Pressure BioSciences, Inc. to Discuss Third Quarter 2020 Financial Results and Provide Business Update

Conference Call Scheduled for Tuesday, November 17th at 4:30pm ET

SOUTH EASTON, Mass., Nov. 16, 2020 /PRNewswire/ -- Pressure BioSciences, Inc. (OTCQB: PBIO) ("PBI" and the "Company") today announced that the Company will host a teleconference to discuss its Third Quarter 2020 financial results and to provide a business update. Anyone interested may listen to the teleconference either live (by telephone) or through a replay (by telephone or via a link on the Company's website) approximately one day after the teleconference.

The teleconference will include a Company presentation followed by a Question & Answer period.

Date: Tuesday, November 17, 2020.

Time: 4:30 PM Eastern Time (ET).

To attend this teleconference, live by telephone: Dial-in: (877) 407-8033 (North America); (201) 689-8033 (International). Verbal Passcode: PBI Third Quarter 2020 Financial Call & Business Update.

For those unable to participate in the live teleconference, a replay will be available beginning Wednesday, November 18, 2020. The replay will be accessible via telephone and the Company's website for 30 days.

Replay Number: (877) 481-4010 (North America); (919) 882-2331 (Int'l); Replay Passcode: 38901.

About Pressure BioSciences, Inc.

Pressure BioSciences, Inc. (OTCQB: PBIO) is a leader in the development and sale of innovative, broadly enabling, pressure-based solutions for the worldwide life sciences and other industries. Our products are based on the unique properties of both constant (i.e., static) and alternating (i.e., pressure cycling technology, or PCT) hydrostatic pressure. PCT is a patented enabling technology platform that uses alternating cycles of hydrostatic pressure between ambient and ultra-high levels to control biomolecular interactions safely and reproducibly (e.g., cell lysis, biomolecule extraction). Our primary focus is in the development of PCT-based products for biomarker and target discovery, drug design and development, biotherapeutics characterization and quality control, soil & plant biology, forensics, and counter-bioterror applications. Additionally, major new market opportunities have emerged in the use of our pressure-based technologies in the following areas: (1) the

use of our recently acquired, patented technology from BaroFold, Inc. (the "BaroFold" technology) to allow entry into the bio-pharma contract services sector, and (2) the use of our recently-patented, scalable, high-efficiency, pressure-based Ultra Shear Technology ("UST") platform to (i) create stable nanoemulsions of otherwise immiscible fluids (e.g., oils and water) and to (ii) prepare higher quality, homogenized, extended shelf-life or room temperature stable low-acid liquid foods that cannot be effectively preserved using existing non-thermal technologies.
