180 Degree Capital Corp.'s Portfolio Company, Mersana Therapeutics Inc., Completes Initial Public Offering

MONTCLAIR, N.J., June 28, 2017 (GLOBE NEWSWIRE) -- 180 Degree Capital Corp. ("180") (NASDAQ:TURN) noted today that its portfolio company, Mersana Therapeutics, Inc., completed an initial public offering ("IPO") of 5,000,000 shares of common stock at \$15 per share.

180 owns 294,557 shares of common stock of Mersana Therapeutics following its IPO. These shares were valued at approximately \$2.8 million as of March 31, 2017, versus a value of approximately \$4.4 million at the price per share of the IPO.

"We congratulate Mersana Therapeutics on its successful IPO," said Kevin Rendino, Chief Executive Officer of 180. "As we have said, our primary goal is to increase our net asset value per share ("NAV"). We are also focused on converting our privately held assets into publicly traded assets. We believe this transition will help narrow the discount of our market cap to our NAV. Following this event, we have approximately \$23 million of our assets in cash and publicly traded securities (not including any discounts for short-term restrictions on the sale of our shares of Mersana Therapeutics) versus \$19.1 million as of March 31, 2017. The IPO of Mersana Therapeutics is a key step in our strategy to build value for our shareholders."
