Gartner Again Positions KORE as a Challenger in the Magic Quadrant for Managed Machine-to-Machine Services, Worldwide

Evaluation Based on Completeness of Vision and Ability to Execute

ALPHARETTA, Ga.--(BUSINESS WIRE)-- [KORE](#), the largest independent provider of managed network and layered applications enablement services within the emerging Internet of Things (IoT) market, today announced it has been positioned by Gartner, Inc., two years in a row, in the Challengers quadrant of the Magic Quadrant for Managed Machine-to-Machine Services, Worldwide. The full report is available as a [complimentary download here](#).

The above mentioned Magic Quadrant report, authored by Gartner analysts Eric Goodness, Leif-Olof Wallin, Aapo Markkanen, and Godfrey Chua, published on 23 October 2017, positions KORE as the fourth highest vendor in regards to “Ability to Execute”, and the highest vendor in the Challenger Quadrant.

“We consider our positioning in the Magic Quadrant for Managed Machine-to-Machine Services, Worldwide confirmation of KORE’s continued focus and dedication to delivering customer-centric IoT services on a global scale,” said Sue Holub, Chief Marketing Officer. “In the coming year, KORE will continue its competitive innovation and differentiation in the M2M and IoT markets to further enhance our position and deliver value to our customers.”

This year, KORE experienced significant momentum with the launch of its KORE Power Solutions suite of end-to-end solutions for rapid IoT design, deployment, and management. KORE Power Solutions are built upon reliable, secure, and scalable wireless connectivity, combined with best-in-class equipment from leading manufacturers, a solid and scalable management platform, fortified, by world-class support.
