and interim reporting periods beginning after December 15, 2013. The amendments should be applied prospectively to derecognition events occurring after the effective date. Prior periods should not be adjusted and early adoption is permitted. The Company plans to adopt this guidance beginning May 1, 2014.

2. Basic and Diluted Earnings Per Share

Basic earnings per common share was computed by dividing net earnings attributable to common stockholders by the weighted-average number of common shares outstanding. Diluted earnings per common share was computed by dividing net earnings attributable to common stockholders by the weighted-average number of common shares outstanding plus dilutive common equivalent shares. Dilutive common equivalent shares include all in-the-money outstanding options or other contracts to issue common stock as if they were exercised or converted. During fiscal 2013, 2012 and 2011, options to purchase 0.50 million shares, 0.57 million shares and 0.39 million shares, respectively, were outstanding but not included in the computation of diluted earnings per share because they were anti-dilutive.

The following table summarizes basic and diluted earnings per share calculations:

	Year Ended April 30,		
	2013	2012	2011
	(in thousands, except per share data)		
Net earnings attributable to common stockholders	<u>\$33,293</u>	<u>\$ 54,303</u>	<u>\$58,874</u>
Weighted-average common shares outstanding:

3. Comprehensive (Loss) Income

Comprehensive (loss) income is comprised of net income and all changes to stockholders' equity, except those changes resulting from investments by stockholders (changes in paid in capital) and distributions to stockholders (dividends) and is reported in the accompanying consolidated statements of comprehensive income. Accumulated comprehensive (loss) income, net of taxes, is recorded as a component of stockholders' equity.

The components of accumulated other comprehensive (loss) income were as follows:

	April 30.	
	2013	2012
	(in thousands)	
Foreign currency translation adjustments	\$ 17,559	\$ 22,813
Defined benefit pension adjustments, net of taxes	(20,236)	(15,658)
Unrealized gains on marketable securities, net of taxes	46	36
Accumulated other comprehensive (loss) income, net	<u>\$ (2,631)</u>	<u>\$ 7,191</u>

4. Employee Stock Plans

Stock-Based Compensation

The following table summarizes the components of stock-based compensation expense recognized in the Company's consolidated statements of income for the periods indicated:

	Year Ended April 30.		
	2013	2012	2011
	(in thousands)		
Restricted stock	\$ 11,001	\$ 12,381	\$ 14,090
Stock options	905	933	1,028
ESPP	—	85	429
Total stock-based compensation expense, pre-tax	11,906	13,399	15,547
Tax benefit from stock-based compensation expense	(4,142)	(4,701)	(5,675)
Total stock-based compensation expense, net of tax	<u>\$ 7,764</u>	<u>\$ 8,698</u>	<u>\$ 9,872</u>

The Company uses the Black-Scholes option valuation model to estimate the grant date fair value of employee stock options. The expected volatility reflects consideration of the historical volatility in the Company's publicly traded stock during the period the option is granted. The Company believes historical volatility in these instruments is more indicative of expected future volatility than the implied volatility in the price of the Company's common stock. The expected life of each option is estimated using historical data. The risk-free interest rate is based on the U.S. Treasury zero-coupon issue with a remaining term approximating the expected term of the option. The Company uses historical data to estimate forfeiture rates applied to the gross amount of expense determined using the option valuation model.

The weighted-average assumptions used to estimate the fair value of each employee stock option for fiscal 2012 were 47.07% expected volatility, 1.47% risk-free interest rate, 5.0 years expected option life, and 0.00% dividend yield. The weighted-average assumptions used to estimate the fair value of each employee stock option for fiscal 2011 were 47.67% expected volatility, 1.83% risk-free interest rate, 5.0 years expected option life, and 0.00% dividend yield. There were no grants of stock options in fiscal 2013.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

The Black-Scholes option pricing model was developed for use in estimating the fair value of traded options. The assumptions used in option valuation models are highly subjective, particularly the expected stock price volatility of the underlying stock.

Stock Incentive Plan

At the Company's 2012 Annual Meeting of Stockholders, held on September 27, 2012, the Company's stockholders approved an amendment and restatement to the Korn/Ferry International Amended and Restated 2008 Stock Incentive Plan (the 2012 amendment and restatement being the "Second A&R 2008 Plan"), which among other things, increased the current maximum number of shares that may be issued under the plan to 5,700,000 shares, subject to certain changes in the Company's capital structure and other extraordinary events. The Second A&R 2008 Plan provides for the grant of awards to eligible participants, designated as either nonqualified or incentive stock options, restricted stock and restricted stock units, any of which may be performance-based, and incentive bonuses, which may be paid in cash or a combination thereof. Under the Second A&R 2008 Plan, the ability to issue full-value awards is limited by requiring full-value stock awards to count 1.91 times as much as stock options.

Options granted to officers, non-employee directors and other key employees generally vest over a three to four year period and generally expire seven to ten years from the date of grant. Stock options are granted at a price equal to the fair market value of the common stock on the date of grant. Key employees are eligible to receive a grant of stock options annually with the number of options determined by the employee's performance level. In addition, certain key management members typically receive stock option grants upon commencement of employment.

Stock Options

Stock options transactions under the Company's Second A&R 2008 Plan, as amended to date, were as follows:

	2013		April 30, 2012		2011	
	Options	Weighted-Average Exercise Price	Options	Weighted-Average Exercise Price	Options	Weighted-Average Exercise Price
	(in thousands, except per share data)					
Outstanding, beginning of year	1,492	\$ 14.00	1,833	\$ 13.78	2,723	\$ 14.72
Granted	—	\$ —	48	\$ 22.71	211	\$ 13.97
Exercised	(238)	\$ 9.32	(235)	\$ 12.76	(625)	\$ 12.81
Forfeited/expired	(154)	\$ 16.87	(154)	\$ 15.63	(476)	\$ 20.55
Outstanding, end of year	<u>1,100</u>	\$ 14.72	<u>1,492</u>	\$ 14.00	<u>1,833</u>	\$ 13.78
Exercisable, end of year	<u>864</u>	\$ 15.01	<u>1,061</u>	\$ 14.33	<u>1,219</u>	\$ 14.64

As of April 30, 2013, the aggregate intrinsic value of options outstanding and options exercisable were \$3.3 million and \$2.4 million, respectively.

As of April 30, 2013, there was \$0.7 million of total unrecognized compensation cost related to non-vested awards of stock options. That cost is expected to be recognized over a weighted-average period of 0.8 years. For stock option awards subject to graded vesting, the Company recognizes the total compensation cost on a straight-line basis over the service period for the entire award.

Total intrinsic value of stock options exercised	\$ 1,547	\$ 1,485	\$ 5,164

Restricted Stock

The Company grants time-based restricted stock to executive officers and other senior employees generally vesting over a three to four year period. Time-based restricted stock is granted at a price equal to fair value, which is determined based on the closing price of the Company's common stock on the grant date. The Company recognizes compensation expense for time-based restricted stock awards on a straight-line basis over the vesting period.

The Company also grants market-based restricted stock to executive officers and other senior employees. These market-based shares vest after three years depending upon the Company's total stockholder return over the three-year performance period relative to other companies in its selected peer group. The fair value of these market-based restricted stock awards was determined by a third-party valuation using extensive market data that are based on historical Company and peer group information. The Company recognizes compensation expense for market-based restricted stock awards on a straight-line basis over the vesting period. Employees may receive restricted stock annually in conjunction with the Company's performance review as well as upon commencement of employment.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

Restricted stock activity is summarized below:

	April 30,					
	2013		2012		2011	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
	(in thousands, except per share data)

Granted	889	\$ 13.93	687	\$ 21.46	562	\$ 15.12
Vested	(780)	\$ 14.10	(794)	\$ 15.58	(920)	\$ 15.32
Forfeited/expired	(80)	\$ 14.75	(119)	\$ 18.19	(115)	\$ 14.83
Non-vested, end of year	<u>1,810</u>	<u>\$ 9.80</u>	<u>1,781</u>	<u>\$ 9.85</u>	<u>2,007</u>	<u>\$ 8.64</u>

As of April 30, 2013, there was \$17.7 million of total unrecognized compensation cost related to non-vested awards of restricted stock, which is expected to be recognized over a weighted-average period of 2.4 years. For restricted stock awards subject to graded vesting, the Company recognizes the total compensation cost on a straight-line basis over the service period for the entire award. During fiscal 2013 and fiscal 2012, 197,456 shares and 190,141 shares of restricted stock totaling \$2.8 million and \$4.2 million, respectively, were repurchased by the Company, at the option of the employee, to pay for taxes related to vesting of restricted stock.

Employee Stock Purchase Plan

The Company has an ESPP that, in accordance with Section 423 of the Internal Revenue Code, allows eligible employees to authorize payroll deductions of up to 15% of their salary, or \$25,000 annually, to purchase shares of the Company's common stock at 85% of the fair market price of the common stock on the last day of the enrollment period. At the Company's 2011 Annual Meeting of Stockholders, held on September 28, 2011, the Company's stockholders approved an amendment and restatement of the ESPP, which among other things, increased the maximum number of shares that may be issued under the ESPP from 1.5 million shares to 3.0 million shares. During fiscal 2012 and 2011, employees purchased 76,909 shares at \$18.69 per share and 153,913 shares at \$14.13 per share, respectively. The ESPP was suspended during the second half of fiscal 2012 and as a result, no shares were purchased during fiscal 2013 or the second half of fiscal 2012. At April 30, 2013, the ESPP had approximately 1.6 million shares remaining available for future issuance.

Common Stock

During fiscal 2013 and 2012, the Company issued 237,856 shares and 228,835 shares of common stock, respectively, as a result of the exercise of stock options, with cash proceeds from the exercise of \$2.1 million and \$2.9 million, respectively.

During fiscal 2011, the Company repurchased 724,064 shares of the Company's common stock on the open market for \$10.6 million. No shares were repurchased on the open market during fiscal 2013 and 2012.

In June 2002, the Company issued warrants to purchase 274,207 shares of its common stock at an exercise price of \$11.94, subject to anti-dilution provisions. During fiscal 2011, these warrants were exercised for 274,207 shares of common stock in exchange for \$3.0 million in cash.

Total	98,001	43,915	141,916
Less: current portion of marketable securities	(4,537)	(15,810)	(20,347)
Non-current marketable securities	<u>\$93,464</u>	<u>\$ 28,105</u>	<u>\$ 121,569</u>

As of April 30, 2012, marketable securities consisted of the following:

	Trading (1)(3)	Available- for- Sale(2)(3)	Total
	(in thousands)		
Mutual funds	\$82,176	\$ —	\$ 82,176
Corporate bonds	—	44,563	44,563
Commercial paper	—	5,989	5,989
U.S. Treasury and agency securities	—	3,006	3,006
Total	82,176	53,558	135,734
Less: current portion of marketable securities	(7,613)	(33,323)	(40,936)
Non-current marketable securities	<u>\$74,563</u>	<u>\$ 20,235</u>	<u>\$ 94,798</u>

- (1) These investments are held in trust for settlement of the Company's obligations of \$99.2 million and \$82.6 million as of April 30, 2013 and 2012, respectively, under the Executive Capital Accumulation Plan (see Note 6 — *Deferred Compensation and Retirement Plans*).
- (2) These securities represent excess cash available for general corporate purposes invested, under our investment policy, with a professional money manager.
- (3) The Company's financial assets measured at fair value on a recurring basis include trading securities classified as Level 1 and available-for-sale securities classified as Level 2. As of April 30, 2013 and 2012, the Company had cash equivalents of \$93.6 million and \$60.5 million, and restricted cash of \$2.9 million and \$10.0 million, respectively, classified as Level 1. As of April 30, 2013 and 2012, the Company had no investments classified as Level 3.

The amortized cost and fair values of marketable securities classified as available-for-sale investments were as follows:

	April 30, 2013			Estimated Fair Value
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses(1)	
	(in thousands)			
Corporate bonds	\$ 42,033	\$ 92	\$ (14)	\$ 42,111

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

	April 30, 2012			Estimated Fair Value
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses(1)	
	(in thousands)			
Corporate bonds	\$ 44,498	\$ 81	\$ (16)	\$ 44,563
Commercial paper	5,993	1	(5)	5,989
U.S. Treasury and agency securities	3,006	—	—	3,006
Total	<u>\$53,497</u>	<u>\$ 82</u>	<u>\$ (21)</u>	<u>\$53,558</u>

(1) There are no marketable securities that have been in a continuous unrealized loss position for 12 months or more.

Investments in marketable securities classified as available-for-sale securities are made based on the Company's investment policy, which restricts the types of investments that can be made. As of April 30, 2013 and 2012, the Company's investments associated with cash equivalents, including restricted cash, consist of money market funds for which market prices are readily available. As of April 30, 2013 and 2012, marketable securities classified as available-for-sale consist of corporate bonds and U.S. Treasury and agency securities and as of April 30, 2012 also includes commercial paper, all for which market prices for similar assets are readily available. As of April 30, 2013, available-for-sale marketable securities have remaining maturities ranging from one month to 3.0 years. Investments in marketable securities classified as trading are based upon investment selections the employee elects from a pre-determined set of securities in the ECAP and the Company mirrors these elections. As of April 30, 2013 and 2012, the Company's investments in marketable securities classified as trading consist of mutual funds for which market prices are readily available.

As of April 30, 2013 and 2012, the Company's marketable securities were \$98.0 million (net of gross unrealized gains of \$3.1 million and no gross unrealized losses) and \$82.2 million (net of gross unrealized gains of \$3.5 million and gross unrealized losses of \$0.4 million), respectively.

6. Deferred Compensation and Retirement Plans

The Company has several deferred compensation and retirement plans for eligible consultants and vice-presidents that provide defined benefits to participants based on the deferral of current compensation or contributions made by the Company subject to vesting and retirement or termination provisions.

The total benefit obligations for these plans were as follows:

	Year Ended April 30,	
	2013	2012
	(in thousands)	
Deferred compensation plans	\$ 85,562	\$ 78,479
Pension plan	4,536	4,214
International retirement plans	3,646	2,776
Executive Capital Accumulation Plan	75,913	71,134
Total benefit obligations	<u>169,657</u>	<u>156,603</u>
Less: current portion of benefit obligation	<u>(9,951)</u>	<u>(14,026)</u>
Non-current benefit obligation	<u>\$ 159,706</u>	<u>\$ 142,577</u>

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

Deferred Compensation Plans

The Enhanced Wealth Accumulation Plan (“EWAP”) was established in fiscal 1994, which replaced the Wealth Accumulation Plan (“WAP”). Certain vice presidents elected to participate in a “deferral unit” that required the participant to contribute a portion of their compensation for an eight year period, or in some cases, make an after tax contribution, in return for defined benefit payments from the Company over a fifteen year period generally at retirement age of 65 or later. Participants were able to acquire additional “deferral units” every five years. Vice presidents who did not choose to roll over their WAP units into the EWAP continue to be covered under the earlier version in which participants generally vest and commence receipt of benefit payments at retirement age of 65. In June 2003, the Company amended the EWAP and WAP plans, so as not to allow new participants or the purchase of additional deferral units by existing participants.

The Company also maintains a Senior Executive Incentive Plan (“SEIP”) for participants approved by the Board. Generally, to be eligible, the vice president must be participating in the EWAP. Participation in the SEIP required the participant to contribute a portion of their compensation during a four-year period, or in some cases make an after tax contribution, in return for a defined benefit paid by the Company generally over a fifteen year period after ten years of participation in the plan or such later date as elected by the participant. In June 2003, the Company amended the SEIP plan, so as not to allow new participants or the purchase of additional deferral units by existing participants.

Pension Plan

The Company has a defined benefit pension plan, referred to as the Worldwide Executive Benefit (“WEB”), covering certain executives in the U.S. and foreign countries. The WEB is designed to integrate with government sponsored and local benefits and provide a monthly benefit to vice presidents upon retirement from the Company. Each year a plan participant accrued and was fully vested in one-twentieth of the targeted benefits expressed as a percentage set by the Company for that year. Upon retirement, a participant receives a monthly benefit payment equal to the sum of the percentages accrued over such participant’s term of employment, up to a maximum of 20 years, multiplied by the participant’s highest average monthly salary during the 36 consecutive months in the final 72 months of active full-time employment through June 2003. In June 2003, the Company froze the WEB, so as to not allow new participants, future accruals and future salary increases.

Accounting for Deferred Compensation and Pension Plans

During fiscal 2013, due to the change in the discount rate from 3.79% to 3.12%, the Company recorded an increase in deferred compensation and pension plan liabilities of \$7.5 million, a decrease in accumulated other comprehensive income of \$4.6 million and a net increase of \$2.9 million in deferred income tax assets.

During fiscal 2012, due to the change in the discount rate from 4.94% to 3.79%, the Company recorded an increase in deferred compensation and pension plan liabilities of \$8.8 million, a decrease in accumulated other comprehensive income of \$5.6 million and a net increase of \$3.2 million in deferred income tax assets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

International Retirement Plans

The Company also maintains various retirement plans and other miscellaneous deferred compensation arrangements in nine foreign jurisdictions. The aggregate of the long-term benefit obligation accrued at April 30, 2013 and 2012 is \$3.6 million for 221 participants and \$2.8 million for 188 participants, respectively. The Company's contribution to these plans was \$1.1 million in both fiscal 2013 and 2012.

Executive Capital Accumulation Plan

The Company's Executive Capital Accumulation Plan and similar plans in Asia Pacific and Canada (collectively "ECAP"), are intended to provide certain employees an opportunity to defer salary and/or bonus on a pre-tax basis or make an after-tax contribution. In addition, the Company, under its incentive plans, makes discretionary contributions into the ECAP and such contributions may be granted to key employees annually based on the employee's performance. Certain key management may also receive Company ECAP contributions upon commencement of employment. The Company amortizes these contributions on a straight-line basis as they vest, generally over a four year period. Participants have the ability to allocate their deferrals among a number of investment options and may receive their benefits at termination, retirement or "in service" either in a lump sum or in quarterly installments over five, ten or fifteen years. The ECAP amounts that are expected to be paid to employees over the next 12 months are classified as a current liability included in compensation and benefits payable on the accompanying balance sheet.

The Company made contributions to the ECAP during fiscal 2013, 2012 and 2011, of \$20.0 million, \$15.8 million and \$0.4 million, respectively.

The ECAP is accounted for whereby the changes in the fair value of the vested amounts owed to the participants are adjusted with a corresponding charge (or credit) to compensation and benefits costs. During fiscal 2013, 2012 and 2011, the deferred compensation liability increased; therefore, the Company recognized compensation expense of \$6.3 million, \$0.9 million and \$6.7 million, respectively.

Changes in the ECAP liability were as follows:

	<u>Year Ended April 30,</u>	
	<u>2013</u>	<u>2012</u>
	(in thousands)	
Balance, beginning of year	\$ 71,134	\$ 67,214
Employee contributions	1,943	3,483
Amortization of employer contributions	9,010	7,423
Gain on investment	6,281	884
Employee distributions	(12,244)	(7,661)
Exchange rate translations	(211)	(209)
Balance, end of year	75,913	71,134
Less: current portion	(4,537)	(8,855)
Non-current portion, end of year	<u>\$ 71,376</u>	<u>\$ 62,279</u>

As of April 30, 2013 and 2012, the unamortized portion of the Company contributions to the ECAP was \$23.3 million and \$11.5 million, respectively.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

Defined Contribution Plan

The Company has a defined contribution plan (“401(k) plan”) for eligible employees. Participants may contribute up to 50% of their base compensation as defined in the plan agreement. In addition, the Company has the option to make matching contributions. The Company did not make a matching contribution for fiscal 2013 and fiscal 2012 but did make a \$1.2 million matching contribution for fiscal 2011.

Company Owned Life Insurance

The Company purchased COLI contracts insuring employees eligible to participate in the deferred compensation and pension plans as a means of funding benefits under such plans. The gross CSV of these contracts of \$159.2 million and \$151.1 million is offset by outstanding policy loans of \$73.3 million in the accompanying consolidated balance sheets as of April 30, 2013 and 2012, respectively. Total death benefits payable, net of loans under COLI contracts, were \$212.7 million and \$202.9 million at April 30, 2013 and 2012, respectively. Management intends to use the future death benefits from these insurance contracts to fund the deferred compensation and pension arrangements; however, there may not be a direct correlation between the timing of the future cash receipts and disbursements under these arrangements. The CSV value of the underlying COLI investments increased by \$6.5 million and \$6.3 million during the year ended April 30, 2013 and 2012, respectively, recorded as a decrease in compensation and benefits expense. In addition, certain policies are held in trusts to provide additional benefit security for the deferred compensation and pension plans, excluding the WEB. As of April 30, 2013, COLI contracts with a net CSV of \$64.4 million and death benefits payable, net of loans, of \$123.9 million were held in trust for these purposes.

7. Restructuring Charges, Net

During fiscal 2013, the Company implemented restructuring plans in order to align its cost structure to anticipated revenue levels and to integrate PDI Ninth House (“PDI”) in order to eliminate redundant positions and consolidate premises. This resulted in restructuring charges of \$22.8 million against operations during fiscal 2013 of which \$16.3 million relates to severance and \$6.5 million relates to consolidation of premises.

During fiscal 2012 and 2011, the Company increased previously recorded restructuring charges resulting in restructuring costs of \$0.9 million and \$2.1 million, respectively. The increase in restructuring expense primarily relates to the inability to sublease space, which was included in the original estimate.

Changes in the restructuring liability are as follows:

	<u>Severance</u>	<u>Facilities</u>	<u>Total</u>
	<small>(in thousands)</small>		
Liability as of April 30, 2011	\$ 978	\$ 3,943	\$ 4,921

Liability as of April 30, 2013	<u>\$ 4,819</u>	<u>\$6,729</u>	<u>\$ 11,548</u>

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

(1) During fiscal 2013, the Company recovered \$1.0 million from a legal settlement (related to premises) attributable to a previous restructuring action.

As of April 30, 2013 and 2012, the restructuring liability is included in the current portion of other accrued liabilities on the consolidated balance sheets, except for \$2.4 million and \$1.4 million, respectively, of facilities costs which primarily relate to commitments under operating leases, net of sublease income, which are included in other long-term liabilities and will be paid over the next five years.

The restructuring liability by segment is summarized below:

	April 30, 2013		
	Severance	Facilities	Total
	(in thousands)		
Executive Recruitment			
North America	\$ 918	\$ 659	\$ 1,577

Futurestep	—	909	909
Liability as of April 30, 2012	<u>\$ 38</u>	<u>\$ 2,732</u>	<u>\$ 2,770</u>

8. Income Taxes

The provision for income taxes is based on reported income before income taxes. Deferred income tax assets and liabilities reflect the impact of temporary differences between the amounts of assets and liabilities recognized for financial reporting purposes and the amounts recognized for tax purposes, as measured by applying the currently enacted tax laws.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES

Valuation allowance	(27,731)	(25,089)
Non-current deferred tax asset, net	<u>63,203</u>	<u>57,290</u>
Net deferred tax assets	<u>\$ 66,714</u>	<u>\$ 68,120</u>

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

Deferred tax assets are reduced by a valuation allowance if it is more likely than not that some portion or all of the deferred tax asset will not be realized. Management believes uncertainty exists regarding the realizability of certain operating losses and has, therefore, established a valuation allowance for this portion of the deferred tax asset. Realization of the deferred income tax asset is dependent on the Company generating sufficient taxable income of the appropriate nature in future years. Although realization is not assured, management believes that it is more likely than not that the net deferred income tax asset will be realized.

As of April 30, 2013, the Company has U.S. federal net operating loss carryforwards of \$20.4 million from the acquisition of PDI, which will begin to expire in 2028. The utilization of these losses is subject to an annual limitation as defined under Section 382 of the Internal Revenue Code. The Company also has U.S. federal foreign tax credit carryforwards of \$3.2 million, which will begin to expire in 2023. The Company has state net operating loss carryforwards of \$13.2 million, which will begin to expire in 2014. The Company also has foreign net operating loss carryforwards of \$108.0 million, which will begin to expire in 2014.

The Company has a plan to distribute a portion of the cash held in foreign locations to the United States and has recorded a \$0.9 million deferred tax liability for additional taxes that would arise in connection with these distributions. Other than these amounts, the Company has not provided for U.S. taxes or foreign withholding taxes on approximately \$119.0 million of undistributed earnings of its foreign subsidiaries as such earnings are intended to be reinvested indefinitely. If a distribution of these earnings were to be made, the Company might be subject to both foreign withholding taxes and U.S. income taxes, net of any allowable foreign tax credits or deductions. An estimate of these taxes, however, is not practicable.

The Company or one of its subsidiaries files federal and state income tax returns in the United States as well as foreign jurisdictions. These income tax returns are subject to audit by the Internal Revenue Service (the "IRS") and various state and foreign tax authorities. In October 2012, the IRS commenced an examination of the Company's U.S. federal income tax returns for the tax years ended April 30, 2011 and 2010. The Company's income tax returns are not otherwise under examination in any material jurisdiction. The statute of limitations varies by jurisdiction in which the Company operates. With few exceptions, however, the Company's tax returns for years prior to fiscal year 2008 are no longer open to examination by tax authorities (including U.S. federal, state and foreign).

Unrecognized tax benefits are the differences between the amount of benefits of tax positions taken, or expected to be taken, on a tax return and the amount of benefits recognized for financial reporting purposes. As of April 30, 2013, the Company had a liability of \$2.0 million for unrecognized tax benefits. A reconciliation of the beginning and ending balances of the gross unrecognized tax benefits is as follows:

	Year Ended April 30,		
	2013	2012	2011
	(in thousands)		
Unrecognized tax benefits, beginning of year	\$ —	\$ —	\$ 3,532
Settlement with tax authority	—	—	(1,473)
Additions based on tax positions related to the current year	1,454	—	—
Additions based on tax positions related to prior years	569	—	72
Reductions due to lapse of statute of limitations	—	—	(2,131)
Unrecognized tax benefits, end of year	<u>\$ 2,023</u>	<u>\$ —</u>	<u>\$ —</u>

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

The Company classifies interest and penalties related to unrecognized tax benefits as a component of the provision for income taxes. The liability for unrecognized tax benefits is included in income taxes payable in the consolidated balance sheets. The full amount of unrecognized tax benefits would impact the effective tax rate if recognized. The total liability for unrecognized tax benefits is not expected to change within the next twelve months.

9. Property and Equipment

Property and equipment include the following:

	April 30,	
	2013	2012
	(in thousands)	
Computer equipment and software(1)	\$ 98,538	\$ 75,096
Leasehold improvements	41,884	42,319
Furniture and fixtures	31,805	29,126
Automobiles	1,725	1,870
	173,952	148,411
Less: accumulated depreciation and amortization	(120,324)	(98,603)
Property and equipment, net	<u>\$ 53,628</u>	<u>\$ 49,808</u>

- (1) Depreciation expense for capitalized software was \$4.0 million, \$2.5 million and \$2.3 million during fiscal 2013, 2012 and 2011, respectively.

10. Long-Term Debt

The Company entered into a new senior unsecured revolving Credit Agreement (the “Facility”) on January 18, 2013, which provides for an aggregate availability up to \$75.0 million with an option to increase the facility by an additional \$50.0 million, subject to lender consent, and a \$15.0 million sub-limit for letters of credit. The facility matures on January 18, 2018 and replaces the senior secured Loan Agreement dated as of March 14, 2011 (the “Previous Facility”), which was terminated on the same date the Facility was entered into with the exception of the letters of credits that are still outstanding under the Previous Facility. Borrowings under the Facility bear interest, at the election of the Company, at the London Interbank Offered Rate (“LIBOR”) plus the applicable margin or the base rate plus the applicable margin. The base rate is the highest of (i) the published prime rate, (ii) the federal funds rate plus 1.50%, or (iii) one month LIBOR plus 1.50%. The applicable margin is based on a percentage per annum determined in accordance with a specified pricing grid based on the total funded debt to adjusted EBITDA ratio. For LIBOR loans, the applicable margin will range from 0.50% to 1.50% per annum, while for base rate loans the applicable margin will range from 0.00% to 0.25% per annum. The Company is required to pay a quarterly commitment fee of 0.25% to 0.35% on the Facility’s unused commitments based on the Company’s funded debt to adjusted EBITDA ratio. The financial covenants include a maximum consolidated funded debt to adjusted EBITDA ratio and a minimum adjusted EBITDA. As of April 30, 2013, the Company is in compliance with its financial covenants. In addition, there is a domestic liquidity requirement that the Company maintain \$50.0 million in unrestricted cash and/or marketable securities (excluding any marketable securities that are held in trust for the settlement of the Company’s obligation under certain deferred compensation plans) as a condition to consummating permitted acquisitions, paying dividends to our shareholders and share repurchases of our common stock.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

As of April 30, 2013 and 2012, the Company had no borrowings under the Facility or Previous Facility. At April 30, 2013 and 2012, there was \$2.7 million and \$2.9 million, respectively, of standby letters of credit issued under the Previous Facility. The Company was required to maintain \$2.9 million in restricted cash to provide collateral for the standby letters of credit that remain outstanding under the Previous Facility as of April 30, 2013. As of April 30, 2012, under the Previous Facility, the Company had \$10.0 million of restricted cash. There is no restricted cash requirement under the Facility.

The Company has outstanding borrowings against the CSV of COLI contracts of \$73.3 million at April 30, 2013 and 2012. CSV reflected in the accompanying balance sheet is net of the outstanding borrowings, which are secured by the CSV of the life insurance policies. Principal payments are not scheduled and interest is payable at least annually at various fixed and variable rates ranging from 4.76% to 8.00%.

11. Business Segments

In the first quarter of fiscal 2013, the Company changed the composition of its global business segments. Given the importance to the Company's strategy and development of financial and operational metrics for the LTC business services, the Company's chief operating decision maker ("CODM") began to regularly make resource allocation decisions and assess performance separately for Executive Recruitment and LTC. Therefore, under the new reporting format Executive Recruitment and LTC are reported separately. Revenues are directly attributed to a segment and expenses not directly associated with a specific segment are allocated based on the most relevant measures applicable, including revenues, headcount and other factors. Operating results for fiscal 2012 and 2011 have been revised to conform to the new segment reporting. During fiscal 2012 and 2011, the Company also revised the presentation of expenses that are not directly associated with Futurestep resulting in an increase in Futurestep's operating income of \$2.2 million and \$2.0 million, respectively, offset by a decrease in Executive Recruitment operating income.

The Company currently operates in three global businesses: Executive Recruitment, LTC and Futurestep. The Executive Recruitment segment focuses on recruiting Board of Director and C-level positions, in addition to research-based interviewing and onboarding solutions, for clients predominantly in the consumer, financial services, industrial, life sciences/healthcare provider and technology industries. LTC provides a comprehensive blend of leadership and talent management solutions including both consulting services and product revenue. Service and product offerings in this segment include: Leadership Strategy, Board, CEO and Top Team Effectiveness, Succession Planning, Assessment, Leadership and Employee Development, Diversity and Inclusion as well as a rich library of online and blended learning modules. Futurestep is a global industry leader in high impact enterprise-wide consulting and recruitment solutions. Their portfolio of services includes recruitment process outsourcing, talent acquisition and management consulting services, project-based recruitment, mid-level recruitment and interim professionals. The Executive Recruitment business segment is managed by geographic regional leaders. LTC's and Futurestep's worldwide operations are managed by their respective Chief Executive Officers. The Executive Recruitment geographic regional leaders, the Chief Executive Officers of LTC and Futurestep report directly to the Chief Executive Officer of the Company. The Company also operates a Corporate segment to record global expenses of the Company.

The Company evaluates performance and allocates resources based on the CODM's review of (1) fee revenue and (2) earnings before interest, taxes, depreciation and amortization ("EBITDA"), which is further adjusted to exclude restructuring charges, transaction and integration costs, and certain separation costs (adjusted EBITDA). The accounting policies for the reportable segments are the same as those described in the summary of significant accounting policies, except that unusual or infrequent items are excluded from adjusted EBITDA.

Net assets acquired	44,078	99
Purchase price	126,917	442
Goodwill	<u>\$ 82,839</u>	<u>\$ 343</u>
Acquisition costs	<u>\$ 2,710</u>	<u>\$ —</u>
Goodwill by segment:		
Executive Recruitment	\$ —	\$ —
LTC	82,839	—
Futurestep	—	343
Goodwill	<u>\$ 82,839</u>	<u>\$ 343</u>

- (1) On December 31, 2012, the Company acquired all outstanding shares of Minneapolis-based PDI, a leading, globally-recognized provider of leadership assessment and development solutions, for \$92.5 million, net of cash acquired, which includes \$14.9 million in contingent consideration, for the achievement of certain post-closing synergies. As of April 30, 2013, the contingent consideration is included in other accrued liabilities in the accompanying consolidated balance sheets, which is payable, upon reaching post-closing synergies up to \$8.0 million. The Company expects to pay the entire amount of the contingent consideration during the first quarter of fiscal 2014. PDI has been in business for over 45 years and operates in more than 20 global locations. The acquisition strengthens and expands the Company's talent management offerings through adding complementary product and service offerings and rich intellectual property. Actual results of operations of PDI are included in the Company's consolidated financial statements from December 31, 2012, the effective date of the acquisition, and include \$28.2 million in fee revenue during fiscal 2013.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

- (2) On September 1, 2012, the Company acquired all outstanding membership interests of Global Novations, LLC, (“Global Novations”) a leading provider of diversity and inclusion and leadership development solutions, for \$34.5 million in cash, net of cash acquired. Global Novations has more than 150 offerings designed to develop leaders, enable high-performing cultures and deliver business outcomes for its clients. Key diversity and inclusion and leadership offerings include consulting, training and education and e-learning. Global Novations has more than 30 years of experience and has served clients in more than 40 countries, including more than half of the Fortune 100. The acquisition strengthens and expands the Company’s talent management offerings through adding complementary product and service offerings and rich intellectual property. Actual results of operations of Global Novations are included in the Company’s consolidated financial statements from September 1, 2012, the effective date of the acquisition, and include \$17.4 million in fee revenue during fiscal 2013.
- (3) On March 1, 2012, the Company purchased Avature USA Recruiting Business and Avature Argentina Recruiting Business. Avature USA Recruiting Business and Avature Argentina Recruiting Business are engaged in providing back-office functions including, database candidate searching, data processing, filling forms, call-center activities, and other administrative functions. As a result of these acquisitions, the Company obtained the rights to certain client contracts from Avature USA, license agreements to use the Customer Relationship Management software, employees of Avature Argentina engaged in the recruiting business and the office lease and equipment in Argentina used in the recruiting business. Actual results of operations of Avature USA Recruiting Business and Avature Argentina Recruiting Business are included in the Company’s consolidated financial statements from March 1, 2012, the effective date of the acquisition.

The aggregate purchase price for PDI and Global Novations was allocated on a preliminary basis to the assets acquired and liabilities assumed on their estimated fair values at the date of acquisition. As of April 30, 2013, these allocations remain preliminary as it relates to, among other things, items such as working capital adjustments and income taxes. The measurement period for purchase price allocation ends as soon as information on the facts and circumstances becomes available, not to exceed 12 months. Adjustments to purchase price allocation may require a recasting of the amounts allocated to goodwill retroactive to the period in which the acquisitions occurred. Tax deductible goodwill from fiscal 2013 acquisitions amounted to \$20.5 million.

13. Goodwill and Intangible Assets

Changes in the carrying value of goodwill by reportable segment were as follows:

Exchange rate fluctuations				(49)			(10)
Intangible assets				<u>\$58,187</u>			<u>\$ 20,413</u>

- (1) During fiscal 2011, the Company wrote-off a trademark no longer in use with a net book value of \$0.9 million, which is included as a component of general and administrative expenses in the accompanying consolidated statements of income.

Amortization expense for amortized intangible assets was \$5.0 million, \$2.2 million and \$2.4 million during fiscal 2013, 2012 and 2011, respectively. Estimated annual amortization expense related to amortizing intangible assets is as follows:

Year Ending April 30,	Estimated Annual Amortization Expense (in thousands)
2014	\$ 8,592
2015	8,156
2016	7,017
2017	5,696
2018	5,008
Thereafter	19,967
	<u>\$ 54,436</u>

All amortizable intangible assets will be fully amortized by the end of fiscal 2031.

14. Commitments and Contingencies

Lease Commitments

The Company leases office premises and certain office equipment under leases expiring at various dates through 2026. Total rental expense during fiscal 2013, 2012 and 2011 amounted to \$38.4 million, \$35.5 million and \$32.4 million, respectively.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

Future minimum commitments under non-cancelable operating leases with lease terms in excess of one year excluding commitments accrued in the restructuring liability are as follows:

<u>Year Ending April 30,</u>	<u>Lease Commitments</u> <u>(in thousands)</u>
2014	\$ 44,096
2015	37,623
2016	27,833
2017	20,893
2018	16,788
Thereafter	66,095
	<u>\$ 213,328</u>

Employment Agreements

As of April 30, 2013, the Company has employment agreements with certain of its executive officers that provide benefits if these executives are terminated or resign under certain limited circumstances. Though the Company could, on a case by case basis, agree to make termination payments to other employees and executive officers, the maximum aggregate amount payable under the agreements referenced above, is \$8.2 million in the absence of a change of control and \$10.8 million for terminations or resignations that occur within 12 months from the change of control. In certain cases, executives' outstanding options will immediately vest and remain exercisable for periods ranging from three months to their original expiration date following termination of employment.

The Company has a policy of entering into offer letters of employment or letters of promotion with vice presidents which provide for an annual base salary and discretionary and incentive bonus payments. Certain key vice presidents who typically have been employed by the Company for several years may also have a standard form employment agreement. In addition, the Company has a severance policy for all of its vice presidents that provides for minimum payments based on length of service. Upon termination without cause, the Company is required to pay the greater of the amount due under the employment agreement, if any, or the severance policy. The Company also requires its vice presidents to agree in their employment letters and their employment agreement, if applicable, not to compete with the Company both during the term of their employment, and for a period of up to two years after their employment ends. For a period of two years after their employment with the Company, former vice presidents are prohibited from soliciting employees of the Company for employment outside of the Company.

Litigation

From time to time, the Company has been and is involved in litigation incidental to its business. The Company is currently not a party to any litigation which, if resolved adversely against the Company, would, in the opinion of management, after consultation with legal counsel, have a material adverse effect on the Company's business, financial position or results of operations.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)
April 30, 2013

15. Quarterly Results (Unaudited)

The following table sets forth certain unaudited consolidated statement of income data for the quarters in fiscal 2013 and 2012. The unaudited quarterly information has been prepared on the same basis as the annual financial statements and, in management's opinion, includes all adjustments necessary to present fairly the information for the quarters presented.

	Quarters Ended							
	Fiscal 2013				Fiscal 2012			
	April 30(1)	January 31	October 31	July 31	April 30	January 31	October 31	July 31
	(in thousands, except per share data)							
Fee revenue	\$227,902	\$202,004	\$196,231	\$186,694	\$198,087	\$185,951	\$200,136	\$206,331
Operating income	\$ 15,392	\$ 8,706	\$ 2,769	\$ 17,009	\$ 15,352	\$ 16,165	\$ 25,407	\$ 25,942
Net income	\$ 12,197	\$ 9,482	\$ 1,196	\$ 10,418	\$ 12,028	\$ 11,717	\$ 15,147	\$ 15,411
Net income per share:								
Basic	\$ 0.26	\$ 0.20	\$ 0.03	\$ 0.22	\$ 0.26	\$ 0.25	\$ 0.33	\$ 0.34
Diluted	\$ 0.25	\$ 0.20	\$ 0.03	\$ 0.22	\$ 0.25	\$ 0.25	\$ 0.32	\$ 0.33

- (1) During the three months ended April 30, 2013, the Company implemented a restructuring plan to continue to integrate PDI in order to eliminate redundant positions and consolidate premises. This resulted in restructuring charges, net of recoveries of \$2.9 million against operations during the three months ended April 30, 2013.

16. Supplemental Balance Sheet Information

Other accrued liabilities included deferred revenue of \$33.8 million and \$13.5 million as of April 30, 2013 and 2012, respectively.

17. Subsequent Events

During June 2013, the Company paid contingent consideration to the selling shareholders of PDI in the amount of \$15.0 million, as required under the purchase and sale agreement because the required post-closing synergies were accomplished.
