“2018 was a milestone year for Priority, despite being negatively impacted by the closure of certain high-margin e-commerce merchants in our Consumer Payments segment. Excluding that impact, we realized strong organic sales growth in both our Consumer Payments and Commercial Payments and Managed Services segments, while also executing several highly strategic, accretive acquisitions that expanded our merchant portfolio base while also enhancing gross profit. We remained focused throughout the year on expanding our distribution channels and integrated technology offerings for our partners, diversifying the overall business and further aligning Priority with high-growth, technology-driven industry verticals such as real estate, hospitality and health care,” said Tom Priore, Executive Chairman and CEO of Priority.

Subscription-Billing e-Commerce Merchants

The comparative revenue for the fourth quarter and full-year periods has been negatively affected by the wind-down of high-margin accounts with certain subscription-billing e-commerce merchants. The wind-down of merchants in this channel was due to industry-wide changes for enhanced card association compliance. This revenue, entirely within the Consumer Payments segment, was \$7.5 million and \$30.7 million in the fourth quarters of 2018 and 2017, respectively, and was \$65.2 million and \$95.6 million for the full-years ended December 31, 2018 and 2017, respectively. The corresponding income from operations associated with this revenue was \$3.0 million and \$10.3 million in the fourth quarters of 2018 and 2017, respectively, and \$21.3 million and \$31.9 million for the full years ended December 31, 2018 and 2017, respectively.

Non-recurring Expenses

Income from operations for the fourth quarter and full-year periods has also been negatively affected by the incurrence of non-recurring expenses largely associated with the July 2018 Business Combination and conversion to a public company, such as legal, accounting, advisory and consulting expenses plus certain legal settlements incurred in these periods. Non-recurring operating expenses, entirely within Corporate, were \$2.1 million in both fourth quarters, and were \$12.4 million and \$5.6 million for the full years ended December 31, 2018 and 2017, respectively.

Fourth Quarter and Full-Year 2018 Summary

Revenue:

Fourth Quarter 2018, Compared with Fourth Quarter 2017

Consolidated revenue in the fourth quarter of 2018 amounted to \$100.5 million, a decline of \$19.5 million compared with the 2017 fourth quarter. This decline was driven by the wind-down of the subscription-billing merchants which generated revenue of \$7.5 million in the fourth quarter of 2018 and \$30.7 million in the fourth quarter of 2017. Adjusted consolidated revenue grew 4.2% in the 2018 quarter compared with the 2017 quarter.

Total merchant bankcard volume processed in the fourth quarter 2018 of \$9.4 billion grew by 6.0%, as compared with \$8.9 billion in the fourth quarter 2017. Merchant bankcard transaction volume of 114.3 million in the fourth quarter 2018 grew by 2.0%, as compared with the 2017 quarter.

Consumer Payments revenue in the fourth quarter of 2018 amounted to \$92.5 million, a decline of \$20.7 million compared with the 2017 fourth quarter. Revenue for the subscription-billing merchants declined \$23.2 million during the quarter compared to the prior year. Adjusted consolidated revenue in this segment grew 3.1%. Commercial Payments and Managed Services revenue in the fourth quarter of 2018 amounted to \$8.0 million, a 17.9% increase over \$6.8 million in the 2017 fourth quarter.

Full-Year 2018, Compared with Full-Year 2017

Consolidated revenue for full year 2018 of \$424.4 million approximated full year 2017 revenue of \$425.6 million. This slight decline was driven by the wind-down of the subscription-billing merchants which generated revenue of \$65.2 million in the full-year 2018 and \$95.6 million in the full-year 2017, largely offset by overall increases in bankcard processing dollar value and merchant bankcard transaction volume. Adjusted consolidated revenue of \$359.2 million for full-year 2018, compares with \$330.0 million in the 2017, an 8.9% increase.

Total merchant bankcard volume processed in full-year 2018 of \$38.2 billion grew by 10.1%, as compared with \$34.7 billion in the full-year 2017. Merchant bankcard transaction volume of 465.8 million in the full-year 2018 grew by 6.1%, as compared with full-year 2017.

Consumer Payments revenue for full year 2018 amounted to \$395.0 million, a decline of \$5.3 million compared with full year 2017. Revenue from the subscription-billing merchants declined \$30.4 million. Adjusted revenue in this segment grew 8.2%. Commercial Payments and Managed Services revenue for full year 2018 amounted to \$29.4 million, a 16.3% growth over \$25.3 million for full year 2017.

Income from Operations:

Fourth Quarter 2018, Compared with Fourth Quarter 2017

Consolidated income from operations was \$5.3 million in the fourth quarter 2018, compared with \$10.9 million in the 2017 fourth quarter. This decline was driven by the wind-down of the subscription-billing merchants which generated income of \$3.0 million in the fourth quarter of 2018 and \$10.3 million in the fourth quarter of 2017. Adjusted consolidated income from operations grew 4.2% in the 2018 quarter compared with the 2017 quarter.

Consumer Payments income from operations in the fourth quarter of 2018 amounted to \$13.1 million, a decline of \$4.5 million compared with the 2017 fourth quarter. Income from operations from the subscription-billing merchants declined \$7.3 million. Adjusted income from operations in this segment grew 38.5% in the 2018 quarter compared with the 2017 quarter. Commercial Payments and Managed Services loss from operations in the fourth quarter of 2018 amounted to \$1.5 million, compared with an operating loss of \$0.2 million in the fourth quarter of 2017. Corporate expense in the fourth quarter of 2018 amounted to \$6.2 million, compared with \$6.4 million in the fourth quarter of 2017. Non-recurring expenses amounted to \$2.1 million in both fourth quarters.

Full-Year 2018, Compared with Full-Year 2017

Income from operations was \$19.9 million for full year 2018, compared with \$35.2 million for full year 2017. Subscription-billing operating income was \$21.3 million in 2018 and \$31.9 million in 2017. Non-recurring expenses were \$12.4 million in 2018 and \$5.6 million in 2017. Adjusted income from operations was \$11.0 million in full-year 2018, compared with \$8.9 million in full year 2017, a growth of 22.8%.

Consumer Payments income from operations for full-year 2018 amounted to \$50.5 million, a decline of \$4.9 million compared with full-year 2017. Income from operations from the subscription-billing merchants declined \$10.6 million. Adjusted income from operations in this segment grew 23.8%. Commercial Payments and Managed Services loss from operations for full-year 2018 amounted to \$2.9 million, compared with full-year income from operations of \$1.0 million in 2017. Corporate expense for full-year 2018 amounted to \$27.7 million, compared with \$21.2 million for full year 2017. Non-recurring expenses amounted to \$12.4 million in 2018, compared with \$5.6 million. Excluding the non-recurring expenses, Corporate expense amounted to \$15.3 million in 2018, compared with \$15.6 million in 2017.

Interest Expense:

Interest expense of \$8.0 million in the fourth quarter of 2018 increased by \$1.6 million from \$6.4 million in the 2017 fourth quarter. Full-year 2018 interest expense of \$29.9 million increased by \$4.9 million compared with \$25.1 million in 2017. The increases in interest expense are due to higher outstanding borrowings.

Other Expense, Net:

Other expense, net of \$1.7 million in the fourth quarter of 2018, compares with \$2.6 million in the fourth quarter of 2017. The 2018 quarter includes \$1.3 million of debt modification costs, and the 2017 quarter includes \$2.7 million of expense related to the fair value change of the Goldman Sachs warrant.

Other expense, net of \$6.8 million in full year 2018, compares with \$5.6 million in full year 2017. The 2018 amount includes \$3.5 million expense related to the fair value change of the Goldman Sachs warrant, \$2.6 million debt modification expense, and \$0.9 million loss on equity method investment, and \$0.6 million of interest income. For full-year 2017, other expense, net was comprised of \$4.4 million expense related to the fair value change of the Goldman Sachs warrant, \$1.7 million debt modification expense and \$0.6 million of interest income.

Acquisition / Partnership Updates

Priority's acquisition strategy is focused on identifying immediately accretive purchases of residual sales channels designed to improve earnings and lock in long-term revenue and sales commitments with independent resellers. In addition to continued purchases of merchant portfolios in the fourth quarter, the Company consummated the acquisition of certain merchant portfolio assets from Direct Connect Merchant Services LLC and Blue Parasol Group LLC, a portfolio company of The Beekman Group. As part of the transaction, Priority added a diverse and low-risk merchant portfolio processing \$1.7 billion in annual volume.

In addition, the Company has recently negotiated an operating partnership in the real estate payments vertical with an industry leader in the space. The new partner cannot be named publicly until it receives final Board approval, which the Company believes is imminent. Priority will be the majority owner with a preferred equity position and handle day-to-day operations of the enterprise, while benefitting from technology and property management contracts from its new partner's existing business. Together, the Company believes that the new entity will provide a single platform that meets the needs of all landlord constituents - from integrated enterprise property managers, middle market partners and small/local landlords for rent, dues and storage

Liquidity

Working capital, current assets less current liabilities, was \$21.1 million at year end 2018 and \$39.5 million at year end 2017. As of December 31, 2018, unrestricted cash amounted to \$15.6 million compared with \$28.0 million at December 31, 2017. These unrestricted balances do not include cash of \$18.2 million at year end 2018 and \$16.2 million at year end 2017 related to customer settlement funds and reserves. At year-end 2018, the Company had availability of \$25.0 million under a revolving credit arrangement.

Debt

On January 11, 2018 the Second Amendment to the Senior Credit Facility increased borrowings by \$67.5 million. On December 24, 2018 the Third Amendment increased borrowings by an additional \$60.0 million. This Third Amendment also allows for a delayed draw of an additional \$70.0 million, which will be used to fund acquisitions and partnerships, including the previously mentioned partnership that is expected to close within the next week.

As of December 31, 2018, outstanding long-term debt amounted to \$412.7 million compared to \$283.1 million at December 31, 2017. The debt balance consisted of outstanding term debt of \$322.7 million under the Senior Credit Facility and \$90.0 million in term debt under the subordinated Goldman Sachs Credit Agreement (including accrued payment-in-kind ("PIK") interest through December 31, 2018). The outstanding principal amounts under the Senior Credit Facility and the subordinated Goldman Sachs Credit Agreement mature in January 2023 and July 2023, respectively. The \$25.0 million revolving credit facility expires in January 2022.

2019 Outlook

Priore concluded, “As we look to 2019, we expect to deliver modest revenue growth over 2018, despite a forecasted \$50 million gross revenue decline from the subscription e-commerce business year over year. In addition, we are targeting Earn-out Adjusted EBITDA (a non-GAAP measure) of \$75 million for the full year 2019. Our underlying growth continues to be driven by strong organic volumes and improved gross profit trends, along with the positive impact of several strategic, accretive acquisitions. As the largest shareholders of the Company, we are highly aligned on our long-term goals and well positioned to deliver sustainable growth and value for our shareholders.”

Non-GAAP Financial Measures

We regularly review the following key non-GAAP measures to evaluate our business and trends, measure our performance, prepare financial projections, allocate resources, and make strategic decisions. We believe these non-GAAP measures help illustrate the underlying financial and business trends relating to our results of operations and comparability between current and prior periods. We also use these non-GAAP measures to establish and monitor operational goals. However, these non-GAAP measures are not superior to or a substitute for prominent measurements calculated in accordance GAAP. Rather, the non-GAAP measures are meant to be a complement to understanding measures prepared in accordance with GAAP.

Adjusted Revenue

Revenue for the year ended December 31, 2018 has been negatively affected by the closure of high-margin accounts with certain subscription-billing e-commerce merchants. The closure of merchants in this channel was due to industry-wide changes for enhanced card association compliance. This revenue, which is entirely within our Consumer Payments reportable segment, was \$65.2 million and \$95.6 million for the years ended December 31, 2018 and 2017 respectively. We refer to adjusted revenue, which excludes these revenue amounts from the periods presented. We review this non-GAAP measure to evaluate our underlying revenue and trends.

Adjusted Income from Operations

Income from operations for the year ended December 31, 2018 has also been negatively affected by the closure of the high-margin accounts with certain subscription-billing e-commerce merchants, as well as the incurrence of non-recurring expenses largely associated with our July 2018 Business Combination and conversion to a public company, such as legal, accounting, advisory and consulting expenses plus certain legal

settlements. Our income from operations associated with the subscription-billing e-commerce merchants, which is entirely within our Consumer Payments reportable segment, was \$21.3 million and \$31.9 million for the years ended December 31, 2018 and 2017 respectively. The non-recurring operating expenses, which were entirely within Corporate, were \$12.4 million and \$5.6 million for the years ended December 31, 2018 and 2017 respectively. We refer to adjusted operating income amounts non-GAAP measures, which exclude this operating income and non-recurring operating expenses from the periods presented. We review these non-GAAP measures to evaluate our underlying profitability performance and trends.

EBITDA, Adjusted EBITDA and Earnout Adjusted EBITDA

EBITDA is earnings before interest, income tax, depreciation and amortization expenses ("EBITDA"). Adjusted EBITDA begins with EBITDA but further excludes certain non-cash expenses such as equity-based compensation and fair value adjustments. Adjusted EBITDA also excludes non-recurring expenses such as Business Combination costs, litigation settlement costs, certain legal services costs, professional fees, consulting fees, employee severances and settlements, and certain other adjustments. Our financial covenants under our debt agreements and the Earnout Incentive Plan pursuant to the Business Combination are based on the non-GAAP measure referred to as Earnout Adjusted EBITDA. The calculation of Earnout Adjusted EBITDA begins with Adjusted EBITDA (as disclosed above) and further includes the pro-forma effects related to acquired merchant portfolios and residual streams and run rate adjustments for certain contracted savings on an annualized basis. We review these non-GAAP EBITDA measures to evaluate our business and trends, measure our performance, prepare financial projections, allocate resources, and make strategic decisions.

The reconciliations of Adjusted Revenue, Adjusted Income from Operations, EBITDA, Adjusted EBITDA and Earnout Adjusted EBITDA to the most directly comparable financial measure calculated and presented in accordance with GAAP, are shown in the attached schedules to this press release.

Priority does not provide a reconciliation of forward-looking non-GAAP financial measures to their comparable GAAP financial measures because it could not do so without unreasonable effort due to the unavailability of the information needed to calculate reconciling items and due to the variability, complexity and limited visibility of the adjusting items that would be excluded from the non-GAAP financial measures in future periods. When planning, forecasting and analyzing future periods, the Company does so primarily on a non-GAAP basis without preparing a GAAP analysis as that would require estimates for various cash and non-cash reconciling items that would be difficult to predict with reasonable accuracy. For example, equity compensation expense would be difficult to estimate because it depends on the Company's future hiring and retention needs, as well as the future fair market value of the Company's common stock, all of which are difficult to predict and subject to constant change. As a result, the Company does not believe that a GAAP reconciliation would provide meaningful supplemental information about the Company's outlook.
