FRANKLIN LAKES, N.J., May 7, 2015 /PRNewswire/ -- BD (Becton, Dickinson and Company) (NYSE: BDX), a leading global medical technology company, today reported quarterly revenues of \$2.051 billion for the second fiscal quarter ended March 31, 2015, representing a decrease of 1.0 percent from the prior-year period, or an increase of 4.9 percent on a foreign currency-neutral basis.

"We are proud of our final standalone quarter, as we welcome CareFusion to BD," said Vincent A. Forlenza, Chairman, CEO and President. "Our performance this quarter demonstrates the breadth of the growth drivers across our businesses and regions, and highlights the diversity of our portfolio. We look forward to the future with confidence as we integrate the acquisition of CareFusion."

Second Quarter and Six-Month Fiscal 2015 Operating Results

Adjusted diluted earnings per share were \$1.61, compared with \$1.59 in the prior-year period. This represents an increase of 1.3 percent, or 8.2 percent on a currency-neutral basis. Current and prior-year results were impacted by certain specified items, which exclude, among other items, the non-cash amortization of intangible assets. These specified items are detailed in the accompanying reconciliation of non-GAAP financial measures. On a reported basis, diluted earnings per share for the second quarter were \$1.08 compared with \$1.45 in the prior-year period.

For the six-month period ended March 31, 2015, adjusted diluted earnings per share were \$3.14, compared with \$3.02 in the prior-year period. This represents an increase of 4.0 percent, or 11.6 percent on a currency-neutral basis. On a reported basis, diluted earnings per share were \$2.28, compared with \$2.82 in the prior-year period.

Segment Results

In the BD Medical segment, worldwide revenues for the quarter were \$1.106 billion, representing a decrease of 0.9 percent compared with the prior-year period, or an increase of 5.4 percent on a foreign currency-neutral basis. The segment's revenue growth reflects strong sales in the Medical Surgical Systems unit, partially offset by an unfavorable comparison to the prior-year period in the Diabetes Care and Pharmaceutical Systems units.

For the six-month period ended March 31, 2015, BD Medical revenues decreased 0.1 percent, or increased 4.8 percent on a currency-neutral basis.

In the BD Life Sciences segment, worldwide revenues for the quarter were \$945 million, representing a decrease of 1.1 percent compared with the prior-year period, or an increase of 4.4 percent on a foreign currency-neutral basis. The segment's revenue growth reflects strong clinical microbiology sales in the Diagnostic Systems unit and solid sales in Preanalytical Systems. The Biosciences unit was negatively impacted by the timing of government funding in Japan, as expected.

For the six-month period ended March 31, 2015, BD Life Sciences revenues increased 0.9 percent, or 5.5 percent on a currency-neutral basis.

Geographic Results

Second quarter revenues in the U.S. of \$863 million represent an increase of 4.5 percent over the prior-year period. U.S. revenues reflected notable growth across both segments. Within the BD Medical segment, strong Medical Surgical Systems growth was partially offset by the aforementioned unfavorable comparison to the prior-year period in the Diabetes Care and Pharmaceutical Systems units. The Life Sciences segment reflects strong growth within Diagnostic Systems' clinical microbiology products, in addition to strong research reagent and instrument growth in Biosciences.

Revenues outside of the U.S. were \$1.188 billion, representing a decrease of 4.7 percent compared with the prior-year period, or an increase of 5.2 percent on a foreign currency-neutral basis. International revenues reflected softness in Japan due to the aforementioned impact of the timing of government funding as well as softness in emerging markets. Growth in emerging markets was impacted by order timing in China, as well as other countries. The Company also experienced softness in Brazil, as expected. The Company expects growth of approximately 10 percent in emerging markets for the total fiscal year.

For the six-month period ended March 31, 2015, revenues in the U.S. were \$1.744 billion, representing an increase of 4.1 percent compared with the prior-year period. Revenues outside of the U.S. were \$2.358 billion, representing a decrease of 2.2 percent when compared with the prior-year period, or an increase of 5.8 percent on a foreign currency-neutral basis.

Fiscal 2015 Outlook for Full Year

On a standalone basis, the Company reaffirms its previously communicated currency-neutral revenue and earnings guidance. The Company estimates that revenues for the full fiscal year 2015 will increase approximately 5.0 percent on a foreign currency-neutral basis. On a reported basis, revenues are expected to decline approximately 1.5 percent, due to the unfavorable impact of foreign currency. The Company expects adjusted diluted earnings per share to grow 9.0 to 10.0 percent on a foreign currency-neutral basis. Including the estimated unfavorable impact of foreign-currency, adjusted diluted earnings per share are expected to be between \$6.43 and \$6.50.

Revenues for the full fiscal year 2015, including the accretion from the acquisition of CareFusion, are expected to increase approximately 28.0 to 29.0 percent on a foreign-currency neutral basis, or between 21.0 and 22.0 percent on a reported basis. The estimated annualized organic revenue growth, including CareFusion, is expected to be approximately 4.5 percent.

Adjusted diluted earnings per share for the full fiscal year 2015, which excludes, among other specified items, the non-cash amortization of intangible assets, and includes the accretion from the CareFusion acquisition, are expected to be between \$7.00 and \$7.10. This represents growth of 19.0 to 20.0 percent on a currency-neutral basis. Including the estimated unfavorable impact of foreign-currency, the Company expects adjusted diluted earnings per share growth of 8.0 to 9.0 percent. The Company expects full fiscal year reported diluted earnings per share to be between \$4.20 and \$4.30.
