Presentation of Financial Information

Financial information discussed in this presentation includes non-GAAP measures such as Adjusted EBITDA, Adjusted EBITDA margin, Adjusted diluted EPS, Adjusted free cash flow, Adjusted free cash flow conversion, gross VOI sales and Adjusted net income, which include or exclude certain items, as well as non-GAAP guidance. The Company utilizes non-GAAP measures on a regular basis to assess performance of its reportable segments and allocate resources. These non-GAAP measures differ from reported GAAP results and are intended to illustrate what management believes are relevant period-over-period comparisons and are helpful to investors when considered with GAAP measures as an additional tool for further understanding and assessing the Company’s ongoing operating performance by adjusting for items which in our view do not necessarily reflect ongoing performance. Management also internally uses these measures to assess our operating performance, both absolutely and in comparison to other companies, and in evaluating or making selected compensation decisions. Exclusion of items in the Company’s non-GAAP presentation should not be considered an inference that these items are unusual, infrequent or non-recurring. See the appendix to this presentation for definitions of these Non-GAAP measures, and full reconciliations of non-GAAP financial measures to the most directly comparable GAAP financial measures where applicable.

The Company may use its website as a means of disclosing information concerning its operations, results and prospects, including information which may constitute material nonpublic information, and for complying with its disclosure obligations under SEC Regulation FD. Disclosure of such information will be included on the Company’s website in the Investor Relations section at travelandleisureco.com/investors. Accordingly, investors should monitor that Investor Relations section of the Company website, in addition to accessing its press releases, its submissions and filings with the SEC, and its publicly noticed conference calls and webcasts.

About Travel + Leisure Co.

Travel + Leisure Co. (NYSE:TNL) is a leading leisure travel company, providing more than six million vacations to travelers around the world every year. The company operates a portfolio of vacation ownership, travel club, and lifestyle travel brands designed to meet the needs of the modern leisure traveler, whether they’re traversing the globe or staying a little closer to home. With hospitality and responsible tourism at its heart, the company’s nearly 19,000 dedicated associates around the globe help the company achieve its mission to put the world on vacation. Learn more at travelandleisureco.com.

Forward-Looking Statements

This presentation includes “forward-looking statements” as that term is defined by the Securities and Exchange Commission (“SEC”). Forward-looking statements are any statements other than statements of historical fact, including statements regarding our expectations, beliefs, hopes, intentions or strategies regarding the future. In some cases, forward-looking statements can be identified by the use of words such as “may,” “will,” “expects,” “should,” “believes,” “plans,” “anticipates,” “estimates,” “predicts,” “potential,” “projects,” “continue,” “outlook,” “guidance,” “commitments,” “future” or other words of similar meaning. Forward-looking statements are subject to risks and uncertainties that could cause actual results of Travel + Leisure Co. and its subsidiaries (“Travel + Leisure Co.” or “we”) to differ materially from those discussed in, or implied by, the forward-looking statements. Factors that might cause such a difference include, but are not limited to, risks associated with: the acquisition of the Travel + Leisure brand and the future prospects and plans for Travel + Leisure Co., including our ability to execute our strategies to grow our cornerstone timeshare and exchange businesses and expand into the broader leisure travel industry through travel clubs; our ability to compete in the highly competitive timeshare and leisure travel industries; uncertainties related to acquisitions, dispositions and other strategic transactions; the health of the travel industry and declines or disruptions caused by adverse economic conditions (including inflation, recent tariff actions and other trade restrictions, higher interest rates, and recessionary pressures), terrorism or acts of gun violence, political strife, war (including hostilities in Ukraine and the Middle East), pandemics, and severe weather events and other natural disasters; adverse changes in consumer travel and vacation patterns, consumer preferences and demand for our products; increased or unanticipated operating costs and other inherent business risks; our ability to comply with financial and restrictive covenants under our indebtedness; our ability to access capital and insurance markets on reasonable terms, at a reasonable cost or at all; maintaining the integrity of internal or customer data and protecting our systems from cyber-attacks; the timing and amount of future dividends and share repurchases, if any; and those other factors disclosed as risks under “Risk Factors” in documents we have filed with the SEC, including in Part I, Item 1A of our Annual Report on Form 10-K most recently filed with the SEC. We caution readers that any such statements are based on currently available operational, financial and competitive information, and they should not place undue reliance on these forward-looking statements, which reflect management’s opinion only as of the date on which they were made. Except as required by law, we undertake no obligation to review or update these forward-looking statements to reflect events or circumstances as they occur.

Company Overview

Travel + Leisure Co.: The Leader in Vacation Ownership

LEADING THE TRANSFORMATION OF THE INDUSTRY

- Industry has consolidated around large, brand-name companies
- Product evolution to points-based system provides greater utility to owners

RESILIENT, PROVEN BUSINESS MODEL

- Long-term stable owner base generates significant recurring revenue
- Margin stability in a variety of economic conditions

SHAREHOLDER-FRIENDLY APPROACH TO CAPITAL ALLOCATION

- Strong free cash generation supports capital allocation flexibility
- Over \$2.7B returned to shareholders since spin in 2018 through dividends and share repurchases⁽¹⁾

(1) As of June 30, 2025.

Favorable Trends in the Business

+ Secular Growth In Travel

- Global leisure travel market is forecasted to grow at a CAGR of 7% (2024-2032)⁽¹⁾
- 23% of our guests surveyed in 2025 worked during their stay at our resorts⁽²⁾⁽³⁾

+ Strong Owner Satisfaction

- Owners buy more—~70% of sales are to existing owners⁽³⁾
- 98% annual retention of owners who fully paid off their purchase or are current on their loan⁽⁴⁾

+ Attractive Product

- “Best of both” with spacious accommodations of vacation rental with consistent, safe experience similar to hotel
- Split points into multiple stays, borrow from the future, or bank points into next year
- Strong value proposition vs hotel stay or vacation rental

+ Generational Shift

- Average age of new owner is ~50 years old⁽³⁾
- 66% of sales are to Gen X, Millennials, and younger generations⁽³⁾

24.3 %

Note: 2007-2015 Adjusted EBITDA is per Wyndham Worldwide’s definition and does not reflect the adoption of ASC 606 revenue recognition accounting standard. 2016-2018 Adjusted EBITDA is further adjusted.
(1) Includes incremental license fees paid to Wyndham Hotels & Resorts and other changes being affected in conjunction with the spin-off.

APPENDIX: NON-GAAP RECONCILIATION

Travel and Membership Net Income to Adjusted EBITDA Reconciliation (\$ in millions)

	2024
T&M net income	\$ 157
Gain on disposal of disc bus, net of income taxes	(37)
Provision for income taxes	49
Depreciation and amortization	28
Interest expense	7
Interest (income)	(3)
Loss on sale of business	32
Legacy items	13
Restructuring Costs	10
Asset Impairments	2
Fair value change in contingent consideration	(7)
T&M Adjusted EBITDA	\$ 251
Total Revenue	\$ 695
Net Income Margin	23%
Adj. EBITDA Margin	36%

APPENDIX: NON-GAAP RECONCILIATION

Reconciliation of Net VOI Sales to Gross VOI Sales (\$ in millions)

The Company believes gross VOI sales provide an enhanced understanding of the performance of its vacation ownership business because it directly measures the sales volume of this business during a given reporting period.

Interest income	(2)			(3)		
Adjusted EBITDA	\$ 250		25%	\$ 244		25%
Diluted Shares Outstanding	66.5			71.0		

Note: Amounts may not calculate due to rounding.

(1) Amortization of acquisition-related intangible assets is excluded from Adjusted net income and Adjusted EBITDA.

(2) Represents the tax effects on the adjustments. We determine the tax effects of the non-GAAP adjustments based on the nature of the underlying adjustment and the relevant tax jurisdictions. The tax effect of the non-GAAP adjustments was calculated based on an evaluation of the statutory tax treatment and the applicable statutory tax rate in the relevant jurisdictions.

(3) All stock-based compensation is excluded from Adjusted EBITDA.

DEFINITIONS

Adjusted Diluted Earnings per Share: A non-GAAP measure, defined by the Company as Adjusted net income divided by the diluted weighted average number of common shares. Adjusted Diluted Earnings per Share is useful to assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over different reporting periods.

Adjusted EBITDA: A non-GAAP measure, defined by the Company as net income from continuing operations before depreciation and amortization, interest expense (excluding consumer financing interest), early extinguishment of debt, interest income (excluding consumer financing revenues) and income taxes, each of which is presented on the Condensed Consolidated Statements of Income. Adjusted EBITDA also excludes stock-based compensation costs, separation and restructuring costs, legacy items, transaction and integration costs associated with mergers, acquisitions, and divestitures, asset impairments/recoveries, gains and losses on sale/ disposition of business, and items that meet the conditions of unusual and/or infrequent. Legacy items include the resolution of and adjustments to certain contingent assets and liabilities related to acquisitions of continuing businesses and dispositions, including the separation of Wyndham Hotels & Resorts, Inc. and Avis Budget Group, Inc. (ABG), and the sale of the vacation rentals businesses. Integration costs represent certain non-recurring costs directly incurred to integrate mergers and/or acquisitions into the existing business. We believe that when considered with GAAP measures, Adjusted EBITDA is useful to assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over different reporting periods. We also internally use these measures to assess our operating performance, both absolutely and in comparison to other companies, and in evaluating or making selected compensation decisions. Adjusted EBITDA should not be considered in isolation or as a substitute for net income/ (loss) or other income statement data prepared in accordance with GAAP and our presentation of Adjusted EBITDA may not be comparable to similarly-titled measures used by other companies.

Adjusted EBITDA Margin: A non-GAAP measure, represents Adjusted EBITDA as a percentage of revenue. Adjusted EBITDA Margin is useful to assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over different reporting periods.

Adjusted Free Cash Flow: A non-GAAP measure, defined by the Company as net cash provided by operating activities from continuing operations less property and equipment additions (capital expenditures) plus the sum of proceeds and principal payments of non-recourse vacation ownership debt, while also adding back cash paid for transaction costs for acquisitions and divestitures, separation adjustments associated with the spin-off of Wyndham Hotels, and certain adjustments related to COVID-19. TNL believes Adjusted FCF to be a useful operating performance measure to evaluate the ability of its operations to generate cash for uses other than capital expenditures and, after debt service and other obligations, its ability to grow its business through acquisitions and equity investments, as well as its ability to return cash to shareholders through dividends and share repurchases. A limitation of using Adjusted free cash flow versus the GAAP measure of net cash provided by operating activities as a means for evaluating TNL is that Adjusted free cash flow does not represent the total cash movement for the period as detailed in the consolidated statement of cash flows.

Adjusted Free Cash Flow Conversion: A non-GAAP measure, defined by the Company as Adjusted free cash flow as a percentage of Adjusted EBITDA. We use this non-GAAP performance measure to assist in evaluating our operating performance and the quality of our earnings as represented by adjusted EBITDA, and to evaluate the performance of our current and prospective operating and strategic initiatives in generating cash flows from our earnings performance. This measure also assists investors in evaluating our operating performance, management of our assets, and ability to generate cash flows from our earnings, as well as facilitating period-to-period comparisons.

Adjusted Net Income: A non-GAAP measure, defined by the Company as income from continuing operations adjusted to exclude separation and restructuring costs, legacy items, transaction and integration costs associated with mergers, acquisitions, and divestitures, amortization of acquisition-related assets, debt modification costs, impairments, gains and losses on sale/disposition of business, and items that meet the conditions of unusual and/or infrequent and the tax effect of such adjustments. Legacy items include the resolution of and adjustments to certain contingent assets and liabilities related to acquisitions of continuing businesses and dispositions, including the separation of Wyndham Hotels and Cendant, and the sale of the vacation rentals businesses. Adjusted Net Income is useful to assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over different reporting periods.

Average Number of Exchange Members: Represents the average number of paid members in our vacation exchange programs who are considered to be in good standing, during a given reporting period.

Free Cash Flow (FCF): A non-GAAP measure, defined by TNL as net cash provided by operating activities from continuing operations less property and equipment additions (capital expenditures) plus the sum of proceeds and principal payments of non-recourse vacation ownership debt. TNL believes FCF to be a useful operating performance measure to evaluate the ability of its operations to generate cash for uses other than capital expenditures and, after debt service and other obligations, its ability to grow its business through acquisitions and equity investments, as well as its ability to return cash to shareholders through dividends and share repurchases. A limitation of using FCF versus the GAAP measure of net cash provided by operating activities as a means for evaluating TNL is that FCF does not represent the total cash movement for the period as detailed in the consolidated statement of cash flows.

Gross Vacation Ownership Interest Sales: A non-GAAP measure, represents sales of vacation ownership interests (VOIs), including sales under the fee-for-service program before the effect of loan loss provisions. We believe that Gross VOI sales provide an enhanced understanding of the performance of our vacation ownership business because it directly measures the sales volume of this business during a given reporting period.

Leverage Ratio: The Company calculates leverage ratio as net debt divided by Adjusted EBITDA as defined in the credit agreement.

Net Debt: Net debt equals total debt outstanding, less non-recourse vacation ownership debt and cash and cash equivalents.

Tours: Represents the number of tours taken by guests in our efforts to sell VOIs.

Travel and Membership Revenue per Transaction: Represents transaction revenue divided by transactions, provided in two categories; Exchange, which is primarily RCI, and Travel Club.

Travel and Membership Transactions: Represents the number of exchanges and travel bookings recognized as revenue during the period, net of cancellations. This measure is provided in two categories; Exchange, which is primarily RCI, and Travel Club.

Volume Per Guest (VPG): Represents Gross VOI sales (excluding telesales and virtual sales) divided by the number of tours. The Company has excluded non-tour sales in the calculation of VPG because non-tour sales are generated by a different marketing channel. We believe that VPG provides an enhanced understanding of the performance of our Vacation Ownership business because it directly measures the efficiency of this business’ efforts in generating sales from tours during a given reporting period.
