Select Energy Services Announces Extension Of Merger End Date

GAINESVILLE, Texas, Sept. 19, 2017 /PRNewswire/ -- Select Energy Services, Inc. (NYSE: WTTR) ("Select" or "the Company"), a leading provider of total water solutions to the U.S. unconventional oil and gas industry, today announced that Select and Rockwater Energy Solutions, Inc. ("Rockwater") have agreed to extend the end date in the previously announced Agreement and Plan of Merger from November 1, 2017 to December 31, 2017.

Completion of the Company's merger with Rockwater remains subject to satisfaction or waiver of certain conditions, including the mailing of Select's information statement describing the proposed merger to Select's stockholders following completion of the Securities and Exchange Commission's (the "SEC") review of the information statement. Select and Rockwater expect the merger to close during the fourth quarter of 2017.

About Select Energy Services, Inc.

Select is a leading provider of total water solutions to the U.S. unconventional oil and gas industry. Select provides for the sourcing and transfer of water (both by permanent pipeline and temporary pipe) prior to its use in the drilling and completion activities associated with hydraulic fracturing, as well as complementary water-related services that support oil and gas well completion and production activities, including containment, monitoring, treatment, flowback, hauling, and disposal. About Rockwater Energy Solutions, Inc.

Rockwater Energy Solutions is a leading provider of comprehensive water management solutions to the North American unconventional oil and gas industry and believes it is the only company that provides complementary chemistry products and expertise in connection with its water solutions. Rockwater's water management solutions include water sourcing, transfer, treatment, testing, remote monitoring, and storage; site and pit surveys; flowback and well testing; fluids conditioning and recycling and field fluids logistics. It also develops and manufactures a full suite of specialty chemicals used in the well completion process and production chemicals used to enhance performance over the producing life of a well, which the company believes gives it a unique competitive advantage in the energy industry.

Rockwater currently provides services to exploration and production companies and oilfield service companies operating in all the major shale and producing basins in North America, including the Permian Basin, the Mid-Continent (including the SCOOP/STACK plays), the Bakken, Western Canada, the Marcellus and Utica basins, the Rockies and the Eagle Ford.
