UiPath to Host #UiPathTogether Washington, D.C., Bringing RPA Benefits to Public Sector

April 24 event will feature speakers from Deloitte, NASA and U.S. federal agencies who are transforming the public sector with Robotic Process Automation

WASHINGTON--(BUSINESS WIRE)-- UiPath, the leading enterprise Robotic Process Automation (RPA) software company, is hosting its inaugural #UiPathTogether event on April 24 in Washington, D.C. for more than 450 attendees. The capacity-crowd event will bring together senior level U.S. government speakers and subject matter experts from organizations such as the Department of Homeland Security, NASA, Defense Information Systems Agency, U.S. Army, U.S. Postal Service and U.S. Department of the Treasury. The event will provide an in-depth exploration of how RPA is transforming the U.S. public sector with better efficiency, increased capacity and improved service to citizens.

According to a recent study from the Deloitte Center for Government Insights, automation and other cognitive technologies have the potential to save the federal government 1.1 billion working hours, or $37 billion annually, within the next five to seven years. To take advantage of this opportunity, more and more federal agencies are examining RPA as a tool for automating core administrative functions, reducing cycle times, improving compliance and enhancing customer experiences.

“RPA is a game-changing tool for the public sector,” said Jonathan Padgett, vice president of U.S. public sector at UiPath. “As the leading provider driving RPA adoption within U.S. federal agencies and state and local governments, UiPath is committed to helping new organizations learn from the lessons of others who have successfully implemented our technology. We want to create a dialogue that will inspire and benefit RPA users, and ultimately society as a whole.”

#UiPathTogether will take place at the Renaissance Hotel in downtown Washington, D.C. The conference will begin with a breakfast at 8 a.m. ET, and sessions will run from 9 a.m. – 4:15 p.m. ET. Sponsors include ABBYY, BRMi, Celonis, CGI Federal, ConFinance, CMA, Deloitte, Marcum, Novation Solutions and Oracle. The full agenda is available here.

About UiPath
Built for both business and IT, UiPath is the leading platform for enterprise Robotic Process Automation (RPA). More than 1,000 enterprise customers and government agencies use UiPath's Enterprise RPA platform to rapidly deploy software robots that perfectly emulate and execute repetitive processes, boosting business productivity, ensuring compliance and enhancing customer experience across back-office and front-office operations.

With a thriving RPA developer community of more than 140,000 worldwide, UiPath is on a mission to democratize RPA and support a digital business revolution. Based in New York City, UiPath's presence extends to 14 countries throughout North America, Europe and Asia. The company is backed by $183M in series A & B funding from Accel, CapitalG, Kleiner, Perkins, Caufield & Byers, Credo Ventures, Earlybird's Digital East Fund and Seedcamp. UiPath's Series B valuation exceeded $1 billion.
