About the Hemp Industries Association®

Hemp Industries Association® (HIA®) is a 501(c)(6), membership-based, non-profit organization that works to advance the hemp economy and educate the market for the benefit of members, the public, and the planet. Since its founding in 1994, The HIA has worked tirelessly for its 1,500-plus members to expand and protect the sale and marketing of hemp products. The culmination of that work was the passing of the 2018 Farm Bill, which officially redefined hemp as an agricultural commodity and removed it from the purview of the Controlled Substances Act, thereby paving the way for a massive expansion of the market and positioning hemp producers to be a global economic force.
