

## Company Overview

Focus Universal Inc. (OTCQB:FCUV) is a Universal Smart Instrumentation Platform ("USIP") developer and Universal Smart Device ("USD") manufacturer for the Internet of Things market. The Company's USIP generalizes instruments into a reusable foundation and architecture-specific components (sensor modules), which together replace the functions of traditional instruments at a fraction of the cost. The USIP has an open architecture and features the ability to connect thousands of sensors and probes from different industries and communicating with the same device. The Company believes this interoperability and reusability gives Focus Universal an edge over IoT competitors.
