Midwest Energy Emissions Corp. to Present at International Environmental Conference

Richard MacPherson, President and CEO, to Present at ExPPERTS Environmental Conference in Wroclaw, Poland

LEWIS CENTER, OH -- (Marketwired) -- 08/29/17 -- Midwest Energy Emissions Corp. (OTCQB: MEEC) ("ME2C" or the "Company"), a leader in mercury emissions control in North America, today announced that President and CEO, Richard MacPherson, will be a featured speaker at ExPPERTS Environmental Conference in Wroclaw, Poland, on September 7, 2017.

This annual conference brings together major players in the global power generation industry to explore various emissions reduction technologies and strategies. In an era of increasingly strict regulations, this event offers business leaders an opportunity to discuss prominent environmental issues facing the power generation industry. Mr. MacPherson will be presenting at 4:00PM local time in Poland on September 7th. You can learn more about the conference by clicking [here](#).

"Our presence at this conference represents a unique opportunity for us to establish ourselves as premier mercury control experts in the global marketplace," said Richard MacPherson, President and CEO of ME2C. "I'm extremely pleased to be speaking about this important topic to such a prestigious global audience. This invitation to present to top industry decision makers validates our focus on innovation and industry foresight, furthering our vision of delivering leading edge, cost-effective solutions for mercury emissions control to utilities around the world."

About Midwest Energy Emissions Corp. (ME2C)

[Midwest Energy Emissions Corp.](#) (OTCQB: MEEC) delivers patented and proprietary solutions to the global coal-power industry to remove mercury from power plant emissions, providing performance guarantees, and leading-edge emissions services. The U.S. Environmental Protection Agency (EPA) MATS rule requires that all coal- and oil-fired power plants in the U.S., larger than 25 mega-watts remove roughly 90% of mercury from their emissions starting April 15, 2015. ME2C has developed patented technology and proprietary products that have been shown to achieve mercury removal levels compliant with MATS at a significantly lower cost and with less operational impact than currently used methods, while preserving the marketability of fly-ash for beneficial use. Safe Harbor Statement

With the exception of historical information contained in this press release, content herein may contain "forward-looking statements" that are made pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking

statements are generally identified by using words such as "anticipate," "believe," "plan," "expect," "intend," "will," and similar expressions, but these words are not the exclusive means of identifying forward-looking statements. These statements are based on management's current expectations and are subject to uncertainty and changes in circumstances. Investors are cautioned that forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from the statements made. Matters that may cause actual results to differ materially from those in the forward-looking statements include, among other factors, the gain or loss of a major customer, change in environmental regulations, disruption in supply of materials, capacity factor fluctuations of power plant operations and power demands, a significant change in general economic conditions in any of the regions where our customer utilities might experience significant changes in electric demand, a significant disruption in the supply of coal to our customer units, the loss of key management personnel, availability of capital and any major litigation regarding the Company. In addition, this release contains time-sensitive information that reflects management's best analysis only as of the date of this release. The Company does not undertake any obligation to publicly update or revise any forward-looking statements to reflect future events, information or circumstances that arise after the date of this release. Further information concerning issues that could materially affect financial performance related to forward-looking statements contained in this release can be found in the Company's periodic filings with the Securities and Exchange Commission.
