MSC Income Fund Announces Preliminary Estimate of Fourth Quarter 2024 Operating Results

Provides Update Regarding Potential Listing Transaction

HOUSTON – January 15, 2025 – MSC Income Fund, Inc. (“MSC Income” or the “Company”) is pleased to announce its preliminary operating results for the fourth quarter of 2024.

Preliminary Estimates of Fourth Quarter 2024 Results⁽¹⁾

MSC Income’s preliminary estimate of fourth quarter 2024 net investment income (“NII”) is \$0.35 to \$0.36 per share.

MSC Income’s preliminary estimate of net asset value (“NAV”) per share as of December 31, 2024 is \$15.50 to \$15.56, representing an increase of \$0.12 to \$0.18 per share, or 0.8% to 1.2% from the NAV per share of \$15.38 as of September 30, 2024. The estimated increase in NAV per share is primarily due to the net tax benefit recognized for the quarter and the net fair value increase on the investment portfolio resulting from the net unrealized appreciation, partially offset by net realized losses on portfolio investments.

MSC Income preliminarily estimates that investments on non-accrual status comprised 1.5% of the total investment portfolio at fair value and 5.6% at cost as of December 31, 2024.

Investment Portfolio Activity

The Company’s fourth quarter 2024 operating activities include the following investment activity in the private loan, lower middle market (“LMM”) and middle market investment strategies:

- \$29.5 million in total private loan portfolio investments, which after aggregate repayments of debt principal from several private loan portfolio investments and a decrease in cost basis due to a realized loss on a private loan portfolio investment resulted in a net decrease of \$5.5 million in the total cost basis of the private loan investment portfolio;
- \$30.5 million in total LMM portfolio investments, which after a decrease in cost basis due to a realized loss on a LMM portfolio investment and return of equity invested capital resulted in a net increase of \$16.4 million in the total cost basis of the LMM investment portfolio; and
- a net decrease of \$7.5 million in the total cost basis of the middle market investment

portfolio.

Potential Listing Transaction

The stockholders of MSC Income voted on six proposals at its Special Meeting of Stockholders held on December 11, 2024 (“Special Meeting”) related to MSC Income’s opportunity to list MSC Income’s shares of common stock (the “Shares”) on a national securities exchange accompanied by a follow-on public offering (together, a “Listing”). At the Special Meeting, each of proposals presented received the required number of votes necessary for approval by MSC Income’s stockholders.

Following the approvals obtained at the Special Meeting and in connection with a potential Listing, MSC Income completed a 2-for-1 reverse stock split (“Reverse Stock Split”) of its issued and outstanding Shares on December 16, 2024. As a result of the Reverse Stock Split, every two Shares were combined into one issued and outstanding Share. The NAV per share of each outstanding Share was also adjusted commensurate with the Reverse Stock Split. In addition, the previously announced quarterly dividend of \$0.18 per Share payable on January 31, 2025 to stockholders of record as of December 31, 2024 was adjusted to \$0.36 per Share commensurate with the Reverse Stock Split.

After receipt of the stockholders’ approval of the six proposals at the Special Meeting, MSC Income has commenced the final steps to prepare for the Listing. MSC Income anticipates that its Shares will commence trading on the NYSE with the ticker symbol “MSIF” later this year. There can be no assurance that MSC Income will be able to complete the Listing in any certain timeframe or at all.
