

Marathon Patent Group and Uniloc Provide Update on Proposed Merger

LOS ANGELES, CA -- (Marketwired) -- 01/06/16 -- Marathon Patent Group, Inc. (NASDAQ: MARA) ("Marathon" or "Company"), a patent licensing company, and Uniloc Luxembourg S.A. ("Uniloc"), provided today an update on their previously announced proposed merger.

On August 14, 2015, Marathon Patent Group, Inc. and Uniloc announced that they had entered into a definitive business combination agreement, (the "Agreement") according to which the companies will be combined in an all-stock transaction intended to qualify as a tax-free reorganization. The new company will be called Marathon Group SA. (the "New Company").

The New Company's combined assets under management will be balanced between patents purchased from third parties and patents internally developed. The New Company will begin with a current portfolio of approximately 624 patent assets. These patents cover products and methods in the automotive, medical device, software, identity management, device authentication, mobile communication and Internet fields of use.

At the time of the signed definitive Agreement, the combined entity's value proposition included the following:

- Industry leading management team with proven track record
- Highly scalable business model with significant operating leverage
- \$93.6 million pro forma combined licensing revenue over last 30 months of operations (unaudited)
- \$37.5 million pro forma combined licensing revenue over trailing twelve months of operations (unaudited)
- 119 active defendants and 101 trials projected through 2017
- Up to 150 additional potential licensees
- Large, diversified and active patent portfolio
- Scale and diversification potentially eliminates dependence on large, binary licensing or litigation outcomes
- Gross margin improvement potential on future cases expected from economies of scale and Uniloc's relationship with law firms that work on a contingency fee basis

In connection with the proposed merger, Marathon previously announced its intent to file a registration statement on Form S-4 with the Securities and Exchange Commission. The filing of the S-4 has been delayed pending availability of the required historical audited financial statements for Uniloc. Although Uniloc's Luxembourg statutory audit has been completed by Uniloc's auditor, the Luxembourg office of Ernst & Young, certain additional actions must be taken in order for Uniloc's financial statements to be in a format suitable for filing with the Form S-4. Marathon expects the S-4 filing will be made promptly upon receipt of such

audited financial statements. The parties expect the filing to be made as early as practicable in the first quarter of 2016.
