UiPath Named a July 2019 Gartner Peer Insights Customers' Choice Vendor

NEW YORK--(BUSINESS WIRE)-- UiPath, the Robotic Process Automation (RPA) market leader, has been recognized with a July 2019 Gartner Peer Insights Customers' Choice for Robotic Process Automation Software. UiPath received this distinction among the 23 total RPA solutions reviewed by customers in 2019. In addition, UiPath was recently recognized by Gartner as a Leader in the 2019 "Magic Quadrant for Robotic Process Automation Software" research report, in which UiPath placed highest for ability to execute and furthest for completeness of vision.

According to Gartner, "The Gartner Peer Insights Customers' Choice is a recognition of vendors in this market by verified end-user professionals." To ensure fair evaluation, Gartner maintains rigorous criteria for recognizing vendors with a high customer satisfaction rate.

"We're honored to be recognized with this distinction for our RPA platform by our users and I'd like to thank our customers who took the time to share their positive experiences working with UiPath," said Ashim Gupta, Chief Customer Success Officer at UiPath. "UiPath is constantly innovating – focusing on ease-of-use, scalability and extensibility – to both accelerate adoption and deepen outcomes from RPA and AI across every aspect of an organization.

We're proud to lead the industry forward and are humbled by the recent recognition from Gartner spanning their recent Market Share Analysis: Robotic Process Automation, Worldwide, 2018[1] and Magic Quadrant for Robotic Process Automation Software.[2] We're also thrilled by our recognition by verified end-user professionals on Gartner Peer Insights."

UiPath has experienced explosive growth since its founding in 2005. Today, its RPA solution is used by over 4,000 organizations worldwide, including eight of the top 10 Fortune 500. Customers include Uber, Pandora, Equifax, HP, McDonald's, NASA and Virgin Media. At a valuation of $7 billion, UiPath is leading the "automation first" era with a vision to provide one robot for every person and is growing at an unprecedented rate for an enterprise software company.
