Safe Harbor Statement

This presentation and oral statements made by management in connection herewith that are not historical facts are "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934. Forward-looking statements involve risks and uncertainties, and actual results may differ materially from those expressed or implied by such statements. They include statements regarding current expectations, estimates, forecasts, projections, our beliefs, and assumptions made by Helios Technologies, Inc. ("Helios" or the "Company"), its directors or its officers about the Company and the industry in which it operates, and assumptions made by management, and include among other items, (i) the Company's strategies regarding growth, including its intention to develop new products and make acquisitions; (ii) the timing of completion of the proposed acquisition of Balboa Water Group (the "Acquisition") and the expected benefits and synergies from the Acquisition; (iii) the Company's financing plans; (iv) trends affecting the Company's financial condition or results of operations; (v) the Company's ability to continue to control costs and to meet its liquidity and other financing needs; (vi) the declaration and payment of dividends; and (vii) the Company's ability to respond to changes in customer demand domestically and internationally, including as a result of standardization. In addition, we may make other written or oral statements, which constitute forward-looking statements, from time to time. Words such as "may," "expects," "projects," "anticipates," "intends," "plans," "believes," "seeks," "estimates," variations of such words, and similar expressions are intended to identify such forward-looking statements. Similarly, statements that describe our future plans, objectives or goals also are forward-looking statements. These statements are not quaranteeing future performance and are subject to a number of risks and uncertainties. Our actual results may differ materially from what is expressed or forecasted in such forwardlooking statements, and undue reliance should not be placed on such statements. All forward-looking statements are made as of the date hereof, and we undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. Factors that could cause the actual results to differ materially from what is expressed or forecasted in such forward-looking statements include, but are not limited to, (i) conditions in the capital markets, including the interest rate environment and the availability of capital; (ii) the risk that the Acquisition will not be consummated in a timely manner or at all, our failure to realize the benefits expected from the Acquisition, our failure to promptly and effectively integrate the Acquisition and the ability of Helios to retain and hire key personnel, and maintain relationships with suppliers; (iii) risks related to health epidemics, pandemics and similar outbreaks, including, without limitation, the current COVID-19 pandemic, which may have material adverse effects on our business, financial position, results of operations and cash flows; (iv) changes in the competitive marketplace that could affect the Company's revenue and/or costs, such as increased competition, lack of qualified engineering, marketing, management or other personnel, and increased labor and raw materials costs; and (v) new product introductions, product sales mix and the geographic mix of sales nationally and internationally. Further information relating to factors that could cause actual results to differ from those anticipated is included but not limited to information under the heading Item 1. "Business", Part I, Item 1A. "Risk Factors" in the Company's Form 10-K for the year ended December 28, 2019 and Part II, Item IA, "Risk Factors" in the Company's Form 10-Q for the quarter ended September 26, 2020 and other filings with the Securities and Exchange Commission.

Helios has presented forward-looking statements regarding non-GAAP cash EPS and Adjusted EBITDA margin. These non-GAAP financial measures are derived by excluding certain amounts, expenses or income from the corresponding financial measures determined in accordance with GAAP. The determination of the amounts that are excluded from these non-GAAP measures is a matter of management judgment and depends upon, among other factors, the nature of the underlying expense or income recognized in a given period. Helios is unable to present a quantitative reconciliation of forward-looking non-GAAP cash EPS and Adjusted EBITDA margin to their most directly comparable forward-looking GAAP financial measures because such information is not available, and management cannot reliably predict all the necessary components of such GAAP measures without unreasonable effort or expense. In addition, the Company believes that such reconciliations would imply a degree of precision that would be confusing or misleading to investors. The unavailable information could have a significant impact on Helios's full year 2020 financial results. These non-GAAP financial measures are preliminary estimates and are subject to risks and uncertainties, including, among others, changes in connection with quarter-end and year-end adjustments. Any variation between Helios's actual results and preliminary financial data set forth above may be material.

This presentation includes certain historical non-GAAP financial measures, which the Company believes are useful in evaluating our performance. You should not consider the presentation of this additional information in isolation or as a substitute for results prepared in accordance with GAAP. The Company has provided reconciliations of comparable GAAP to non-GAAP measures in tables found in the Supplemental Information portion of this presentation.

Q4 2020 Business Summary

EXECUTING TO PLAN diversification of end markets; **CREATING GROWTH** opportunities; delivering results

SPINNING THE M&A FLYWHEEL: acquired BALBOA WATER GROUP AC (alternating current) Electronic Controls Technology currently for Health/Wellness industry

Established HELIOS CENTER OF ENGINEERING EXCELLENCE: Expanded engineering talent with acquisition of BJN Technologies in January 2021

STRONG DEMAND IN ALL END MARKETS, in particular AGRICULTURE, MARINE and HEALTH/WELLNESS drove continued sequential top line growth

Demonstrated SIGNIFICANT CASH GENERATION CAPABILITIES:

\$31.5 million cash from operations in the quarter with Cash conversion of 204% for 2020

Helios Subsidiary Receives John Deere Supplier Innovation Award

- ➤ Helios's subsidiary, Faster S.r.l., has been selected as a recipient of the John Deere Supplier Innovation Award for 2020 for its multi-connection couplings with integrated valve system.
- Award selections are based on four factors: creativity, feasibility, collaboration, and bottom-line impact.
- "Our subsidiary, Faster S.r.l., supplies quick release couplings to John Deere operations throughout the world. In synergy with our Sun Hydraulics LLC business, our engineering teams have combined the advantages and features of MultiFaster® and Sun electro-hydraulic cartridge valves into an integrated manifold, reducing complexity and increasing reliability of the hydraulic circuit as a result." commented Josef Matosevic, the Company's President and Chief Executive Officer

Q4 2020 Sales by Region

Fourth Quarter Highlights

Sales Drivers

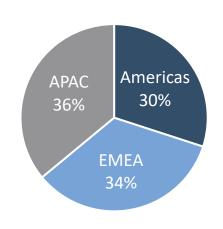

- Gaining new customers, leveraging customer relationships, deeper geographic reach, new products
- Broad end market recovery and strength in Agriculture drove sales \$4.8 million, or 5% higher sequentially
- Sales were in line with prior-year period
- Exceeded expectations

Gross Margin Drivers

20 basis point expansion due to favorable mix and cost containment efforts

Operating Margin

80 basis point decline due primarily to foreign currency translation

Q4 2020 Sales by Region

Sales Drivers

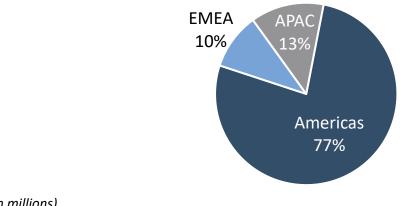

- \$24.2 million, or 99% sequential growth
- Balboa revenue was \$26 million
- Certain end markets including marine and health and wellness doing very well as a result of pandemic buying shifts

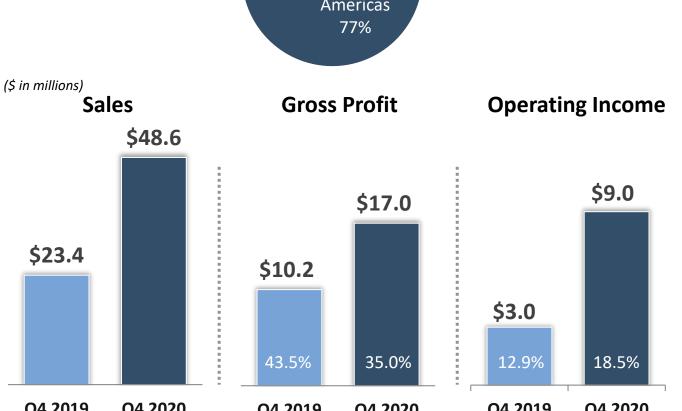

Gross Margin Drivers

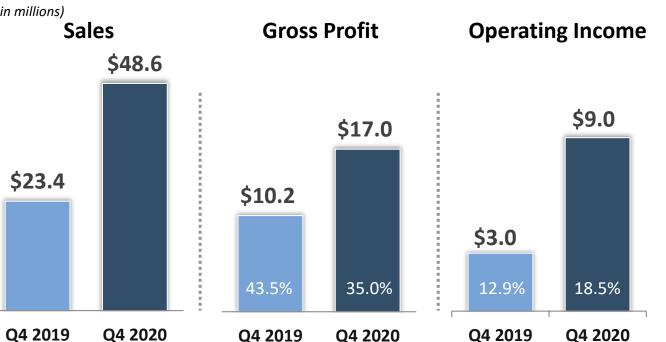

- Continued investment in product development for contracted product pipeline and Balboa's product gross margin profile
- Margin decline also from reduced fixed cost leverage in **Enovation's business**

Operating Margin Drivers

Leverage offset from lower sales volumes by cost containment efforts and favorable operating margin profile at Balboa

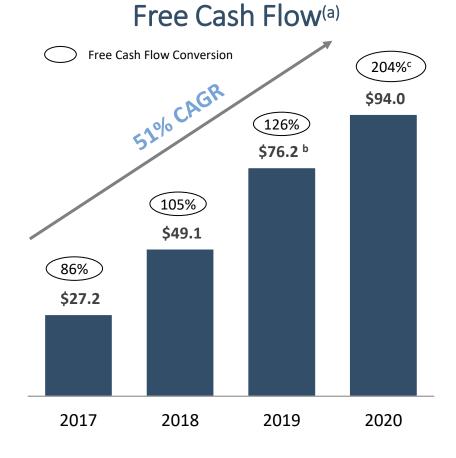

Cash Flow

| | Three Mor | nths Ended | YTD | YTD |
|---|-----------|------------|--------|----------|
| | 1/2/21 | 12/28/19 | 1/2/21 | 12/28/19 |

| Free cash flow (FCF) | \$24.2 | \$34.2 | \$94.0 | \$65.5 |

Note: Components may not add to totals due to rounding

Outstanding cash generation in Q4 2020

- Focus on working capital management drove free cash flow
- 2020 CapEx intentionally lower than historical rates at ~3% of sales; expect 2021 CapEx closer to growth investment level of ~5% of sales
- Sustainable changes in operational efficiency expected to continue to drive cash generation

SIGNIFICANT FREE CASH FLOW GENERATION PROVIDES FINANCIAL FLEXIBILITY

(a) Free cash flow is defined as cash provided by operating activities minus capital expenditures (b) 2019 Free cash flow adjusted for \$10.7m contingent liability that impacted operating cash flow instead of financing (c) free cash flow conversion is defined as free cash flow divided by net income; in 2020 adjusted for a goodwill impairment of \$31.9m in Q1 2020

Q4 Capital Structure

Note: Components may not add to totals due to rounding

Financial flexibility

- Generated \$32 million of cash in the quarter, and \$109 million for fiscal 2020
- Total debt increase of \$202 million and net debt by \$209 million in Q4 2020 as a result of the Balboa Acquisition
- Net debt/pro forma Adjusted EBITDA: 3.0x⁽¹⁾ better than expected
- Generating cash to reduce debt and keep the flywheel spinning
- Total liquidity of \$169 million at quarter end
- Consistent dividend payer over the last twenty-four years

STRONG CAPITAL STRUCTURE SUPPORTS CURRENT STRATEGY

(1) Pro Forma for the Balboa acquisition. See supplemental slide for net debt-to-Pro Forma Adjusted EBITDA reconciliation and other important information regarding Helios's use of net debt-to-Pro Forma Adjusted EBITDA.

- ➤ Sales volume adversely impacted by temporary factory closures and softer end market demand as a result of the COVID-19 pandemic
- Gross margin expansion of 50 bps and operating margin expansion of 70 bps
 - Consolidation related production efficiencies
 - Rapid cost alignment with changed environment
 - Some restructuring and other expenses last year

2020 Segment Results

- > Drivers of sales volume:
 - Impact of COVID-19
 - Incremental revenue from Balboa
 - Intentional shift in customer base
- Gross and operating margin reduction resulting from lower sales volume, partially offset by cost management initiatives

Non-GAAP Financial Measure:

Adjusted operating margin is adjusted operating income divided by sales. Adjusted operating income and adjusted operating margin are not measures determined in accordance with generally accepted accounting principles in the United States, commonly known as GAAP. Nevertheless, Helios believes that providing non-GAAP information such as adjusted operating income and adjusted operating margin are important for investors and other readers of Helios's financial statements, as they are used as analytical indicators by Helios's management to better understand operating performance. Because adjusted operating income and adjusted operating margin are non-GAAP measures and are thus susceptible to varying calculations, adjusted operating income and adjusted operating income margin, as presented, may not be directly comparable to other similarly titled measures used by other companies.

Non-GAAP Financial Measure:

Net debt is total debt minus cash and cash equivalents. Net debt-to-Adjusted EBITDA is net debt divided by Adjusted EBITDA. Net debt and net debt-to-Adjusted EBITDA are not measures determined in accordance with generally accepted accounting principles in the United States, commonly known as GAAP. Nevertheless, Helios believes that providing non-GAAP information such as net debt and net debt-to-Adjusted EBITDA are important for investors and other readers of Helios's financial statements, as they are used as analytical indicators by Helios's management to better understand operating performance. Because net debt and net debt-to-Adjusted EBITDA are non-GAAP measures and are thus susceptible to varying calculations, net debt and net debt-to-Adjusted EBITDA, as presented, may not be directly comparable to other similarly titled measures used by other companies.
