MaxLinear Is #365 on Deloitte's 2013 Technology Fast 500™ List of Fastest Growing Companies in North America

- *Innovative technology and low-power tuners help company tap into fast growth broadband content markets like DOCSIS 3.0*

CARLSBAD, Calif.--(BUSINESS WIRE)-- MaxLinear Inc. (NYSE:MXL), [a leading provider of integrated radio frequency \(RF\) and mixed-signal integrated circuits](#) for broadband communications applications, today announced it ranked No. 365 on Deloitte's Technology Fast 500™, a ranking of the 500 fastest growing technology, media, telecommunications, life sciences and clean technology companies in North America. MaxLinear grew 212 percent during this period, according to Deloitte's ranking.

In the past year, MaxLinear has taken advantage of its market-leading technology to expand its business in high-growth broadband content markets like DOCSIS 3.0 cable systems.

The company's tuners bring great value to its OEM customers through innovations like Full-Spectrum Capture™ technology and multiple channel support. This allows customers to deliver high-bandwidth data services and next-generation television services like viewing from computers and tablets. The company has also set the stage for future growth through expansion into satellite markets where its technology is helping to bring multi-channel viewing to satellite TV subscribers.

"Our technology advantage has allowed us to grow very rapidly worldwide in the face of strong competition," said Kishore Seendripu, Ph.D., MaxLinear Chairman and CEO. "But we also have very smart people who work very hard and I want to thank them for their part in helping the company to grow and be a part of this prestigious list."

"The 2013 Deloitte Technology Fast 500 companies are exemplary cases of those spurring growth in a tough market through innovation," said Eric Openshaw, vice chairman, Deloitte LLP and U.S. technology, media and telecommunications leader. "This year's list is a who's who of companies behind the most exciting and innovative products and services in the technology space. We congratulate the Fast 500 companies and look forward to what they do next."

"The fastest growing companies in the US are drivers of constant innovation and operate with the agility to stay ahead of a quickly evolving marketplace, and software, biotech/pharma and Internet companies continue to be at the forefront," added James Atwell, national managing partner of the Emerging Growth Company practice, Deloitte Services LP. "The companies excelling in these sectors have a startup mentality that

allows them to be nimble and adapt quickly, which is why they consistently lead the list of fast-growing companies each year.”

About Deloitte’s 2013 Technology Fast 500™

Technology Fast 500, conducted by Deloitte LLP, provides a ranking of the fastest growing technology, media, telecommunications, life sciences and clean technology companies – both public and private - in North America. Technology Fast 500 award winners are selected based on percentage fiscal year revenue growth from 2008 to 2012.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company's operating revenues. Companies must have base-year operating revenues of at least \$50,000 USD or CD, and current-year operating revenues of at least \$5 million USD or CD. Additionally, companies must be in business for a minimum of five years, and be headquartered within North America.

Cautionary Note About Forward-Looking Statements

This press release contains “forward-looking” statements within the meaning of federal securities laws. Forward-looking statements include, among others, statements concerning or implying future financial performance or trends and growth opportunities affecting MaxLinear, in particular statements relating to MaxLinear’s products and technology. These forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause actual results to be materially different from any future results expressed or implied by these forward-looking statements. Forward-looking statements are based on management’s current, preliminary expectations and are subject to various risks and uncertainties, including (among others) intense competition in our industry; the ability of our customers, to cancel or reduce orders; uncertainties concerning how end user markets for our products will develop; our lack of long-term supply contracts and dependence on limited sources of supply; potential decreases in average selling prices for our products; and risks relating to intellectual property protection and the prevalence of intellectual property litigation in our industry. In addition to these risks and uncertainties, investors should review the risks and uncertainties contained in MaxLinear’s filings with the United States Securities and Exchange Commission, including risks and uncertainties identified in our Annual Report on Form 10-K for the year ended December 31, 2012 and our Quarterly Report on Form 10-Q for the quarter ended September 30, 2013. All forward-looking statements are qualified in their entirety by this cautionary statement. MaxLinear is providing this information as of the date of this release and does not undertake any obligation to update any forward-looking statements contained in this release as a result of new information, future events, or otherwise.
