GREENSBORO, N.C.--(BUSINESS WIRE)-- VF Corporation (NYSE: VFC) today reported financial results for its first quarter ended June 30, 2018. All per share amounts are presented on a diluted basis. This release refers to “reported” and “constant dollar” amounts, terms that are described under the heading “Constant Currency - Excluding the Impact of

Foreign Currency.” Unless otherwise noted, “reported” and “constant dollar” amounts are the same. This release also refers to “continuing” and “discontinued” operations amounts, which are concepts described under the heading “Discontinued Operations - *Nautica*[®] Brand Business and Licensing Business.” Unless otherwise noted, results presented are based on continuing operations. This release also refers to “adjusted” amounts, terms that are described under the heading “Adjusted Amounts - Excluding Williamson-Dickie, *Icebreaker*[®] and *Altra*[®] Transaction and Deal Related Expenses and the Provisional Impact of U.S. Tax Legislation.” Unless otherwise noted, “reported” and “adjusted” amounts are the same.

“VF's first quarter results were strong, driven by continued broad based acceleration across our core brands and platforms,” said Steve Rendle, Chairman, President and Chief Executive Officer. “We are executing well against our 2021 growth plan and continuing on our journey to reshape the portfolio and transform VF into a purpose-led, performance driven, consumer-centric organization focused on and committed to delivering superior returns to shareholders.”

Reportable Segment Change

In light of recently completed acquisitions, divestitures, and organizational realignments, the company has changed its reporting structure to better support and assess the operations of the business. The company's new reportable segments are Outdoor, Active, Work and Jeans. In this release, the company has recast historical financial information to reflect the new reportable segments. The recast historical financial information is included in the attached supplemental financial tables.

Constant Currency - Excluding the Impact of Foreign Currency

This release refers to “reported” amounts in accordance with U.S. generally accepted accounting principles (“GAAP”), which include translation impacts from foreign currency exchange rates. This release also refers to “constant dollar” amounts, which exclude the impact of translating foreign currencies into U.S. dollars. Reconciliations of GAAP measures to constant currency amounts are presented in the supplemental financial information included with this release, which identifies and quantifies all excluded items, and provides management’s view of why this information is useful to investors.

Discontinued Operations - Nautica[®] Brand Business and Licensing Business

On April 30, 2018, the company completed the sale of its *Nautica*[®] brand business. Accordingly, the company has classified the assets and liabilities of the *Nautica*[®] brand business as held-for-sale through the date of sale and has included the operating results of this business in discontinued operations for all periods presented.

On April 28, 2017, the company completed the sale of its Licensed Sports Group (LSG) business, including the *Majestic*[®] brand. In conjunction with the LSG divestiture, VF executed its plan to entirely exit the licensing business and completed the sale of the assets of the *JanSport*[®] brand collegiate business in the fourth quarter of 2017. Accordingly, the company has removed the assets and liabilities of the licensing business as of the dates noted above and included the operating results of these businesses in discontinued operations for all periods presented.

The company's after-tax net income from discontinued operations was \$0.4 million in the first quarter of fiscal 2019, which includes the operating results of the *Nautica*[®] brand business during the period through the date of sale.

Adjusted Amounts - Excluding Williamson-Dickie, Icebreaker[®] and Altra[®] Transaction and Deal Related Expenses and the Provisional Impact of U.S. Tax Legislation

This release refers to adjusted amounts that exclude transaction and deal related expenses associated with the acquisitions of Williamson-Dickie, *Icebreaker*[®] and *Altra*[®]. Total transaction and deal related expenses were approximately \$19 million in the first quarter of fiscal 2019.

Adjusted amounts in this release also exclude the provisional amounts recorded due to recent U.S. tax legislation. On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act. Measurement period adjustments related to the provisional net charge resulted in a benefit of approximately \$3 million in the first quarter of fiscal 2019.

Combined, the above net charges negatively impacted earnings per share by \$0.03 during the first quarter of fiscal 2019. All adjusted amounts referenced herein exclude the effects of these amounts.

Reconciliations of measures calculated in accordance with GAAP to adjusted amounts are presented in the supplemental financial information included with this release, which identifies and quantifies all excluded items, and provides management's view of why this information is useful to investors.

Constant Currency Financial Information

VF is a global company that reports financial information in U.S. dollars in accordance with GAAP. Foreign currency exchange rate fluctuations affect the amounts reported by VF from translating its foreign revenues and expenses into U.S. dollars. These rate fluctuations can have a significant effect on reported operating results. As a supplement to our reported operating results, we present constant currency financial information, which is a non-GAAP financial measure that excludes the impact of translating foreign currencies into U.S. dollars. We use constant currency information to provide a framework to assess how our business performed excluding the effects of changes in the rates used to calculate foreign currency translation. Management believes this information is useful to investors to facilitate comparison of operating results and better identify trends in our businesses.

To calculate foreign currency translation on a constant currency basis, operating results for the current year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year (rather than the actual exchange rates in effect during the current year period).

These constant currency performance measures should be viewed in addition to, and not in lieu of or superior to, our operating performance measures calculated in accordance with GAAP. The constant currency information presented may not be comparable to similarly titled measures reported by other companies.
