

# Marathon Patent Group Engages Gateway to Lead Expanded Investor Relations Program

LAS VEGAS, Sept. 23, 2020 (GLOBE NEWSWIRE) -- [Marathon Patent Group, Inc. \(NASDAQ:MARA\)](#) ("Marathon" or "Company"), has appointed [Gateway Investor Relations](#) ("Gateway"), a leading strategic financial communications and capital markets advisory firm, to provide investor relations and consulting services to the company.

Gateway is a strategic financial communications firm specializing in advising public companies across a broad range of industry classifications. Founded in 1999, the firm provides high-level capital markets consulting, corporate communications, and investor outreach. The firm is also specifically experienced in helping technology companies access and effectively navigate the U.S. capital markets.

"As one of the only Nasdaq-listed cryptocurrency mining companies in the U.S., Marathon is uniquely positioned to offer investors a familiar, trusted, and transparent means of gaining exposure to Bitcoin," said Merrick Okamoto, Marathon's chief executive officer. "Over the past few months, we've completely transformed the business by substantially improving our financial position and establishing a consistent supply of the best miners available by entering into an agreement to purchase 10,500 S-19 Pro Miners from Bitmain. As a result, we are on track to become one of the largest Bitcoin miners in North America, representing approximately 1.2% of the global hashrate. With a clear path to scaling efficiently and a growing appetite among the investment community for exposure to our industry, we believe it is an opportune time to engage Gateway to help us proactively evangelize the Marathon story amongst the U.S investment community."

Gateway will work closely with Marathon management to develop and deploy a comprehensive capital markets program. Gateway will also assist in organizing non-deal roadshows and securing invitations to select financial conferences (including the [Gateway Conference](#)) for Marathon management over the next 12 months.

The risks and uncertainties Marathon describes are not the only ones facing the Company. Additional risks not presently known to Marathon or that Marathon currently deems immaterial may also impair business operations. In addition, the Company's past financial performance may not be a reliable indicator of future performance, and historical trends should not be used to anticipate results in the future. See "Safe Harbor" below.

Future changes in network-wide mining difficulty rate or Bitcoin hashrate may also materially affect the future performance of Marathon's production of Bitcoin.
