Recent Developments

- <u>Maintained dividend:</u> Declared common stock dividend of \$0.75 per share for the third quarter 2018, in line with the previous 12 quarterly dividends
- Pinedale LGS: Continued to receive participating rents
- Grand Isle Gathering System: Tenant, Energy XXI Gulf Coast, completed merger with Cox Oil

"The last several months have been a transitional time for CorEnergy," said President and CEO, Dave Schulte. "We have a new tenant, Cox Oil, at our largest asset, where the lease terms remain the same. We continue to make progress with our rate case at MoGas and are actively seeking and reviewing acquisition opportunities, while adhering to the disciplines which have served us well in the past."

Portfolio Update

<u>Grand Isle Gathering System:</u> On October 18, 2018, EGC completed its previously announced acquisition by an affiliate of privately-held Cox Oil for \$322 million. The Grand Isle Lease Agreement was assumed by the new operator as a result of the transaction.

<u>Pinedale LGS:</u> CorEnergy has continued to receive participating rents, despite UPL's financial results being adversely affected by lower realized natural gas prices. UPL's capital plan for the remainder of 2018 is to operate three rigs, two of which will be focused on vertical development and one on horizontal development. The company announced that its third quarter 2018 production was above the mid-point of its guidance.

Outlook

CorEnergy regularly assesses its ability to pay and grow its dividend to common stockholders above the current level of \$0.75 per quarter. The Company targets long-term revenue growth of 1-3% annually from existing contracts, through inflation-based and participating rent adjustments, and additional growth from acquisitions. There can be no assurance that any potential acquisition opportunities will result in consummated transactions.

Dividend Declaration

<u>Common Stock:</u> A third quarter 2018 dividend of \$0.75 per share was declared for CorEnergy's common stock. The dividend is payable on November 30, 2018, to stockholders of record on November 15, 2018.

<u>Preferred Stock:</u> For the Company's 7.375% Series A Cumulative Redeemable Preferred Stock, a cash dividend of \$0.4609375 per depositary share was declared. The preferred stock dividend, which equates to an annual dividend payment of \$1.84375 per depositary share, is payable on November 30, 2018 to stockholders of record on November 15, 2018.

Notes

¹NAREIT FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, impairment losses of depreciable properties, real estate-related depreciation and amortization (excluding amortization of deferred financing costs or loan origination costs) and other adjustments for unconsolidated partnerships and non-controlling interests. Adjustments for non-controlling interests are calculated on the same basis. FFO as we have presented it here, is derived by further adjusting NAREIT FFO for distributions received from investment securities, income tax expense (benefit) from investment securities, net distributions and dividend income and net realized and unrealized gain or loss on other equity securities. CorEnergy defines AFFO as FFO Adjusted for Securities Investment plus (gain) loss on extinguishment of debt, provision for loan losses, net of tax, transaction costs, amortization of debt issuance costs, amortization of deferred lease costs, accretion of asset retirement obligation, income tax expense (benefit) unrelated to securities investments, non-cash costs associated with derivative instruments, and certain costs of a nonrecurring nature, less maintenance, capital expenditures (if any), amortization of debt premium, and other adjustments as deemed appropriate by Management. Reconciliations of NAREIT FFO, FFO Adjusted for Securities Investments and AFFO to Net Income Attributable to CorEnergy Stockholders are included in the additional financial information attached to this press release.
