Use of Non-GAAP Financial Information

The Company uses certain non-GAAP financial measures in this press release to supplement its consolidated financial statements, which are presented in accordance with GAAP. These non-GAAP measures include non-GAAP net income and non-GAAP basic and diluted income per share. These non-GAAP measures are provided to enhance the reader's understanding of the Company's operating performance as they primarily exclude certain non-cash charges for stock-based compensation and amortization of acquisition-related intangible assets, and non-recurring merger-related and other expenses, which the Company believes are not indicative of its core operating results. Merger-related and other expenses largely include the charge resulting from the required revaluation of Occam inventory to its estimated fair value, legal and professional expenses, severance and integration-related expenses and inventory-related charges associated with our merger with Occam. Management believes that the non-GAAP measures used in this press release provide investors with important perspectives into the Company's ongoing business performance and management uses these non-GAAP measures to evaluate financial results and to establish operational goals. The presentation of these non-GAAP measures is not

meant to be a substitute for results presented in accordance with GAAP, but rather should be evaluated in conjunction with those GAAP results. A reconciliation of the non-GAAP results to the most directly comparable GAAP results is provided in this press release. The non-GAAP financial measures used by the company may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies.
