# **Midwest Energy Emissions Corp. to Present at the 2015 Marcum Microcap Conference, and The LD-Micro Invitational Conference**

**LEWIS CENTER, OH / ACCESSWIRE / May 26, 2015** / Midwest Energy Emissions Corp. (OTCQB: MEEC), an emerging leader in mercury emissions control technology for the coal-power industry, announced today that the Company will be a featured presenter at the 2015 Marcum Microcap Conference, to be held May 27th and 28th at the Grand Hyatt in New York, and also will be a featured presenter at the LD Micro Invitational Conference, to be held June 1-3 at the Luxe Hotel in Los Angeles, CA.

Company management will be making a presentation at the Marcum Conference at 4:00pm EDT on Thursday May 28th, and will be available for one-on-one meetings with registered attendees of the conference throughout the day. The Company will also be making a presentation at the LD Micro Invitational Conference on Monday June 1st at 10am PDT, and will be available for one-on-one meetings with registered attendees of the conference throughout the event, June 1st through the 3rd.

## **About Midwest Energy Emissions Corp. (ME2C)**

Midwest Energy Emissions Corp. delivers patented and proprietary solutions to the global coal-power industry to remove mercury from their power plant emissions, providing performance guarantees and leading edge emissions services. The U.S. Environmental Protection Agency's (EPA) Mercury and Air Toxic Standards (MATS) rule requires that all coal- and oil-fired power plants in the U.S., larger than 25 mega-watts, must remove roughly 90% of mercury from their emissions starting April 16, 2015. ME2C has developed patented technology and proprietary products that have been shown to achieve mercury removal levels compliant with MATS at a significantly lower cost and with less operational impact than currently used methods, while preserving the marketability of fly-ash for beneficial use.

## **Safe Harbor Statement**

With the exception of historical information contained in this press release, content herein may contain "forward looking statements" that are made pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on management's current expectations and are subject to uncertainty and changes in circumstances. Investors are cautioned that forward looking statements involve risks and uncertainties that could cause actual results to differ materially from the statements made. Matters that may cause actual results to differ materially from those in the forward-looking statements include, among other factors, the gain or loss of a major customer, additional or new EPA regulations affecting coal-burning utilities, disruption in supply of materials, a significant change in general economic conditions in any of the regions where our customer

utilities might experience significant changes in electric demand, a significant disruption in the supply of coal to our customer units, the loss of key management personnel, failure to obtain adequate working capital to execute the business plan and any major litigation regarding the Company. In addition, this release contains time-sensitive information that reflects management's best analysis only as of the date of this release. The Company does not undertake any obligation to publicly update or revise any forward-looking statements to reflect future events, information or circumstances that arise after the date of this release. Further information concerning issues that could materially affect financial performance related to forward-looking statements contained in this release can be found in the Company's periodic filings with the Securities and Exchange Commission.
