Amtech Announces Fiscal 2011 Year-to-Date Solar Orders Total \$182 Million

Surpasses Total Solar Orders of \$162 Million for all of Fiscal 2010

TEMPE, Ariz.--(BUSINESS WIRE)-- Amtech Systems, Inc. (NASDAQ: ASYS), a global supplier of production and automation systems and related supplies for the manufacture of solar cells, semiconductors, and silicon wafers, today announced that its fiscal 2011 year-to-date solar orders total \$182 million, surpassing the \$162 million Amtech booked in all of fiscal 2010. The \$182 million in solar orders includes \$54 million in solar orders received to date in the quarter ending March 31, 2011. Amtech's fiscal 2011 began October 1, 2010.

J.S. Whang, Chief Executive Officer of Amtech, commented, "The \$182 million in solar orders we have booked in the first five months of this fiscal year sets a new record for Amtech. We believe the intense effort by our customers and the solar industry to increase cell efficiency will continue to drive demand for our superior diffusion technology. We see healthy quotation activity and remain focused on continued successful execution of our solar growth strategy."

About Amtech Systems, Inc.

Amtech Systems, Inc. manufactures capital equipment, including silicon wafer handling automation, thermal processing equipment and related consumables used in fabricating solar cells and semiconductor devices. Semiconductors, or semiconductor chips, are fabricated on silicon wafer substrates, sliced from ingots, and are part of the circuitry, or electronic components, of many products including solar cells, computers, telecommunications devices, automotive products, consumer goods, and industrial automation and control systems. The Company's wafer handling, thermal processing and consumable products currently address the diffusion, oxidation, deposition, PECVD, and PSG removal steps used in the fabrication of solar cells, semiconductors, MEMS and the polishing of newly sliced silicon wafers.
