Midwest Energy Emissions Corp. to Present at the Rodman & Renshaw 18th Annual Global Investment Conference on September 12, 2016

LEWIS CENTER, OH -- (Marketwired) -- 08/31/16 --Midwest Energy Emissions Corp. (OTCQB: MEEC) ("ME2C" or the "Company"), an emerging leader in mercury emissions control in North America, has been invited to present at the Rodman & Renshaw 18th Annual Global Investment Conference in New York, NY, on Monday, September 12, 2016, at 12:05 p.m. Eastern time at the Lotte New York Palace Hotel in Rutherford (4th Floor).

The Company's President and CEO, Richard MacPherson, will be presenting and holding one-on-one meetings with investors throughout the day.

A live webcast of the presentation will be available at <http://wsw.com/webcast/rrshq26/meec>.

About Midwest Energy Emissions Corp. (ME2 C)

[Midwest Energy Emissions Corp.](#) (OTCQB: MEEC) delivers patented and proprietary solutions to the global coal-power industry to remove mercury from power plant emissions, providing performance guarantees, and leading-edge emissions services. The U.S. Environmental Protection Agency (EPA) MATS rule, which has been subject to legal challenges, requires that all coal- and oil-fired power plants in the U.S., larger than 25 megawatts, must remove roughly 90% of mercury from their emissions starting April 15, 2015. ME2C has developed patented technology and proprietary products that have been shown to achieve mercury removal levels compliant with MATS at a significantly lower cost and with less operational impact than currently used methods, while preserving the marketability of fly-ash for beneficial use.
