Safe Harbor Statement

This presentation may include statements that are not historical facts and are considered forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995, which are usually identified by the use of words such as "anticipate," "believe," "estimate," "expect," "intend," "may," "might," "plan," "project," "will," "would," "should," "could," "can," "predict," "potential," "target," "explore," "continue," or the negative of these terms, and similar expressions intended to identify forward-looking statements. However, not all forward-looking statements contain these identifying words.

We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act and Section 21E of the Securities Exchange Act and are making this statement for purposes of complying with those safe harbor provisions.

We have based these forward-looking statements largely on our current expectations and projections about future events and trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements include, but are not limited to, statements regarding our financial guidance for the third quarter and full year fiscal 2024, our market size and growth strategy, our estimated and projected costs, margins, revenue, expenditures and growth rates, our future results of operations or financial condition, our plans and objectives for future operations, growth, initiatives, or strategies. By their nature, these statements are subject to numerous uncertainties and risks, including factors beyond our control, that could cause actual results, performance or achievement to differ materially and adversely from those anticipated or implied in the statements, including: our rapid growth may not be indicative of our future growth; our revenue growth rate has fluctuated in prior periods; our ability to achieve or maintain profitability; we derive the substantial majority of our revenue from subscriptions to our Unified-CXM platform; our ability to manage our growth and organizational change; the market for Unified-CXM solutions is new and rapidly evolving; our ability to attract new customers in a manner that is cost-effective and assures customer success; our ability to attract and retain customers to use our products; our ability to drive customer subscription renewals and expand our sales to existing customers; our ability to effectively develop platform enhancements, introduce new products or keep pace with technological developments; the market in which we participate is new and rapidly evolving and our ability to compete effectively; our business and growth depend in part on the success of our strategic relationships with third parties; our ability to develop and maintain successful relationships with partners who provide access to data that enhances our Unified-CXM platform’s artificial intelligence capabilities; the majority of our customer base consists of large enterprises, and we currently generate a significant portion of our revenue from a relatively small number of enterprises; our investments in research and development; our ability to expand our sales and marketing capabilities; our sales cycle with enterprise and international clients can be long and unpredictable; certain of our results of operations and financial metrics may be difficult to predict; our ability to maintain data privacy and data security; we rely on third-party data centers and cloud computing providers; the sufficiency of our cash and cash equivalents to meet our liquidity needs; our ability to comply with modified or new laws and regulations applying to our business; our ability to successfully enter into new markets and manage our international expansion; the attraction and retention of qualified employees and key personnel; our ability to effectively manage our growth and future expenses and maintain our corporate culture; our ability to maintain, protect, and enhance our intellectual property rights; unstable market and economic conditions, including as a result of increases in inflation rates, higher interest rates; recent bank closings or insolvency or public default; and related political actions, such as war and terrorism or the perception that such hostilities may be imminent; and our ability to successfully defend litigation brought against us. Additional risks and uncertainties that could cause actual outcomes and results to differ materially from those contemplated by the forward-looking statements are or will be discussed in our Annual Report on Form 10-Q for the quarter ended April 30, 2023, filed with the SEC on June 5, 2023, under the caption “Risk Factors,” and in other filings that we make from time to time with the SEC. Any forward-looking statements contained in this presentation are based on assumptions that we believe to be reasonable as of this date. Except as required by law, we assume no obligation to update these forward-looking statements.

This presentation and the accompanying oral presentation also contain estimates and other statistical data made by independent parties and by us relating to market size and growth and other data about our industry. This data involves a number of assumptions and limitations, and you are cautioned not to give undue weight to such estimates. In addition, projections, assumptions, and estimates of our future performance and the future performance of the markets in which we compete are necessarily subject to a high degree of uncertainty and risk.

We use certain non-GAAP financial measures in this presentation, including non-GAAP gross profit and non-GAAP gross margin, non-GAAP operating income (loss) and non-GAAP operating margin, non-GAAP operating expense, non-GAAP net income (loss), non-GAAP net income (loss) per share and free cash flow. We define these non-GAAP financial measures as the respective GAAP measures, excluding, as applicable, stock-based compensation expense-related charges and amortization of acquired intangible assets. Non-GAAP financial measures are financial measures that are derived from the consolidated financial statements, but that are not presented in accordance with GAAP. We believe that these non-GAAP financial measures provide investors with useful supplemental information in evaluating our performance. Investors should consider these non-GAAP financial measures in addition to, and not as a substitute for, our financial performance measures prepared in accordance with GAAP. Further, our non-GAAP information may be different from the non-GAAP information provided by other companies. Please refer to the Appendix and to the tables in our earnings release for a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measures. We encourage investors to consider our GAAP results alongside our supplemental non-GAAP measures, and to review the reconciliation between GAAP results and non-GAAP measures that is included at the end of this presentation.

**Note:** All financial and customer metrics above are as of or for the quarter ended July 31, 2023.

1) Remaining performance obligations ("RPO") represent contracted revenues that had not yet been recognized and include deferred revenues and amounts that will be invoiced and recognized in future periods.

2) Subscription margin calculated as subscription revenue less non-GAAP subscription cost of revenue divided by subscription revenue for the quarter ended July 31, 2023.

3) Total addressable market ("TAM") calculated by multiplying our Average Selling Price ("ASP") by the number of companies with $100M or more in revenue per independent data from S&P Global Market Intelligence.

4) We calculate our net dollar expansion rate by dividing (1) subscription revenue in the trailing 12-month period from those customers who were on our platform during the prior 12-month period by (2) subscription revenue from the same customers in the prior 12-month period. This calculation is net of upsells, contraction, cancellation, or expansion during the period but excludes subscription revenue from new customers.
Key Customer-Facing Functions: 4 Unified Product Suites

**Sprinklr Service**
- CCaaS Offering
- End-to-end digital
- Comprehensive
  - AI-first

**Sprinklr Marketing**
- Campaigns & Content Workflows
- Advertising
- Customer Journeys & Automation
  - AI-powered

**Sprinklr Insights**
- Experience data Insights
- Brand, Product & Crisis Insights
  - Real-time
  - AI-powered

**Sprinklr Social**
- SMMS Leader
- Built for enterprise scale
- Most complete
  - AI-powered
Defining Architecture: Unified-CXM

- Sprinklr Service
- Sprinklr Marketing
- Sprinklr Insights
- Sprinklr Social

**Single User Interface**

**Unified Functions**

- API Integrates Seamlessly with Existing CX Stacks
- CRM Systems
- eCommerce Systems
- Survey CFMs
- Website / Email Systems
- Real-Time, No-Code Reconfiguration

**Unified AI**

**Unified Data Model**

- Ingest 30+ Channels
- New Channel can be onboarded in less than 2 weeks
Conceived as a Platform. Vision for Unified-CXM.

- **Un-siloed teams. Happier customers.™**
