Novelis Releases 2025 Sustainability Report

Report Reveals 10% Carbon Intensity Reduction in the last fiscal year

ATLANTA, Sept. 24, 2025 /PRNewswire/ -- Novelis Inc., a leading sustainable aluminum solutions provider and the world leader in aluminum rolling and recycling, today released its sustainability report for the 2025 fiscal year (April 1, 2024, to March 31, 2025). The report shares progress toward the company's vision, Novelis 3x30, to advance aluminum as the material of choice with circular solutions and fulfill its purpose of Shaping a Sustainable World Together.

Novelis achieved a 10% reduction in greenhouse gas intensity in the last fiscal year (Scope 1, location-based Scope 2 & Scope 3, (category 1 and 4)), by implementing new technologies in remelt furnaces to improve efficiency, reducing fuel and energy use and increasing use of low-carbon primary aluminum inputs. Additional highlights from the report include:

- More than 84 billion used beverage cans recycled
- 63% average recycled content across all products
- 12% reduction in waste to landfill intensity
- 8% reduction in water intensity
- \$8.8M donated to the communities in which Novelis employees work and live

Together, these achievements demonstrate meaningful progress toward Novelis' 3x30 objectives:

1. Accelerate circularity and achieve 75% average recycled content in our products.
2. Be the lowest emissions flat rolled products (FRP) aluminum provider with less than 3

tonnes of CO₂e per tonne of FRP shipped.

3. Continue to lead the industry toward circularity through first-mover investments.

"This year's report demonstrates how we're aligning our business strategy with circular economy principles," said SVP and Chief Strategy and Sustainability Officer, Francisco Pires. "We firmly believe that designing out waste, keeping materials in use and lowering emissions across the value chain delivers long-term value for customers, communities and our planet."
