USANA Health Sciences Announces Second Quarter 2008 Financial Results

Record Sales of \$109.2 Million; EPS of \$0.62

SALT LAKE CITY--(BUSINESS WIRE)--

USANA Health Sciences, Inc. (NASDAQ: USNA) today announced its financial results for the fiscal second quarter, ended June 28, 2008. The company reported net sales of \$109.2 million and earnings per share of \$0.62, which approximated the preliminary results for the second quarter announced on June 18, 2008.

Financial Performance

Net sales for the second quarter of 2008 increased by 1.5% to \$109.2 million, compared with \$107.5 million in the second quarter of the prior year. This increase in net sales was primarily the result of new incentive programs for the company's Associates and stronger foreign currencies. On a consecutive quarter basis, net sales increased by 7.5%.

Earnings per share from continuing operations were \$0.62 per share, compared with \$0.66 per share in the second quarter of 2007, a decrease of 6.1%. This decrease in earnings per share for the quarter was due to higher overall operating costs. On a consecutive quarter basis, earnings per share increased by 34.8%. Notably, earnings per share in the second quarter were reduced by \$0.03 due to charges relating to the recently terminated tender offer.

For the six months ended June 28, 2008, net sales increased by 1.2% to \$210.8 million, compared with \$208.2 in the first six months of 2007. Earnings per share from continuing operations were \$1.08 in the first six months of 2008, a decrease of 16.9%, compared with \$1.30 in the same period of 2007.

Regional Results

North America Region

During the second quarter of 2008, net sales in North America decreased by 3.3% to \$65.9 million, compared with the second quarter of the prior year. Excluding changes in foreign currency, net sales decreased by 5.9%. This decrease was mainly due to lower-than-expected sales in the U.S., where the number of active Associates declined by 7.7% on a year-over-year basis. On a sequential quarter basis, however, net sales increased by 4.1% in the U.S. and by 5.9% in North America.

Asia Pacific Regions

Net sales in the Asia Pacific regions, during the second quarter of 2008, increased by 9.9%

to \$43.3 million, compared with the second quarter of 2007. Excluding changes in foreign currency, net sales increased by 2.6% in these regions. This growth was primarily attributable to increases of 44.9% in Hong Kong, 28.7% in Malaysia, and 11.7% in Taiwan. These sales increases were partially offset by a 3.8% decline in Australia/New Zealand and a 3.3% decline in Singapore, compared with the second quarter of 2007. On a sequential quarter basis, net sales in the Asia Pacific regions increased by 10.2%.

"We were pleased to see our second quarter financial results come in above our original expectations," said Dave Wentz, president of USANA Health Sciences. "Achieving sequential quarterly sales gains in all but two of our 13 markets gives me confidence that our business is starting to regain its upward momentum. We will continue to focus on accelerating our top-line growth."

Gil Fuller, the company's executive vice president and chief financial officer, said, "We have made extra efforts this quarter to reduce overall corporate spending. Additionally, the majority of the capital investments that we have made to expand our corporate headquarters and regional facility in Sydney, Australia are now largely behind us."

Beginning today, the company is changing its practice for providing financial guidance. USANA will no longer provide financial guidance for its fiscal quarters. The company will, however, provide financial guidance on an annual basis, which it will update periodically. Commenting on this financial guidance, Fuller said, "We are making this change to our guidance practice to focus on the longer-term prospects of our business."

Outlook

On July 21, 2008, the Company's Compensation Committee increased base salaries and issued significant equity grants that vest over five years. These grants will replace annual grants that the committee would otherwise issue during that time. These increases in cash and equity compensation will reduce earnings per share for 2008 by approximately \$0.12. The committee believes that doing this will increase shareholder value over the long-term by retaining and motivating key management personnel.

The company believes that, for the full-year 2008, net sales will be between \$435 million and \$445 million and earnings per share on a fully diluted basis will be between \$2.30 and \$2.36. This earnings per share estimate is based on a full-year effective tax rate of 36.5%.

Conference Call

USANA will hold a conference call and webcast to discuss this announcement with investors on Wednesday, July 23, 2008 at 11:00 AM Eastern Time. Investors may listen to the call by accessing USANA's website at <http://www.usanahealthsciences.com>.
