Portfolio and Investment Activity

Net assets increased from \$117.7 million or \$13.28 per share at February 29, 2008 to \$121.5 million or \$13.69 per share at May 31, 2008. As of May 31, 2008, the fair value of the company's investment portfolio (excluding short-term investments) totaled \$165.7 million including equity investments of \$154.9 million and debt investments of \$10.8 million. The portfolio represents a mix of 70 percent midstream and downstream investments, 14 percent aggregates and coal investments and 16 percent upstream investments. The weighted average yield-to-cost on the investment portfolio (excluding short-term investments) as of May 31, 2008 was 8.9 percent.

On June 17, 2008, LONESTAR Midstream Partners LP, entered into a definitive agreement with Penn Virginia Resource Partners, L.P. (NYSE: PVR) for the sale of the gas gathering and transportation assets of Lone Star Gathering LP (an affiliate of LONESTAR Midstream Partners, LP). LONESTAR Midstream Partners, LP plans to distribute substantially all of the sales proceeds to its limited partners, including TTO. We expect our portion of the proceeds to be approximately \$13.5 million in cash and 494,191 unregistered common units of PVR at closing and approximately \$1 million in cash payable on Dec. 31, 2009. Additionally, we may receive contingent payments totaling approximately \$9.7 million based on the achievement of specific revenue targets for the Barnett Shale region by or before June 30, 2013. The company intends to use the cash proceeds from the transaction to pay down debt or make additional investments in accordance with its investment objective.

The company closely monitors portfolio performance and rates each investment's risk profile on a scale of one to three. As of May 31, 2008, all portfolio companies achieved a rating of one, indicating portfolio performance is at or above expectations with trends and risk factors that are generally favorable to neutral.

"Our strong portfolio performance this quarter was fueled by distribution increases from six of our portfolio companies, improved financial performance of several portfolio companies and the sale by LONESTAR Midstream Partners, LP of its gas gathering and transportation assets," said Tortoise Capital Resources' President, Ed Russell. "The LONESTAR transaction will provide us additional liquidity and a position in Penn Virginia Resource Partners, L.P. which we believe has an attractive combination of midstream and coal assets."

Capital Resources

On March 28, 2008, the company secured a \$10 million increase to its credit facility allowing a maximum borrowing capacity of \$50 million. On April 08, 2008, the company filed an initial shelf registration statement with the Securities and Exchange Commission and filed the first amendment on June 19. When effective, the shelf registration will allow the company to prudently raise additional capital. There are no plans currently to raise additional capital.

Performance Review

The company views distributable cash flow (DCF) as the best indicator of its operating performance and distribution-paying capacity. The Board of Directors determines the amount of distributions paid to stockholders based on DCF which is defined as distributions received from investments less total expenses. DCF for the three months ended May 31, 2008 was approximately \$2.4 million, an increase over the prior quarter of approximately \$0.2 million.

Distributions

In the second quarter of 2008, the Board of Directors declared a distribution of \$0.2625 per share which was paid on June 02, 2008. The distribution represents achievement of the company's targeted annualized yield of 7 percent based upon the initial public offering price of \$15.00 per share. The company expects to continue to focus on providing its stockholders with a high level of total return, with an emphasis on distribution growth.
