

# Silvercrest Asset Management Group Inc. Reports Q2 2025 Results

NEW YORK, July 31, 2025 (GLOBE NEWSWIRE) -- Silvercrest Asset Management Group Inc. (NASDAQ: SAMG) (the "Company" or "Silvercrest") today reported the results of its operations for the guarter ended June 30, 2025.

#### **Business Update**

Discretionary assets under management ("AUM") increased \$1.0 billion during the second quarter, primarily due to strong markets. While net flows were negative, Silvercrest added \$80.0 million in organic new client accounts and has added \$0.5 billion in new client accounts during the first half of 2025. That is on pace to be one of the stronger levels of organic new client flows over the past several years. Silvercrest has added approximately \$2.0 billion in organic new client accounts over the past four quarters.

Discretionary AUM, which drives revenue, now stands at \$23.7 billion, which is a 4.4% sequential quarterly increase and an increase of 9.7% year-over-year. Total AUM at the end of the second quarter hit a new high for the firm at \$36.7 billion.

Barring short-term market volatility, the increase in AUM bodes well for future revenue, as Silvercrest primarily bills quarterly in advance. Silvercrest's strategic investments continue to promote growth, and our earnings and Adjusted EBITDA<sup>1</sup> reflect a concerted effort to invest capital to support our long-term strategic priorities. We remain highly optimistic about securing more significant organic flows over the course of 2025 and 2026, as our investments bear fruit.

Our strategic initiatives highlight Silvercrest in both the institutional and wealth markets. The firm continues to invest in talent across the firm to drive new growth and successfully transition the business toward the next generation. Our new business pipeline remains robust.

As previously discussed, Silvercrest will continue to monitor and adjust our interim compensation ratio to match important investments in the business as long as we have compelling opportunities to grow the firm and build our return on invested capital.

We completed a \$12.0 million stock repurchase program at the beginning of the second quarter. As a result, we announced a new buyback program of \$25.0 million on May 23, 2025. Our strong balance sheet supports ongoing capital returns as well as our growth initiatives.

We will continue to look for opportunities to return capital to or accrete shareholders,

especially as we invest in the business.

On July 30, 2025, the Company's Board of Directors approved an increase of 5% to the Company's quarterly dividend, from \$0.20 per share of Class A common stock to \$0.21 per share of Class A common stock. The dividend will be paid on or about September 19, 2025 to stockholders of record as of the close of business on September 12, 2025.

#### Non-GAAP Financial Measures

To provide investors with additional insight, promote transparency and allow for a more comprehensive understanding of the information used by management in its financial and operational decision-making, we supplement our consolidated financial statements presented on a basis consistent with GAAP with Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income and Adjusted Earnings Per Share, which are non-GAAP financial measures of earnings. These adjustments, and the non-GAAP financial measures that are derived from them, provide supplemental information to analyze our operations between periods and over time. Investors should consider our non-GAAP financial measures in addition to, and not as a substitute for, financial measures prepared in accordance with GAAP.

- EBITDA represents net income before provision for income taxes, interest income, interest expense, depreciation and amortization.
- We define Adjusted EBITDA as EBITDA without giving effect to the Delaware franchise tax, professional fees associated with acquisitions or financing transactions, gains on extinguishment of debt or other obligations related to acquisitions, impairment charges and losses on disposals or abandonment of assets and leaseholds, client reimbursements and fund redemption costs, severance and other similar expenses, but including partner incentive allocations, prior to our initial public offering, as an expense. We believe that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted EBITDA, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring earnings of the Company, taking into account earnings attributable to both Class A and Class B stockholders.
- Adjusted EBITDA Margin is calculated by dividing Adjusted EBITDA by total revenue.
  We believe that it is important to management and investors to supplement our
  consolidated financial statements presented on a GAAP basis with Adjusted EBITDA
  Margin, a non-GAAP financial measure of earnings, as this measure provides a
  perspective of recurring profitability of the Company, taking into account profitability
  attributable to both Class A and Class B stockholders.
- Adjusted Net Income represents recurring net income without giving effect to professional fees associated with acquisitions or financing transactions, losses on forgiveness of notes receivable from our partners, gains on extinguishment of debt or other obligations related to acquisitions, impairment charges and losses on disposals or abandonment of assets and leaseholds, client reimbursements and fund redemption costs, severance and other similar expenses. Furthermore, Adjusted Net Income includes income tax expense assuming a blended corporate rate of 26%. We believe that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted Net Income, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring income of the Company, taking into account income attributable to both Class A and Class B stockholders.
- Adjusted Earnings Per Share represents Adjusted Net Income divided by the actual Class A and Class B shares outstanding as of the end of the reporting period for basic Adjusted Earnings Per Share, and to the extent dilutive, we add unvested restricted stock units and non-qualified stock options to the total shares outstanding to compute diluted Adjusted Earnings Per Share. As a result of our structure, which includes a

non-controlling interest, we believe that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted Earnings Per Share, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring earnings per share of the Company as a whole as opposed to being limited to our Class A common stock.
