Amtech Reports First Quarter Fiscal 2021 Results

TEMPE, Ariz.--(BUSINESS WIRE)-- Amtech Systems, Inc. (NASDAQ: ASYS), a manufacturer of capital equipment, including thermal processing and wafer polishing, and related consumables used in fabricating semiconductor devices, such as silicon carbide (SiC) and silicon power devices, analog and discrete devices, electronic assemblies and light-emitting diodes (LEDs), today reported results for its first quarter ended December 31, 2020.

First Quarter Fiscal 2021 Financial and Operational Highlights:

- Net revenue of \$18.0 million
- Operating income of \$1.1 million
- Income from continuing operations, net of tax, of \$0.7 million
- Income per diluted share of \$0.05
- Customer orders of \$17.9 million
- Unrestricted cash of \$45.6 million

Mr. Michael Whang, Chief Executive Officer of Amtech, commented, "Amtech delivered strong results in the first quarter, with sequential growth driven by increasing demand for our products within the semiconductor segment we serve. We are encouraged to see this continue into the second quarter with a broadening of quoting activity across multiple end markets. As global economies return to growth and with the emergence of chip shortages, the long-term demand drivers for our business remain as strong as ever, with automotive, renewable energy, mobile devices and wireless communications applications driving increased demand for power semiconductors, including silicon carbide, in the years ahead."

GAAP Financial Results

(in millions, except per share amounts)

	Q1 FY 2021	Q4 FY 2020	Q1 FY 2020
Net revenues	\$ 18.0	\$ 15.1	\$ 20.7
Gross profit	\$ 7.5	\$ 5.0	\$ 8.2
Gross margin	41.8%	32.9%	39.5%
Operating income (loss)	\$ 1.1	\$ (1.2)	\$ 1.6
Operating margin	5.9%	-7.8%	7.9%
Income (loss) from continuing operations, net of tax	\$ 0.7	\$ (2.0)	\$ (1.3)
Diluted income (loss) per share from continuing operations	\$ 0.05	\$ (0.14)	\$ (0.09)

Net revenues increased 19% sequentially and decreased 13% from the first quarter of fiscal

2020, with the sequential increase primarily attributed to the shipment of our 300mm clustered HTR diffusion furnace to a top-tier global power semiconductor customer, as previously announced.

Gross margin increased in the first quarter of fiscal 2021 both sequentially and compared to the same prior year period due to favorable product mix.

Selling, General & Administrative ("SG&A") expenses decreased \$0.1 million sequentially and \$0.7 million compared to the same prior year period. The decrease compared to the prior year period was primarily due to legal costs incurred in fiscal Q1 2020 relating to our solar divestiture.

Operating income was \$1.1 million, compared to operating loss of \$1.2 million in the fourth quarter of fiscal 2020 and operating income of \$1.6 million in the same prior year period.

Income tax provision was \$0.1 million for the three months ended December 31, 2020 and includes a benefit of approximately \$0.3 million related to the reversal of previously recorded uncertain tax positions.

Income from continuing operations, net of tax, for the first quarter of fiscal 2021 was \$0.7 million, or 5 cents per share. This compares to loss from continuing operations of \$1.3 million, or 9 cents per share, for the first quarter of fiscal 2020 and loss of \$2.0 million, or 14 cent per share, in the preceding quarter.

Outlook

The Company's outlook reflects the anticipated ongoing impacts from the COVID-19 pandemic as understood today, as well as impacts from the shortage of shipping containers and the related delays for goods shipped from China. Given how fluid the situation is both for Amtech as well as that of its customers and supply chain, management would like to remind investors that actual results may differ materially in the weeks and months ahead. Additionally, the semiconductor equipment industries can be cyclical and inherently impacted by changes in market demand. Operating results can be significantly impacted, positively or negatively, by the timing of orders, system shipments, and the financial results of semiconductor manufacturers.

For the second fiscal quarter ending March 31, 2021, revenues are expected to be in the range of \$18.0 to \$20.0 million. Gross margin for the quarter ending March 31, 2021 is expected to be approximately 40%, with operating margin positive.

A portion of Amtech's results are denominated in Renminbis, a Chinese currency. The outlook provided in this press release is based on an assumed exchange rate between the United States Dollar and the Renminbi. Changes in the value of the Renminbi in relation to the United States Dollar could cause actual results to differ from expectations.

Conference Call

Amtech Systems will host a conference call today at 5:00 p.m. ET to discuss our fiscal first quarter financial results. The call will be available to interested parties by dialing 800-437-2398. For international callers, please dial +1 323-289-6576. The Conference ID number is 7458358. The call will be webcast and available in the Investor Relations section of

Amtech's website at: <http://www.amtechsystems.com>.

A replay of the webcast will be available in the Investor Relations section of the company's web site at <http://www.amtechsystems.com/conference.htm> shortly after the conclusion of the call and will remain available for approximately 30 calendar days.

About Amtech Systems, Inc.

Amtech Systems, Inc. is a leading, global manufacturer of capital equipment, including thermal processing and wafer polishing, and related consumables used in fabricating semiconductor devices, such as silicon carbide (SiC) and silicon power devices, analog and discrete devices, electronic assemblies and light-emitting diodes (LEDs). We sell these products to semiconductor device and module manufacturers worldwide, particularly in Asia, North America and Europe. Our strategic focus is on semiconductor growth opportunities in power electronics, sensors and analog devices leveraging our strength in our core competencies in thermal and substrate processing. We are a market leader in the high-end power chip market (SiC substrates, 300mm horizontal thermal reactor, and electronic assemblies used in power, RF, and other advanced applications), developing and supplying essential equipment and consumables used in the semiconductor industry. Amtech's products are recognized under the leading brand names BTU International, Bruce Technologies[™], and PR Hoffman[™].

Cautionary Note Regarding Forward-Looking Statements

Certain information contained in this press release is forward-looking in nature. All statements in this press release, or made by management of Amtech Systems, Inc. and its subsidiaries ("Amtech"), other than statements of historical fact, are hereby identified as "forward-looking statements" (as such term is defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995). The forward-looking statements in this press release relate only to events or information as of the date on which the statements are made in this press release. Examples of forward-looking statements include statements regarding Amtech's future financial results, operating results, business strategies, projected costs, products under development, competitive positions, plans and objectives of Amtech and its management for future operations, efforts to improve operational efficiencies and effectiveness and profitably grow our revenue, and enhancements to our technologies and expansion of our product portfolio. In some cases, forward-looking statements can be identified by terminology such as "may," "plan," "anticipate," "seek," "will," "expect," "intend," "estimate," "believe," "continue," "predict," "potential," "project," "should," "would," "could", "likely," "future," "target," "forecast," "goal," "observe," and "strategy" or the negative of these terms or other comparable terminology used in this press release or by our management, which are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. The Form 10-K that Amtech filed with the Securities and Exchange Commission (the "SEC") for the year-ended September 30, 2020, listed various important factors that could affect the Company's future operating results and financial condition and could cause actual results to differ materially from historical results and expectations based on forward-looking statements made in this document or elsewhere by Amtech or on its behalf. These factors can be found under the heading "Risk Factors" in the Form 10-K and

investors should refer to them. Because it is not possible to predict or identify all such factors, any such list cannot be considered a complete set of all potential risks or uncertainties. Except as required by law, we undertake no obligation to publicly update forward-looking statements, whether as a result of new information, future events, or otherwise.
