About Interpace Biosciences

Interpace Biosciences is a leader in enabling personalized medicine, offering specialized services along the therapeutic value chain from early diagnosis and prognostic planning to targeted therapeutic applications.

Clinical services, through the Interpace Diagnostics division, provide clinically useful molecular diagnostic tests, bioinformatics and pathology services for evaluating risk of cancer by leveraging the latest technology in personalized medicine for improved patient diagnosis and management. Interpace has four commercialized molecular tests and one test in a clinical evaluation process (CEP): PancreGEN[®] for the diagnosis and prognosis of pancreatic cancer from pancreatic cysts; ThyGeNEXT[®] for the diagnosis of thyroid cancer from thyroid nodules utilizing a next generation sequencing assay; ThyraMIR[®] for the diagnosis of thyroid cancer from thyroid nodules utilizing a proprietary gene expression assay; and RespriDX[®] that differentiates lung cancer of primary versus metastatic origin. In

addition, BarreGEN[®] for Barrett's Esophagus, is currently in a clinical evaluation program whereby we gather information from physicians using BarreGEN[®] to assist in positioning the product for full launch, partnering and potentially supporting reimbursement with payers.

Pharma services, through the Pharma Solutions Division, provides pharmacogenomics testing, genotyping, biorepository and other customized services to the pharmaceutical and biotech industries. Pharma services also advance personalized medicine by partnering with pharmaceutical, academic, and technology leaders to effectively integrate pharmacogenomics into their drug development and clinical trial programs with the goal of delivering safer, more effective drugs to market more quickly, and improving patient care.
