The information contained in this Financial Supplement is preliminary, unaudited and based on data available on July 15, 2016. We have reclassified certain prior period amounts to be consistent with the current period presentation, which we believe is more meaningful to readers of our consolidated financial statements. This information speaks only as of the particular date or dates included in the schedules. We do not undertake any obligation to, and disclaim any duty to, correct or update any of the information provided in this Financial Supplement. Our future financial performance is subject to risks and uncertainties as described in our United States Securities and Exchange Commission (SEC) filings.

| Effective tax rate (b) |  | 24.3 |  | 23.5 \% |  | 26.1 |  |  | 20.0 | \% |  | 28.2 \% |  | 23.9 \% |  | 26.4 |  |

(a) Dividends are payable quarterly other than Series $O$ and Series $R$ preferred stock, which are payable semiannually in different quarters.
(b) The effective income tax rates are generally lower than the statutory rate due to the relationship of pretax income to tax credits and earnings that are not subject to tax.

| Net interest margin | 2.70 \% | 2.75 \% | 2.70 \% | 2.67 \% | 2.73 \% | 2.73 \% | 2.78 \% |

(a) Calculated as annualized taxable-equivalent net interest income divided by average earning assets. The interest income earned on certain earning assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than taxable investments. To provide more meaningful comparisons of yields and margins for all earning assets in calculating net interest margins, in this table we use net interest income on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. This adjustment is not permitted under generally accepted accounting principles (GAAP) in the Consolidated Income Statement. The taxable-equivalent adjustments to net interest income for the three months ended June 30, 2016, March 31, 2016, December 31, 2015, September 30, 2015 and June 30, 2015, were $\$ 48$ million, $\$ 48$ million, $\$ 48$ million, $\$ 50$ million and $\$ 49$ million, respectively. The taxable-equivalent adjustments to net interest income for the six months ended June 30, 2016 and June 30, 2015 were $\$ 96$ million and $\$ 98$ million, respectively.
(b) Represents the positive effects of investing noninterest-bearing sources in interest-earning assets.

## Total and Core Net Interest Income and Net Interest Margin (Unaudited)

Table 7: Total and Core Net Interest Income

|  | Three months ended |  |  |  |  |  |  |  |  |  | Six months ended |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | June 30 |  | March 31 |  | December 31 September 30 |  |  |  | $\begin{array}{r} \hline \text { June } 30 \\ 2015 \\ \hline \end{array}$ |  | $\begin{array}{r} \hline \text { June } 30 \\ 2016 \end{array}$ |  |  | $\begin{array}{r} \hline \text { June } 30 \\ 2015 \end{array}$ |
| In millions |  | 2016 |  | 2016 |  | 2015 |  | 2015 |  |  |  |  |
| Core net interest income (a) | \$ | 2,004 | \$ | 2,012 | \$ | 2,002 | \$ | 1,972 | \$ | 1,941 |  |  | \$ | 4,016 | \$ | 3,885 |
| Total purchase accounting accretion |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| Scheduled accretion net of contractual interest |  | 45 |  | 52 |  | 64 |  | 71 |  | 83 |  | 97 |  | 178 |
| Excess cash recoveries (b) |  | 19 |  | 34 |  | 26 |  | 19 |  | 28 |  | 53 |  | 61 |
| Total purchase accounting accretion (c) |  | 64 |  | 86 |  | 90 |  | 90 |  | 111 |  | 150 |  | 239 |
| Total net interest income | \$ | 2,068 | \$ | 2,098 | \$ | 2,092 | \$ | 2,062 | \$ | 2,052 | \$ | 4,166 | \$ | 4,124 |

(a) We believe that core net interest income, a non-GAAP financial measure, is useful in evaluating the performance of our interest-based activities.
(b) Relates to excess cash recoveries for purchased impaired commercial loans.
(c) Total purchase accounting accretion includes purchase accounting accretion on purchased impaired loans.

| Total rate on interest-bearing liabilities | . 53 | . 52 | . 44 | . 46 | . 44 | . 53 |  | . 43 |
| Interest rate spread | 2.47 | 2.50 | 2.46 | 2.43 | 2.46 | 2.48 |  | 2.50 |
| Impact of noninterest-bearing sources | . 16 | . 15 | . 14 | . 14 | . 13 | . 16 |  | . 13 |
| Core net interest margin | 2.63 | 2.65 | 2.60 | 2.57 | 2.59 | 2.64 |  | 2.63 |
| Purchase accounting accretion impact on net interest margin | . 07 | . 10 | . 10 | . 10 | . 14 | . 09 |  | . 15 |
| Net interest margin (f) | 2.70 \% | 2.75 \% | 2.70 \% | 2.67 \% | 2.73 \% | 2.73 | \% | 2.78 \% |

(e) We believe that core net interest margin, a non-GAAP financial measure, is useful as a tool to help evaluate the impact of purchase accounting accretion on net interest margin. To calculate core net interest margin, each calculated margin in the table has been adjusted by annualized purchase accounting accretion divided by average interest-earning assets.
(f) See note (a) on page 6 .

| Total nonperforming assets | \$ | 2,515 | \$ | 2,552 | \$ | 2,425 | \$ | 2,490 | \$ | 2,578 |
| Nonperforming loans to total loans |  | 1.08\% |  | 1.10\% |  | 1.03\% |  | 1.06\% |  | 1.10\% |
| Nonperforming assets to total loans, OREO and foreclosed assets |  | 1.20 |  | 1.23 |  | 1.17 |  | 1.21 |  | 1.25 |
| Nonperforming assets to total assets |  | . 70 |  | . 71 |  | . 68 |  | . 69 |  | . 73 |
| Allowance for loan and lease losses to nonperforming loans (e) (f) |  | 119 |  | 119 |  | 128 |  | 149 |  | 145 |

(a) Includes loans related to customers in the real estate and construction industries.
(b) Excludes most consumer loans and lines of credit, not secured by residential real estate, which are charged off after 120 to 180 days past due and are not placed on nonperforming status.
(c) Nonperforming loans exclude certain government insured or guaranteed loans, loans held for sale, loans accounted for under the fair value option and purchased impaired loans.
(d) The recorded investment of loans collateralized by residential real estate property that are in process of foreclosure was $\$ .4$ billion, $\$ .5$ billion, $\$ .6$ billion, $\$ .6$ billion, and $\$ .6$ billion at June 30, 2016, March 31, 2016, December 31, 2015, September 30, 2015 and June 30, 2015, which included $\$ .3$ billion, $\$ .3$ billion, $\$ .3$ billion, $\$ .3$ billion, and $\$ .4$ billion, respectively, of loans that are government insured/guaranteed.
(e) The allowance for loan and lease losses includes impairment reserves attributable to purchased impaired loans.
(f) See our 2015 Form 10-K for information on our change in derecognition policy effective December 31, 2015 for certain purchased impaired loans.

## Business Segment Descriptions (Unaudited)

Retail Banking provides deposit, lending, brokerage, investment management and cash management services to consumer and small business customers within our primary geographic markets. Our customers are serviced through our branch network, ATMs, call centers, online banking and mobile channels. The branch network is located primarily in Pennsylvania, Ohio, New Jersey, Michigan, Illinois, Maryland, Indiana, Florida, North Carolina, Kentucky, Washington, D.C., Delaware, Virginia, Alabama, Georgia, Missouri, Wisconsin and South Carolina.

Corporate \& Institutional Banking provides lending, treasury management, and capital markets-related products and services to mid-sized and large corporations, government and not-for-profit entities. Lending products include secured and unsecured loans, letters of credit and equipment leases. Treasury management services include cash and investment management, receivables management, disbursement services, funds transfer services, information reporting and global trade services. Capital markets-related products and services include foreign exchange, derivatives, securities, loan syndications, mergers and acquisitions advisory, equity capital markets advisory activities and related services. We also provide commercial loan servicing and technology solutions for the commercial real estate finance industry. Products and services are generally provided within our primary geographic markets, with certain products and services offered nationally and internationally.

Asset Management Group includes personal wealth management for high net worth and ultra high net worth clients and institutional asset management. Wealth management products and services include investment and retirement planning, customized investment management, private banking, tailored credit solutions, and trust management and administration for individuals and their families. Our Hawthorn unit provides multigenerational family planning including wealth strategy, investment management, private banking, tax and estate planning guidance, performance reporting and personal administration services to ultra high net worth families. Institutional asset management provides investment management, custody administration and retirement administration services. The business also offers PNC proprietary mutual funds. Institutional clients include corporations, unions, municipalities, non-profits, foundations and endowments, primarily located in our geographic footprint.

Residential Mortgage Banking directly originates first lien residential mortgage loans on a nationwide basis with a significant presence within the retail banking footprint. Mortgage loans represent loans collateralized by one-to-four family residential real estate. These loans are typically underwritten to government agency and/or third-party standards, and either sold, servicing retained, or held on PNC's balance sheet. Loan sales are primarily to secondary mortgage conduits of Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), Federal Home Loan Banks and third-party investors, or are securitized and issued under the Government National Mortgage Association (GNMA) program. The mortgage servicing operation performs all functions related to servicing mortgage loans, primarily those in first lien position, for various investors and for loans owned by PNC.

Non-Strategic Assets Portfolio includes a consumer portfolio of mainly residential mortgage and brokered home equity loans and lines of credit, and a small commercial/commercial real estate loan and lease portfolio. We obtained a significant portion of these non-strategic assets through acquisitions of other companies.

BlackRock, in which we hold an equity investment, is a leading publicly traded investment management firm providing a broad range of investment and risk management services to institutional and retail clients worldwide. Using a diverse platform of active and index investment strategies across asset classes, BlackRock develops investment outcomes and asset allocation solutions for clients. Product offerings include single- and multi-asset class portfolios investing in equities, fixed income, alternatives and money market instruments. BlackRock also offers an investment and risk management technology platform, risk analytics and advisory services and solutions to a broad base of institutional investors. Our equity investment in BlackRock provides us with an additional source of noninterest income and increases our overall revenue diversification. BlackRock is a publicly traded company, and additional information regarding its business is available in its filings with the Securities and Exchange Commission (SEC). At June 30, 2016, our economic interest in BlackRock was 22\%.

(a) Our business information is presented based on our internal management reporting practices. We periodically refine our internal methodologies as management reporting practices are enhanced. Net interest income in business segment results reflects PNC’s internal funds transfer pricing methodology. Assets receive a funding charge and liabilities and capital receive a funding credit based on a transfer pricing methodology that incorporates product repricing characteristics, tenor and other factors.
(b) We consider BlackRock to be a separate reportable business segment but have combined its results with Other for this presentation. Our second quarter 2016 Form 10-Q will include additional information regarding BlackRock.
(c) Includes earnings and gains or losses related to PNC's equity interest in BlackRock and residual activities that do not meet the criteria for disclosure as a separate reportable business, such as gains or losses related to BlackRock transactions, integration costs, asset and liability management activities including net securities gains or losses, other-than-temporary impairment of investment securities and certain trading activities, exited businesses, private equity investments, intercompany eliminations, most corporate overhead, tax adjustments that are not allocated to business segments and differences between business segment performance reporting and financial statement reporting (GAAP), including the presentation of net income attributable to noncontrolling interests as the segments' results exclude their portion of net income attributable to noncontrolling interests.

[^2](b) Presented as of period end, except for customer-related statistics which are averages for the quarterly and year-to-date periods, respectively, and net charge-offs and the annualized net charge-off ratio, which are for the three months and six months ended, respectively.
(c) Percentage of total consumer and business banking deposit transactions processed at an ATM or through our mobile banking application.
(d) Represents consumer checking relationships that process the majority of their transactions through non-teller channels.
(e) Excludes satellite offices (e.g., drive-ups, electronic branches and retirement centers) that provide limited products and/or services.
(f) Included in total branches, represents branches operating under our Universal model.
(g) Amounts include cash and money market balances.

(a) See note (a) on page 14.
(b) Represents loans serviced for PNC and others.
(c) Presented as of period end.
(d) Represents consolidated PNC amounts. Our second quarter 2016 Form 10-Q will include additional information regarding these items.
(e) Includes amounts reported in net interest income, corporate service fees and other noninterest income.
(f) Includes other noninterest income for valuations on commercial mortgage loans held for sale and related commitments, derivative valuations, origination fees, and gains on sale of loans held for sale and net interest income on loans held for sale.
(g) Includes net interest income and noninterest income, primarily in corporate services fees, from loan servicing and ancillary services, net of changes in fair value on commercial mortgage servicing rights due to time and payoffs. Commercial mortgage servicing rights valuation, net of economic hedge is shown separately.
(h) Includes amounts reported in corporate service fees.

(a) See note (a) on page 1
(b) Consolidated PNC amounts, which include asset and liability management activities reported in the "Other, including Blackrock" business segment, were $\$ 35$ million, ( $\$ 8$ ) million, \$6 million, \$15 million and \$37 million for the quarters ended June 30, 2016, March 31, 2016, December 31, 2015, September 30, 2015, and June 30, 2015, respectively, and $\$ 27$ million and $\$ 68$ million for the six months ended June 30, 2016 and 2015, respectively.
(c) Represents loans serviced for third parties.
(d) As of period end.
(e) Mortgages with borrowers as part of residential real estate purchase transactions.

(a) See note (a) on page 14.
(b) Other assets were negative in all periods presented due to the allowance for loan and lease losses.
(c) As of period end.
(d) Recorded investment of purchased impaired loans related to acquisitions.

## Glossary Of Terms

Accretable net interest (Accretable yield) - The excess of cash flows expected to be collected on a purchased impaired loan over the carrying value of the loan. The accretable net interest is recognized into interest income over the remaining life of the loan using the constant effective yield method.

Adjusted average total assets - Primarily comprised of total average quarterly (or annual) assets plus (less) unrealized losses (gains) on investment securities, less goodwill and certain other intangible assets (net of eligible deferred taxes).

Annualized - Adjusted to reflect a full year of activity.
Basel III common equity Tier 1 capital - Common stock plus related surplus, net of treasury stock, plus retained earnings, plus accumulated other comprehensive income for securities currently and previously held as available for sale, plus accumulated other comprehensive income for pension and other postretirement benefit plans, less goodwill, net of associated deferred tax liabilities, less other disallowed intangibles, net of deferred tax liabilities and plus/less other adjustments.

Basel III common equity Tier 1 capital ratio - Common equity Tier 1 capital divided by period-end risk-weighted assets (as applicable).

Basel III Tier 1 capital - Common equity Tier 1 capital, plus preferred stock, plus certain trust preferred capital securities, plus certain noncontrolling interests that are held by others and plus/less other adjustments.

Basel III Tier 1 capital ratio - Tier 1 capital divided by period-end risk-weighted assets (as applicable).
Basel III Total capital - Tier 1 capital plus qualifying subordinated debt, plus certain trust preferred securities, plus, under the Basel III transitional rules and the standardized approach, the allowance for loan and lease losses included in Tier 2 capital and other.

Basel III Total capital ratio - Total capital divided by period-end risk-weighted assets (as applicable).

Basis point - One hundredth of a percentage point.
Carrying value of purchased impaired loans - The net value on the balance sheet which represents the recorded investment less any valuation allowance.

Cash recoveries - Cash recoveries used in the context of purchased impaired loans represent cash payments for a single purchased impaired loan not included within a pool of loans from customers that exceeded the recorded investment of that loan.

Charge-off - Process of removing a loan or portion of a loan from our balance sheet because it is considered uncollectible. We also record a charge-off when a loan is transferred from portfolio holdings to held for sale by reducing the loan carrying amount to the fair value of the loan, if fair value is less than carrying amount.

Combined loan-to-value ratio (CLTV) - This is the aggregate principal balance(s) of the mortgages on a property divided by its appraised value or purchase price.

Common shareholders' equity to total assets - Common shareholders' equity divided by total assets. Common shareholders' equity equals total shareholders' equity less the liquidation value of preferred stock.

Core net interest income - Core net interest income is total net interest income less purchase accounting accretion.
Credit spread - The difference in yield between debt issues of similar maturity. The excess of yield attributable to credit spread is often used as a measure of relative creditworthiness, with a reduction in the credit spread reflecting an improvement in the borrower's perceived creditworthiness.

Credit valuation adjustment (CVA) - Represents an adjustment to the fair value of our derivatives for our own and counterparties’ non-performance risk.

Criticized commercial loans - Loans with potential or identified weaknesses based upon internal risk ratings that comply with the regulatory classification definitions of "Special Mention," "Substandard" or "Doubtful."

Derivatives - Financial contracts whose value is derived from changes in publicly traded securities, interest rates, currency exchange rates or market indices. Derivatives cover a wide assortment of financial contracts, including but not limited to forward contracts, futures, options and swaps.

Discretionary client assets under management - Assets over which we have sole or shared investment authority for our customers/clients. We do not include these assets on our Consolidated Balance Sheet.

Duration of equity - An estimate of the rate sensitivity of our economic value of equity. A negative duration of equity is associated with asset sensitivity (i.e., positioned for rising interest rates), while a positive value implies liability sensitivity (i.e., positioned for declining interest rates). For example, if the duration of equity is -1.5 years, the economic value of equity increases by $1.5 \%$ for each 100 basis point increase in interest rates.

Earning assets - Assets that generate income, which include: federal funds sold; resale agreements; trading securities; interest-earning deposits with banks; loans held for sale; loans; investment securities; and certain other assets.

Effective duration - A measurement, expressed in years, that, when multiplied by a change in interest rates, would approximate the percentage change in value of on- and off- balance sheet positions.

Efficiency - Noninterest expense divided by total revenue.
Fair value - The price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fee income - When referring to the components of Noninterest income, we use the term fee income to refer to the following categories within Noninterest income: Asset management; Consumer services; Corporate services; Residential mortgage; and Service charges on deposits.

FICO score - A credit bureau-based industry standard score created by Fair Isaac Co. which predicts the likelihood of borrower default. We use FICO scores both in underwriting and assessing credit risk in our consumer lending portfolio. Lower FICO scores indicate likely higher risk of default, while higher FICO scores indicate likely lower risk of default. FICO scores are updated on a periodic basis.

Funds transfer pricing - A management accounting methodology designed to recognize the net interest income effects of sources and uses of funds provided by the assets and liabilities of a business segment. Assets receive a funding charge and liabilities and capital receive a funding credit based on a transfer pricing methodology that incorporates product repricing characteristics, tenor and other factors.

Futures and forward contracts - Contracts in which the buyer agrees to purchase and the seller agrees to deliver a specific financial instrument at a predetermined price or yield. May be settled either in cash or by delivery of the underlying financial instrument.

GAAP - Accounting principles generally accepted in the United States of America.
Impaired loans - Loans are determined to be impaired when, based on current information and events, it is probable that all contractually required payments will not be collected. Impaired loans include commercial nonperforming loans and consumer and commercial TDRs, regardless of nonperforming status. Excluded from impaired loans are nonperforming leases, loans held for sale, loans accounted for under the fair value option, smaller balance homogenous type loans and purchased impaired loans.

Leverage ratio - Tier 1 capital divided by average quarterly adjusted total assets.
LIBOR - Acronym for London InterBank Offered Rate. LIBOR is the average interest rate charged when banks in the London wholesale money market (or interbank market) borrow unsecured funds from each other. LIBOR rates are used as a benchmark for interest rates on a global basis. PNC's product set includes loans priced using LIBOR as a benchmark.

Loan-to-value ratio (LTV) - A calculation of a loan's collateral coverage that is used both in underwriting and assessing credit risk in our lending portfolio. LTV is the sum total of loan obligations secured by collateral divided by the market value of that same collateral. Market values of the collateral are based on an independent valuation of the collateral. For example, a LTV of less than $90 \%$ is better secured and has less credit risk than a LTV of greater than or equal to $90 \%$.

Loss given default (LGD) - An estimate of loss, net of recovery based on collateral type, collateral value, loan exposure, and other factors. Each loan has its own LGD. The LGD risk rating measures the percentage of exposure of a specific credit obligation that we expect to lose if default occurs. LGD is net of recovery, through any means, including but not limited to the liquidation of collateral or deficiency judgments rendered from foreclosure or bankruptcy proceedings.

Net interest margin - Annualized taxable-equivalent net interest income divided by average earning assets.
Nonaccretable difference - Contractually required payments receivable on a purchased impaired loan in excess of the cash flows expected to be collected.

Nonaccrual loans - Loans for which we do not accrue interest income. Nonaccrual loans include nonperforming loans, in addition to loans accounted for under fair value option and loans accounted for as held for sale for which full collection of contractual principal and/or interest is not probable.

Nondiscretionary client assets under administration - Assets we hold for our customers/clients in a nondiscretionary, custodial capacity. We do not include these assets on our Consolidated Balance Sheet.

Nonperforming assets - Nonperforming assets include nonperforming loans and OREO and foreclosed assets, but exclude certain government insured or guaranteed loans for which we expect to collect substantially all principal and interest, loans held for sale, loans accounted for under the fair value option and purchased impaired loans. We do not accrue interest income on assets classified as nonperforming.

Nonperforming loans - Loans accounted for at amortized cost for which we do not accrue interest income. Nonperforming loans include loans to commercial, commercial real estate, equipment lease financing, home equity, residential real estate, credit card and other consumer customers as well as TDRs which have not returned to performing status. Nonperforming loans exclude certain government insured or guaranteed loans for which we expect to collect substantially all principal and interest, loans held for sale, loans accounted for under the fair value option and purchased impaired loans. Nonperforming loans exclude purchased impaired loans as we are currently accreting interest income over the expected life of the loans.

Notional amount - A number of currency units, shares, or other units specified in a derivative contract.

Operating leverage - The period to period dollar or percentage change in total revenue (GAAP basis) less the dollar or percentage change in noninterest expense. A positive variance indicates that revenue growth exceeded expense growth (i.e., positive operating leverage) while a negative variance implies expense growth exceeded revenue growth (i.e., negative operating leverage).

Options - Contracts that grant the purchaser, for a premium payment, the right, but not the obligation, to either purchase or sell the associated financial instrument at a set price during a specified period or at a specified date in the future.

Other real estate owned (OREO) and foreclosed assets - Assets taken in settlement of troubled loans primarily through deed-in-lieu of foreclosure or foreclosure. Foreclosed assets include real and personal property, equity interests in corporations, partnerships, and limited liability companies. Excludes certain assets that have a government-guarantee which are classified as other receivables.

Other-than-temporary impairment (OTTI) - When the fair value of a security is less than its amortized cost basis, an assessment is performed to determine whether the impairment is other-than-temporary. If we intend to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis less any current-period credit loss, an other-than-temporary impairment is considered to have occurred. In such cases, an other-than-temporary impairment is recognized in earnings equal to the entire difference between the investment's amortized cost basis and its fair value at the balance sheet date. Further, if we do not expect to recover the entire amortized cost of the security, an other-than-temporary impairment is considered to have occurred. However for debt securities, if we do not intend to sell the security and it is not more likely than not that we will be required to sell the security before its recovery, the other-than-temporary loss is separated into (a) the amount representing the credit loss, and (b) the amount related to all other factors. The other-than-temporary impairment related to credit losses is recognized in earnings while the amount related to all other factors is recognized in other comprehensive income, net of tax.

Parent company liquidity coverage - Liquid assets divided by funding obligations within a two year period.

Pretax earnings - Income before income taxes and noncontrolling interests.
Pretax, pre-provision earnings - Total revenue less noninterest expense.
Probability of default (PD) - An internal risk rating that indicates the likelihood that a credit obligor will enter into default status.
Purchase accounting accretion - Accretion of the discounts and premiums on acquired assets and liabilities. The purchase accounting accretion is recognized in net interest income over the weighted-average life of the financial instruments using the constant effective yield method. Accretion for a single purchased impaired loan not included within a pool of loans includes any cash recoveries on that loan received in excess of the recorded investment.

Purchased impaired loans - Acquired loans (or pools of loans) determined to be credit impaired under FASB ASC 310-30 (AICPA SOP 03-3). Loans (or pools of loans) are determined to be impaired if there is evidence of credit deterioration since origination and for which it is probable that all contractually required payments will not be collected.

Recorded investment (purchased impaired loans) - The initial investment of a purchased impaired loan plus interest accretion and less any cash payments and writedowns to date. The recorded investment excludes any valuation allowance which is included in our allowance for loan and lease losses.

Recovery - Cash proceeds received on a loan that we had previously charged off. We credit the amount received to the allowance for loan and lease losses.

Residential development loans - Project-specific loans to commercial customers for the construction or development of residential real estate including land, single family homes, condominiums and other residential properties.

Return on average assets - Annualized net income divided by average assets.
Return on average capital - Annualized net income divided by average capital.
Return on average common shareholders' equity - Annualized net income attributable to common shareholders divided by average common shareholders' equity.

Risk-weighted assets - Computed by the assignment of specific risk-weights (as defined by the Board of Governors of the Federal Reserve System) to assets and off-balance sheet instruments.

Securitization - The process of legally transforming financial assets into securities.
Servicing rights - An intangible asset or liability created by an obligation to service assets for others. Typical servicing rights include the right to receive a fee for collecting and forwarding payments on loans and related taxes and insurance premiums held in escrow.

Taxable-equivalent interest - The interest income earned on certain assets is completely or partially exempt from Federal income tax. As such, these tax-exempt instruments typically yield lower returns than taxable investments. To provide more meaningful comparisons of yields and margins for all interest-earning assets, we use interest income on a taxable-equivalent basis in calculating average yields and net interest margins by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on other taxable investments. This adjustment is not permitted under GAAP on the Consolidated Income Statement.

Total equity - Total shareholders' equity plus noncontrolling interests.
Transitional Basel III common equity - Common equity calculated under Basel III using phased in definitions and deductions applicable to PNC during the applicable presentation period.

Troubled debt restructuring (TDR) - A loan whose terms have been restructured in a manner that grants a concession to a borrower experiencing financial difficulties.

Watchlist - A list of criticized loans, credit exposure or other assets compiled for internal monitoring purposes. We define criticized exposure for this purpose as exposure with an internal risk rating of other assets especially mentioned, substandard, doubtful or loss.

Yield curve - A graph showing the relationship between the yields on financial instruments or market indices of the same credit quality with different maturities. For example, a "normal" or "positive" yield curve exists when long-term bonds have higher yields than short-term bonds. A "flat" yield curve exists when yields are the same for short-term and long-term bonds. A "steep" yield curve exists when yields on long-term bonds are significantly higher than on short-term bonds. An "inverted" or "negative" yield curve exists when short-term bonds have higher yields than long-term bonds.

[^0]:    (a) Calculated using average daily balances.

[^1]:    (a) Excludes loans held for sale and purchased impaired loans.

[^2]:    (a) See note (a) on page 14.

[^3]:    (a) See note (a) on page 14 .
    (b) As of period end
    (c) Excludes brokerage account client assets.
     and nondiscretionary client assets under administration. The amount of such assets was approximately $\$ 9$ billion, $\$ 7$ billion, $\$ 6$ billion, $\$ 6$ billion, and $\$ 5$ billion as of June 30 , 2016 , March 31, 2016, December 31, 2015, September 30, 2015, and June 30, 2015, respectively.
