

Korn Ferry Announces Second Quarter Fiscal 2020 Results of Operations

LOS ANGELES, Dec. 5, 2019 /PRNewswire/ --

Highlights

- Korn Ferry reports fee revenue of \$492.4 million in Q2 FY'20.
- Net income attributable to Korn Ferry was \$42.8 million in Q2 FY'20.
- Operating income was \$61.9 million in Q2 FY'20 with an operating margin of 12.6%. Adjusted EBITDA was \$78.3 million with Adjusted EBITDA margin of 15.9%.
- Q2 FY'20 diluted earnings per share and adjusted diluted earnings per share was \$0.77 and \$0.81, respectively.
- The Company continued with its balanced approach to capital allocation, buying back 1.3 million shares or \$49.2 million of stock during the quarter and declaring a quarterly dividend of \$0.10 per share on December 4, 2019 payable on January 15, 2020 to stockholders of record on December 20, 2019.

Korn Ferry (NYSE: KFY), a global organizational consulting firm, today announced second quarter fee revenue of \$492.4 million. Second quarter diluted earnings per share was \$0.77 and Adjusted diluted earnings per share was \$0.81. Adjusted diluted earnings per share for the second quarter excludes \$2.6 million, or \$0.04 per share, related to integration/acquisition costs associated with the recently completed acquisition of Miller Heiman Group, AchieveForum and Strategy Execution.

"For Korn Ferry's recently completed second quarter, we generated fee revenue of approximately \$492 million (down 1% using actual rates; up 1% on a constant currency basis) and consistent profitability with an Adjusted EBITDA margin of almost 16%. Despite the confused socio-political climate, we continued to have a long-term balanced approach to capital deployment, acquiring three leadership development companies while repurchasing almost \$50 million of stock during the quarter in addition to our normal quarterly dividend," said Gary D. Burnison, CEO, Korn Ferry.

"We have historically only focused on a 10 percent subset of the \$300 billion market for learning and development. The recent acquisitions of Miller Heiman, Strategy Execution and AchieveForum add professional development capabilities that will leverage our Korn Ferry Digital platform, tapping a much broader market opportunity. Last month we celebrated our 50th anniversary, capping an unprecedented moment in Korn Ferry's history as the preeminent global organizational consulting firm. As our recent acquisitions attest, we continue to evolve our business to help clients synchronize their strategy, operations and talent. I look forward to what the future holds as we ring in a New Year."

Fee revenue was \$94.8 million in Q2 FY'20, an increase of \$14.3 million or 18% (20% increase on a constant currency basis), compared to the year-ago quarter. The higher fee revenue was primarily driven by an increase in fee revenue in recruitment process outsourcing and professional search of \$11.6 million and \$2.7 million, respectively, in Q2 FY'20 compared to Q2 FY'19.

Operating income was \$15.1 million in Q2 FY'20, an increase of \$2.6 million compared to Q2 FY'19 operating income of \$12.5 million. Operating margin was 15.9% in the current quarter compared to 15.6% in the year-ago quarter. The increase in operating income was due to higher fee revenue in Q2 FY'20 compared to Q2 FY'19, partially offset by an increase in compensation and benefits expense driven by a 28% increase in average headcount.

EBITDA was \$16.1 million during Q2 FY'20, an increase of \$2.9 million compared to Q2 FY'19. EBITDA margin was 17.0% in Q2 FY'20 and 16.4% in Q2 FY'19.

Use of Non-GAAP Financial Measures

This press release contains financial information calculated other than in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"). In particular, it includes:

- Adjusted net income attributable to Korn Ferry, adjusted to exclude integration/acquisition costs and tradename write-offs, net of income tax effect;
- Adjusted basic and diluted earnings per share, adjusted to exclude integration/acquisition costs and tradename write-offs, net of income tax effect; and in the case of the outlook section, also adjusted for restructuring charges, net and tax rate impact;
- Constant currency (calculated using a quarterly average) percentages that represent the percentage change that would have resulted had exchange rates in the prior period been the same as those in effect in the current period;
- EBITDA, or earnings before interest, taxes, depreciation and amortization and EBITDA margin; and
- Adjusted EBITDA, which is EBITDA further adjusted to exclude integration/acquisition costs and tradename write-offs, and Adjusted EBITDA margin.

This non-GAAP disclosure has limitations as an analytical tool, should not be viewed as a substitute for financial information determined in accordance with GAAP, and should not be considered in isolation or as a substitute for analysis of the Company's results as reported under GAAP, nor is it necessarily comparable to non-GAAP performance measures that may be presented by other companies.

Management believes the presentation of non-GAAP financial measures in this press release provides meaningful supplemental information regarding Korn Ferry's performance by excluding certain charges that may not be indicative of Korn Ferry's ongoing operating results. These non-GAAP financial measures are performance measures and are not indicative of the liquidity of Korn Ferry. These charges represent 1) costs we incurred to acquire and integrate a portion of our Advisory business and 2) tradename write-offs associated with the rebranding plan initiated by Korn Ferry. The use of non-GAAP financial measures facilitates comparisons to Korn Ferry's historical performance. Korn Ferry includes non-GAAP financial measures because management believes they are useful to investors in allowing for greater transparency with respect to supplemental information used by management in its evaluation of Korn Ferry's ongoing operations and financial and operational decision-making. Adjusted net income attributable to Korn Ferry, adjusted basic and diluted earnings per share and Adjusted EBITDA, exclude certain charges that management does not consider on-going in nature and allows management and investors to make more meaningful period-to-period comparisons of the Company's operating results. Management further believes that EBITDA is useful to investors because it is frequently used by investors and other interested parties to measure operating performance among companies with different capital structures, effective tax rates and tax attributes and capitalized asset values, all of which can vary substantially from company to company. In the case of constant currency percentages, management believes the presentation of such information provides useful supplemental information regarding Korn Ferry's performance as excluding the impact of exchange rate changes on Korn Ferry's financial performance allows investors to make more meaningful period-to-period comparisons of the Company's operating results, to better identify operating trends that may otherwise be masked or

distorted by exchange rate changes and to perform related trend analysis, and provides a higher degree of transparency of information used by management in its evaluation of Korn Ferry's ongoing operations and financial and operational decision-making.
