Pacific Ethanol, Inc. Reports First Quarter 2011 Financial Results

Net Sales for the First Quarter of 2011 Grew 143% Over the Same Period of 2010

Total Gallons Sold for the First Quarter of 2011 Increased 44% Over the Same Period of 2010

Adjusted EBITDA for the First Quarter of 2011 Improved to \$1.5 Million From a Loss of \$6.4 Million in the Same Period of 2010

SACRAMENTO, Calif., May 11, 2011 (GLOBE NEWSWIRE) -- Pacific Ethanol, Inc. (Nasdaq:PEIX), the leading marketer and producer of low-carbon renewable fuels in the Western United States, reported its financial results for the quarter ended March 31, 2011.

Neil Koehler, the company's president and CEO, stated: "In the first quarter of 2011, we built on the strong foundation established in 2010 as we narrowed our loss from \$11.7 million in the first quarter of 2010 to near breakeven this quarter, despite a challenging margin environment. We increased total gallons sold for the seventh consecutive quarter, demonstrating a compound annual growth rate of 66 percent. In addition, our 60 million gallon Stockton facility contributed to our growth in total gallons sold and gross profit. We look forward to building on this momentum into the months ahead."

Financial Results for the Quarter Ended March 31, 2011

Net sales were \$173.1 million for the first quarter of 2011, compared to \$71.3 million for the first quarter of 2010. Total gallons sold were 84.6 million for the first quarter of 2011, an increase of 25.9 million gallons over the 58.7 million gallons sold in the first quarter of 2010. The increase in net sales was primarily driven by the continued strength in Kinergy's marketing business with a 22% increase in third party gallons sold and a 38% increase in average sales price per gallon. In addition, the first quarter 2011 results include the impact of the Stockton plant being in operation whereas it was idled during the first quarter of 2010.

Gross profit was \$2.6 million for the first quarter of 2011, compared to a gross loss of \$3.0 million in the first quarter of 2010. The increase in gross profit was attributable to an additional plant being in operation in the first quarter of 2011 versus the same period in 2010. Operating loss for the first quarter of 2011 improved to \$1.6 million from \$6.2 million for the same period in 2010.

During the first quarter of 2011, the company recorded a non-cash gain of \$0.9 million for fair value adjustments on convertible notes and warrants, representing the company's quarterly fair value adjustments. The company anticipates it will continue to revalue the convertible notes and warrants on a quarterly basis for the remainder of 2011.

Net loss available to common stockholders for the first quarter of 2011 was \$0.3 million, compared to a net loss of \$11.7 million for the first quarter of 2010. Adjusted EBITDA, which excludes the fair value adjustments on convertible notes and warrants of \$0.9 million, improved to \$1.5 million for the first quarter of 2011 from a loss of \$6.4 million in the first quarter of 2010.

Earnings Call

Management will host a conference call at 8:00 a.m. PT/11:00 a.m. ET on Thursday, May 12, 2011. Neil Koehler, Chief Executive Officer, and Bryon McGregor, Chief Financial Officer will deliver prepared remarks and conduct a slide presentation via webcast followed by a question and answer session. The access code will be 64676792#.

The webcast for the call can be accessed from Pacific Ethanol's website at www.pacificethanol.net. If you are unable to participate, the webcast will be archived for replay on Pacific Ethanol's website for one year. In addition, a telephonic replay will be available beginning at 2:00 p.m. ET on Thursday, May 12, 2011 through 11:59 p.m. ET on Wednesday, May 18, 2011. To access the replay, please dial (800) 642-1687. International callers should dial 00-1-(706) 645-9291. The pass code will be 64676792#.

Reconciliation of Adjusted EBITDA to Net Income (Loss)

Management believes financial measures not in accordance with generally accepted accounting principles ("GAAP") are useful measures of operations. The company defines Adjusted EBITDA as unaudited earnings before interest, taxes, depreciation and amortization and fair value adjustments. The table at the end of this release provides a reconciliation of Adjusted EBITDA to net income (loss) attributed to Pacific Ethanol, Inc. Management provides an Adjusted EBITDA measure so that investors will have the same financial information that management uses, which may assist investors in properly assessing the company's performance on a period-over-period basis. Adjusted EBITDA is not a measure of financial performance under GAAP, and should not be considered an alternative to net income (loss) or any other measure of performance under GAAP, or to cash flows from operating, investing or financing activities as an indicator of cash flows or as a measure of liquidity. Adjusted EBITDA has limitations as an analytical tool and you should not consider it in isolation or as a substitute for analysis of the company's results as reported under GAAP.

About Pacific Ethanol, Inc.

Pacific Ethanol, Inc. (Nasdaq:PEIX) is the leading marketer and producer of low-carbon renewable fuels in the Western United States. Pacific Ethanol also sells co-products, including wet distillers grain (WDG), a nutritional animal feed. Serving integrated oil companies and gasoline marketers who blend ethanol into gasoline, Pacific Ethanol provides transportation, storage and delivery of ethanol through third-party service providers in the Western United States, primarily in California, Nevada, Arizona, Oregon, Colorado, Idaho and Washington. Pacific Ethanol has a 20% ownership interest in New PE Holdco LLC, the owner of four ethanol production facilities. Pacific Ethanol operates and manages the four ethanol production facilities, which have a combined annual production capacity of

200 million gallons. The facilities in operation are located in Boardman, Oregon, Burley, Idaho and Stockton, California, and one idled facility is located in Madera, California. The facilities are near their respective fuel and feed customers, offering significant timing, transportation cost and logistical advantages. Pacific Ethanol's subsidiary, Kinergy Marketing LLC, markets ethanol from Pacific Ethanol's managed plants and from other third-party production facilities, and another subsidiary, Pacific Ag. Products, LLC, markets WDG. For more information please visit www.pacificethanol.net.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

With the exception of historical information, the matters discussed in this press release including, without limitation: the ability of Pacific Ethanol to continue as the leading marketer and producer of low-carbon renewable fuels in the Western United States; the accounting effect, if any, of Pacific Ethanol's future revaluation of its outstanding convertible notes and warrants; and expectations concerning future growth and profitability are forward-looking statements and considerations that involve a number of risks and uncertainties. The actual future results of Pacific Ethanol could differ from those statements. Pacific Ethanol refers you to the "Risk Factors" section contained in its most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 31, 2011.
