About LENZ Therapeutics

LENZ Therapeutics is a late clinical-stage biopharmaceutical company focused on the development and commercialization of the first and only aceclidine-based eye drop to improve vision in patients with presbyopia. LENZ's product candidate, LNZ100 is a preservative-free, single-use, once-daily eye drop containing aceclidine. LNZ100 achieved all primary and secondary endpoints in the registration-enabling Phase 3 CLARITY study as a potential therapy for the treatment of presbyopia, a condition impacting an estimated 1.8 billion people globally and 128 million people in the United States. LENZ has submitted a New Drug Application (NDA) to the U.S. Food and Drug Administration for the treatment of presbyopia. LENZ is committed to commercializing an ideal pharmaceutical presbyopia solution that enhances vision for "all eyes, all day." LENZ is headquartered in San Diego, California.
