# Kontoor Brands Reports 2023 Third Quarter Results; Updates 2023 Outlook

## Third Quarter 2023 Highlights

- Q3'23 revenue of \$655 million increased 8 percent (7 percent in constant currency) compared to Q3'22
- Q3'23 gross margin of 41.5 percent decreased 200 basis points compared to Q3'22, including an unanticipated 200 basis point charge from duty expense related to prior periods, as well as the impact of proactive inventory management actions
- Q3'23 EPS of \$1.05 compared to Q3'22 reported EPS of \$0.90 and adjusted EPS of \$1.11. Q3'23 EPS includes an unanticipated \$0.17 charge from duty expense related to prior periods; excluding the duty charge, EPS was \$1.22, increasing 10 percent compared to adjusted EPS in the same period last year
- Q3'23 inventory of \$605 million decreased 11 percent compared to Q3'22
- As previously announced, the Company's Board of Directors declared a regular quarterly cash dividend of \$0.50 per share, a 4 percent increase compared to Q2'23

## Full Year 2023 Financial Outlook

- FY'23 revenue is now expected to increase approximately 1 percent compared to FY'22; this compares to the prior outlook of a low-single digit percentage increase
- FY'23 adjusted gross margin is now expected to approximate 42.5 percent compared to the prior outlook of 43.5 percent to 44.0 percent; this updated outlook includes a 40 basis point charge from duty expense related to prior periods, as well as the impact of proactive inventory management actions
- FY'23 adjusted EPS is now expected to approximate \$4.35, compared to the prior outlook of \$4.55 to \$4.75; this updated outlook includes a \$0.15 charge from duty expense related to prior periods; excluding the duty charge, FY'23 EPS is expected to approximate \$4.50
- Expect full year cash flow from operations of approximately \$335 million and year end FY'23 cash and cash equivalents of approximately \$200 million; inventory is expected to approximate \$500 million by year end FY'23, representing a more than 15 percent decline compared to FY'22

GREENSBORO, N.C.--(BUSINESS WIRE)-- Kontoor Brands, Inc. (NYSE: KTB), a global lifestyle apparel company, with a portfolio led by two of the world's most iconic consumer brands, *Wrangler*® and *Lee*®, today reported financial results for its third quarter ended September 30, 2023.

"In the third quarter, we delivered strong revenue growth and profitability that was ahead of our expectations, excluding the duty charge, reflecting the broad-based strength of our

business. Supported by strategic investments in our brands, U.S. POS strength continued, driving further market share gains in core U.S. wholesale. And we delivered another solid quarter in DTC, a critical growth pillar of our diversified, accretive growth strategy,” said Scott Baxter, President, Chief Executive Officer and Chair of Kontoor Brands.

“While we continue to anticipate a challenging macroenvironment, we expect our investments in innovation and demand creation to further cement competitive separation in the marketplace and fuel the continued momentum of our brands. We are prudently managing our inventory and are focused on reducing inventory levels further as we establish an even stronger foundation for next year. Beginning with the fourth quarter, we expect gross margin expansion to drive accelerated earnings growth into 2024. And, given the strength of our balance sheet and cash flow generation, we have the opportunity to further enhance shareholder value through capital allocation optionality,” added Baxter.

This release refers to “adjusted” amounts from 2023 and 2022 and “constant currency” amounts, which are further described in the Non-GAAP Financial Measures section below. All per share amounts are presented on a diluted basis. Unless otherwise noted, “reported” and “constant currency” amounts are the same. Amounts as presented herein may not recalculate due to the use of unrounded numbers.

Late in the third quarter of 2023, management identified inaccuracies in processing certain transactions with U.S. Customs and Border Protection (“U.S. Customs”) arising from the implementation of the Company’s ERP system. These inaccuracies resulted in underpayment of certain duties owed to U.S. Customs for the 2021 to 2023 periods. The current period results include an estimated additional \$13 million duty charge related to prior periods.

### **Third Quarter 2023 Income Statement Review**

**Revenue** was \$655 million, increasing 8 percent (7 percent increase in constant currency) compared to the same period in the prior year. Revenue increases were primarily driven by strength in U.S. wholesale and DTC, partially offset by decreases in International, mainly China.

U.S. revenue was \$506 million, increasing 12 percent over the same period in the prior year. U.S. wholesale increased 12 percent compared to the third quarter 2022, driven by broad-based strength across categories, distribution channels and additional market share gains. Growth in U.S. wholesale was augmented by continued strength in DTC, with U.S. own.com revenue increasing 11 percent compared to the same period last year.

International revenue was \$149 million, a 4 percent decrease (8 percent decrease in constant currency) over the same period in the prior year with strength in DTC more than offset by a decline in wholesale. International DTC increased 7 percent (5 percent increase in constant currency) compared to the same period last year. China decreased 23 percent (19 percent decrease in constant currency) compared to the third quarter 2022. Europe increased 4 percent (4 percent decrease in constant currency) over the same period last year.

Wrangler brand global revenue was \$445 million, a 9 percent increase from the same period in the prior year. Wrangler U.S. revenue increased 10 percent compared to the same period

last year, driven by U.S. wholesale core denim and category diversification including non-denim bottoms, Outdoor and Western. Wrangler U.S. own.com increased 11 percent compared to the same period last year. Wrangler international revenue increased 8 percent (2 percent increase in constant currency) compared to the third quarter 2022, driven by increases in both wholesale and DTC.

Lee brand global revenue was \$208 million, a 5 percent increase (3 percent increase in constant currency) from the same period in the prior year. Lee U.S. revenue increased 20 percent compared to the same period last year, with strength in both wholesale and own.com. Lee U.S. own.com increased 11 percent compared to the same period last year. Lee international revenue decreased 10 percent (13 percent decrease in constant currency) compared to the third quarter 2022, driven primarily by softness in China.

**Gross margin** decreased 200 basis points to 41.5 percent compared to the same period in the prior year. Gross margin in the quarter included an unanticipated 200 basis point charge from duty expense related to prior periods, as well as proactive inventory management actions. Excluding the duty charge and inventory management actions, gross margin increased compared to the prior-year period, consistent with expectations. Benefits from strategic pricing, channel mix and lower transitory costs such as air freight were offset by inflationary pressures on input costs and geographic mix.

**Selling, General & Administrative (SG&A)** expenses were \$186 million or 28.4 percent of revenue in the third quarter, decreasing 30 basis points compared to adjusted SG&A for the same period in the prior year. Amplified investments in demand creation and DTC in addition to an increase in distribution costs were somewhat offset by disciplined management of discretionary expenses.

**Operating income** was \$85 million in the third quarter and included the approximate \$13 million duty charge. Excluding the duty charge, operating income was \$99 million and increased 10 percent compared to adjusted operating income in the same period in the prior year. Operating margin of 13.1 percent decreased 170 basis points compared to adjusted operating margin for the same period in the prior year, including a 200 basis point impact from the duty charge. Excluding the duty charge, operating margin increased 30 basis points to 15.1 percent.

**Earnings Before Interest, Tax, Depreciation and Amortization (EBITDA)** was \$91 million in the third quarter and includes the approximate \$13 million duty charge. EBITDA margin of 13.9 percent decreased 200 basis points compared to adjusted EBITDA margin during the same period in the prior year. Excluding the duty charge, EBITDA margin was consistent with the prior year adjusted EBITDA margin.

**Earnings per share (EPS)** was \$1.05 in the third quarter, compared to reported EPS of \$0.90 and adjusted EPS of \$1.11 in the same period last year. EPS in the quarter included an unanticipated \$0.17 charge for duty expense related to prior periods. Excluding the duty charge, earnings per share was \$1.22, increasing 10 percent compared to adjusted EPS in the same period last year.

### **September 30, 2023, Balance Sheet and Liquidity Review**

The Company ended the third quarter 2023 with \$78 million in cash and cash equivalents,

and approximately \$0.8 billion in long-term debt.

Inventory at the end of Q3'23 was \$605 million, down 11 percent compared to the prior-year period.

As of September 2023, the Company had no outstanding borrowings under the Revolving Credit Facility and \$488 million available for borrowing against this facility.

As previously announced, the Company's Board of Directors declared a regular quarterly cash dividend of \$0.50 per share, payable on December 18, 2023, to shareholders of record at the close of business on December 8, 2023.

### **2023 Outlook**

Although the impacts from near-term macroeconomic factors are uncertain, the Company remains focused on execution to deliver continued strong market share gains in the U.S., to accelerate DTC growth, and to drive gross margin improvement. The Company remains confident in its strategy and expects to continue investing in its brands and capabilities in support of accretive growth and anticipates accelerating cash generation as inventory continues to normalize in 2023.

Accordingly, the Company's updated 2023 outlook is as follows:

- **Revenue** is expected to increase approximately 1 percent compared to 2022, which compares to the prior outlook of a low-single digit percentage increase. During the fourth quarter of 2023, the Company expects ongoing market share gains and strength from DTC to be offset by more challenging macroeconomic and consumer demand conditions in the U.S., with the China market more fully reopening.
- **Adjusted gross margin** is expected to approximate 42.5 percent compared to the prior outlook of 43.5 percent to 44.0 percent. This updated outlook includes a 40 basis point charge for duty expense related to prior periods, in addition to proactive inventory management actions. The Company expects approximately 300 basis points of gross margin expansion in Q4'23 driven by geographic and DTC mix, strategic pricing and a decline in input costs. Based on current visibility, the Company expects geographic and DTC mix as well as lower input costs to drive significant gross margin expansion in 2024.
- **Adjusted SG&A** is now expected to increase at a low-single digit percentage compared to adjusted SG&A in 2022, which compares to a mid-single digit increase in the prior outlook. The Company will continue to prioritize investments in its brands and capabilities in support of longer-term profitable growth, including demand creation, DTC, and International expansion, while remaining prudent with regard to discretionary expenses.
- **Adjusted EPS** is now expected to approximate \$4.35, including an unanticipated \$0.15 charge for duty expense related to prior periods. This compares to the prior outlook of \$4.55 to \$4.75. Excluding the duty charge, FY'23 EPS is expected to approximate \$4.50.
- **Capital Expenditures** are expected to be in the range of \$35 million to \$40 million, primarily to support IT projects, growth in owned retail stores, manufacturing and distribution investments.
- The Company expects an **effective tax rate** of 20 percent to 21 percent. **Interest**

**expense** is expected to approximate \$35 million. **Other Expense** is expected to be in the range of \$10 million to \$12 million. **Average shares outstanding** are expected to be approximately 57 million, excluding the impact of any additional share repurchases.

- The Company expects **cash flow from operations** of approximately \$335 million and to end the year with **cash and cash equivalents** of approximately \$200 million. The Company expects to end the year with approximately \$500 million of inventory, representing a more than 15 percent decline compared to the prior year. The Company expects the combination of accelerated earnings growth and continued normalization of inventory to result in increased cash generation in 2024.

### ***Webcast Information***

Kontoor Brands will host its third quarter conference call beginning at 8:30 a.m. Eastern Time today, November 2, 2023. The conference will be broadcast live via the Internet, accessible at <https://www.kontoorbrands.com/investors>. For those unable to listen to the live broadcast, an archived version will be available at the same location.

### ***Non-GAAP Financial Measures***

Adjusted Amounts - This release refers to “adjusted” amounts. Adjustments during 2023 represent charges in the second quarter related to strategic actions taken by the Company to drive efficiencies in our operations, which included reducing our global workforce, streamlining and transferring select production within our internal manufacturing network and globalizing our operating model. Adjustments during 2022 represent charges related to the globalization of the Company’s operating model and relocation of the European headquarters. Additional information regarding adjusted amounts is provided in notes to the supplemental financial information included with this release.

Constant Currency - This release refers to “reported” amounts in accordance with GAAP, which include translation and transactional impacts from changes in foreign currency exchange rates. This release also refers to “constant currency” amounts, which exclude the translation impact of changes in foreign currency exchange rates.

Reconciliations of these non-GAAP measures to the most comparable GAAP measures are presented in the supplemental financial information included with this release that identifies and quantifies all reconciling adjustments and provides management's view of why this non-GAAP information is useful to investors. While management believes that these non-GAAP measures are useful in evaluating the business, this information should be viewed in addition to, and not as an alternate for, reported results under GAAP. The non-GAAP measures used by the Company in this release may be different from similarly titled measures used by other companies.

### ***About Kontoor Brands***

Kontoor Brands, Inc. (NYSE: KTB) is a global lifestyle apparel company, with a portfolio led by two of the world’s most iconic consumer brands: *Wrangler*® and *Lee*®. Kontoor designs, manufactures and distributes superior high-quality products that look good and fit right, giving people around the world the freedom and confidence to express themselves. value for its stakeholders. For more information about Kontoor Brands, please visit [www.KontoorBrands.com](http://www.KontoorBrands.com).

### ***Forward-Looking Statements***

Certain statements included in this release and attachments are "forward-looking statements" within the meaning of the federal securities laws. Forward-looking statements are made based on our expectations and beliefs concerning future events impacting the Company and therefore involve several risks and uncertainties. You can identify these statements by the fact that they use words such as "will," "anticipate," "estimate," "expect," "should," "may" and other words and terms of similar meaning or use of future dates. We caution that forward-looking statements are not guarantees and that actual results could differ materially from those expressed or implied in the forward-looking statements. We do not intend to update any of these forward-looking statements or publicly announce the results of any revisions to these forward-looking statements, other than as required under the U.S. federal securities laws. Potential risks and uncertainties that could cause the actual results of operations or financial condition of the Company to differ materially from those expressed or implied by forward-looking statements in this release include, but are not limited to: macroeconomic conditions, including inflation, rising interest rates, recessionary concerns, fluctuating foreign currency exchange rates and distress in global credit and banking markets, as well as ongoing global supply chain disruptions, labor challenges, the COVID-19 pandemic and geopolitical events, continue to adversely impact global economic conditions and have had, and may continue to have, a negative impact on the Company's business, results of operations, financial condition and cash flows (including future uncertain impacts); the level of consumer demand for apparel; supply chain and shipping disruptions, which could continue to result in shipping delays, an increase in transportation costs and increased product costs or lost sales; reliance on a small number of large customers; the COVID-19 pandemic continues to negatively affect the Company's business and could continue to result in supply chain disruptions, reduced consumer traffic and purchasing, closed factories and stores, and reduced workforces (including future uncertain effects); intense industry competition; the ability to accurately forecast demand for products; the Company's ability to gauge consumer preferences and product trends, and to respond to constantly changing markets; the Company's ability to maintain the images of its brands; increasing pressure on margins; e-commerce operations through the Company's direct-to-consumer business; the financial difficulty experienced by the retail industry; possible goodwill and other asset impairment; the ability to implement the Company's business strategy; the stability of manufacturing facilities and foreign suppliers; fluctuations in wage rates and the price, availability and quality of raw materials and contracted products; the reliance on a limited number of suppliers for raw material sourcing and the ability to obtain raw materials on a timely basis or in sufficient quantity or quality; disruption to distribution systems; seasonality; unseasonal or severe weather conditions; the Company's and its vendors' ability to maintain the strength and security of information technology systems; the risk that facilities and systems and those of third-party service providers may be vulnerable to and unable to anticipate or detect data security breaches and data or financial loss; ability to properly collect, use, manage and secure consumer and employee data; foreign currency fluctuations; disruption and volatility in the global capital and credit markets and its impact on the Company's ability to obtain short-term or long-term financing on favorable terms; the impact of climate change and related legislative and regulatory responses; legal, regulatory, political and economic risks; changes to trade policy, including tariff and import/export

regulations; compliance with anti-bribery, anti-corruption and anti-money laundering laws by the Company and third-party suppliers and manufacturers; changes in tax laws and liabilities; the costs of compliance with or the violation of national, state and local laws and regulations for environmental, consumer protection, employment, privacy, safety and other matters; continuity of members of management; labor relations; the ability to protect trademarks and other intellectual property rights; the ability of the Company's licensees to generate expected sales and maintain the value of the Company's brands; the Company maintaining satisfactory credit ratings; restrictions on the Company's business relating to its debt obligations; volatility in the price and trading volume of the Company's common stock; anti-takeover provisions in the Company's organizational documents; and fluctuations in the amount and frequency of our share repurchases.

Many of the foregoing risks and uncertainties will be exacerbated by any worsening of the global business and economic environment. More information on potential factors that could affect the Company's financial results are described in detail in the Company's most recent Annual Report on Form 10-K and in other reports and statements that the Company files with the SEC.

## Constant Currency Financial Information

The Company is a global company that reports financial information in U.S. dollars in accordance with GAAP. Foreign currency exchange rate fluctuations affect the amounts reported by the Company from translating its foreign revenues and expenses into U.S. dollars. These rate fluctuations can have a significant effect on reported operating results. As a supplement to our reported operating results, we present constant currency financial information, which is a non-GAAP financial measure that excludes the impact of translating foreign currencies into U.S. dollars. We use constant currency information to provide a framework to assess how our business performed excluding the effects of changes in the

rates used to calculate foreign currency translation. Management believes this information is useful to investors to facilitate comparison of operating results and better identify trends in our businesses.

To calculate foreign currency translation on a constant currency basis, operating results for the current year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year (rather than the actual exchange rates in effect during the current year period).

These constant currency performance measures should be viewed in addition to, and not as an alternative for, reported results under GAAP. The constant currency information presented may not be comparable to similarly titled measures reported by other companies.

**Non-GAAP Financial Information:** The financial information above has been presented on a GAAP basis and on a constant currency basis, which is a non-GAAP financial measure. See "Business Segment Information – Constant Currency Basis (Non-GAAP)" for additional information on constant currency financial calculations.

**Notes to Supplemental Financial Information - Reconciliation of Adjusted Financial Measures**

Management uses non-GAAP financial measures internally in its budgeting and review process and, in some cases, as a factor in determining compensation. In addition, adjusted EBITDA is a key financial measure for the Company's shareholders and financial leaders, as the Company's debt financing agreements require the measurement of adjusted EBITDA, along with other measures, in connection with the Company's compliance with debt covenants. While management believes that these non-GAAP measures are useful in evaluating the business, this information should be considered supplemental in nature and should be viewed in addition to, and not as an alternate for, reported results under GAAP. In addition, these non-GAAP measures may be different from similarly titled measures used by

other companies.

(a) During the three months ended September 2022, restructuring costs included charges of \$13.7 million related to severance and employee-related benefits and \$1.0 million of other costs, both of which were attributable to the globalization of the Company's operating model and relocation of the European headquarters. Total restructuring costs resulted in a corresponding tax impact of \$2.8 million for the three months ended September 2022.
